**T**HE NEW JERSEY CONSTRUCTION REPORTER contains statistics on construction activity in New Jersey. Information in the report comes from construction officials who administer the State Uniform Construction Code (UCC) (N.J.A.C. 5:23-1 et seq.) in New Jersey's 566 municipalities.

Each month, construction officials send to the New Jersey Department of Community Affairs (DCA) reports on the permits and certificates they issue. Permits authorize the start of construction and cover four types of activity: (1) New construction permits authorize the start of a new structure. (2) Permits for additions refer to work that will add space (volume and square feet) to an existing building. (3) Alterations also involve existing structures, but the work authorized will not add space. Typically, construction officials issue permits for alterations when the work is subject to one or more of the UCC's major subcodes (building, electrical, plumbing, fire protection). (4) Demolition permits authorize the removal of a building or some other structure. The *CONSTRUCTION REPORTER* identifies only those demolitions that will result in the loss of housing.

In addition to permits, the *CONSTRUCTION REPORTER* has information on the certificates issued by construction officials. While permits authorize the start of construction, certificates are issued for work completed and ready for occupancy. Each month, the *CONSTRUCTION REPORTER* will report on the number of housing units and the amount of office and retail space authorized for construction, along with the number of housing units and the amount of office and retail space completed.

### **Data Comparability**

The *CONSTRUCTION REPORTER* contains information on authorized housing units that is tabulated two different ways. The DCA tabulates Tables 1 through 3 and Tables 8 through 13 based on the use of buildings, defined in "groups" by New Jersey's UCC. Exhibit B on page 3 summarizes these groups.

Tables 4, 5, and 6 show authorized housing units as defined and tabulated by the United States Census Bureau. The New Jersey Department of Labor and Workforce Development prepares these tables for publication in the *CONSTRUCTION REPORTER*. Exhibit C on page 4 describes the housing definitions used by the Census Bureau.

The DCA series and the Census Bureau series on authorized housing units differ two important ways. First, the DCA series includes housing units created as a result of permits issued to alter or make additions to existing structures. The Census Bureau counts only those housing units authorized from permits issued for new construction.

Second, the Census Bureau imputes data for localities that fail to submit monthly reports on time. An asterisk in the Census column of data appearing in the Municipal Summary Data table at the back of the *CONSTRUCTION REPORTER* indicates those towns with imputed data. The Census Bureau bases these imputations on historic trends. The DCA series shows information for only those towns that submitted monthly reports. If a municipality failed to submit a monthly report on time, "No report" appears in the appropriate columns in the Municipal Summary Data table.

### **Additional Terms**

A number of other terms appear in the tables throughout the *CONSTRUCTION REPORTER*. Exhibit A on page 2 defines additional construction permit and certificate terms.

## Exhibit A

Summary of Building Permit and Certificate Terms	
<b>Addition</b>	Permit type issued for construction work that adds space (volume and square feet) to an existing structure.
