MS. SUAREZ: The first matter before 1 2 the board today is last months meeting minutes. 3 Do I have a motion to adopt the August 14th 2024 minutes as submitted? 4 5 MR. CLOSE: So moved. 6 MR. DIROCCO: I'll second it. 7 MR. BENNETT: Mr. Close and Mr. DiRocco. Miss Suarez? 8 9 MS. SUAREZ: Yes. MR. BENNETT: Mr. DiRocco? 10 11 MR. DIROCCO: Yes. MR. BENNETT: Mr. Close? 12 13 MR. CLOSE: Yes. 14 MR. BENNETT: Mr. Avery? 15 MR. AVERY: Yes. 16 MR. BENNETT: Miss Rodriguez? And 17 Mr. Jackson? 18 MR. JACKSON: Yes. 19 MR. BENNETT: Miss Rodriguez? The 20 minutes are adopted. I'm just checking on Miss Rodriguez. 21 22 MR. BENNETT: Thank you, Mr. 23 Bennett. Next we're going to move onto the 24 ethics portion of the agenda. Mr. Marthaler, 25 would you please walk us through the complaint

consideration before the Board today. 1 2 MR. MARTHALER: Thank you, 3 Commissioner. The only matter before the board today is 19-021. Here the board is being asked 4 5 to approve a notice of investigation to 6 investigate potential ethics violations of 7 Subsection C, D, E and G of the Local Government Ethics Law. 8 9 MS. SUAREZ: Any questions on that one? Hearing none, do we have a motion? 10 11 MR. CLOSE: So moved. 12 MR. JACKSON: Second. 13 MR. BENNETT: I have Mr. Close 14 moving, Mr. Jackson second. Miss Suarez? 15 MS. SUAREZ: Yes. 16 MR. BENNETT: Mr. DiRocco? 17 MR. DIROCCO: Yes. 18 MR. BENNETT: Mr. Close? 19 MR. CLOSE: Yes. 20 MR. BENNETT: Mr. Avery? 21 MR. AVERY: Yes. 22 MR. BENNETT: Miss Rodriguez? And 23 Mr. Jackson? 24 MR. JACKSON: Yes. 25 MR. BENNETT: Commissioner, before

we jump into the next item, can we pause for a 1 2 second so I can gather Miss Rodriguez? 3 MS. SUAREZ: Yes, absolutely. 4 (Whereupon a break was taken.) 5 MS. SUAREZ: Let's move right on to the applications portion. I'm just going to 6 7 remind everybody present today to please remain 8 muted to eliminate any unnecessary background noise. 9 10 If you're by audio only, star 6 11 should both mute and unmute the call for you. As 12 each applicant appears to testify, please just 13 make sure you turn your camera on and that you 14 speak up so that we can get you sworn in prior to 15 testifying. 16 The first applicant appearing before 17 the board today is the Township of Woodbridge 18 Fire District Number 1. I believe we have Miss 19 Tracey with us. 20 MS. TRACEY: Hi, good morning. 21 MS. SUAREZ: Good morning, Miss 22 Tracey. 23 MS. TRACEY: And I also have Steve 24 Rogut is with us as well, bond counsel to the 25 fire district.

(At which time those wishing to 1 2 testify were sworn in.) 3 MS. TRACEY: So thank you for hearing the application today. The Woodbridge 4 5 Fire District Number 1 is coming before the board as old business. This is actually -- there was 6 7 actually two applications prior to the board. 8 One in January of '22 and then 9 January of '23. Both applications were part of 10 one common plan of finance, which is still the 11 plan, but we have an update today. 12 So in January of '22, the fire 13 district for the purpose of a new ladder truck. 14 The purpose of doing the application at that time 15 was to be able to order and procure the ladder 16 truck knowing that it would take two and two 17 and-a-half years to be built and delivered which 18 has been the case. 19 The application in January of '23 20 was for renovations, and in addition to, the 21 existing firehouse and a new garage built at the 22 firehouse. And so the plan, as it still is, is 23 to finance both pieces of that together, the fire 24 truck which is 1.8 million dollars in total. 25 However, the fire district is using

500,000 from their fire truck reserve as a down 1 2 payment or a payment towards the truck and then 3 they are financing, not to exceed, 1.3 million. 4 The construction, renovation, 5 addition for the firehouse is not to exceed a 6.1. So the plan is, again, still to finance 6 7 together as one bond issue for a 15 year term, 8 and again, that may sound familiar. That's what we talked about in January of '23. 9 10 What has caused us to appear before 11 the board today is that the bids for the 12 firehouse, when they were opened earlier this year, came in pretty significantly over budget. 13 14 And so the fire district has been 15 working with their architect and some revisions 16 and those plans are being redrawn and will be 17 rebid. Expected to be -- some of those plans 18 will expect to be finalized in the next couple of 19 weeks for the engineer to look at and then 20 hopefully rebid in January of '25. 21 However, in the meantime, the fire 22 truck is now ready, so here we are 32, 33 months 23 later and the fire truck is ready to be 24 delivered, and so now we need the financing. 25 So rather than do a financing just

for the vehicle or finance the entire amount 1 2 without bids that we know are going to work for 3 the addition, what we would like to do is modify 4 our plan slightly, issue a short term Bond 5 Anticipation Note from -- going forward from October through to, approximately, the end of 6 7 June, early July to procure the funds needed in 8 order to pay for the fire truck when it is 9 expected to be delivered in early October.

10 And then, after that, the Bond 11 Anticipation Note would come due and then we 12 would plan to come out to the market hopefully in 13 the spring. Again, those bids are expected to be 14 done, January, February of '25, and then 15 hopefully all is well with the new bid and then 16 we would look to do a bond issue in the spring 17 and then pay off the truck.

The tax impact on the new financing, we're estimating would be about, a total interest cost on the 1.3 million Bond Anticipation Note would be about \$39,000. That comes out to about \$4.49 on the average home within the fire district.

However, I just want to remind the 25 board as well, that the fire district, by 1 ordering and procuring the truck, when they did 2 about two and-a-half years ago, they probably 3 about saved 300,000 to 500,000 on the cost of the 4 truck because the trucks have gone up just so 5 much in that time. 6 So there is a little additional cost

7 for doing the note, they have saved a lot by this 8 plan of finance. Soh happy to open it up for any 9 questions.

10 MS. SUAREZ: The one question I do 11 have, that I don't think you did address 12 directly, just had to do with are there any 13 anticipated changes, I believe there were just to 14 kind of and what was anticipated being done to 15 the building itself for the construction renovation to fit within the voter authorization. 16 17 Do you know what has changed? 18 MS. TRACEY: I don't know

19 specifically what they have been able to rework 20 or to do with the project. Steve, I don't know 21 if you have any of that information as well. 22 Again, I know the architects have

23 kind of been working to redraw and modify those
24 plans, but I don't know exactly what they think
25 or if it may just be a timing of, you know,

perhaps the bids they received at the time, you 1 2 know, maybe were a little higher than anticipated 3 and maybe some of the adjustments now in a different time, they're expecting the bids to 4 kind of fall within the authorization. 5 6 MS. SUAREZ: Mr. Rogut, you're 7 muted. 8 MR. ROGUT: Can you hear me now? 9 MS. SUAREZ: Yes. 10 MR. ROGUT: I think they're just 11 reducing the size of the structure slightly. Ι 12 think those are the kind of changes that they're 13 making. They're still going to build a garage 14 and build an addition, but I think they're sort 15 of downsizing the size of the building somewhat. 16 I think that's how primarily they're trying to 17 make this work. 18 MS. SUAREZ: Thank you. And just 19 how much needed to, I guess be brought down to 20 bring it within the authorization, cost wise? 21 MR. ROGUT: I think they were 22 probably a million dollars over. That's just a 23 I can try to check, but -quess. 24 MS. TRACEY: No, that sounds right 25 to me, Steve. I think it was somewhere between

half a million to a million with the low bid. 1 2 MS. SUAREZ: Thank you. 3 MR. ROGUT: We've impressed upon them the fact that, you know, what the voters 4 5 voted on they have to fulfill an obligation to provide those facilities. We describe things in 6 7 general terms, but they're still going to build a garage and an addition. 8 9 MS. SUAREZ: Understood. Thank you. MR. ROGUT: You're welcome. 10 11 MS. SUAREZ: Those were my only 12 questions. I will open it up to see if there are 13 any questions from the board or the public. 14 Hearing none, do we have a motion to 15 issue positive findings on the amended project 16 financing. 17 MS. RODRIGUEZ: I'll make the motion. 18 19 MR. DIROCCO: Motion. 20 MR. BENNETT: I heard both Miss Rodriguez and Mr. DiRocco, I heard making the 21 motion. 22 23 MR. DIROCCO: I'll second it. 24 MR. BENNETT: Okay. Miss Suarez? 25 MS. SUAREZ: Yes.

MR. BENNETT: Mr. DiRocco? 1 2 MR. DIROCCO: Yes. 3 MR. BENNETT: Mr. Close? 4 MR. CLOSE: Yes. 5 MR. BENNETT: Mr. Avery? MR. AVERY: Yes. 6 7 MR. BENNETT: Miss Rodriquez? 8 MS. RODRIGUEZ: Yes. 9 MR. BENNETT: And Mr. Jackson? 10 MR. JACKSON: Yes. 11 MR. BENNETT: Motion approved. 12 MS. TRACEY: Thank you. 13 MS. SUAREZ: Best of luck. The next 14 applicant appearing before the board today is Egg 15 Harbor City. 16 MR. WINITSKY: Good morning. Jeff 17 Winitsky from Parker McCay. We are bond counsel 18 to the City of Egg Harbor City. On the line this morning as well and to be sworn in is Jodi Kahn 19 20 who's the CFO, and I believe I saw Leon Costello 21 as well who is the city's auditor, so I'll let 22 those guys get sworn in. 23 (At which time those wishing to 24 testify were sworn in.) 25 MR. WINITSKY: Thank you. We're

here today pursuant to the requirements of 1 2 N.J.S.A. 40A:4-45.13. Seeking positive findings 3 from the board to permit the city to assume certain services and functions that were 4 5 previously provided by the city's sewer water 6 utility. 7 And in connection with the 8 assumption of those services, permit the city to 9 pay for, and transfer to its budget, certain cost 10 expenses that were previously the responsibility 11 of the utility in the amount of \$270,000. 12 By way of background, last year in 13 2023, the city entered into an agreement with New 14 Jersey American Water Company to sell its water, 15 waste water utility systems, that were operated and maintained by the utility. 16 17 That sale was completed in, a little 18 less than a year ago, August of 2023. And 19 thereafter, the city, in accordance with 20 applicable law, dissolved the utility. As a 21 result of the sale and the dissolution of the

22 utility, there are certain services and functions 23 and related expenditures that were previously the 24 responsibility of the utility, and paid for by 25 the utility, are now the responsibility of, and 1 are to be paid by, the city.

2	Those costs include salaries for	
3	some employees that were transferred over to the	
4	city. Some of whom had dual duties and are now	
5	ally with the city, some trailing expenses,	
6	dministrative, professional, et cetera,	
7	nsurance benefits, et al.	
8	There's a full list in the LFB	
9	pplication that we. I'm happy to get more	
10	ranular, but in general, that's what the costs	
11	re associated with. Given the small size of	
12	his particular budget add on, approximately	
13	270,000, the tax impact to the city on the	
14	verage assessed home is de minimis.	
15	In particular, it's about 13 cents,	
16	that it's very small. It's some trailing costs	
17	hat we need to add on to our already adopted	
18	udget. So based on all the forgoing, we're	
19	hopeful we can receive positive findings to ahead	
20	nd assume those services and do the add on to	
21	ır budget.	
22	As I said before, Jodi Kahn, the CFO	
23	is on and Leon Costello is also on to answer any	
24	questions that you may have.	
25	MS. SUAREZ: Thank you very much,	

Mr. Winitsky. I think you've addressed in your 1 2 presentation of the application the questions 3 that I did have, so I'm going to open it up to open it up to see if there's any questions from 4 5 the board or anyone from the public. 6 Hearing none, do we have a motion to 7 assume the assumption of service. 8 MR. JACKSON: So moved. 9 MR. DIROCCO: Second. 10 MR. BENNETT: I have Mr. Jackson and Mr. DiRocco. Miss Suarez? 11 12 MS. SUAREZ: Yes. 13 MR. BENNETT: Mr. DiRocco? 14 MR. DIROCCO: Yes. 15 MR. BENNETT: Mr. Close? 16 MR. CLOSE: Yes. Good job by Mr. 17 Winitsky. 18 MR. WINITSKY: Thank you. 19 MR. BENNETT: Mr. Avery? 20 MR. AVERY: Yes. 21 Miss Rodriguez? MR. BENNETT: 22 MS. RODRIGUEZ: Yes. 23 MR. BENNETT: And Mr. Jackson? 24 MR. JACKSON: Yes. 25 MR. BENNETT: Mr. Jackson, I did

hear you, but it was quite faint. Motion is 1 2 approved. But for whatever reason, your audio is 3 low today. 4 MR. JACKSON: Is it any better now 5 or now? 6 BENNETT: A little bit better. MR. 7 MR. WINITSKY: Thank you very much. 8 We appreciate it. 9 MS. KAHN: Thank you. 10 MR. COSTELLO: Thanks everyone. 11 MS. SUAREZ: Best of luck. The next 12 applicant appearing before the board today is 13 Lakewood Township. I know we have Mr. Donnelly 14 and Mr. O'Reilly. I'm not sure who's going to 15 take the lead on presenting the application. 16 MR. DONNELLY: Good morning, Miss 17 Suarez. Patrick Donnelly, township manager. Ι 18 can take the lead on that. I also have present 19 my deputy mayor, Menashe Miller and my CFO, Peter 20 O'Reilly, my COO, Patricia Komsa, and my auditor, 21 Matthew Holman. I also have on Committeewoman 22 Fuentes. She's on virtual. She's just not in the room with us as well. 23 24 MS. SUAREZ: Okay. Let's get 25 everybody sworn in.

(At which time those wishing to 1 2 testify were sworn in.) 3 Mr. Donnelly, the floor MS. SUAREZ: 4 is yours. 5 MR. DONNELLY: Thank you. The 6 township is requesting the appropriation CAP 7 waiver of \$12,046,876. The township is 8 experiencing rapid growth which significantly has increased a demand for services throughout 9 10 various departments, more importantly, public 11 health and safety through Public Works, the 12 police department, EMS. 13 It also leads to a lot of 14 infrastructure work where luckily, we've had a 15 banner year, as our CFO says, for grants that are 16 incoming which is great, but it calls for a lot 17 more through Public Works, through the demands 18 that are there. 19 But also our engineering department, 20 which is expanding to do as much as we can 21 in-house to save as much cost there as well. But 22 we're also looking at our transportation needs in 23 town, obviously, is growing. 24 That's growing through the roof, so 25 we need more buses, more staff, more drivers to

try and get our taxpayers to and from where they 1 2 need to be. Also, just expanding our social services for our seniors. 3 4 The families, individuals with 5 disabilities, we've been really working hand in hand with a lot of our HOA's throughout town. 6 7 But again, that's a big need for the 8 transportation, which also that entails a lot 9 more traffic and safety needs for our police department. 10 11 So where we stand right now is we're 12 respectfully asking for appropriation waiver just 13 to help, you know, with the increase funding 14 needs for the public health and safety portion of 15 where this town stands now with the growth that's 16 happening. 17 MS. SUAREZ: Thank you for that. 18 Before I jump in to questions, is there anything else that any of the elected officials or other 19 20 professionals from Lakewood would like to add? 21 MR. DONNELLY: Yeah, I'll add that 22 we're under constant stress with our 23 appropriation CAP simply for the sake that the 24 growth of the township is very rapid. 25 I mean, it's almost four percent, so

we have that tremendous amount of growth. 1 2 Obviously, there's an increase demand for public 3 services that comes along with that. 4 And we're trying to maintain 5 adequate levels of public service and find, you know, the most cost efficient ways to do so, 6 7 whether that be engaging in more shared service agreements, which we have quite a few, seeking in 8 9 current funding which we're always pressing the 10 gas on that and pulling a lot of grant money as 11 well. 12 As I mentioned, or as mentioned in 13 the application, in terms of spending, we spend 14 our money very efficiently when we benchmark it against other municipalities throughout the state 15 16 who are in the lower quartile to the first half 17 of those municipalities that spend municipal 18 services on a per capita basis. 19 So it's a real stress for us to meet 20 the appropriation CAP where that effectively is, 21 call it two and-a-half percent and we're growing 22 at four percent. 23 And then when you sprinkle in 24 inflation, that just aggravates matters, so it just becomes a very formidable challenge for us 25

here, the township, to try and comply, as best as 1 2 we can, with statutory requirements of non 3 exceeding the appropriation CAP. 4 And so with that, we're humbly 5 requesting a waiver this year so that we can 6 maintain adequate services to the township and 7 maintain public safety. 8 MS. SUAREZ: Thank you for that. Ι 9 do have one question, but it's probably geared more towards like the finance office. In this, 10 11 seeing that it's going to be, I think close to a 12 16 million dollar request for the appropriation 13 CAP waiver, when, I guess, would the city be or 14 the township be anticipating that surplus being 15 replenished? 16 MR. O'REILLY: We're sourcing 16 17 million in surplus. Yet, that's really at the 18 aggressive end of sourcing surplus as revenue, 19 but it's within our fund balance policy, it's at 20 the low end of the range. 21 So the expectation is that we would 22 regenerate about 16 million through budget 23 operations for the coming year to maintain that 24 minimum threshold that complies with the fund balance policy, which I think equates to about 25

two and-a-half to three months of municipal 1 2 operations. 3 MS. SUAREZ: I'm going to open it up to the other board members and to the public to 4 5 see if there are any other questions or comments that they'd like to raise. 6 7 Director, thank you. MR. CLOSE: 8 Given your application and all the challenges you 9 face, you were here a couple years ago, it appears you're probably going to have to come 10 11 back over the next several years as well, it 12 would appear given the challenges that you have 13 in front of you. 14 Do you have a plan? Is this part of 15 a long term forecast plan you have both 16 financially and for the (inaudible) that are 17 facing you and how you're going to address them 18 over the next three to five years. 19 And with your fund balance policy, 20 do you anticipate it being sustainable in terms 21 of the issues you have in the, I'm going to --22 the planned measures to address them moving 23 forward. 24 MR. DONNELLY: Thank you for your 25 question. I'll let Peter speak to the fund

1 balance portion. But what I can say is to 2 honestly to manage expectations of where we 3 potentially will be next year, the year after, 4 the year after that, which it's very clear for 5 everybody, not just from the outside to 6 understand the growth that's happening in 7 Lakewood.

8 It is a major priority, if not 9 priority one for us, to not only prepare for this 10 year, but for next year. We're already talking 11 about years '25, '26, '27 of where our growth is 12 taking us for all of our services and also for 13 services that include some of our volunteers to 14 make sure we have adequate services for 15 everybody.

16 So it is absolutely on the forefront 17 of our minds every day of our operations of where 18 we're preparing of where we can potentially come 19 back to see you guys in a year, two years, three 20 years, whatever it may be, just to keep up with 21 where we're at between what a census says of what 22 our population is to what the reality really is 23 to where we are is yes.

24 We are very well aware of where we 25 are and where we're going to be as we move

forward. And obviously, with the support of our 1 2 team here, but also with the support of the state 3 and the Finance Board, I think, you know, 4 hopefully, we can continue to grow and move in 5 the right direction and be responsible, I think 6 is the biggest thing, is that we're trying to 7 really be at the forefront of is being a 8 responsible municipality, to understand, to not 9 just to come ask to ask for, generally, just say police. We're asking for the public health and 10 11 safety portion of this township to operate. 12 MR. O'REILLY: The fund balance 13 policy, not specifically related to appropriation 14 CAP waiver, but it is related to fund balance in 15 terms of budgetary operations. 16 We are working with state 17 legislative representatives to address issues 18 with state funding. Then the township is second to last in state funding, receipt of state funds 19 20 on a per capita basis. 21 And certainly, if there was more 22 opportunity to receive more funding from the 23 states, that would certainly provide more 24 tailwind with us, with the budget operations. 25 And certainly, it will alleviate

budgetary pressures on seeking to use fund 1 2 balance as the source of revenue for the budget. 3 MR. JACKSON: And thank you for the application, Mr. O'Reilly, in particular, I 4 5 thought it was quite detailed. Thank you. 6 I do have one concern though. Ιt 7 seems to me that the cost of your growth is being 8 driven by development. And it doesn't appear as 9 if developers are paying their fair share of the 10 cost that they are driving through their 11 development. 12 And we talked about efficiencies, 13 which it seems they're doing a great job on, more 14 state money, but state money comes from taxpayers 15 as well. And it seems to me as if the taxpayer is carrying an inordinate amount of the cost, 16 17 particularly vis-a-vis, developer profit. 18 And I'm just wondering what you're 19 doing to get the developers to pay more for cost 20 that they are clearly driving. 21 MR. DONNELLY: If I could, sir. Ι 22 completely understand the question. I appreciate 23 It's actually -- I think, not I think. it. Ι 24 know for a fact that because of the relationship 25 we have with our developers in town, that there's

a fair share of belief right now that we are 1 2 working towards the common goal of what's best 3 for our taxpayer. 4 And I can honestly say because of 5 the relationship, that these developers have been in this town for an extended period of time, that 6 7 they realize that certain things are going to 8 have to be adjusted over time. 9 So it is a deep, deep discussion 10 that happens on a regular basis with our 11 developers. And thankfully, because of the 12 relationship, I don't want to say whether they 13 like it or not, but there's a very real 14 understanding of where this town is going to have 15 to be with their support. 16 MR. MILLER: If I may, Deputy Mayor As you know, Lakewood is the fastest 17 here. growing municipality in the State of New Jersey 18 19 with us being going from number seven to number 20 four. 21 The driving force really is two of 22 largest institutions that we have here in 23 Lakewood, Georgian Court University, as well as, 24 Yeshiva Gedolah, which is university for the 25 Orthodox Jewish community.

It's the absolute largest university 1 2 in the entire world and that is driving people to 3 be moving here in droves. So it's not the developers driving the growth of Lakewood, but 4 5 rather, the university. My parents moved to Lakewood when 6 7 they were teens to join the university. They got 8 married, live here. I'm now married, my children live here as well. So the growth is driven by 9 10 the two universities that are here in Lakewood. 11 Needless to say, it's a college town 12 and it's really driving the droves of people 13 coming here. The development then is a back up, 14 saying hey people need places to live and they're 15 spreading out. 16 They're going to Jackson, Howell, 17 Toms River, Brick as we're beyond with the 18 tremendous growth of people coming here for the 19 university. 20 And actually, right before this 21 meeting, I was actually in a meeting with some of 22 the developers in town trying to discuss will be 23 putting money into for our future and further 24 enhancements for capital improvements for capital 25 improvements that go on in town.

1 MS. SUAREZ: So if I may because I 2 appreciate what has been said here in response to 3 Mr. Jackson's question, but I just want to go back to it because I'm not sure it was addressed 4 5 head on, which is, does that mean there are conversations occurring about potentially 6 7 increased developers fees as a way to bring in additional revenue to Lakewood? 8 9 MR. DONNELLY: Yes, ma'am. 10 SUAREZ: MS. Okay. Thank you for 11 Any other questions or comments? that. 12 MS. RODRIGUEZ: I have a comment. 13 I'm pretty interested to hear, I quess for the 14 first time, that Lakewood is a university town. 15 So I just wanted to say I find that very 16 interesting and I guess commending, but it's the 17 first time I've ever heard that. 18 MR. DONNELLY: Thank you. 19 MS. SUAREZ: If there are no other 20 comments or questions, based on what we've heard 21 here today, I'm going to ask for a motion as a 22 don't think that there is an alternative for the 23 township at this juncture. 24 However, what I would like to address is should Lakewood need to come back 25

before the board for an appropriation CAP waiver 1 in the future, I think what we've heard here 2 3 today is the Board would need Lakewood to provide, perhaps a three to five year plan, for 4 5 addressing the appropriation CAP compression with a focus on additional non tax base revenues, 6 7 right. 8 So I know we talked about developer 9 fees, so that would include it, but not be 10 limited to it for future budgets. With that 11 said, I'm going to ask for a motion to approve 12 the appropriation CAP waiver for the use of 13 surplus in an amount not to exceed \$12,046,877. 14 MR. JACKSON: I would move it with 15 the provisos that you laid out, Commissioner. 16 MR. CLOSE: I'll second it. 17 MR. BENNETT: I have Mr. Jackson and 18 Mr. Close seconding. Miss Suarez? 19 MS. SUAREZ: Yes. 20 MR. BENNETT: Mr. DiRocco? 21 MR. DIROCCO: Yes. 22 MR. BENNETT: Mr. Close? 23 MR. CLOSE: Yes. 24 MR. BENNETT: Mr. Avery? 25 MR. AVERY: Yes.

1 MR. BENNETT: Miss Rodriguez? 2 MS. RODRIGUEZ: Yes. 3 MR. BENNETT: And Mr. Jackson? 4 MR. JACKSON: Yes. 5 MR. BENNETT: Motion approved. MR. DONNELLY: Thanks for your time 6 7 We greatly appreciate it. and your vote. 8 MS. SUAREZ: Best of luck. 9 MR. DONNELLY: Thank you. 10 SUAREZ: MS. The next application 11 appearing before the board today is the 12 continuation of supervision of the Supervision 13 Act in the City of Atlantic City, which is going 14 to require me to step down as chair, so I'm going 15 to recuse myself on voting on the matter. 16 Miss Rodriguez, if you would please 17 chair the application today, that would be 18 fantastic, so I'm going to leave it to you to introduce it. 19 20 MS. RODRIGUEZ: Sure. We are going 21 to introduce the application for the City of 22 Atlantic City. This is a continuation of 23 supervision that has been in place since 2016. 24 At this time, I'm going to ask, 25 whoever is representing the City of Atlantic City

to make their introductions and to swear in 1 2 anyone that needs to be sworn in. 3 Anthony Swan, business MR. SWAN: administrator. 4 5 MS. ABODERIN: Adetoro Aboderin, chief finance officer. 6 7 (At which time those wishing to 8 testify were sworn in.) 9 MS. SUAREZ: Good morning, everyone. 10 Under the Local Government and Supervision Act, 11 municipalities are experiencing -- who are 12 experiencing certain levels of distress can 13 either by consent or by order enter into 14 cooperation with the State of New Jersey for specific forms of oversight. 15 16 In 2010, Atlantic City, by consent, 17 had entered into the Supervision Act controls and 18 assistance provided through the state, and they 19 have remained under supervision since that time. 20 As the board is aware, the Municipal 21 Stabilization and Recovery Act or MSRA was signed 22 into law in 2015 and then was later amended in 23 2021. 24 And this law, which is commonly 25 referred to as MSRA, empowered the state to move

into Atlantic City in other capacities, beyond 1 2 those that were just under the Supervision Act. 3 And each year the question arises as to whether we should continue to implement the 4 5 Supervision Act in tandem with the Municipal Stabilization and Recovery Act for Atlantic City. 6 7 And I think it's important to 8 highlight the difference in powers that are 9 granted under both of these separate statutes. 10 The Supervision Act itself lays out 11 particular financial controls and it gives us the 12 ability to spread debts, enter certain aspects of minutes and to determine certain debt service 13 14 conditions that are not expressly available under 15 the MSRA. 16 There is no doubt that Atlantic City 17 has made great strides in improving its fiscal 18 And the partnership the state and the health. 19 City of Atlantic City has forged certainly 20 contributes to the development of stronger 21 institutional protections and financial controls. 22 The impact of this has resulted in a 23 much more stable economic development friendly 24 city for residents, tourists and entrepreneurs 25 alike.

And this year's budget for the city 1 2 has continued to advance stabilization efforts 3 that have been in place since the state began working with the city in 2010 under the 4 5 Supervision Act, and with the greater tools that have been established under the Municipal 6 7 Stabilization and Recovery Act in 2016. 8 And these efforts have really begun 9 to show some long term progress, both in terms of 10 substantial increases in the past few years from 11 both S&P and Moody's credit rating increases, as 12 well as, improvements in the city's fiscal health 13 overall. 14 But the city does still face some 15 significant financial difficulties that qualify

16 it for continued supervision under the Municipal 17 Supervision Act. One of the key distinctions 18 between the Municipal Stabilization and Recovery 19 Act and the Supervision Act is that the 20 Supervision Act is more of a long term plan. 21 It's a way of guiding a municipality

22 that has structural and underlying operational 23 concerns to a more successful future. And the 24 Municipal Stabilization and Recovery Act deals 25 with the short term substantial decreases in 1 rateables, along with other issues, that created 2 a historical unprecedented situation in the City 3 of Atlantic City.

4 And the MSRA provides unusually 5 broad powers, but it doesn't have a lot of the 6 specificity that the Supervision Act itself has. 7 And a lot of the tools utilized, such as, a 8 comptroller, budget adoption through the state, 9 the addressing of needs for the spread of cash 10 deficit over a period of time are all provisions 11 that we wouldn't clearly have otherwise.

So maintaining supervision is 12 13 imperative to making sure these fundamental 14 controls remain in place and it gives us a good 15 framework as we exercise Stabilization and 16 Recovery Act powers to make sure that the City of 17 Atlantic City is positioning itself, not just to 18 get through the crisis period, but to have a 19 stable long term recovery going forward.

And the city and state know there is still much work to do and that requires the discreet powers and opportunities available to municipality under the Municipal Stabilization and Recovery Act in conjunction with the Supervision Act. Therefore, it's my recommendation to this board that we continue to exercise authority under the Supervision Act in addition to the MSRA.

5 Should the board approve this 6 application, it would still need to go to the 7 state treasurer and to the attorney general for 8 signature before continuation could occur.

9 Now, before I turn it back over to the board for any questions, I want to take a 10 11 moment to recognize the business administrator, 12 as well as, the CFO who are here with us today 13 and also just mention that Mayor Small and his 14 team have really created a cooperative 15 partnership with the state and we do have that 16 with the city and I really credit the mayor and 17 its professional team for much of the city's success this far. 18

So I think it is only fitting to make sure that we recognize them here today. So through the chair, I just want to give them the opportunity to make any comments before answering any questions that the board may have about this application.

25

So Anthony and Toro, if there's

anything you would like to add at this juncture, 1 2 I'm going to turn it over to you. 3 MR. SWAN: Thank you. First, let me I am sitting in my car. If you hear 4 apologize. 5 background noise, we are in the midst of a fire drill, so I had to leave the building and run to 6 7 my car and hop back on the meeting, so I do 8 apologize for that. 9 The mayor, as you guys know, it is 9/11, so there are significant 9/11 ceremonies 10 11 And the mayor was speaking at one of going on. 12 the largest ones in Atlantic City. 13 So in his stead, I just want to say 14 that our partnership with DCA, Commissioner Suarez, Director Suarez, has never been stronger. 15 16 We keep each other in the loop on everything that 17 we're doing from a fiscal standpoint or anything 18 else that can impact the city significantly. 19 Her team that she has in place, Russ 20 Swain, Rick Richardella, we have known each other 21 for quite a while now, so we have a very strong 22 working relationship. We bounce ideas off each 23 other to try to get to the best option that the 24 city should move with. 25 So I really enjoy the work that

we've been doing together and I think it's bear 1 2 fruit in the sense of our rating continues to get 3 better, so that's all I have. 4 MS. SUAREZ: Thank you. 5 MS. ABODERIN: Good morning 6 everyone. And Anthony and the Commissioner have 7 said it all. We truly, truly have a great 8 partnership with the state. It appears to me 9 that Atlantic City has the best of both worlds in being able to make decisions for itself, but also 10 11 having the state, and all of the technical advisors that they've hired for each department, 12 13 to be able to bounce a years off of them. 14 We are able to run the city and make 15 the city much, much better, put the city in a 16 much better financial situation and just fiscal 17 situation all around. We get advice for each one 18 of our departments, not just on the financial 19 matters, but also on other departments like fire, 20 police, public works, licensing and inspection, 21 so really it's been a great partnership. 22 We have a great working relationship 23 with Commissioner Suarez and all of her staff and 24 I couldn't think of a better group to work with. So thank you, Commissioner, thank you for all 25

that you do for the City of Atlantic City. 1 2 MS. SUAREZ: Thank you, Toro. With 3 that, I will turn it back over to the board. 4 MS. RODRIGUEZ: Thank you very much. 5 Are there any questions from the public or from any of the board members or comments at this 6 7 time? Very well. 8 Let me just, once again, commend 9 everyone from Atlantic City, starting with the mayor and everyone that's on this call, thank you 10 11 for the presentation today, Commissioner. 12 Personally I think, I've been on this board since this all came to fruition and 13 14 some of us have as well. So I want to continue 15 to commend the City of Atlantic City. Great job. This is a great partnership. 16 17 And, you know, it's just -- I trust 18 that it's going to continue in that fashion. Ι 19 wish you the best of everything. Atlantic City 20 is always a great place to go to and continue 21 much success. With that, can I get a motion. 22 MR. CLOSE: So moved. 23 DIROCCO: MR. Second. 24 MR. BENNETT: I believe that was Mr. 25 DiRocco seconding.

MR. DIROCCO: Correct. 1 2 MR. BENNETT: Miss Suarez is 3 recused. Mr. DiRocco? 4 MR. DIROCCO: Yes. 5 MR. BENNETT: Mr. Close? MR. CLOSE: Yes. 6 7 MR. BENNETT: Mr. Avery? 8 MR. AVERY: Yes. 9 MR. BENNETT: Miss Rodriguez? 10 MS. RODRIGUEZ: Yes. MR. BENNETT: And Mr. Jackson? 11 12 MR. JACKSON: Yes. 13 MR. BENNETT: Motion approved. 14 MS. SUAREZ: Thank you very much. I'm going to quickly switch hats and step back 15 into chair mode. The next applicant appearing 16 17 before the board today is the Passaic County 18 Improvement Authority. I see Mr. Jessup is with I'm assuming you're going to be representing 19 us. 20 the application? 21 MR. JESSUP: Yes, Director. We also 22 do have with us, from Passaic County Community 23 College, Steve Hardy who's the vice president 24 from finance. From Schneider Electric, our ESCO, 25 Samuel Ringleberg, and the county's financial

advisor, Heather Litzebauer, who of course you 1 2 all know from NW Financial. 3 MS. SUAREZ: So we can get them 4 sworn in and the floor is yours. 5 (At which time those wishing to 6 testify were sworn in.) 7 MS. SUAREZ: All right, Mr. Jessup. 8 MR. JESSUP: Thank you, Director. 9 Good morning everyone. In April of this year, 10 Passaic County received the approval of the board 11 in connection with the county's issuance of not 12 to exceed 10.5 million of energy savings 13 obligation refunding bonds. 14 Bond proceeds were being used to 15 fund a portion of the college's Energy Savings 16 Improvement Program. Total cost of that ESIP 17 program is, or was at the time, 21.35 million 18 dollars. 19 And it was funded with the 10.5 20 million in refunding bonds, six million of 21 Chapter 12 funding and 4.8 million of capital 22 cash provided by the college. Debt service on 23 the refunding bonds were fully provided for an 24 energy savings, as they need to be. 25 And important to today's

> Renzi Legal Resources (609) 989-9199 www.RLResources.com

1 conversation, the Maturity Schedule for the 2 bonds, including principal payments in each of 3 the years 2027 through 2046. Since receiving the 4 board's approval in April, the college learned 5 that a portion of the project cost qualified for 6 the Energy Solutions Incentive Program through 7 PSE&G.

8 Through this program, PSE&G is going 9 to provide, approximately, 2.708 million dollars 10 in funding towards the project. Of that amount, 11 1.105 million is a grant, so it does not have to 12 be repaid. It's a contribution into the project. 13 The remaining million 603 is a loan 14 that gets repaid over the first five years at 15 zero percent interest. So the energy solutions 16 program is, obviously, a great benefit to the 17 county.

We're injecting free grant money in and we're getting a zero percent loan on an additional portion of these project costs. But as I just mentioned, the zero percent loan has to be repaid during the first five years which amounts to \$475,000 per year.

If we add that zero percent loan 25 repayment requirement into the total financial

model where all of our costs have to be covered 1 2 by our savings, the savings aren't enough to pay 3 for this accelerated loan payment, and the principal originally scheduled to pay on the 4 5 bonds in the first five years. The model doesn't afford to pay all 6 7 of it because of that acceleration of that zero percent loan. So we're back before you this 8 9 morning to propose that the county and the 10 college accept the million 105 grant and the 11 million 603 interest free loan from PSE&G and we 12 eliminate the principal payments over the four 13 year period of 2028 through 2031. 14 The Maturity Schedule for the bonds 15 then resumes with principal payments through 2046 16 as originally scheduled. And of course, the 17 purpose for that four year hiatus, in the bond 18 repayments, is so that we can repay the zero percent interest loan. 19 20 So we swap out money that costs 21 interest with money that doesn't cost us 22 interest, but we have to provide a gap in the 23 Maturity Schedule for the bonds to provide for 24 that. 25 The net effect of all of those

changes is a debt service savings to the college 1 of, approximately, \$519,000, a little over 2 3 \$519,000. So the net effect, inclusive of 4 providing a principal window to allow for the 5 PSE&G loan payments is still over half a million dollar benefit to the college overall. 6 7 Obviously, from our perspective, 8 this Maturity Schedule is foundationally 9 different than what you saw. It's done with the 10 benefit of the PSE&G grant program. It's done 11 with the benefit of overall reduction in the 12 project cost. 13 Nonetheless -- and it's done, 14 importantly, with the savings always being 15 sufficient to provide for the total cost, so the 16 overall concept remains the same. Nonetheless, 17 we thought it was important to come before you in 18 light of the foundational change in the Maturity 19 Schedule, so we could provide the reasons why. 20 MS. SUAREZ: Thank you. So just to 21 put a finer point on it, my one question just 22 would be, the changes in the cost of issuance. 23 MS. LITZEBAUER: There isn't any 24 changes. Actually, some of the cost of issuance 25 is based on the par amount borrowed, so because

that has decreased, then some of the fees will 1 2 decrease, but there is no significant changes. 3 There's no increases to cost of issuance. 4 MS. SUAREZ: Thank you. I'll open 5 it up to see if there are any other questions or comments from anybody from the board or the 6 7 public. Hearing none, do we have a motion to approve the issuance of school refunding bonds 8 9 and the proposed ESIP. 10 MS. RODRIGUEZ: Make a motion. 11 MR. CLOSE: Second. 12 MR. BENNETT: Miss Rodriguez and Mr. 13 Close. Miss Suarez? 14 MS. SUAREZ: Yes. MR. BENNETT: Mr. DiRocco? 15 16 MR. DIROCCO: Yes. 17 MR. BENNETT: Mr. Close? 18 MR. CLOSE: Yes. 19 MR. BENNETT: Mr. Avery? 20 MR. AVERY: Yes. 21 MR. BENNETT: Miss Rodriguez? 22 MS. RODRIGUEZ: Yes. 23 MR. BENNETT: And Mr. Jackson? 24 MR. JACKSON: Yes. 25 MR. BENNETT: Motion approved.

1 MR. JESSUP: Thank you all very 2 much. We appreciate it. 3 MS. SUAREZ: You're welcome. Then the next applicant appearing before the board 4 5 today is the City of Plainfield Board of Education. 6 7 MR. SOLIMINE: Good morning, 8 Commissioner Suarez. Tony Solimine from Wilentz, Goldman and Spitzer. Also here, we should have 9 10 Robbi Acampora Phoenix Advisors, Cameron Cox, the 11 school's business administrator and Greg Burns of 12 DCO Energy, the school's ESCO. 13 MS. SUAREZ: Let's get them sworn in 14 then. 15 MS. ACAMPORA: I believe the superintendent is here too. 16 17 MR. SOLIMINE: Oh. Thank you, 18 Robbi. 19 (At which time those wishing to 20 testify were sworn in.) 21 MR. SOLIMINE: Good afternoon, 22 everyone. Again, for the record, Tony Solimine 23 of Wilentz, Goldman and Spitzer. 24 We're here on behalf of the 25 Plainfield Board of Education who is seeking

approval pursuant to N.J.S.A. 18A:18A-4.6 and 1 N.J.S.A. 18A:24-61.1 for its adoption of 2 3 refunding bond ordinance in an amount not to exceed 16.5 million dollars in connection with 4 5 its proposed issuance of energy savings obligation refunding bonds in order to implement 6 7 the district's proposed energy savings 8 improvement plan.

9 The Board of Education, as per 10 statute and regulation, conducted a local 11 government energy audit and then solicited 12 proposals for an ESCO. Through competitive 13 contracting, the board appointed DCO Energy.

DCO Energy has worked with the board to prepare an energy savings plan. That plan was adopted by the board on August 13th. That board has also been independently verified by Johnson and Irving.

The project that we're looking to finance today consists of various energy conservation measures including LED lighting, a district wide energy management system, building envelope improvements, cogeneration CHP, various HVAC improvements, it consists of the filler power purchase agreement and a boiler plant 1 replacement.

These improvements will take place at all 21 buildings throughout the district. In accordance with the law, the savings from the reduction in energy, along with the rebates and the savings from the power purchase agreements, will be sufficient to repay the debt on the proposed obligations.

9 The district contends to finance 10 these projects through the issuance of energy 11 savings obligation refunding bonds over a 21 year 12 period, which will be awarded through -- the 13 underwriter will be awarded through a competitive 14 system solicitation on a negotiated process 15 conducted by the board's financial advisors.

We respectfully request the approval of the Local Finance Board, and as stated before, we are here to answer any questions that the board may have.

20 MS. SUAREZ: Thank you very much. 21 The only thing I just wanted to make sure was 22 addressed directly had to do with the 21 year 23 schedule. Would you mind just touching upon and 24 moving from the '20 to '21 and why that is? 25 MS. ACAMPORA: Yeah. The ESIP law

allows for construction, for 20 years, if they do 1 2 cogeneration, plus construction. So their 3 construction is actually 18 to 24 months, but we extended it a year and did capitalized interest 4 5 for that year. 6 So it allows us to get through the 7 construction period because it's a little bit 8 longer and then energy savings will be generated 9 to be able to pay for the next payment. 10 MS. SUAREZ: Thank you very much. Ι 11 will open it up to see if there are any questions 12 or comments from the board or public. 13 Hearing none, do we have a motion to 14 approve the issuance of school refunding bonds 15 and a proposed ESIP. 16 MR. JACKSON: So moved. 17 MR. AVERY: Second. 18 MR. BENNETT: Mr. Jackson moving. 19 Mr. Avery second. Miss Suarez? 20 MS. SUAREZ: Yes. 21 MR. BENNETT: Mr. DiRocco? Mr. 22 DiRocco? Mr. Close? 23 MR. CLOSE: Yes. 24 MR. BENNETT: Mr. Avery? MR. AVERY: Yes. 25

> Renzi Legal Resources (609) 989-9199 www.RLResources.com

1 MR. BENNETT: Miss Rodriguez? 2 MS. RODRIGUEZ: Yes. 3 MR. BENNETT: Mr. Jackson? 4 MR. JACKSON: Yes. 5 MR. BENNETT: And Mr. DiRocco, are you with us? Can you hear me? 6 The motion is 7 approved with five votes. 8 MR. SOLIMINE: Thank you, everyone. 9 MS. SUAREZ: Best of luck. 10 MS. ACAMPORA: Thank you. 11 MS. SUAREZ: You're welcome. The 12 next applicant appearing before the board today 13 is the City of Orange Township Board of 14 Education. Miss Tracey, I think you're back with 15 us again? 16 MS. TRACEY: I am. 17 MR. SOLIMINE: Good morning again. 18 Tony Solimine of Wilentz, Goldman and Spitzer. As you indicated, we have Sherri Tracey from 19 20 Phoenix Advisors. We have also on the line, the 21 board's business administrator, Mr. Jason 22 Ballard. And I believe Carolyn Jackson from 23 Honeywell is also on the line as well. 24 MS. SUAREZ: Okay. Let's get 25 everybody sworn in.

(At which time those wishing to 1 2 testify were sworn in.) 3 MR. SOLIMINE: Again, good morning, Tony Solimine of Wilentz, Goldman and 4 everyone. 5 Spitzer appearing on behalf of the Board of Education of the City of Orange Township. 6 7 The Board of Education is seeking approval pursuant to N.J.S.A. 18A:18A-4.6 and 8 9 N.J.S.A. 18A:24-61 for its adoption of a 10 refunding bond ordinance in an amount not to exceed 12.5 million in connection with its 11 12 proposed energy savings obligation refunding 13 bonds in order to finance and to implement its 14 proposed Energy Savings Improvement Plan. 15 The board conducted a local energy 16 audit and then appointed Honeywell International to serve as its ESCO. Honeywell has worked with 17 18 the board to prepare its energy savings plan. 19 That plan has been independently verified by DLB 20 Associates. 21 The project, in this case, consists 22 of various energy conservation measures including 23 LED lighting, building envelope improvements, 24 cogeneration CHP, building management controls, solar PPA and boiler replacements. 25

These improvements will take place 1 2 in 13 school buildings and at the administrative 3 offices. The board, in accordance with the statute, has determined that the savings, along 4 5 with any applicable rebates, the savings from the 6 power purchase agreement and a 1.4 million dollar 7 capital contribution will be sufficient to prepay 8 the debt of the proposed obligations. 9 These bonds will be sold over a 21 10 year period and will be sold on a negotiated 11 basis through a solicitation done by the board's 12 financial advisors. Again, Mr. Ballard is here, 13 Miss Tracey and Miss Jackson and myself are here 14 to answer any questions that the board may have. 15 MS. SUAREZ: Thank you very much.

16 The one I have is similar to the previous 17 application, which is just confirm the 20 year 18 schedules and that one is also pushed out a year 19 because of construction, correct?

20 MS. TRACEY: Yes. That's exactly 21 correct. The response is the same as the last 22 application. The construction is anticipated to 23 be 20 months, so this allows capitalized interest 24 for the first year and pushes us for the 20 years 25 during the -- the savings, the savings are

realized. 1 2 MS. SUAREZ: Thank you very much. 3 That was my only question. I will open it up for the board members and the public to see if there 4 5 are any questions or comments. And hearing none, I am going to ask for a motion? 6 7 MR. AVERY: So moved. 8 MR. JACKSON: Second. 9 MR. BENNETT: Mr. Avery moving. Mr. 10 Jackson seconding. Miss Suarez? 11 MS. SUAREZ: Yes. 12 MR. BENNETT: Mr. DiRocco? I'm 13 going to reach out to him. He may be on mute. 14 Mr. Close? 15 MR. CLOSE: Yes. 16 MR. BENNETT: Mr. Avery? 17 MR. AVERY: Yes. 18 MR. BENNETT: Miss Rodriguez? 19 MS. RODRIGUEZ: Yes. 20 MR. BENNETT: And Mr. Jackson? 21 MR. JACKSON: Yes. 22 MR. BENNETT: Motion is approved. 23 MR. SOLIMINE: Thank you everyone. 24 MR. BALLARD: Madam Chair, I want to 25 say thank you to you all for your consideration

1 of this project.

2 The Orange Board of Education is 3 greatly appreciative. This work will go a long way to helping to help and to restore a very old 4 5 building stock and giving the children facilities that will help them learn in a much better 6 7 environment, so thank you. 8 MS. SUAREZ: Thank you. Wish you 9 the best of luck with the project. 10 MR. BALLARD: Thank you. 11 MS. SUAREZ: The next application 12 before the board today is the Township of Upper Deerfield Board of Education. 13 14 MR. SOLIMINE: Good morning again. 15 You're stuck with me one more time, hopefully I get better each time. Tony Solimine from 16 17 Wilentz, Goldman and Spitzer appearing on behalf 18 of the Board of Education of Upper Deerfield. 19 Also in attendance, we have Sherry 20 Tracey again with Phoenix Advisor. We have Dr. 21 Frank Badessa, the board's business 22 administrator. We also have the board's 23 assistant business administrator, Michael 24 Twardowski and Greq Burns of DCO Energy who need 25 to be sworn in.

(At which time those wishing to 1 2 testify were sworn in.) 3 MR. SOLIMINE: Thank you. Aqain, Tony Solimine appearing on behalf of the Upper 4 Deerfield Board of Education. 5 The Board of Education is seeking 6 7 approval pursuant to N.J.S.A. 18A:18A-6 and 8 N.J.S.A. 18A:24-61 for its adoption of the 9 proposed refunding bond ordinance in an amount 10 not to exceed \$2,750,000 in connection with the 11 proposed issuance of its energy savings refunding 12 obligations in order to implement and to finance 13 its Energy Savings Improvement Plan. 14 The board conducted its local 15 government energy audit and then solicited 16 proposals for ESCO services. After the 17 competitive contracting process, the board appointed DCO Energy. 18 19 DCO Energy has worked with the board 20 and its administration to prepare and develop an 21 energy savings plan which has been adopted by the 22 board. This plan has been independently verified 23 by Whitman Engineering. 24 The plan consists of various 25 conservation measures consisting of LED lighting,

building envelope improvement, cogeneration CHP, 1 2 various HVAC improvements and a boiler plant 3 replacement. 4 The improvements will take place in 5 the three school buildings and the administrative offices. 6 7 The board has determined, in connection with the calculations done by DCO and 8 the financial advisor, that the reduction in 9 10 energy savings, along with any applicable rebates 11 and a 108,160 dollar capital contribution, will 12 be sufficient to repay the debt on the proposed 13 obligations. 14 Again, these bonds will be sold over 15 a 21 year period. It will be sold on a 16 negotiated basis after solicitation by the 17 board's financial advisor. Again, we 18 respectfully request approval of the LFB and we 19 are here and available to answer any questions 20 that you may have. 21 MS. SUAREZ: You might be able to 22 quess my one question which has to do with the 21 23 year schedule. I'm assuming it has to do with 24 construction, but I will ask for confirmation. 25 MS. TRACEY: Yes, that's correct.

The construction period on this project is 24 1 2 months, so that is the reason for the 21 years. 3 We'll, again, be utilizing capitalized interest for that first year's payment. 4 5 MS. SUAREZ: Thank you. 6 MS. TRACEY: Thank you. 7 MS. SUAREZ: Any other questions from the board or public? Hearing none, I'm 8 9 going to ask for a motion to approve the issuance of a school refunding ordinance and the proposed 10 11 ESIP. I make the motion. 12 MS. RODRIGUEZ: 13 MR. JACKSON: Second. 14 MR. BENNETT: I have Miss Rodriguez 15 and Mr. Jackson seconding. Miss Suarez? 16 MS. SUAREZ: Yes. 17 MR. BENNETT: Mr. DiRocco? Mr. 18 Close? 19 MR. CLOSE: Yes. 20 MR. BENNETT: Mr. Avery? 21 MR. AVERY: Yes. 22 MR. BENNETT: Miss Rodriguez? 23 MS. RODRIGUEZ: Yes. 24 MR. BENNETT: Mr. Jackson? 25 MR. JACKSON: Yes.

1 MR. BENNETT: Mr. DiRocco again? 2 The motion is approved with five. 3 MR. SOLIMINE: Thank you all. 4 TRACEY: MS. Thank you very much. 5 SUAREZ: MS. You're well come. Best of luck with the project. The next applicant 6 7 appearing the board today is the Bergen County 8 Improvement Authority. I believe I saw Mr. Draikiwicz. 9 10 Yes, John MR. DRAIKIWICZ: 11 Draikiwicz representing the Bergen County 12 Improvement Authority in connection with this 13 transaction. And in addition, we should have 14 with us two of the participants which is Fort Lee and Englewood, Matt Rush from Fort Lee should be 15 16 in attendance. 17 And I think Bill Mayer should be in 18 attendance representing Englewood Cliffs; John 19 Reinhardt, director of finance should be on board 20 as well, and certain other professionals from 21 Acacia is also on board. I guess people can be sworn in at this time. 22 23 (At which time those wishing to 24 testify were sworn in.) 25 MR. DRAIKIWICZ: May I proceed,

1 Director?

2 MS. SUAREZ: Yes, please. 3 MR. DRAIKIWICZ: The Bergen County 4 Improvement Authority proposed to issue its notes 5 in the approximate amount of \$66,686,000. The proceeds of which will be loaned to certain 6 7 municipalities in the county of Bergen and the 8 County of Bergen for various capital projects. 9 The authority notes will be secured 10 by general obligation notes from each of the 11 governmental entities participating in the 12 program and will also be secured by a guaranty by 13 the County of Bergen. 14 We would seek positive findings from 15 the board as to the issuance of the notes and 16 with respect to the county guaranty. At this 17 time, I would like to turn it over to John Reinhardt, the County of Bergen Chief Financial 18 19 Officer to describe the pooled note program and 20 what the County of Bergen is trying to achieve so 21 he can describe it in further detail. John, can 22 you join us please. 23 MR. REINHARDT: Sure. Thank you, 24 John. Appreciate the introduction. Good morning 25 Commissioner, Director. Earlier this year, this

1 board actually approved our May pooled note
2 program, which was a great success and it's
3 starting to now grow.

People are seeing what we're doing, so thank you for that. At that time, we let you know we were doing another pooled note program this October to make access to the market easier for our towns so that's why we're here again.

9 Back in July, we had a luncheon, it 10 was a little bit last minute put together, but we 11 encouraged all 70 Bergen County towns to show up 12 to see what we could do for them. 58 showed up. 13 It was a great showing in the middle

14 of the summer when everybody is on vacation, but 15 they felt it was important and they joined us, 16 which I know John was there as well.

We talked about the benefits and using the BCIA. We received a lot of positive feedback, but it was a little too close to this offering to have them jump on which is only we have two towns this time.

But there's a lot that expressed more interest in the next program, both in May and October. And they like that's it two times during the year to make it easier for them to

jump on. 1 2 So our program for this application 3 is the county plus two towns. It's Fort Lee and Englewood Cliffs. For Englewood Cliffs we 4 5 provided a bridge loan to get them to this offering, so they didn't have to go to the market 6 7 twice, so we made that easy. 8 We tried to accommodate them to 9 encourage them into the pool. The pooled 10 program, as John said, is a total of \$66,868,245. 11 The county's, obviously, we're suffering as the 12 anchor for the note. Our not is 44 million 663 13 thousand. 14 It's comprised of about 94 various 15 ordinances for roads, bridges, buildings. It's a 16 little bit of everything. But since we're in a 17 market each May and October, we thought it would 18 be a nice idea to offer this municipality, and 19 obviously we're getting some great reception. 20 Obviously, the county uses its AAA 21 guaranty for the notes so they benefit from the 22 rating as well. So the county currently 23 guarantees -- I know this question is going to 24 pass, which is why I'll do it now. 25 The county currently guarantees

> Renzi Legal Resources (609) 989-9199 www.RLResources.com

about 29 outstanding obligations 563 million 1 2 dollars and change. Our debt ratio at the end of 3 last year was .463 as the county wouldn't go to 4 two percent. 5 We're projecting actually that to 6 drop down to .459 this year at the end, which is 7 almost a six million dollar decrease in our 8 overall debt. You're heard us speak before. 9 We aggressively manage the finances 10 of the county, looking to not only strengthen our 11 balance sheet, but we actively manage our debt 12 burden as well. And we try to stay on top of 13 that, and I think you can see that we do. With 14 that, I'll turn it back for questions. 15 MR. DRAIKIWICZ: We also have, 16 Director, we also have the two participants 17 available for any questions, Fort Lee and from 18 Englewood Cliffs if you would like to inquire 19 anything from them. 20 MS. SUAREZ: Sure. One of the 21 things that I'd like to hear from the program in 22 2025 --23 MR. BENNETT: Director, your sound. 24 MS. SUAREZ: Any better or no? 25 MR. MAYER: A little better.

1 MS. SUAREZ: I just wanted to hear 2 from the participants if they intend to stay in 3 the program in 2025 and to see how they are budgeting that accordingly. 4 5 MR. DRAIKIWICZ: We'll start with Englewood Cliffs. 6 7 MR. MAYER: Good morning, Director. 8 Bill Mayer with DeCotiis, bond counsel to 9 Englewood Cliffs. Your question again? It was 10 difficult to hear you. 11 MS. SUAREZ: Sure. So one, I'm 12 looking to see if the participants intend to stay 13 in the program in 2025 and then what their plans 14 are for permanently financing hopefully something 15 a little more specific than some of what we've 16 heard in the past which is in the next few years. 17 MR. MAYER: Yes, I would expect 18 Englewood Cliffs will be in the program next 19 Six million dollars of the seven million year. 20 dollars they're borrowing is under new money 21 ordinances for park improvements and roadway 22 construction. 23 Their typical pattern has been 24 notes, notes, notes, bonds so I would expect they 25 come back next year to be in the program.

There's also special emergency notes in this 1 2 issue which will be paid off next year and 3 there's tax appeal refunding notes that will have one extra year so I will expect they'll be in the 4 5 program for the next two years or longer and then 6 qo long term. 7 MS. SUAREZ: Okay. 8 MR. MAYER: And let me apologize for 9 the CFO, he had an unavoidable conflict, so he 10 asked me to sit in. 11 MS. SUAREZ: Thank you. 12 MR. DRAIKIWICZ: Is Matt Rush 13 available from Fort Lee? 14 MR. RUSH: I am here, yes. 15 MR. DRAIKIWICZ: Matt, could you 16 respond to the director's question regarding your 17 participation in next year's program and when you may intend to permanently finance the notes. 18 19 MR. RUSH: Steve Wielkotz, we would 20 need to discuss that, correct? 21 MR. WIELKOTZ: Yeah. I mean, Ι 22 would think that for the next year or two, Fort 23 Lee will continue with the program with the 24 county because it does save them a little bit of 25 money.

1 And again, as Bill was talking about 2 Englewood Cliffs is notes, notes, notes, and we 3 look for, you know, the drop off in debt service for old bond issues and then back fill with new 4 5 bond issues, so they should be in notes for the next, at least, two years. 6 7 I was going to add a MR. REINHARDT: 8 little bit. Our intention is to layer in our own 9 notes so that every third year we're permanently financing, so that the towns will be also be able 10 11 to jump on that program financing as well. We're 12 trying to make it as easy as we can to make for 13 them to jump on the series. 14 MS. SUAREZ: Makes sense. Thank 15 you. 16 MR. REINHARDT: You're welcome. 17 MS. SUAREZ: I guess the question 18 then for you, is does the county anticipate doing 19 this on like a two times a year going forward? 20 MR. REINHARDT: As of right now, 21 I don't see that changing. I think they yes. 22 love the reaction we're getting from the towns. 23 MS. SUAREZ: Okay. Great. I do not 24 have any other questions, so I will open it up 25 for the board members and the public to see if

there are any other questions or comments. 1 2 Hearing none, do we have a motion to 3 issue positive findings in an amount not to 4 exceed 250 million dollars and for the county 5 guaranty. 6 MR. JACKSON: I move it. 7 MR. AVERY: I second. 8 MR. BENNETT: I have Mr. Jackson. 9 With second by Mr. Avery. Miss Suarez? 10 MS. SUAREZ: Yes. 11 MR. BENNETT: Mr. DiRocco? 12 MR. DIROCCO: Yes. 13 MR. BENNETT: Mr. Close? 14 MR. CLOSE: Yes. Nice presentation. 15 Good program, John. 16 MR. REINHARDT: Thank you, Bill. 17 MR. BENNETT: Mr. Avery? MR. AVERY: 18 Yes. 19 MR. BENNETT: Miss Rodriguez? 20 MS. RODRIGUEZ: Yes. 21 MR. BENNETT: And Mr. Jackson? 22 MR. JACKSON: Yes. 23 MR. BENNETT: Motion approved. 24 MR. DRAIKIWICZ: Thank you, Director, as always. 25

MS. SUAREZ: Best of luck. The next 1 2 applicant appearing before the board today is the 3 Essex County Improvement Authority. 4 MS. GASPARINE: Good morning, Tricia 5 Gasparine from Chiesa, Shahinian and Giantomasi. We're bond counsel, and my partner, Dorit 6 7 Kressel, is also on. We have, from the 8 authority, executive director Steve Rother and 9 director of operations, Lucy Sapinski. John 10 Draikiwicz is special counsel. On behalf of the borrower and North 11 12 Star Academy Charter School, we have John Powell. 13 And I think Jack Frost might be on. He is 14 serving as borrower's counsel. 15 (At which time those wishing to 16 testify were sworn in.) 17 MS. GASPARINE: Thank you. Good 18 morning again. The ECIA proposed to issue its 19 charter school revenue bonds in a not to exceed 20 amount of 13 million dollars. The proceeds of the bonds will be loaned to a non profit 501C3 21 22 entity, NSA Central Avenue, LLC, in order to 23 refinance bonds issued in 2009 that have a 24 balloon payment coming due this December. 25 This refinancing was contemplated at

the time of the original deal. The 2009 bonds 1 finance the construction of a charter school 2 located on Central Avenue in Newark. 3 The borrower has leased that school to North Star 4 5 Academy Charter School of Newark, Inc. 6 The ECIA bonds will be secured by a 7 loan agreement between the ECIA and the borrower. 8 And the lease payments from the charter school to the borrower will be sufficient to pay the debt 9 service on the ECIA bonds. 10 11 The proposed amortization of the 12 ECIA bonds works well with the financial strength of the charter school. It's also within tax law 13 14 requirements with respect to the remaining useful 15 life of the refinance project facility and the weighted average maturity of the ECIA bonds. 16 17 Neither the credit of the ECIA, nor 18 the County of Essex is pledged to secure the ECIA 19 bonds. And for a little more about the charter 20 school, I will turn it over to John Powell. 21 MR. POWELL: Thank you. Good 22 morning, everybody. I'm pleased to talk on 23 behalf of North Star Academy. So North Star Academy was founded in 1997. We currently serve 24 25 over 6,500 students in 14 schools in grades

1 kindergarten through 12 in Newark.

Of our students, about 96 percent of identify as students of color, 85 percent are low income. Our charter has been renewed five times, most recently in 2021 for the period through the end of the 2026 school year.

7 At North Star Academy, we have a 8 culture that's focused on joy and rigor. We have 9 a history of strong academic performance and a 10 preparation for college success. We have out 11 performed state averages for grades three through 12 eight math and ELA testing.

We surpassed the national average and the college readiness benchmark on the SAT and our college graduation rates for graduates of North Star's high schools are approaching the rates of the highest income corporate tile in the U.S. which is our goal. With that, I'm pleased be ask the board to approve.

MS. SUAREZ: Thank you very much for that. The only one question that I have, and this is nothing on this, in particular, charter school. Anybody who has seen me chair the board knows that I always walk down the parade of horribles.

1 The one question I have is what 2 would the Improvement Authority be contemplating 3 in the worse case scenario should a future license not be renewed for the charter school. 4 5 MR. DRAIKIWICZ: If I may add, there 6 is, I believe, a mortgage on the property 7 provided as well. And the transaction is non 8 recourse to the authority, so if that 9 unforgivable item happened we would be able to foreclose or relet the property for other uses, 10 if that was the case. 11 12 So we'd have control over the 13 property in an amount able to secure the 14 authority's bonds. Again, not a recourse. 15 Financially, the authority would be fully satisfied. 16 17 MS. SUAREZ: Thank you. I'm going 18 to open it up to see if there are any questions 19 from the board or anyone from the public. 20 Hearing none, I'm going to ask for a 21 motion to issue positive findings for an amount not to exceed 13 million dollars. 22 23 MS. RODRIGUEZ: I make a motion. 24 Second. MR. AVERY: 25 MR. BENNETT: Moved by Miss

1	Rodriguez. Second by Mr. Avery. Miss Suarez?
2	MS. SUAREZ: Yes.
3	MR. BENNETT: Mr. DiRocco?
4	MR. DIROCCO: Yes.
5	MR. BENNETT: Mr. Close?
6	MR. CLOSE: Yes.
7	MR. BENNETT: Mr. Avery?
8	MR. AVERY: Yeah.
9	MR. BENNETT: Miss Rodriguez?
10	MS. RODRIGUEZ: Yes.
11	MR. BENNETT: And Mr. Jackson?
12	MR. JACKSON: Yes.
13	MR. BENNETT: Motion approved.
14	MS. GASPARINE: Thank you everybody.
15	MS. SUAREZ: Best of luck. The next
16	applicant that was on the agenda is the Trenton
17	Housing Authority, which has been deferred, so we
18	are going to move on to the final application on
19	the agenda today which is the Paterson City
20	Parking Authority.
21	MR. LANGHART: Good morning,
22	Director. Chris Langhart from McManimon,
23	Scotland and Baumann representing the Paterson
24	Parking Authority.
25	MS. SUAREZ: Great.

MR. LANGHART: Director, I think we 1 2 have Pete Nissen from Acacia representing the 3 authority as well. I believe John Cantalupo from the City of Paterson is on. And then we were 4 5 going to have Tony Perez, the executive Director and Manny Martinez who's on the administrative 6 7 staff on as well. 8 I just checked now, I don't know if 9 I see them on. We are running a little ahead of time, but I asked them to be on a little bit 10 early for our presentation, but if they're on, we 11 12 can swear them in. 13 (At which time those wishing to 14 testify were sworn in.) 15 MS. SUAREZ: Mr. Langhart, the floor 16 is yours. 17 MR. LANGHART: Okay, Director. Ι 18 just saw Manny Martinez and Tony Perez has joined I don't know if you want to swear them 19 us there. 20 in or move ahead with the presentation. 21 THE COURT REPORTER: They were sworn 22 in. 23 MR. LANGHART: Oh, they were? I'm 24 sorry. Thank you, Director, and thank you for all the members of the board. The Paterson 25

> Renzi Legal Resources (609) 989-9199 www.RLResources.com

1 Parking Authority is here before you for positive 2 findings for the Ward Street garage pursuant to 3 the Local Authorities Fiscal Control Law, Section 4 5A6 and related city guaranty under the Parking 5 Authority's Law, Section 40A:11A22(e).

Director, members of the board, you may remember we were here before you in December of last year for this same project. We're back before you for positive findings for the very simple reason that the cost has increased on the project.

Just to refresh our memories, I'll remind you. The Ward Street garage is a garage run by the authority and the City of Paterson. The old garage was obsolete and dangerous and it's been demolished.

So right now there is a vacant space Non the lot where that garage is. We are looking to finance and construct a new Ward Street garage on the same proper utility. We're going to do that by issuing three series of bonds.

There's a series of bonds we call the tax credit bonds and those bonds will be secured and monetized through 45.3 million of earned tax credits the authority has received 1 from the New Jersey EDA, a second series of bonds 2 that will be your typical parking revenue system 3 bonds that are paid for from the revenues to the 4 authority. We call those the gap bond.

5 They'll make up the difference in financing that the tax credit bonds do not cover. 6 7 And then there's a third series of bonds, a 8 refunding series of bonds in an amount to exceed 9 16 million that we're issuing to take out the 10 existing debt of the authority so that we can 11 adopt a new bond resolution as the old one has 12 kind of (inaudible) onerous covenants that bond 13 insurance have inserted over the years as the 14 authority has done its financing.

The 16 million in refunding bonds is also backed up by a city guaranty. Nothing is changing with the refunding portion, so we're not talking about that here. That stays the same. Phe two series of bonds we're talking about are the tax credit bonds.

Initially, the tax credit bonds, and I should say the parking revenue bonds. Initially, we came to you in December with a not to exceed amount for that aggregate portion of the financing of 44 million. We're back before you now asking you to increase that to 50 million. And the reason for that increase is two fold. One, when we started this project, the garage was not planned to have a sprinkler system, but construction code changes have now mandated that we put a sprinkler system in the garage.

8 We anticipate that's going to cost 9 another two million dollars to put that within 10 the existing framework. The second reason is 11 because, when we came before you last, we had 12 gone out for construction bids and we had a 13 winning bidder who was holding their bid.

However, earlier this year, due to However, earlier this year, due to the passage of time, they determined they could not the bid anymore. So we're going to have to go out and rebid the construction costs.

Our engineers have determined that 19 that is going to add, approximately, another two 20 million dollars to the project, so that two 21 million plus the two million for the sprinkler 22 increases is about 44 million.

We had originally come to you for 24 not to exceed 44 million. Now we're coming to 25 you for not to exceed 50 million. We've built a

little cushion into the cost because the board 1 2 has treated us great throughout this process, but 3 we don't want to keep coming back before you. I'm sure you don't want to keep hearing from us. 4 5 So we think the 50 million dollar construction cost, along with the related city 6 7 guaranty, we approached the city, and they have 8 agreed to, we're very much appreciative of the 9 fact that they have determined to guaranty the 10 new money of the full amount of the 50 million. 11 So at the end of the day, a new money financing for 50 million dollars, a 12 13 refunding for 16, total cost of 66 million 14 dollars. And the full amount is it city 15 guaranteed which is important because in our 16 talks we determined that going out to the market 17 with a full city guaranty on the entire project 18 will make this deal a lot more saleable in the 19 marketplace. 20 We have the executive Director. We 21 have the administrative staff, Manny Martinez and 22 Pete on to answer any questions you might have. 23 MS. SUAREZ: Thank you very much, 24 Mr. Langhart. I just want to discuss, I know we

25 talked about this a little bit in the premeeting.

What would happen if costs do increase again? 1 2 MR. LANGHART: So from the tone of 3 the conversations, and I welcome the authority to It's been my understanding that about 4 jump in. 5 50 million is as high as we can go on this 6 project. 7 If we start going beyond that, we're not sure it's able to be at that increased cost. 8 9 So for better or worse, we think this 50 million 10 dollar will be the upper most limit as to which 11 we can go to finance the project. 12 MR. NISSEN: And Chris, I think it's 13 worthwhile again, to point out, I think you 14 touched on this in your exposition. But the 15 analysis and the projected sizing do currently 16 provide about five million of room to the 17 expenses, the construction bids come in higher 18 than what we're projecting at this point, so 19 there is a buffer in there to begin with. 20 Obviously, we hope will not be 21 necessary, but there is a buffer in there before 22 we would exceed the amounts as authorized by the 23 city and is hopefully authorized by this board. 24 MR. LANGHART: Right. Thank you, 25 Pete. The 50 million is a not to exceed amount.

We're hopeful we don't reach that maximum amount. 1 2 MR. NISSEN: We're under 45 at the 3 moment in our sizing. 4 MS. SUAREZ: Thank you. I'm going 5 to open it up to questions to the other board members and anyone from the public who may have a 6 7 question or comment. 8 MR. JACKSON: Yes, Commissioner. Ι 9 have a couple questions. One is my recollection was that the law was changed or the statute was 10 11 changed in 2021 for the sprinklers. So I'm 12 wondering was that just a miss or -- because the 13 international code, I believe changed in 2021. 14 That's one question. 15 But my other question was, is just, 16 if I take the total cost now of the project, I 17 believe it's going to be 66 million. Is that 18 correct? 19 MR. LANGHART: Yeah. 20 MR. JACKSON: If I look at 750 21 spaces, that's \$88,000 per space. And even if I 22 take out a little bit for the retail, that seems 23 to be about double, damn near triple, of what 24 I've seen for Essex County build one in 2020 for 25 27,000 of space.

Hudson County just finished its 1 2 project with this new justice complex and I 3 believe that number was in the 36 to 37 thousand dollar range for the garage itself. They had 4 some site work that was substantial. 5 I can't understand \$88,000 per space 6 even when SWI did its most recent national 7 survey, the national number was 29,000 per space. 8 9 And if I add 30 percent, 40 percent for just being in the northeast, it doesn't come anywhere 10 11 near this number. 12 I'm trying to understand a 88 13 thousand dollar per space for a garage. I've 14 just never heard anything like that. 15 MR. NISSEN: Chris, can I address that one? 16 17 MR. LANGHART: Yes. 18 MR. NISSEN: So Mr. Jackson, the 19 project cost for the actual bricks and mortar 20 construction, the traditional construction costs, 21 we currently have estimated at just less than 37 million dollars. 22 23 The 66 million that you referred to 24 a moment ago is the total of the not to exceed 25 amounts that's authorized here between the

refunding component of this and the new money 1 2 component. So the new money component alone is 3 50. 4 The refunding is just addressing prior bonds. That's unrelated to the 5 construction of the new facility. The 50 million 6 7 itself is actually only projected currently to require a borrowing of 45 million. 8 9 And of that 45 million, roughly nine 10 million is made up of the debt service reserve 11 fund, which, under the expectation and hope of 12 course, that it's never drawn upon simply inures 13 back to the Parking Authority at the end of the 14 transaction leaving around 36 million, 37 million 15 as the fiscal construction cost. And Chris, we're what 750 spaces. 16 17 MR. LANGHART: Yes. 18 MR. NISSEN: I think we're somewhere 19 at half that amount that I believe you may have 20 quoted a moment ago, Mr. Jackson. 21 MR. JACKSON: So if I just take your 22 45, so you're at 48,000 per space. If I take 23 your --24 MR. NISSEN: How many spaces do we 25 have here again?

1 MR. LANGHART: Let me just double 2 check. 3 MR. JACKSON: My understanding is a total of 750. If I take your 36 million and 4 5 divide that by the 750, that's \$48,000 per space. I mean, even 48,000, I just never -- it just 6 7 seems like a really high number to me. 8 MR. LANGHART: Yeah, the spaces are 9 750 is what's proposed. 10 MR. NISSEN: Again, this does 11 include a component for retail facilities at the 12 bottom. It also includes estimates for the 13 demolition of the existing facility as well, each 14 of which constitutes several million dollars of 15 their own. 16 MR. LANGHART: Going back to your 17 first question about the sprinkler system. Ι 18 became aware of it when we did this new proposal. 19 I don't doubt that it did come in on the date you 20 said and may have not have been factored into the 21 cost estimate until recently. 22 MR. JACKSON: I just hope it doesn't 23 lead to, you know, it's a lot of wiggle room 24 there, and, you know, history suggests that if you got it, you have it. 25

And I'm just concerned that it's so 1 2 much above what we've seen lately in terms of 3 what these things cost, it's just concerning to 4 me. 5 MR. LANGHART: Yes, that's noted. 6 And again, as Pete was explaining, I think the 7 financing structure of this deal with the tax 8 credits, the system revenue bonds, related 9 reserves, that does increase the total project 10 cost. 11 When you look at the project cost 12 versus the construction, the actual bricks and 13 mortar cost, they're two different things. 14 MR. JACKSON: I understand that. I'm just working with the numbers that you guys 15 16 just gave us which was 36 million dollars. 17 Again, if I take that number and divide it by 18 750, that's \$48,000 a space. 19 And I've yet to see in New Jersey, 20 even more recently, anything over 40. And again, 21 most of them, Hudson County, mid 30's, more 22 recently. And the one from just four years ago 23 with sprinklers here in Essex was 27, but it was 24 900 spaces so there's some economies there. 25 In any event, I'm just concerned

about that. Thank you. 1 2 MR. CLOSE: Mr. Langhart, I'd have 3 to echo Mr. Jackson's comments about the price 4 per, the cost per space and the price per square 5 foot based on what we see as averages, national 6 averages also north Jersey. 7 It seems -- it seems high compared 8 to what is out there and I would presume that was 9 addressed in your report. 10 How does it compare to what was 11 originally estimated and what was estimated with 12 the revised request we're seeing in front of us 13 now. 14 MR. LANGHART: We'd have to go back 15 and probably put that together for the board, Commissioner. 16 17 MR. CLOSE: Okay. Thank you. 18 MR. AVERY: Does the Parking 19 Authority have an estimate of what the cost of 20 the retail space is going to be? 21 MR. NISSEN: Chris, I think we got 22 from the engineer -- it's broken down by category 23 of materials, you know, things of that nature, 24 concrete, rebar, things of that nature. 25 I'm not sure that it delineates in

that last one there. But if it isn't, I'm sure 1 2 we could get it prepared to delineate the retail 3 floor estimated cost component of the overall cost component, which again, we emphasize is 4 5 still an estimate and being compared for competitive bid. 6 7 MR. AVERY: I understand. I just 8 thought perhaps there was a separate estimate of 9 the retail space versus the parking space. Ι 10 assume it's different fit and finishes and so 11 forth and so on. 12 MR. NISSEN: Yes. I'm certain it's 13 something that we could break down separately. 14 My recollection, from the last review of the engineer's report, had been that it's not broken 15 out that way, but --16 17 MR. LANGHART: Yeah, I'm just 18 looking for it right now, Commissioner. I'm 19 looking at the report. I don't think that is 20 broken out, but we can certainly get it. 21 MR. AVERY: I share my colleague's 22 concern, when that's a big number per parking 23 space compared what I've seen in other projects. 24 MR. LANGHART: Understood. 25 MR. JACKSON: If I may, what was the

number that the previous contractor wasn't 1 2 willing to hold? What number was that? 3 MR. NISSEN: That was, approximately, 5 million less net, Chris? 4 5 Approximately? 6 MR. LANGHART: I think so, yeah. We 7 might have that in the spreadsheet from last 8 time. We can get that exact number. I don't 9 want to guess as I'm searching through emails. 10 MS. SUAREZ: Then hearing some of 11 the questions and concerns, and it sounds like 12 some things would also need to be compiled and 13 provided to the board, perhaps it's best if we 14 table for now and get the components that we just 15 talked about regarding the cost per space and the 16 breakdown of the retail components. And that way 17 the board is in a better position to make a 18 finding here. 19 MR. LANGHART: Yes, we'll put that 20 for you, Director, and we'll send that over. 21 MS. SUAREZ: Great. Then I'm going 22 to ask for a motion to table pending those two 23 items. 24 MR. CLOSE: So moved. 25 MR. JACKSON: Second.

MR. BENNETT: Mr. Close moves, Mr. 1 2 Jackson seconds. Miss Suarez? 3 MS. SUAREZ: Yes. 4 MR. BENNETT: Mr. DiRocco? 5 MR. DIROCCO: Yes. MR. BENNETT: Mr. Close? 6 7 MR. CLOSE: Yes. 8 MR. BENNETT: Mr. Avery? 9 MR. AVERY: Yes. 10 MR. BENNETT: Miss Rodriguez? 11 MS. RODRIGUEZ: Yes. MR. BENNETT: And Mr. Jackson? 12 13 MR. JACKSON: Yes. 14 MR. BENNETT: Motion is approved. 15 MR. LANGHART: Director, in terms of 16 timing, does that mean we come back next month for a final vote or can that happen in the 17 18 interim? 19 MS. SUAREZ: Procedurally, Nick, 20 would have to wait until next month? 21 MR. BENNETT: I could poll the 22 members to see if they would be available for a 23 special meeting between now and the October 9th 24 date. 25 MR. LANGHART: I don't know if

that's necessary yet. Although I do appreciate 1 2 the offer. I was just trying to figure out the 3 path going forward. Thank you. 4 MS. SUAREZ: It would have to be 5 during a board meeting, yes. 6 MR. LANGHART: Okay. 7 MS. SUAREZ: Thank you for your time. And we will look out for those two 8 documents. The sooner you get them in, the 9 10 better then. 11 MR. LANGHART: Appreciate it. Thank 12 you very much. 13 MS. SUAREZ: That concludes the 14 board's agenda. I'm going to ask for a motion to 15 adjourn. 16 MR. CLOSE: So moved. 17 MR. JACKSON: Second. 18 MR. BENNETT: Mr. Close and Mr. 19 Jackson. Miss Suarez? 20 MS. SUAREZ: Yes. 21 MR. BENNETT: Mr. DiRocco? 22 MR. DIROCCO: Yes. 23 MR. BENNETT: Mr. Close? 24 MR. CLOSE: Yes. 25 MR. BENNETT: Mr. Avery?

1	MR. AVERY: Yes.
2	MR. BENNETT: Miss Rodriguz?
3	MS. RODRIGUEZ: Yes.
4	MR. BENNETT: And Mr. Jackson?
5	MR. JACKSON: Yes.
6	MR. BENNETT: And we are adjourned.
