NJHMFA ENERGY BENCHMARKING TECHNICAL MANUAL
EXECUTIVE SUMMARY

This technical manual provides guidelines for building managers to successfully benchmark and report their energy usage to the New Jersey Housing and Mortgage Finance Agency (HMFA). Benchmarking is necessary for HMFA to assess sustained performance and compare each building to similar building types on their sustained performance, track the overall progress of efficiency upgrades, and effectively allocate our resources to proven models. Collected benchmarking data will be used to facilitate efficient analysis of energy performance for better management of energy usage, decreased energy expenditures, identify interesting energy use trends over time, decreased carbon emissions, and comparison of energy usage among similar locations and building types. It will allow HMFA to quantitatively compare energy usage in the newer buildings vs. the older buildings and the energy usage in the HMFA buildings that have incorporated energy efficiency measures vs. the buildings that have not received energy efficiency improvements.

DEFINITION OF ENERGY BENCHMARKING

Energy benchmarking is the process of analyzing energy usage over time and comparing the total use to the total cost. Because energy usage is affected by changes in temperature, benchmarking incorporates hot and cold weather data in order to determine the peak usage periods over time. The final results are generally expressed based upon square foot use. This allows for multiple buildings to be aggregated and compared. It is a good measurement for evaluating building energy performance based on the type of building, occupancy, fuel source(s), location, weather, etc.

PURPOSE OF ENERGY BENCHMARKING

The purpose for benchmarking the energy performance of the buildings within the HMFA portfolio is to gain a better understanding of how the buildings use their energy and whether the energy efficiency measures that have been implemented within our buildings have realized their expected energy savings. It will also help us understand how our buildings are performing compared to similar buildings in other states. This analysis also has implications that can guide how HMFA provides financing in the future by:

1. Identifying properties that could benefit from energy efficiency upgrades;
2. Providing guidance for future energy efficiency program development;
3. Providing an underwriting basis for expected utility cost reduction achieved through energy efficiency and renewable energy programs
GETTING STARTED

The following instructions will guide you through the process of collecting the utility data, granting HMFA access to the information, and uploading the information online through the EPA Portfolio Manager system.

IMPORTANT NOTES:

- In order to qualify for this point, the application shall include a copy of the completed, signed and submitted letter of intent from the developer to NJHMFA.

- Prior to issuance of the 8609, developer/owner will submit a signed energy benchmarking utility release form for all common area meters (gas, oil, and electric, etc.), provision of certain project data (square footage per building, mechanical systems installed, etc.) and signed energy benchmarking utility release forms for a minimum of 50% of tenants rented up at time of 8609 issuance for new construction, or a minimum of 30% of each unit type for renovation projects, at time of 8609 issuance. Applicant is required to include the tenant utility release form as a part of the lease agreement.

- For the next three years following issuance of the 8609 for new construction, the applicant will ensure that the required percentage of tenants have viable utility release forms (or provide documentation of the efforts to obtain such forms); or for renovation projects, for 1 year prior and 2 years after the work is completed. For both new construction and renovation projects, common area utility data shall also be uploaded into the EPA Portfolio Manager (www.energystar.gov/benchmark).

- NJHMFA does not provide additional, set-aside funding for Green Items covered by this program.

SUBMIT ALL REQUIRED DOCUMENTATION AFTER A TAX CREDIT ALLOCATION TO:

Please send all required documents to:

PROCEDURES

Use the following checklist as a guide as you benchmark the building and tenant utility usage.

☐ **STEP 1**: Sign and submit Letter of Intent to HMFA

☐ **STEP 2**: Set-up meeting and/or conference call with HMFA’s Technical Services Division.

☐ **STEP 3**: Gather building and space attribute information using the **HMFA ENERGY BENCHMARKING SURVEY FORM**.

☐ **STEP 4**: **COMPLETE AND SIGN** the **BUILDING OWNER UTILITY RELEASE FORM**

☐ **STEP 5**: Have the tenants **COMPLETE AND SIGN** the **TENANT UTILITY RELEASE Form**

☐ **STEP 6**: Collect **12 CONSECUTIVE MONTHS** of **BUILDING UTILITY BILLS**

☐ **STEP 7**: Create a building profile in **PORTFOLIO MANAGER (SEE APPENDIX B)**
  
  ○ Portfolio Manager Username (do not submit to HMFA): __________________________
  
  ○ Portfolio Manager password (do not submit to HMFA): __________________________

☐ **STEP 8**: Upload **BUILDING** utility data into **PORTFOLIO Manager**
  
  (www.energystar.gov/benchmark)

☐ **STEP 9**: Input Property Information & Send Invite to Share Property with NJHMFA

☐ **STEP 10**: Submit the following items to HMFA
  
  ○ HMFA Benchmarking survey form
  
  ○ Tenant and Building utility release forms (50% of Total # of Tenants for new construction and at least 30% of each unit type for renovation projects)
LETTER OF INTENT – ENERGY BENCHMARKING INITIATIVE

Please e-mail a signed copy of this page to NJHFMA Technical Services and include in Tax Credit Application.

By signing this document, I certify the following (“we” refers to the applicant organization):

1. We have received and reviewed the Program’s materials, consisting of the ‘2020 Green QAP Requirements’ and ‘Energy Benchmarking’ documents, which includes the Letter of Intent, Building Utility Release Form and Survey, and Tenant Utility Release Form.

2. We understand that a meeting with Technical Services is required within three (3) months of the Tax Credit Award Date.

3. We understand that prior to issuance of the 8609 we will submit a signed energy benchmarking utility release form for all common area meters (gas, oil, and electric, etc.), provision of certain project data (square footage per building, mechanical systems installed, etc.) and signed energy benchmarking utility release forms for a minimum of 50% of tenants rented up for new construction, or a minimum of 30% of each unit type for renovation projects, at time of 8609 issuance.

4. We understand for the next three years after new construction, we will ensure that at least 50% of all tenants have viable utility release forms; or for renovation projects, for 1 year prior and 2 years after the work is completed, we will ensure that for at least 30% of each unit type, we will collect the utility data from the applicable utility company on a semi-annual basis.

5. We understand that Clean Energy Program compliance is a prerequisite to participation in the LIHTC Green Point program. I will comply with ENERGY STAR, or other applicable requirements, as indicated in the LIHTC QAP section (c)8 and 2020 ENERGY STAR letter of intent.

6. If requested we will allow NJHMFA staff access to the project site pre, during and post construction for the purpose of but not limited to: project monitoring, performance testing, interviews, surveys and photographs.

7. I am an authorized representative of the organization.

Building Owner Utility Release Form

Authorization for NJHMFA to Receive Customer Utility Data

To Whom It May Concern:

By signing this release form, the property owner (Owner) grants the New Jersey Housing and Mortgage Finance Agency (NJHMFA) and its designee, a consultant for this initiative, permission to access utility data information for the past one (1) year of (if applicable) and for the following three (3) years from this date for the development/building referenced below. The utility data includes energy consumption, energy demand, energy cost, as well as associated fees and taxes for each billing period. This information will be used to track energy efficiency and consumption of the building indicated below for the express purpose of measuring the success of past energy upgrades, comparing building performance to similar building types and determining need for future energy efficiency improvements.

I am an authorized representative for the development and building listed below and account(s) listed on the following page(s), totaling ____ pages, and represent and warrant that I have full authority to execute this release form on behalf of the Owner. Owner understands that the information obtained as part of this initiative may be released by the NJHMFA to other participating developments upon request for comparison purposes. Comparison reports compiled by the NJHMFA for this program and provided to other developments will not include this development’s name or address. Owner understands and acknowledges that such information may be subject to release under the Open Public Records Act, N.J.S.A. 47:1A-1 et seq., or other applicable law. Owner understands that each applicable utility provider (Utility) reserves the right to verify this authorization request.

Owner authorizes the Utility to release the requested information on Owner’s account or facilities to the NJHMFA or its designee. Owner hereby releases, holds harmless, and indemnifies the NJHMFA and the Utility from any liability, claims, demands, causes of action, damages, or expenses as a result of, but not limited to: 1) any release of information to NJHMFA or its designee pursuant to this Utility Release; or 2) the unauthorized use of this information by NJHMFA or its designee.

Sincerely,

Authorized Representative (signature):____________________________________________________________

Please print clearly.

Tenant Utility Release Form

Authorization for NJHMFA to Receive Customer Utility Data

Date: ___________________________

To Whom It May Concern:

By signing this release form, the tenant (Tenant) grants the New Jersey Housing and Mortgage Finance Agency (NJHMFA) and its designee (a consultant for this initiative) permission to access utility data information for the past one (1) year of (if applicable) and for the following three (3) years from this date for the unit referenced below. Utility data includes energy consumption, energy demand, energy cost as well as associated fees and taxes for each billing period. This information will be used to track energy efficiency and consumption of the building indicated below for the express purpose of measuring the success of past energy upgrades, comparing building performance to similar building types and determining need for future energy efficiency improvements.

I am an authorized representative for the unit and account(s) listed below and represent and warrant that I have authority to execute this release. Tenant understands that the information obtained as part of this initiative may be released by the NJHMFA to other participating developments upon request for comparison purposes. Comparison reports compiled by the NJHMFA for this program and provided to other developments will not include tenant’s information or this development’s name or address. Tenant understands and acknowledges that such information may be subject to release under the Open Public Records Act, N.J.S.A. 47:1A-1 et seq., or other applicable law. Tenant understands that each applicable utility provider reserves the right to verify this authorization request.

Tenant authorizes the Utility to release the requested information on Tenant’s account to the NJHMFA or its designee. Tenant hereby releases, holds harmless, and indemnifies the NJHMFA and Utility from any liability, claims, demands, causes of action, damages, or expenses as a result of, but not limited to: 1) any release of information to NJHMFA or its designee pursuant to this Utility Release; or 2) the unauthorized use of this information by NJHMFA or its designee. Tenant understands that he/she may cancel this authorization at any time by submitting a written request to both the Utility and NJHMFA.

Sincerely,

Authorized Representative (Tenant signature) ____________________________________________

Tracking Your Energy Performance

Portfolio Manager is an online, interactive energy management tool that allows you to measure and track your building’s energy and water consumption, identify investment priorities, and verify improvements over time. Multifamily housing communities can use Portfolio Manager to track weather-normalized energy use intensity (EUI), energy costs, greenhouse gas emissions, and water consumption.

USE PORTFOLIO MANAGER STEP-BY-STEP

<table>

<th>ACTION</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>Access Portfolio Manager</td>
<td><a href="http://www.energystar.gov/benchmark">www.energystar.gov/benchmark</a></td>
</tr>
</tbody>
</table>
| 2    | Access your account  
   - Create a new account  
   - Login to an existing account |  
   - Click REGISTER.  
   - Enter user name and password and click LOGIN. |
| 3    | Review system updates and enter your account | Click ACCESS MY PORTFOLIO. |
| 4    | Add a new facility | Click ADD a Property. |
| 5    | Select property type and enter general facility information | From the “Add a Property” screen, most users will select “A single facility for which my organization owns or manages 90% or more of the floor area.” This is the case even for garden or townhouse properties with multiple buildings. Only select the last option (“A campus or other collection of multiple facilities at the same geographic location”) if you have multiple multifamily buildings, all on the same master meter. Click CONTINUE, enter General Facility Information, and then click SAVE. |
| 6    | Enter space use data | Go to “Space Use” section and click ADD SPACE.  
   - Enter a facility name. In the “Select a Space Type” menu, select “Multifamily Housing.” Enter an effective date. Click CONTINUE.  
   - Enter space data. Enter total gross square footage (including both common area and apartment space) even if you are only entering common area energy data. The other space use questions are voluntary, but it is highly encouraged to enter optional space use information. Click SAVE. |
| 7    | Enter energy use data | Go to “Energy Meters” section and click ADD METER.  
   - Enter meter name, type, and units. Click SAVE.  
   - Enter number of months and start date. Click CONTINUE.  
   - Enter energy use and cost. Click SAVE.  
   Repeat for all energy meters and fuel types. |
| 8    | Set metering configuration | Underneath the “Energy Meters” section, click SET METERING CONFIGURATION.  
   - Select appropriate option from radio button list. Click SAVE.  
   - See Features section for additional guidance. |
| 9    | Review and interpret results | Go to “Facility Performance” section and review your results. More information is provided on pages two and three of this guide. |
| 10   | Manage account | Share data and perform other administrative tasks. |
