NEW JERSEY NATIONAL AFFORDABLE HOUSING TRUST FUND

Type of Assistance:	
Description:	The National Housing Trust Fund (HTF) is exclusively targeted to help build, preserve, rehabilitate, and operate housing affordable to people with the lowest incomes. In 2016, the first \$174 million in HTF dollars were allocated to states. To date, the states have received over \$1.2 billion in HTF funds. The HTF is the only federal housing program exclusively focused on providing states with resources targeted to serve households with the clearest, most acute housing needs.
Funding Source:	Because the HTF is funded outside of the appropriations process, it has no cost to the federal government. By statute, the initial source of funding for the HTF is a slight fee (0.042%) on Freddie Mac and Fannie Mae activity, only 65% of which goes to the HTF.
Assistance Provided To:	Non-profit or For-profit Affordable Housing Developers that demonstrate strong financial, organizational, and development capacity.
Other Information:	Because the HTF is administered by HUD as a block grant, each state has the flexibility to decide how to best use HTF resources to address its most pressing housing needs. States decide which developments to support.
