

CSOC Stakeholder Convenings: Topic Areas

This document is intended to provide additional context for convening participants. It will continue to be updated as appropriate throughout the convening series.

Convening one: Promote integrated health and behavioral health

Goals:

- Establish collaborative primary care/behavioral health care management models
- Strengthen delivery of integrated care for co-occurring emotional/substance use/intellectual and developmental disabilities

Current related activities:

- Behavioral Health Homes
- Pediatric Psychiatry Collaborative
- Aligning Early Childhood with Medicaid technical assistance project

Opportunities for innovation:

- 0-3 screening, care coordination and care management in the primary care setting
- Infant Mental Health Integrated BH/Medical Care Management for DCP/CSOC youth

Convening two: Build capacity to deliver evidence-based and best practice interventions and services

Goals:

- Support and sustain a healing-centered culture across child and family-serving systems
- Identify, implement, support, and evaluate well-supported or supported interventions and practices to improve outcomes for children and families

Current related activities:

- PPS and Nurtured Heart
- ARC-GROW
- MFT/FFT-FC
- Family First Act Implementation
- Second Floor/Crisis Text Line/TLC
- FBR pilot
- SUD/DCPP certificate program
- Statewide expansion of PRSS

Opportunities for Innovation:

- CSOC SUD service and practice model realignment
- Psychiatry residency program

Convening three: Enhance CSOC capacity to ensure equitable access

Goals:

- Increase systems navigation and informed decision-making resources for families
- Understand the effect of disparities within the children’s system of care and implement effective strategies to eliminate inequities

Current related activities:

- Consumer education materials for I/DD families – eligibility process and systems navigation

Opportunities for Innovation:

- I/DD Family Liaison FSO capacity development
- Dedicated I/DD systems navigators
- Plans of Safe Care consumer education campaign
- SDoH claiming data collection and analysis

Convening four: Refinement and Prioritization

This session will be used to discuss ideas generated in sessions one through three and identify next steps.
