The New Jersey Department of Children and Families' (DCF) announces the availability of up to \$500,000 in funding provided through the Child Advocacy Center- Multidisciplinary Team Advisory Board for funding existing and planned child advocacy centers in New Jersey. Funding is available up to \$500,000 for up to 21 awards. The funds for these projects will need to be obligated by June 30, 2019 for treatment services that are consistent with the standards set forth in Exhibit C as the "National Children's Alliance • Standards for Accredited Members • 2017 Edition" standards for child advocacy centers. Grants will be one-time funding. All funding shall be subject to the appropriation of sufficient funds and the availability of sufficient resources. Funding shall be provided to those applicants that demonstrate a need for services consistent with the requirements in Exhibit C.

An Applicant for treatment service funds for a County WITHOUT a CAC must be applying for funds to provide treatment services at a new CAC and meet the following organizational requirements:

1) as part of a County Government or Prosecutor's office or 2) a non-profit corporation that is duly registered to conduct business within the State of New Jersey and is affiliated with a County Prosecutor's Office or 3) a county Multidisciplinary Diagnostic Team (MDT) affiliated with a county prosecutor's office.

An Applicant for treatment service funds for a County WITH a CAC must be:

1) an existing CAC operating as part of a County Government or Prosecutor's office or 2) an existing CAC operating as a non-profit corporation that is duly registered to conduct business within the State of New Jersey and is affiliated with a County Prosecutor's Office or 3) an existing CAC operated by a county Multidisciplinary Diagnostic Team (MDT) affiliated with a county prosecutor's office.

B. Background:

The Department is charged with serving and safeguarding the most vulnerable children and families in the State and our mission is to ensure the safety, well-being and success of New Jersey's children and families. For the purpose of this Request for Proposal (RFP), Treatment Services a Child Advocacy Center (CAC) is defined as a separate, child focused space designed to provide a safe, comfortable and neutral place where forensic interviews can be conducted, and other services can be provided for children and families. CACs range from small, refurbished houses, to a renovated wing of a county office building or community hospital, to newly built facilities. A physically safe space is central to the creation of a child- focused setting. The location and services must be accessible and tailored to meet the individualized and unique needs of children and families regarding culture, development, and special needs throughout the investigation, intervention, and case management processes. The space in which the services are provided are unique and must adhere to the National Children's Alliance • Standards for Accredited Members • 2017 Edition as described in Exhibit C.

C. Services to be Funded:

The grantee for this program may propose to provide, initiate and/or coordinate the following services as part of an existing CAC or CAC in development.

Treatment Services: Funds secured through this RFP are to be used to support the provision of treatment services for children who are not otherwise being served by DCF's Division of the Children's System of Care or Division of Child Protection and Permanency. Proposals to engage bi-lingual therapists will be given priority. In the past funds have been provided for the following services as examples:

- Hire Bi-Lingual (Spanish and English) Clinical Counselor and Child Advocate for clinical program to provide extensive trauma focused clinical counseling.

- Hire new or continue present two clinical therapists for clinical programs to provide trauma focused mental health services.

- Hire part time Intake and Treatment Coordinator who will provide intake and treatment coordination to meet the needs of the MDT. The ideal candidate will be Bi-Lingual in Spanish and English.

Counties WITHOUT a CAC:

Applicant Pre-Requisites:

An Applicant for treatment funds for a County WITHOUT a CAC must submit a separate Response to DCF's RFP for Capital Funds in order for its Response for Treatment Funds to be considered. In addition, the Applicant must be:

1) as part of a County Government or Prosecutor's office or 2) a not for profit corporation that is duly registered to conduct business within the State of New Jersey and is affiliated with a County Prosecutor's Office or 3) a county Multidisciplinary Diagnostic Team (MDT) affiliated with a county prosecutor's office.

It is understood that a variety of services may already be available for victims of child abuse such as forensic interviewing or support services in any given county. In counties without a defined space dedicated as a child advocacy center, this RFP permits an application for funds for the development of a treatment services in an identified safe comfortable and neutral space in which forensic interviews are to be conducted and other services or supports may be provided.

The Applicant's proposal for treatment services must: identify the proposed location and indicate how it will be ADA accessible; include information about transportation assistance, travel distances, availability of parking, public transportation; and describe how welcoming a particular neighborhood is for clients of diverse cultural and socioeconomic backgrounds as outlined in Exhibit C.

The Applicant's treatment proposal must include, at a minimum, space to accommodate forensic interviewing and the design must be consistent with or moving towards the Accreditation Standards as set forth in Exhibit C. The Applicant's proposal must also include its staffing plan for conducting forensic evaluations at the proposed CAC location and the revenue source for those staff and any other staff to be assigned to the CAC.

Exhibit C-CRITERIA - Essential Components

National Children's Alliance • Standards for Accredited Members • 2017 Edition

A. The CAC is a designated, task-appropriate facility which aligns to the following criteria:

1. The CAC is maintained in a manner that is physically and psychologically safe for children and families.
2. The CAC provides observation or supervision of clients within sight or hearing distance by CAC staff, MDT members or volunteers at all times.
3. The CAC is convenient and accessible to clients and MDT members.
4. Areas where children may be present as well as toys and other resources are "childproofed," cleaned, and sanitized to be as safe as possible.

STATEMENT OF INTENT:

The CAC has an identified, separate, child focused space designed to provide a safe, comfortable and neutral place where forensic interviews can be conducted, and other services can be provided for children and families. CACs range from small, refurbished houses, to a renovated wing of a county office building or community hospital, to newly built facilities. A physically safe space is central to the creation of a child- focused setting. This can be a challenge as centers are host to children of a variety of ages and developmental stages. Materials and center furnishings should be selected with this in mind. To assure a physically and psychologically safe environment, children and families must be observed or supervised by CAC staff, MDT members, or volunteers ensuring that they are within sight or hearing distance at all times. Some CACs are built so that the waiting room can be seen from the receptionist's desk. Other CACs have volunteers scheduled to supervise play in the waiting room whenever the center is open for clients. When planning the location of a center, it is important to evaluate the site's accessibility for clients and MDT partner agencies. Considerations should include transportation assistance, travel distances, availability of parking, public transportation, and how welcoming a particular neighborhood is for clients of diverse cultural and socioeconomic backgrounds. Additionally, planning should include consideration for clients who will return to the center for ongoing services such as follow-up meetings, medical appointments, or therapy services.

B. The CAC has, and abides by, written policies and procedures that ensure separation of victims and alleged offenders.

STATEMENT OF INTENT:

The CAC has written policies and procedures that ensure the separation of victims and alleged offenders during the investigative process and as appropriate throughout delivery of the full array of CAC services. During the investigative process, logic dictates that children will not feel free to disclose

abuse if the alleged offender accompanies them to the interview and/or remains on-location throughout the duration of intervention. This separation of children from alleged offenders should also extend to children and perpetrators in unrelated cases. If a CAC shares space with an existing agency that provides services to offenders, facility features and scheduling must assure separation between children and family members and alleged offenders. Many CACs serve a vital role in their communities by providing services to children with problematic sexual behaviors. CACs that offer services to this population should have policies and procedures in place to maintain physical and psychological safety for child victims and their families. This includes protected service times during which child victims are not at the center, separate entrances and waiting areas, or off-site services through linkage agreements.

C. The CAC makes reasonable accommodations to make the facility physically accessible.

STATEMENT OF INTENT:

Not all centers are located in custom-designed or new buildings; however, CACs should make reasonable accommodations to make the facility physically accessible to clients and family members as needed. If the CAC cannot be structurally modified, arrangements for equivalent services should be made at alternate locations. CACs must be in compliance with guidelines stipulated in the Americans with Disabilities Act (ADA) and/or state legislation.

D. The facility allows for live observation of interviews by MDT members.

STATEMENT OF INTENT:

Multiple interviews and/or interviewers are often stressful for children, particularly those children already experiencing trauma. In lessen or eliminate the need for duplicative interviews, interviews should be observed by MDT members in a space other than the interview room, whether or not interviews are recorded. The MDT should also have the ability to communicate with the interviewer in some manner to provide input and feedback during the live interview with the child.

E. Separate and private area(s) are available for case consultation and discussion, for meetings or interviews, and for clients awaiting services.

STATEMENT OF INTENT:

To assure a physically and psychologically safe environment for children and families, confidentiality and respect for client privacy is of paramount concern in a CAC. It is not acceptable for team members or CAC staff to discuss cases with children or families at a location where visitors or others not directly involved with the case may overhear them. Separate areas should also be made available for private family member interviews and so

that individual family members may privately discuss aspects of their case. Care should be taken to assure that private meeting areas are not only physically separate, but also soundproofed so that conversations cannot be overheard. Some centers place soundproofing materials in walls when building or refurbishing their centers. Others place stereos or “white noise” machines in rooms to block sound.
