Breakout Table Discussion Questions

1. Which initiatives, projects and/or programs presented in the Scoping Document should the state prioritize for funding? Why?

2. Are there other funding priorities not listed in the Scoping Document that should be considered? Why?

- 3. How can clean energy projects best serve low- and moderate-income communities by providing access to renewable energy and energy efficiency, if our goals are to:
 - a. Reduce emissions in those communities;
 - b. Reduce overall electricity consumption; and
 - c. Reduce costs for low- and moderate-income customers?

- 4. Do you have a preference for:
 - a. Dividing the auction funds among different programs/projects for low- and moderate-income community(ies) (if so, why?); or
 - b. Dedicating them to one single project/program (if so, why?)

5. Should NJBPU incorporate a jobs-training or apprenticeship component into one or more LMI projects? If so, how could such a program best be formatted and executed?

6. How should we measure the success of the projects once they are implemented? What metrics are most effective? What would success look like to you?
