

TRANSPORTATION

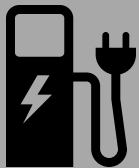

TIPS

Invest in bike racks to promote biking to work

Rethink your meetings, opt for web and teleconferencing

Install workplace charging stations for electric vehicles

Purchase alternative fuel vehicles for your fleet

Optimize delivery routes with management software

Offer a commuter benefits plan for public transportation

In 2009, **Nauna's Bella Casa** in Montclair was **the first New Jersey business to install public charging stations for electric vehicles.** In 2015, they expanded their commitment by installing the **first public fast charge station in the state.** Fast charge stations can **recharge** a typical electric car to **80% in about 30 minutes.** [Learn More](#)

.....
Terhune Orchards in Princeton uses several strategies to reduce its transportation footprint. Terhune purchased two five-passenger pickup trucks for farm workers, **nine electric carts** to travel around the property and **a plug-in electric car.** [Learn More](#)
