

WATER

TIPS

Encourage the use of reusable water bottles

Install low-flow fixtures and aerators in bathrooms

Install rain barrels and rain water catchment systems

Upgrade to touchless sensor faucets

Check for leaks and make repairs immediately

Upgrade to water efficient commercial and industrial equipment

Humanscale, a designer and manufacturer of ergonomic products in Piscataway, NJ, installed a rainwater catchment system. Rainwater is collected and utilized for manufacturing processes. On average, the rainwater harvesting system saves approximately **2,603 gallons** of water every year. [Learn More](#)

The **Carroll Villa Hotel**, located in the heart of Cape May's historic district installed low flow shower heads in its guest rooms to reduce water usage. Annually, this retrofit saves over **20,000 gallons** of water and reduces its water bills by over **\$500**. [Learn More](#)
