

# HOUSEHOLD HAZARDOUS WASTE

Household Hazardous Waste is any unwanted household product labeled as flammable, toxic, corrosive, or reactive.

## Common Products Include:

aerosols, anti-freeze, asbestos, fertilizers, motor oil, paint supplies, photo chemicals, poisons, and solvents.

Improper disposal of these products can harm the environment in many ways and poses a risk to workers in the waste collection business should these items be placed into the trash.

## WHAT YOU CAN DO

Set aside household hazardous waste items and look to your county's recycling webpage for the dates and locations of future Household Hazardous Waste Drop-off Days and dispose of these dangerous materials safely at these free events.

Find your county's recycling webpage at, [nj.gov/dep/dshw/recycling/county\\_websites.htm](http://nj.gov/dep/dshw/recycling/county_websites.htm) and help to keep these hazardous materials out of our waste stream.

Learn more about recycling at [recycle.nj.gov](http://recycle.nj.gov).
