IN THE MATTER OF CERTAIN AMENDMENTS
TO THE ADOPTED AND APPROVED SOLID
WASTE MANAGEMENT PLAN OF THE
GLOUCESTER COUNTY SOLID WASTE
MANAGEMENT DISTRICT

CERTIFICATION
OF THE SEPTEMBER 20, 2006
AMENDMENT TO THE GLOUCESTER COUNTY
DISTRICT SOLID WASTE MANAGEMENT PLAN

#### BY ORDER OF THE COMMISSIONER:

#### A. Introduction

The New Jersey Solid Waste Management Act (N.J.S.A. 13:1E-1 et seq.) established a comprehensive system for the management of solid waste in New Jersey. The Act designated all twenty-one (21) of the state's counties, and the Hackensack Meadowlands District, as Solid Waste Management Districts, and mandated that the Boards of Chosen Freeholders and the Hackensack Meadowlands Development Commission (now the New Jersey Meadowlands Commission) develop comprehensive plans for waste management in their respective districts. On September 26, 1980, the Department of Environmental Protection (Department or DEP) approved, with modifications, the Gloucester County District Solid Waste Management Plan (County Plan).

The Act requires that all district plans be based on and accompanied by a report detailing the existing waste disposal situation in the district, and a plan which includes the strategy to be followed by the district in meeting the solid waste management needs of the district for a ten-year planning period. The report must detail the current and projected waste generation for the district, inventory and appraise all facilities in the district, and analyze the waste collection and transportation systems which serve the district. The disposal strategy must include the maximum practicable use of resource recovery techniques. In addition to this strategy, the plan must designate sufficient available suitable sites for the disposal of the district's waste for a ten-year period.

The Act further provides that a district may review its County Plan at any time and, if found inadequate, a new County Plan must be adopted. The Gloucester County Board of Chosen Freeholders (County Freeholders) completed such a review and on April 19, 2006, adopted an amendment to its approved County Plan.

The September 20, 2006 amendment proposed County Plan inclusion of Smith Brothers, Inc. Class B and Class C recycling center to be located at Block 57, Lot 1, in Harrison Township and Block 1, Lot 1, in Elk Township.

The amendment was considered administratively complete for review by the Department on November 13, 2006 and copies were distributed to various administrative review agencies for review and comment, as required by law. The Department has reviewed this amendment, and has determined that the amendment adopted by the County Freeholders on September 20, 2006 is approved as provided in N.J.S.A. 13:1E-24.

# B. Findings and Conclusions with Respect to the Gloucester County District Solid Waste Management Plan Amendment

Pursuant to N.J.S.A. 13:1E-24a(1), I have studied and reviewed the September 20, 2006 amendment to the County Plan according to the objectives, criteria, and standards developed in the Statewide Solid Waste Management Plan and I find and conclude that the amendment is consistent with the Statewide Solid Waste Management Plan. In this regard, the County Freeholders are notified of the issues of concern relative to the September 20, 2006 amendment, which are included below.

In conjunction with the review of the amendment, the Department circulated copies to seventeen administrative review agencies and solicited their review and comment. Pursuant to N.J.S.A. 13:1E-24a(2) and (3), these agencies included various bureaus, divisions, and agencies within the Department. All agencies contacted are as follows:

## U.S. Environmental Protection Agency

## Background: Smith Brothers, Inc. Class B and Class C recycling facility

On March 11, 2003, the Department approved an Administrative Action request to include in the Gloucester County Solid Waste Management Plan (County Plan) exempt composting operations for Smith Orchards, Inc. at Block 57, Lot 9, in Harrison Township.

Pursuant to the September 20, 2006 County Plan amendment, Smith Brothers, Inc. intends to convert its exempt Class B and Class C recycling center operation into a full-scale Class B and Class C recycling facility. The facility is to be located on approximately 39.75 acres. The company proposes to accept 2,000 cubic yards per day of Class B materials (stumps, tree parts, woodchips, brush and clean wood). The company also proposes to accept 1,500 cubic yards per day of Class C materials (leaves, grass, brush and yard waste) and soils for blending. The Class B and Class C recycling facility will operate 6 days a week. The hours of operation are Monday through Friday 7:00 am to 6:00 pm and Saturdays 7:00 am to 5:00 pm.

## Regulatory Requirements

Recycling centers are subject to the provisions of N.J.A.C. 7:27-5, "Prohibition of Air Pollution". This regulation prohibits the release of odors and other air contaminants, which interfere with the enjoyment of life and property. Finally, if the proposed operation will discharge pollutants as defined in N.J.A.C. 7:14-1.9, said operation must secure a New Jersey Pollutant Discharge Elimination System Permit and/or a Treatment Works Approval for pollutant discharges prior to operation.

# C. Certification of the Gloucester County District Solid Waste Management Plan Amendment

In accordance with N.J.S.A. 13:1E-1 et seq., specifically N.J.S.A. 13:1E-21, which establishes specific requirements regarding the contents of the county solid waste management plans, I have reviewed the September 20, 2006 amendment to the approved County Plan and certify to the County Freeholders that the September 20, 2006 amendment is approved as further specified below.

The September 20, 2006 amendment proposed County Plan inclusion of Smith Brothers, Inc. Class B and Class C recycling center to be located at Block 57, Lot 1 in Harrison Township and Block 1, Lot 1, in Elk Township is approved.

This certification shall not be construed as an expression of the Department's intent to issue a solid waste facility permit or permit modification for any proposed facility or operation. The construction or operation of any solid waste facility shall be preceded by the acquisition of all necessary permits and approvals pursuant to N.J.S.A. 13:1E-1 et seq., and all other applicable laws. The issuance of operating permits pursuant to the Solid Waste Management Act is limited to those applicants found by the DEP and the Attorney General of the State of New Jersey to be

deserving of licensing under the provisions of N.J.S.A. 13:E-126.
