James E. Deacon, Solid Waste Coordinator
Morris County Utilities Coordinator
370 Richard Mine Road
Wharton, NJ 07885

Dear Mr. Deacon:

The New Jersey Department of Environmental Protection's Division of Sustainable Waste Management, Bureau of Solid Waste Planning and Licensing is in receipt of a proposed amendment to the Morris County Solid Waste Management Plan (Plan) dated August 30, 2024. This amendment proposes plan inclusion of a composting operation at Northeast Products, LLC, Class B Recycling Facility, which would in turn update the facility to a Class B/C. This proposed operation proposes to compost leaves at the site and use its composting product to enhance the soil byproduct of the Class B operations. The amendment also proposes to include a modification of the Block and Lot designations of the facility from Block 8901, Lots 2 & 2.01 to Block 8901, Lot 2.01 & 2.02 and Block 870, Lot 1 at 1405 Route 46 West in the Township of Roxbury.

Pursuant to N.J.A.C. 7:26-6.11(b)5, the inclusion of a modification of an existing facility in the Morris County Solid Waste Management Plan, including acceptance of additional waste types and on-site operational changes, may be achieved through an administrative action. Pursuant to N.J.A.C. 7:26-6.11(b)14, the inclusion of modified block and lot designations for an existing facility in the Morris County Solid Waste Management Plan can be accomplished via administration action. Therefore, the County Plan amendment is hereby approved as an Administrative Action pursuant to N.J.A.C 7:26-6.11.

If you have any questions relative to this action, please contact me at (609) 940-5805.

Sincerely,

Jill Aspinwall, Section Chief
Bureau of Solid Waste Planning and Licensing
