## Winter Trout Stocked Lake Programs

By Bob Papson, Principal Fisheries Biologist

The peak fishing period for New Jersey trout anglers occurs in the spring; however, fall and winter fishing has gained popularity among many anglers, especially where good numbers of fish are available. This interest is evident in our very popular fall trout stocking program and in winter stocking programs conducted in neighboring states, like Pennsylvania. The division will add variety to our trout stocking program and increase angling opportunities during late fall and winter by initiating a winter trout stocked lakes program. For the winter period, ice fishermen may be a major beneficiary, but this option is by no means limited to ice fishing. These winter stocked trout will readily strike in open water at low temperatures; the allowance of ice fishing on any water is not a criteria of the program. In recent years, safe ice formation has been sporadic, especially in south Jersey, so open water winter fishing has been the norm.

Twenty-four lakes geographically distributed throughout the state will be stocked with a total of 12,940 rainbow trout, averaging 11 inches in length. Targeted lake sizes from 5 to 100 acres should provide optimal use and returns. North Jersey lakes will be stocked the last week of November and south Jersey lakes the first week of January. Interstate Highway 195 is the dividing line between north and south Jersey lakes, except Topenemus Lake will be stocked with the south Jersey waters.

In addition to on-site angler counts, a tagging study will be conducted to evaluate the success of this winter stocking program. Trout stocked in 8 of the waters (see lakes marked with an \* in the list below) will be tagged with metal jaw tags. Tag receptacles will be set up at each of these lakes. The tags of harvested trout should be placed in the tag receptacle or mailed to our division office in the envelopes provided. Angler cooperation in returning these tags is very important in the evaluation of this program.

Take advantage of the division's winter trout stocked lakes program. For many Garden State anglers, the traditional holiday baked ham or turkey just might be replaced by fresh baked rainbow trout.

## Operation Game Thief—Report Wildlife Violators

The Operation Game Thief (OGT) hotline provides a toll-free phone line to report violations of laws protecting wildlife. If you know of incidents involving wildlife including the dumping of hazardous, toxic or solid waste; illegal harvesting of small lobsters; poisoning of birds; and violations of deer, wild turkey and endangered species laws, call 1-800-222-0456. If the information you anonymously provide leads to the issuance of a summons, you may be eligible for a cash reward. The OGT program is sponsored jointly by the Division and the New Jersey Federation of Sportsmen's Clubs.
