### **Deer Hunting on National Wildlife Refuges in New Jersey**

Most State laws relating to deer hunting apply to New Jersey's National Wildlife Refuges. However, special U.S. Fish and Wildlife Service regulations are in effect throughout all

authorized deer hunting seasons. Hunters should take notice that the following, additional regulations apply to all National Wildlife Refuges (Refuges) in New Jersey:

1. The State regulation which allows deer hunters to hunt over bait does NOT apply to National Wildlife Refuges. **Hunting over bait or distributing bait is prohibited on all National Wildlife Refuges.**
2. The use of a spotlight, or other artificial light including automotive headlights, for the purpose of spotting, locating, or taking any wildlife on a National Wildlife Refuge is prohibited. This regulation applies to all persons regardless of *whether or not they have a weapon or firearm in their possession.*
3. Firearm hunters (shotgun and muzzleloader) must wear an outer garment consisting of at least **400 square inches** of solid fluorescent orange while deer hunting on national wildlife refuges. The amount of fluorescent orange required to hunt on a national wildlife refuge is double the amount required by New Jersey regulations.
4. Entry is prohibited on Refuge lands posted "Area Closed" and on Refuge roadways posted with "Inholders Only" signs.
5. The use of nails, wire, screws or bolts to attach a stand to a tree, or hunting from a tree into which a metal object has been driven to support a hunter, is prohibited on National Wildlife Refuges.

Most refuges can accommodate individuals who have obtained a permit for handicapped hunters from the New Jersey Division of Fish & Wildlife, including permits to hunt from vehicles. Interested individuals should contact Refuge in advance of the 2001-02 deer hunting seasons.

In addition to the regulations outlined

above the following information is provided about individual Refuges:

# Public Deer Hunting Land in New Jersey

New Jersey has more than 750,000 acres of public land available to the deer hunter. This list is arranged by deer management zone for public land open to deer hunting. Generally, only areas with 100 acres or more of upland habitat are listed. State parks and forests that allow hunting may have some sections which are closed to hunting. Some areas allow deer hunting only during certain seasons, require access fees or have other special regulations. Refer to the section entitled “**Special Area Hunting Season Information**” or contact the appropriate authority for additional information.

**Remember:** hunters *must* have permission to hunt agricultural land even if the land is not posted. Hunters should obtain permission before hunting any private property. Hunters are advised not to purchase a deer permit for a zone in which they have no place to hunt.
