

# Division of Fish & Wildlife Office of Environmental Review

Central Services Branch

# Environmental Review

## Environmental Review –

- Requests are received by the Division to assess the potential impact of pending applications:
  - Water Infrastructure projects
  - Watershed and Land Resource Protection development & grant projects
  - Solid Waste landfill closures
  - Community Solar projects
  - State Master plans
  - State EIS projects

## Environmental Review

- Coordinates comments from all the offices within the Division
- ER team also attends meetings on behalf of the Division to screen projects prior to submission
- Goal to minimize or mitigate impacts to the state's wildlife resources and their habitats
  - Timing restrictions
  - Recommend changes to projects
