Major Changes for the 2021–22 Season

- The Canada goose bag limit in the North and South Zones is reduced to 1 bird during the Regular Season.
- The sculp bag limit is reduced to 1 bird during the first 40 days, and 2 birds during the last 20 days, of the duck season in each zone.
- The gallinule daily bag limit is reduced to 1 bird.

Waterfowl Stamps

Both the New Jersey Waterfowl Stamp Certification and Migratory Bird Hunting and Conservation Stamp (Federal Duck Stamp) are required for all waterfowl hunters 16 years and older and must be signed in ink. New Jersey Stamp Certifications are available from license agents and from the Licenses and Permits button on Fish and Wildlife's website. Federal stamps are available from some U.S. post offices and online at www.fws.gov/birds/get-involved/duck-stamp/buy-duck-stamp.php.

Hunters: Report Banded Birds

Hunters who recover banded migratory birds are asked to report the band number to the U.S. Department of the Interior's Bird Banding Laboratory (BBL), Washington, D.C. Banding data plays a critical role in migratory bird harvest management. There are two ways to report bands:

1. **Online:** reportband.gov
2. **Write:** to the address inscribed on the band.

Online reporting provides instant access to the original banding information including the species, sex, location, date and age of the bird at banding. Band reporters will be able to print a certificate of appreciation on their home computer which will include information about the bird which had been banded.

When contacting the BBL, be prepared to provide: band number, date the bird was recovered, exact location of the bird's recovery as well as nearest town, and method of recovery, e.g., shot or found dead. Hunters may keep the bands.

Harvest Information Program (HIP)

All hunters, including Apprentice License holders, must obtain an HIP certification **before** hunting ducks, geese, brant, coot, woodcock, rails, snipe or gallinules. Hunters may purchase an HIP certification **from a License Agent or Online at NJ.WildlifeLicense.com**. Both methods allow hunters to go hunting immediately after registering.

HIP certification should be carried in the hunter's license holder and are valid from Sept. 1 to April 15 the following year. Information collected for HIP is confidential and used by the U.S. Fish and Wildlife Service for conducting migratory bird harvest surveys.

Did you Harvest a Marked Atlantic Brant?

During winter 2018, New Jersey Division of Fish and Wildlife initiated a multi-year collaborative Atlantic brant migration and breeding ecology study with the New York Department of Environmental Conservation, Canadian Wildlife Service and University of Missouri.

- If you shoot or find dead a brant with a geolocator or back-pack transmitter, contact Ted Nichols at (609) 628-3218 or e-mail ted.nichols@dep.nj.gov to return the device(s). To obtain data from a geolocator, we must have the device in hand. Geolocators are clear, plastic electronics about the size of a "fat nickel," attached to a red and white plastic leg band with a plastic cable lock tie. Hunters who want to retain a geolocator or transmitter as a keepsake will be provided with a replica unit.
- If you see a brant with a colored leg band: Please report the observation to U.S. Bird Banding Lab at REPORTBAND.GOV.
- If a bird with leg band only is shot or found dead: Please report to U.S. Bird Banding Lab at REPORTBAND.GOV.

Your cooperation and interest is appreciated. For more information on this study, see NJFishandWildlife.com/news/2021/brantstudy21.htm.

New Jersey Waterfowlers Clinic

Every year, experienced waterfowlers throughout New Jersey join together dedicating their time and energy to present the **New Jersey Waterfowlers Clinic**—an all day, free seminar covering “everything you ever wanted to know” about the traditions of waterfowl hunting in New Jersey. This year is no exception!

Forty years ago, the clinic began as an opportunity to introduce young people to the world of waterfowl hunting. However, with the growing interest among men and women, as well as youths, the event has been transformed into an opportunity for anyone 10 and up to spend a fun and interesting day learning about waterfowling!

Our full-day clinic covers waterfowling from A to Z, and includes bird identification, decoys, calling, guns and ammo, boats, safety, laws and ethics, do's and don'ts, clothing and camo, and even a demonstration by working retrievers! The value of the day is priceless! It's a unique chance to ask any question you've ever had about the sport—to be answered by the most experienced waterfowlers in New Jersey. Our instructors have a combined 300 years of experience!

- **Free breakfast and lunch to all attending!**
- **Date:** Sunday, Oct. 3, 2021
- **Location:** Tip Seaman Park, Tuckerton, NJ
- **Time:** 8:00 a.m. – 3:30 p.m.

Please **register in advance** by calling Marty Kristiansen at (732) 977-5648 so we can plan accordingly.

We hope you'll join us this year and share our enthusiasm for all that is waterfowling!

Summary of Federal Regulations

The following is a synopsis of Federal Regulations that pertain to the hunting of migratory game birds. More information can be found at: NJFishandWildlife.com/pdf/waterfowl_federal_regs.pdf or by calling the U.S. Fish and Wildlife Service Law Enforcement Office at (908) 787-1321.

No persons shall take migratory game birds:

- ♦ By the aid of baiting, or on or over any baited area, where a person knows or reasonably should know that the area is or has been baited. **Baiting** means the direct or indirect placing, exposing, depositing, distributing, or scattering of salt, grain, or other feed that could serve as a lure or attraction for migratory game birds to, on, or over any areas where hunters are attempting to take them. **Baited area** means any area on which salt, grain, or other feed has been placed, exposed, deposited, distributed, or scattered, if that salt, grain, or other feed could serve as a lure or attraction for migratory game birds to, on, or over areas where hunters are attempting to take them. Any such area will remain a baited area for ten days following the complete removal of all such salt, grain, or other feed.
- ♦ With a trap, snare, net, rifle, pistol, swivel gun, shotgun larger than 10 gauge, punt gun, battery gun, machinegun, fish hook, poison, drug, explosive, or stupefying substance;
- ♦ With a shotgun of any description capable of holding more than three shells, unless it is plugged with a one-piece filler, incapable of removal without disassembling the gun, so its total capacity does not exceed three shells. **Exceptions: In New Jersey, shotguns capable of holding no more than 7 shells are permitted during the September-Canada goose season and the Light Goose Conservation Order.**

- ♦ From or by means, aid, or use of a sinkbox or any other type of low floating device, having a depression affording the hunter a means of concealment beneath the surface of the water;
- ♦ From or by means, aid, or use of any motor vehicle, motor-driven land conveyance, or aircraft of any kind, except that paraplegics and persons missing one or both legs may take from any stationary motor vehicle or stationary motor-driven land conveyance;
- ♦ From or by means of any motorboat or other craft having a motor attached, or any sailboat, unless the motor has been completely shut off and/or the sails furled, and its progress therefrom has ceased. Exception: crippled birds may be shot from craft under power in the Special Sea Duck Area.
- ♦ By the use or aid of live birds as decoys; although not limited to, it shall be a violation of this paragraph for any person to take migratory waterfowl on an area where tame or captive live ducks or geese are present unless such birds are and have been for a period of 10 consecutive days prior to such taking, confined within an enclosure which substantially reduces the audibility of their calls and totally conceals such birds from the sight of wild migratory waterfowl;
- ♦ By the use or aid of recorded or electrically amplified bird calls or sounds, or recorded or electrically amplified imitations of bird calls or sounds. **Exceptions: In New Jersey, hunters can use electronic calls during: crow season, September-Canada goose season and the Light Goose Conservation Order.**
- ♦ By means or aid of any motor driven land, water, or air conveyance, or any sailboat used for the purpose of or resulting in the concentrating, driving, rallying, or stirring up of any migratory bird.

Tagging requirement—No person shall put or leave any migratory game birds at any place (other than at his personal abode), or in the custody of another person for picking, cleaning, processing, shipping, transportation, or storage (including temporary storage), or for the purpose of having

taxidermy services performed, unless such birds have a tag attached, signed by the hunter, stating his address, the total number and species of birds, and the date such birds were killed. Migratory game birds being transported in any vehicle as the personal baggage of the possessor shall not be considered as being in storage or temporary storage.

Custody of birds of another—No person shall receive or have in custody any migratory game birds belonging to another person unless such birds are properly tagged.

Species identification requirement—No person shall transport within the United States any migratory game birds, except doves and band-tailed pigeons, unless the head or one fully feathered wing remains attached to each such bird at all times while being transported from the place where taken until they have arrived at the personal abode of the possessor or a migratory bird preservation facility.

Dave Golden

NJDFW Director Dave Golden hunted out of his 25-year-old aluminum duck boat with friend Jerry Kronemeyer (pictured) in Cape May Wetlands WMA.

Over the past several seasons, one memorable feature of most hunts was a fair amount of periodic bailing of water from the boat. This year, Dave finally installed a bilge pump, leaving more time to enjoy the hunt.

Attention Waterfowl Hunters

Veterans/Active Military Waterfowl Hunting Days

Nov. 6, 2021 — Statewide Veterans Military Day

Feb. 5, 2022 — Statewide joint Veterans/Military and Youth waterfowl hunt day

The U.S. Fish and Wildlife Service allowed states to choose special hunting days for Veterans and Active Military personnel in recognition of their service to our country. Waterfowl hunting outside the regular season is allowed on the day(s) officially designated as "Veterans/Active Military Waterfowl Day." New Jersey has two Veterans/Active Military Hunting Days, one of which runs concurrent with a special Youth Hunting Day.

Active Military includes members of Armed Forces on active duty, including National Guard and Reserves (other than active duty for training). Veterans includes those who served in the active military, naval or air service and who were discharged or released therefrom under conditions other than dishonorable. Participants in Veterans/Active Military Waterfowl Hunting Days must carry while hunting one of the documents which applies to their status to be eligible to participate:

1. Active military identification card
2. Copy of honorable discharge certificate DD-214

Bag limits for these days include ducks, geese, brant, mergansers, coots and gallinules. **Bag limits are the same as those allowed in the regular season in each zone except the scaup limit is 2 per day.**
