* Due to serious declines in American Shad numbers, the taking of American Shad, except for the Delaware River, is prohibited.

** Non-offset circle hooks required when fishing with bait. Pennsylvania allows anglers to harvest a daily limit of two striped bass measuring 21 to less than 24 inches for a two month period from April 1 through May 31 from the Calhoun St. Bridge in Trenton downstream to the Pennsylvania state line. New Jersey still has a closed season. Anglers fishing the Delaware River from the New Jersey shoreline, or returning to New Jersey by boat and/or car in April and May must abide by New Jersey's striped bass regulations. Possession of striped bass in New Jersey is illegal during this time period. **Anglers should be aware that there are differing size limits and seasons for striped bass for each of the three states bordering the Delaware River. Anglers must obey the regulations for the particular state where they land (catch) striped bass.**

Fishing The Delaware River

Regulation Notices

The Delaware River is a boundary water shared by Pennsylvania and New Jersey with each state's border generally following the centerline of the river. Although the majority of the fishing regulations enacted by both states are identical, there are some distinct differences. Anglers fishing this river must be aware of each state's fishing regulations.

Regardless of an angler's residency or point of boat launching, all are required to comply with the regulations of the state in which they are fishing. An angler fishing—or in possession of fish—between the centerline of the river and the New Jersey shoreline must comply with the New Jersey fishing regulations. An angler fishing—or in possession of fish—between the centerline of the river and the Pennsylvania shoreline must comply with the Pennsylvania fishing regulations.

The reciprocal agreement regarding fishing licenses remains in effect and anglers may continue to fish from shoreline to shoreline in the Delaware River between Pennsylvania and New Jersey using either state's fishing license. Information on each state's fishing regulations can be found at www.fishandboat.com and NJFishandWildlife.com. It is incumbent upon anglers to determine in which state they are currently fishing, taking into account that in areas where the river splits, such as around islands, the boundary is clearly and legally defined to one side of the island or another.

All anglers are reminded to comply with each state's marine registry requirements when angling for or catching anadromous species such as striped bass, river herring or shad in the tidal portions of the Delaware River.

New Jersey and Pennsylvania fishing licenses are both recognized when fishing the Delaware River from a boat or either shoreline. This applies to the main stem of the river only.

- Anglers may launch a boat from either shore and on return, may have in possession any fish which may be legally taken according to the regulations of the state where the landing is made.
- No more than **three** rods, each with one line, or two hand lines—or one of each—may be used. No more than three single hooks or three treble hooks per line.
- **To reduce striped bass release mortality, non-offset (inline) circle hooks must be used when fishing for striped bass with bait in all waters.**
- **The use of crayfish, clams, mussels, reptiles or amphibians as bait is prohibited within the Delaware Water Gap Natural Recreation Area, unless it is a commercially produced, preserved and packaged product.**
- Spears (not mechanically propelled) and bow and arrows may be used to take carp, catfish, shad and suckers except within 825 feet of an eel weir. A valid fishing license is required.
- Baitfish may be taken and possessed for personal use and are not to be bartered or sold. **Alewife or Blueback Herring may not be taken at any time.**
- A Delaware fishing license is required for anglers aged 16 and over fishing the Delaware Bay and Delaware River between the upstream tip of Artificial Island and the Delaware-Pennsylvania state line. In that section of the river, the Delaware state boundary extends to the New Jersey shoreline. However, when fishing from shore in New Jersey along that section of the river, a Delaware fishing license is not required. Delaware fishing license information can be found at <https://dnrec.alpha.delaware.gov/>.
- A listing of fishing access locations along the Delaware River is available at Fish and Wildlife's website, NJFishandWildlife.com, under Freshwater Fishing.
- Delaware River Basin Commission recreation maps are available for \$10.70. For online ordering information visit nj.gov/drbc/basin/recreation/.
- Information for the Delaware Water Gap National Recreation Area is available online at www.nps.gov/dewa.

2022 New Jersey Musky School

You don't want to miss the annual Musky School offered by Muskies Inc., now on Greenwood Lake!

Learn how to catch these elusive fish. This course offers informative tips and techniques to help any musky angler—beginner to experienced angler—catch more muskies.

Learn from our seasoned veteran anglers. In the morning, classroom-style sessions will orient anglers on locations to fish, forage base, lure presentations, fishing tactics and more. Later in the day, participants will be on the water in a fully-equipped boat to pursue muskies with a personal instructor. This 6-hour course includes a shore lunch. This is a catch and release event. Muskies Inc. is a non-profit organization. This is a fundraising event. All proceeds benefit the New Jersey musky fishery.

Speargun Case Nets \$880 in Penalties

On May 21, 2020, Conservation Police Officer Tyler Hausamann responded to a complaint of illegal fishing at the Paulina Dam section of the Paulinskill River in Blirstown, Warren County. Once there, CPO Hausamann observed several people near the dam. One person was fishing with rod and reel while others began to pack up. Suddenly, someone starting yelling and congratulating another person who surfaced in the dam's spillway.

An assortment of illegally speared fish, Paulinskill River.

The man, who was wearing goggles and carried a speargun, held a large bass on the end of the spear. The fish went into a blue bucket as the group quickly tried to pack up and leave. Officer Hausamann stopped them before they had the chance.

The suspects denied having any fish, but Officer Hausamann recovered the blue bucket and speargun from one of the vehicles. Fourteen fish — a collection of rainbow trout, tiger trout, largemouth and smallmouth bass — were in the bucket. All but one fish had spear holes.

Seven summonses were issued for the violations, with penalties totaling \$880. The cited violations included: fishing without a valid license, possession of trout without a trout stamp, taking bass during closed season, taking undersize bass, taking trout over the limit and taking fish in an illegal manner.
