BOAT SEWAGE

This symbol means -
Pumpout Station
It gets rid of boat sewage.

Hey Al, Come down here where the
water is clean!
They use Pumpout Stations Here.

Al is not happy where he is living. Boaters are dumping toilet waste out of their boats and into Al's home in the Bay. See if you can help Al return to clean, healthy water by moving through the maze of the Bay and into a clean, happy home. Thank you New Jersey Clean Vessel Act for helping boaters clean up our waters.
