**ATTACHMENT III: PRELIMINARY COMPENSATION PROPOSALS FOR MAJOR
DISPOSALS OR DIVERSIONS OF PARKLAND**

General Notes:

- As part of the application process, applicants are required to submit a preliminary compensation proposal as part of the pre-application and a final compensation proposal as part of the final application. A preliminary compensation proposal is based on estimates of the value and size of the proposed disposal or diversion and proposed replacement land (if any). As part of the final compensation proposal, the applicant is required to adjust its proposal to take into account the appraised value of the diverted and replacement parcels, the actual surveyed acreage of these lands and any easements or other relevant encumbrances identified through the title search.
- Replacement land is required for certain types of disposals or diversions of parkland, and is generally the method of compensation preferred by the Department. However, in many cases, the applicant may choose between replacement land, monetary compensation or a combination of both. If replacement land is offered, it must be at least equivalent in acreage to the parkland to be disposed of or diverted. If an easement is proposed to be disposed of or diverted from parkland, the ratio of the replacement land to the affected parkland can be 1:1, with either a subsurface easement or fee land as replacement. All other disposals or diversions of parkland are subject to a minimum 2:1 (or higher) replacement land/parkland ratio. However, if the applicant chooses to mix monetary compensation and replacement land, it may offer 1:1 replacement land and make up the difference between the 1:1 land and the minimum 2:1 (or higher) compensation ratio with cash compensation.

This attachment summarizes the requirements of N.J.A.C. 7:36-26.10 and is intended to serve as guidance for the preparation of preliminary and final compensation proposals. Please check the box next to the applicable preliminary compensation proposal category or categories:

1. Minimum Compensation Ratios for Replacement Land (taken from Table 1 at NJAC 7:36-26.10(g))

If the applicant chooses to offer replacement land as the method of compensation the following conditions apply:

- The proposed replacement land must be determined to be eligible pursuant to *N.J.A.C. 7:36-26.10(d)2i-iii*.
- If replacement land is offered, it must be at least equivalent in acreage to the parkland to be disposed of or diverted. (*N.J.A.C. 7:36-26.10(d)3*)
- The proposed replacement land shall be of reasonably equivalent or superior quality and have a market value that is equal to or greater than the parkland proposed for disposal or diversion. (*N.J.A.C. 7:36-26.10(d)5 and 6*)
- If the proposed replacement land is inadequate to meet the market value and quality requirements mentioned above, the Department shall require the applicant to supplement its proposal with additional compensation in excess of that which would otherwise be required under Table 1. (*N.J.A.C. 7:36-26.10(d)7*)
- The replacement lands shall be, to the extent possible, located in the same municipality in which the parkland proposed for disposal or diversion is located and shall not consist of land on which streets are shown on a subdivision plan as either

**Green Acres Program
State House Commission Pre-Application
Local Parkland—Major Disposal/diversion**

offered for dedication or dedicated but not constructed. (*N.J.A.C. 7:36-26.10(d)8 and 9*)

- The proposed replacement land shall either be free of contamination by hazardous substances or shall be remediated to the Department's satisfaction prior to its dedication as parkland. (*N.J.A.C. 7:36-26.10(d)10*)
- The applicant is required to provide appraisals, surveys and title work for any proposed replacement land as part of the final application. (*N.J.A.C. 7:36-26.11(b)1, 2 and 3*) All technical reports must be prepared to the Department's specifications. In some circumstances, appraisal waivers may be available under *N.J.A.C. 7:36-26.10(l)*, if the applicant is willing to propose a higher compensation ratio than would otherwise be required.

The minimum acreage of the replacement land to be provided for a specific type of disposal or diversion of parkland shall be determined in accordance with the provisions outlined below or in Table 1 of *N.J.A.C. 7:36-26.10(g)*. (*N.J.A.C. 7:36-26.10(d)4*)

2. Minimum Compensation Ratios for Monetary Compensation (taken from Table 1 at NJAC 7:36-26.10(g))

If monetary compensation is the chosen method of compensation the following conditions apply:

- No county or municipal open space tax funds levied under *N.J.S.A. 40:12-15.1* through *15.9* or other dedicated recreation and conservation funding sources may be used as monetary compensation. (*N.J.A.C. 7:36-26.10(e)2*)
- The applicant must provide confirmation that any proposed monetary compensation for the disposal or diversion of parkland can be transferred to the Department immediately after approval of the application or deposited into a dedicated account to be used only for purposes consistent with the approval.
