A. PERMIT PROCESS

All Special Use Permit Applications must be submitted to the New Jersey Department of Environmental Protection (DEP) through Liberty State Park (LSP). Applications must be submitted in a timely manner to allow sufficient time for planning and permitting purposes. The DEP is the only agency that may approve events in LSP. Please keep in mind that the larger and more complex an event is, the more time required for the planning and permitting process (e.g. a concert involving several thousand attendees, should begin at least one year prior to the proposed date). However, all information, fees, insurance and execution of the permit must be completed at least 30 days in advance of the event date. Failure to have the permit completed 30 days in advance of the proposed event date may result in your Special Event Application being denied.

No vehicles are permitted to drive or park on the grass in Liberty State Park.

- a. The first step in the permit process is to complete the LSP Special Event Application. In order to ensure adequate time for permit processing, the application and appropriate application fee should be submitted to LSP at least 90 days prior to the event. Incomplete applications will not be accepted. If the event is large, complex or a concert type event, at least one-year notice is recommended. Applications can be accepted 16 months prior to event.
- b. Upon review of the Special Event Application, LSP personnel will require a detailed Operations Plan to be completed. The Operations Plan needs to be completed 60 days prior to the date of special event (larger events will require more time).
- c. As the applicant is completing the Operations Plan, the applicant may schedule on-site visit(s) with designated LSP personnel to conduct a walk-through of the site and answer questions.
- d. Once the applicant has completed the Operations Plan, it must be submitted to the designated LSP personnel, who will then schedule a meeting to review required revisions.
- e. After revisions are submitted and final plans are approved, LSP will generate a Special Use Permit (SUP) and estimate of fees for services. The estimate of fees will be described in two sections, "Facility Fees" and "NJ State Park Police Labor Fees". Facilities Fees are to be paid to LSP prior to the event; NJ State Park Police Labor Fees will be invoiced after the event.
- f. Once the final permit is signed and Facility Fees are paid, the applicant is authorized to have the event at LSP. Advertising for event must not occur prior to the permit being signed. If early advertising is needed you will need to begin the permit process further in advance.
- g. No changes to the permit will be allowed unless submitted in writing and approved by the Park Superintendent. Submittals for change must be received at a minimum of 14 days prior to event.
- h. Failure to comply with any of the above requirements may result in the Special Event Application being denied.
- i. Failure to respond to a request from LSP within 7 business days may result in cancellation of the application.

B. FEES

All fees must be paid by credit card or check made payable to the “Treasurer, State of New Jersey”. Fees are subject to change without prior notice. Depending on the scale and complexity of some special events the following fees may not comply fully. In that case, Liberty State Park will provide an assessed fee based on the operations plan submitted by the applicant and approved by the Park Superintendent.

The New Jersey Department of Environmental Protection will allow public assemblies, meetings, demonstrations, religious activities and other public expressions of views conducted under the First Amendment of the U.S. Constitution in parks, in accordance with State Park Service regulations provided that a permit has been obtained from the Park Superintendent.

To ensure public safety, protect Park resources and avoid assigning the same time and location to two or more activities, the State Park Service may manage these activities by regulating the time, location, number of participants, use of facilities and number and types of equipment used, but not the content or message.

Locations within the Park that are available for public assemblies and other First Amendment activities, including the distribution of printed matter, will be designated on a map by the Park Police Sergeant. When the State Park Service allows one group to use an area or facility for expressing views, it must allow all other groups a similar opportunity, if requested.

No group wishing to assemble lawfully may be discriminated against or denied the right of assembly, provided that all applicable permit criteria and requirements are met. Whenever religious activities are conducted in parks, any State Park Service actions pertaining to them must reflect a clearly secular purpose, must have a primary effect that neither advances nor inhibits religion and must avoid excessive governmental entanglement with religion.

New Jersey State Park Service Staff on duty at an area in which a First Amendment activity is being conducted will be neutral toward the activity but will remain responsible for the protection of participants, spectators, private property, public property and park resources. On duty staff may not participate in the First Amendment activity.
