

RECYCLED BUG HOTEL

SUPPLIES: Scissors, twine or ribbon, an empty plastic water bottle, twigs, bark

INSTRUCTIONS:

1. Peel the label off your empty, plastic water bottle.
2. Cut off the top and bottom of the bottle.
3. Lay your bottle on the table so the open ends are sticking out to the sides.
4. Take twigs and bark and stuff them into the water bottle until it is completely filled, tight, and your items will not fall out when you tilt it to the side.

5. Take your twine or ribbon and tie a loop around your water bottle but leave some extra twine on the end so you can hang your new bug hotel from a tree branch!
