State Forest Fire Service & Forestry  
Office of Natural Lands Management  
New Jersey Natural Heritage Program

Wild Lupine (*Lupinus perennis*) by J. Hafstad

This list is the result of many years of collaborative effort by individuals, organizations and institutions interested in the preservation of New Jersey's rare native flora. This report was compiled by Natural Heritage Program Botanist David B. Snyder based on information in the Department's Biotics Database.

The Office of Natural Lands Management gratefully acknowledges the efforts of the staff, field botanists and others for their many contributions to the Database over the years.
