PROJECT SOLICITATION

OVERALL GOAL

The State of New Jersey, as a beneficiary of the Trust established pursuant to the national Volkswagen settlement, intends to use its allocation from the mitigation trust to efficiently implement projects that reduce oxides of nitrogen (NOx) emissions in a cost effective and technically feasible manner. The implemented projects must meet the criteria of the Consent Decree. New Jersey is issuing this solicitation for project ideas to ensure a broad range of project ideas are considered.

Submissions must contain all the information outlined in the "Project Proposals" section of this document.

ELIGIBLE PROJECTS

A general summary is below. Click here for comprehensive list and associated definitions.

Source Category	Emission Reduction Strategy	Allowed Expenditure Amount
1. Class 8 local freight trucks & port drayage trucks	Repower and replacement	Up to 40% for repower with diesel or alternative fuel or up to 75% (up to 100% if government owned) for repower with electric. Electric charging infrastructure costs are eligible expense. Up to 25% for replacement with diesel or alternative
		fuel or up to 75% (up to 100% if government owned) for electric replacement. Electric charging infrastructure costs are eligible expense.
2. Class 4-8 school bus, shuttle bus or transit bus	Repower and replacement	Same as row 1
3. Freight switching locomotives	Repower and replacement	Same as row 1
4. Ferries/Tugs	Repower	Same as row 1
5. Oceangoing vessels	Shorepower	Up to 25% for shore side infrastructure if non- government owned (up to 100% if government owned)

6. Class 4-7 local freight trucks	Repower and replacement	Same as row 1.
7. Airport ground support equipment	Repower and replacement	Up to 75% to repower or replace with electric (up to 100% if government owned). Electric charging infrastructure costs are eligible expense.
8. Forklifts and Port Cargo Handling Equipment	Repower and replacement	Up to 75% to repower or replace with electric (up to 100% if government owned). Electric charging infrastructure costs are eligible expense.
9. Electric vehicle charging stations or hydrogen fueling stations for light duty vehicles only		Up to 100% to purchase, install and maintain infrastructure if available to public at <i>government</i> <i>owned</i> property. Up to 80% to purchase, install and maintain infrastructure if available to public at <i>non-</i> <i>government owned</i> property. Up to 60% to purchase, install and maintain infrastructure at a workplace or multi-unit dwelling that is not available to the general public. Up to 33% to purchase, install and maintain infrastructure for publicly available hydrogen dispensing that is high volume or up to 25% for lower volume.

PROJECT PROPOSALS (Open with Adobe Reader)

Electronic submittals are preferred and should be sent to VWComments@dep.nj.gov however paper submittals will also be accepted and should be sent to:

NJDEP Division of Air Quality Mail code 401-02E Trenton, NJ 08625-0420 <u>Attn:</u> VW Settlement

All proposals must contain the following information; incomplete applications will not be considered. If your project is selected, you may be contacted for additional detailed information. Send questions to <u>VWComments@dep.nj.gov</u>

To enter information electronically use Adobe Reader

1	2	3	4	5	6	7	8	9	

PROJECT PRIORITYPriority # 1of 1proposalsIf submitting more than one proposal, what is the sponsor's priority of this proposal?

PROJECT BUDGET \$ 5,136,560.08

Provide total estimated project budget, include source and amount of cost share if applicable.

Republic Services is asking for \$437,000 or 8.5% of the project cost for the replacement of 19 refuse trucks. Republic's cost share is \$4,699,560. (See Attachment A for vehicle quotes)

PROJECT DESCRIPTION (Briefly describe the project by completing the following questions)

Geographic area where emissions reductions will occur? Hunterdon, Burlington, Middlesex and Monmouth counties

Estimated size of population benefitting from the emission reductions? 2,042,804 (Attachment B)

Estimated useful life of the project? 15

Number of engines/vehicles/vessels/equipment included in the project? 19

Estimated emission benefits should be expressed in tons per year (TPY) of emission reduced for NOx and for PM 2.5 over the lifetime of the project. Identify methodology used.

Estimated NOx benefits? 5.101 TPY

Methodology Used? EPA Diesel Emissions Quantifier

Particulate matter (PM 2.5) benefits? 0.2434 TPY

Methodology Used? EPA Diesel Emissions Quantifier

Will the project benefit one or more communities that are disproportionately impacted by air pollution? If so, please describe.

The project will result in a combined NOx and PM 2.5 reduction of 5.34 tons per year across the four counties which are all deemed nonattainment areas. (Continued on Supplemental Page 1)

Project partners, if any?

Republic Services will not have any project partners. Republic owns and operates the refuse trucks under service contracts.

Explain how the project will provide cost effective and technically feasible emission reductions. Cost effectiveness should be expressed in dollars per ton per year of emissions reduced for NOx and for PM 2.5.

This project would replace 19 refuse trucks (engine model year 1998-2009) in Hunterdon, Burlington, Middlesex and Monmouth counties. It would reduce NOx by 5.1 tons per year and PM 2.5 by 0.24 tons per year for a total emission reduction of 5.34. tons per year. Republic is requesting \$437,000 in funding, which equates to a \$85,669 per ton of NOx and \$1,795,399 per ton of PM 2.5 emissions reduced annually. The total cost effectiveness is \$81,768 per ton of emissions reduction annually.

Estimated timeframe for implementation? Include a project timeline that identifies start and end dates, as well as the timeframe for key milestones.

Vehicles will be purchased and delivered after the grant awards have been announced and continue through 2019. It is Republic Services internal policy to scrap vehicles within 90 days of the delivery of the new replacement vehicle, at which point evidence of the old vehicle scrapping can be provided.

Demonstrated success in implementing similar projects?

Republic Services is the second largest provider of non-hazardous waste collection, transfer, disposal, recycling, and energy services within the United States, as measured by revenue. As such, Republic Services has deep experience with the vehicle attrition and purchase process and has recent experiences with similar types of funding programs for alternative fuel vehicles throughout the country. (Please see supplemental page 2 for more details)

If your proposed project involves alternative fuels, provide a demonstration of current or future plans to provide adequate refueling infrastructure.

The proposed project does not involve alternative fuels.

Has your organization been approved to receive and expend any other grant funds related to this project? If so, please provide details.

Republic has not been approved to receive or expend any other grant funds related to this specific project.

Please provide any additional information that supports this project.

Two additional pages have been provided as supplemental space to answer any of the questions above.

Supplemental Page 1

Will the project benefit one or more communities that are disproportionately impacted by air pollution? If so, please describe. (Continued)

Republic's vehicles are used in both commercial areas as well as residential neighborhoods. As a result of replacing older vehicles with lower and near zero emission vehicles, Republic Services will be directly impacting the emission levels in residential areas where people live – including vulnerable children and seniors. The vehicles associated with the project currently operate within Hunterdon, Burlington, Middlesex and Monmouth Counties and the replacement vehicles will continue to operate in these areas.

As of November 30, 2018, Burlington was identified as a marginal nonattainment area for 8-Hr Ozone (2015) as part of the New York-N, New Jersey-Long Island, NY-NJ-CT area (Attachment C). This area had a population of 448,596 in 2017 (Attachment B). As part of the same area, Hunterdon, Middlesex and Monmouth counties were identified as moderate nonattainment areas for 8-Hr Ozone (Attachment C) with populations of 125,059, 842,798 and 626,351, respectively (Attachment B). Replacing the diesel vehicles in the company's fleet will greatly reduce emissions of pollutants and greenhouse gases, thereby improving the environmental impact. This ties directly with the mission of the New Jersey Department of Environmental Protection.

According to the EPA's Environmental Justice Mapping and Screening Tool (EJSCREEN), Hunterdon County is in the 65th percentile and Burlington and Monmouth are both in the 64th percentile for percentage of adults over the age of 64 in New Jersey. This population will directly benefit from the reduction of fleet emissions, which, if left untreated, can magnify health issues among the elderly. Additionally, Middlesex county is in the 77th percentile statewide for traffic volume and proximity, and rates in the upper percentiles for various other environmental justice indicators (See the EJSCREEN reports for each county in Attachment D).

Supplemental Page 2

Demonstrated success in implementing similar projects? (Continued)

The company, or its subsidiaries, have recently applied for diesel emissions reduction incentive funding programs in Nevada and Ohio. The Ohio EPA awarded funding to replace 32 diesel trucks with new diesel and CNG vehicles through the Ohio Diesel Emissions Reduction Grant (DERG) and Alternative Fuel Transportation programs. Additionally, the Nevada Department of Conservation and Natural Resources awarded diesel emission mitigation funding to replace 5 diesel trucks with new CNG vehicles.

For projects such as this, Republic first identifies the vehicles that are candidates for replacement and the vehicles they intend to replace them with in the calendar year prior to the purchase. In the year of purchase, budgets are verified and the purchases are typically completed in the summer and fall. Owing to its ongoing fleet maintenance needs, the Company purchases hundreds of vehicles each year. As a result, the Company has personnel with extensive experience in identifying replacement vehicles and achieving internal emission reduction goals through the purchase of new and alternative fuel vehicles, establishing capital expenditure budgets, and sourcing vendors who can deliver vehicles on time and on the established price point. Upon delivery, Republic Services has personnel in place to scrap vehicles within 90 days as required by the Company's internal policies.

Attachment A

New Jersey Volkswagen Mitigation Trust Project Submission

Documentation Supporting Vehicle Quotes (Attachment A)

New Vehicle Estimates

Republic Services has requested funding to purchase 19 new diesel vehicles operating in four New Jersey counties. The costs of the new vehicles is supported by the quotes in Attachment A which are organized into 7 different body/chassis configurations (labeled Group A-G). The table below summarizes the price information from the attached quotes, the number of vehicles to be purchased for each configuration, and the per-vehicle and total prices.

	Summary Table of New Vehicle Costs								
Quote Group	Body	Body Chassis Total per Unit		Body Chassis		Number of Units	Total Cost		
Group A	\$48 <i>,</i> 483.10	\$135,086.02	\$183,569.12	5	\$917,845.60				
Group B	\$125 <i>,</i> 638.00	\$143,889.22	\$269,527.22	2	\$539,054.44				
Group C	\$124,238.00	\$143,889.22	\$268,127.22	2	\$536,254.44				
Group D	\$188 <i>,</i> 494.60	\$161,278.34	\$349,772.94	4	\$1,399,091.76				
Group E	\$133 <i>,</i> 438.00	\$143,745.86	\$277,183.86	2	\$554,367.72				
Group F	\$140,419.00	\$159,415.78	\$299,834.78	1	\$299,834.78				
Group G	\$137,288.00	\$159,415.78	\$296,703.78	3	\$890,111.34				
				19	\$5,136,560.08

Base Units Half/Pack Odyssey	
x 28 yard CHASSIS MUST COMFORM WITH HEIL'S MOST CURRENT CHASSIS SPECIFICATIONS	\$100,043
Mounting Options x Full Factory Mount with Service Hoist (if 5 axle - service lift)	INCLUDED
Deduct for service hoist if a 5 axle truck Power Take Off / Pump Options	(\$1,500)
x PTO Mounted Load Sense Piston pump - Includes PTO	INCLUDED
Remote Mount Pump Certain transmission / chassis configurations may not have proper clearance to allow direct mount or live powe	INCLUDED
_Control Options	
x Dual Mulifunction Joystick - Left and Right Hand Left Hand 2-Lever Electric Control in lieu of Multifunction Joystick	INCLUDED \$437
Outside 2-lever controls (Arms, Forks) PLUS switch bank (Pump, TA, Packer) - (558-0004-005)	\$1,899
Lighting and Electrical Accessories x Body Side Backing Assist Lights - LED	INCLUDED
x Whelen Tailgate Strobe Kit	INCLUDED
AWTI Radar Warning System Amber Turn Signal	INCLUDED INCLUDED
X Single LED Container Work Lights - in-cab switch Dual Cab Guard Mounted LED Flood Lights	INCLUDED INCLUDED
× Grote Light Upgrade	INCLUDED
x Egress Lights Automated Option	INCLUDED
x Hopper Seal Brush Kit-Includes sides, Front, and Rear Bristle Hopper Seal Kit - For Curotto Only	INCLUDED
Remote Curbside Controls - (558-0004-001) In-Cab controls for integrated forward work lamps - Forward Work Lamps must be purchased with the	INCLUDED
X Curotto Can	INCLUDED
Installation of Auto cover controls - Auto cover must be purchased with the Curotto Can Bayne Carry Can w/ Cart Tipper BTL208	\$1,134 \$6,652
Bayne Controls Only - (546-0002-002)	\$2,922
Body Options x Roof Access ladder (Curb Side Rear Bolster)	INCLUDED
x Hydraulic Oil Tank Quick Disconnect Kit - For use with filter buggy	INCLUDED
x Extendable Broom & Packer Broom and a Packer Shovel	INCLUDED INCLUDED
x Spill Kit x Republic White Front Mud flaps	INCLUDED INCLUDED
x Republic Cab Decal Kit	INCLUDED
x Republic Body Decal Kit x D-Ring Fall Protection	INCLUDED INCLUDED
x Rear Caution Decal	INCLUDED
x Fender Extensions x No Body Sump Doors	INCLUDED INCLUDED
x No Floor Drain	INCLUDED
x 1.5" Fork Upgrade x Wheel Chock Kit - Dual	INCLUDED INCLUDED
x Aluminum Cab Protector California Back Up Alarm	INCLUDED
60 Gallon Washout Tank - side mounted - Not available with pusher axle	\$624 \$1,578
60 Gallon Washout Tank - rear mounted - Not available with tag axle Heavy Duty Sliding Top door - May not be compatible with roof mounted CNG systems	\$1,578 \$4,038
Camera Systems	\$ 4 ,030
All camera systems are mounted with protective camera brackets and twin tailgate flood lights CAMERA MONITOR LOCATION WILL BE ROOF MOUNTED; Swivel monitor bracket will be provided for dual driv	a abassis
3rd Eye Camera Systems	
X 3rd Eve Double Camera with LCD Color Monitor (Cameras on T/G & LH Cab) Additional Hopper Camera - (229-0003-001)	INCLUDED \$378
Additional Left Hand Alley Camera - (229-0003-005) x Additional Right Hand Alley - (229-0003-004)	\$378 \$378
CNG/CNrG Installation	
60 DGE CNrG w/Tank Fill includes install / mount - Includes Front Bumper, Fast Fill and CNrG Decals 75 DGE CNrG w/Tank Fill includes install / mount - Includes Front Bumper, Fast Fill and CNrG Decals	\$28,092 \$31,429
90 DGE CNrG w/Tank Fill includes install / mount - Includes Front Bumper, Fast Fill and CNrG Decals	\$37,915
105 DGE CNrG w/Tank Fill includes install / mount - Includes Front Bumper, Fast Fill and CNrG Decals CNG Mounting Brackets (Tank Fill, Decal and Installation)	\$43,019 \$4,334
Tag Axle or Pusher Axle Option	
X Tag Axle Spill shield - Prevents debris from collecting on the tag axle Pre-Installed Pusher Axle	INCLUDED \$0
Pre-Installed Tag Axle	\$0
13K lb Hendrickson Pusher Steerable Axle - Includes (275/R22 Tires & Alum Wheels) 13K lb Hendrickson Tag Steerable Axle - Includes (275/R22 Tires & Alum Wheels)	\$10,151 \$10,151
13K lb Hendrickson Pusher Non Steerable Axle - Includes (275/R22 Tires & Alum Wheels)	\$9,555
X 13K lb Hendrickson Tag Non Steerable Axle - Included (275/R22 Tires & Alum Wheels) 13K lb Hendrickson Steerable Tag Axle with Tag Lock	\$9,555 \$12,148
20K lb Hendrickson Pusher Steerable Axle 20K lb Hendrickson Tag Steerable Axle	\$10,151 \$10,151
20K lb Hendrickson Pusher Non-Steerable Axle	\$9,555
20K lb Hendrickson Tag Non-Steerable Axle 315 Aluminum Wheels & Tires - Upgrade	\$9,555 \$1,250
315 Aluminum Wheels & Tires - Upgrade	\$1,250
Extended Warranty x One (1) Year Complete Body Warranty	INCLUDED
Infinity Series Packer/Eject Cylinders with scrapers and hardened rods to 50 HRC by Rosenboom - Includes	INCLUDED
Five (5) Year Packer/Eiect Cylinder Warranty covering dents and dings Two (2) Year Cylinder Parts Warranty	INCLUDED
Paint Options	
x Republic Blue, Dupont 784083	INCLUDED

Base Units Half/Pack Odyssey	
x 28 yard CHASSIS MUST COMFORM WITH HEIL'S MOST CURRENT CHASSIS SPECIFICATIONS	\$100,043
Mounting Options x Full Factory Mount with Service Hoist (if 5 axle - service lift)	INCLUDED
Deduct for service hoist if a 5 axle truck Power Take Off / Pump Options	(\$1,500)
x PTO Mounted Load Sense Piston pump - Includes PTO	INCLUDED
Remote Mount Pump Certain transmission / chassis configurations may not have proper clearance to allow direct mount or live power	INCLUDED
_Control Options	
X Dual Mulifunction Joystick - Left and Right Hand Left Hand 2-Lever Electric Control in lieu of Multifunction Joystick	INCLUDED \$437
Outside 2-lever controls (Arms, Forks) PLUS switch bank (Pump, TA, Packer) - (558-0004-005)	\$1,899
Lighting and Electrical Accessories x Body Side Backing Assist Lights - LED	INCLUDED
x Whelen Tailgate Strobe Kit	INCLUDED
AWTI Radar Warning System Amber Turn Signal	INCLUDED INCLUDED
X Single LED Container Work Lights - in-cab switch Dual Cab Guard Mounted LED Flood Lights	INCLUDED
X Dual Cab Guard Mounted LED Flood Lights Grote Light Upgrade	INCLUDED INCLUDED
× Egress Lights Automated Option	INCLUDED
x Hopper Seal Brush Kit- Includes sides, Front, and Rear Bristle Hopper Seal Kit - For Curotto Only	INCLUDED
Remote Curbside Controls - (558-0004-001) In-Cab controls for integrated forward work lamps - Forward Work Lamps must be purchased with the	INCLUDED
× Curotto Can	INCLUDED
Installation of Auto cover controls - Auto cover must be purchased with the Curotto Can Bayne Carry Can w/ Cart Tipper BTL208	\$1,134 \$6,652
Bayne Controls Only - (546-0002-002)	\$0,852
Body Options x Roof Access ladder (Curb Side Rear Bolster)	INCLUDED
x Hydraulic Oil Tank Quick Disconnect Kit - For use with filter buggy	INCLUDED
x 24" Bumper Mounted Aluminum Toolbox x Extendable Broom & Packer Broom and a Packer Shovel	INCLUDED INCLUDED
x Spill Kit	INCLUDED
x Republic White Front Mud flaps x Republic Cab Decal Kit	INCLUDED INCLUDED
x Republic Body Decal Kit	INCLUDED
x D-Ring Fall Protection x Rear Caution Decal	INCLUDED INCLUDED
x Fender Extensions	INCLUDED
x No Body Sump Doors x No Floor Drain	INCLUDED INCLUDED
x 1.5" Fork Upgrade x Wheel Chock Kit - Dual	INCLUDED INCLUDED
x Aluminum Cab Protector	INCLUDED
California Back Up Alarm 60 Gallon Washout Tank - side mounted - Not available with pusher axle	\$624 \$1,578
60 Gallon Washout Tank - rear mounted - Not available with tag axle	\$1,578
Heavy Duty Sliding Top door - May not be compatible with roof mounted CNG systems Camera Systems	\$4,038
All camera systems are mounted with protective camera brackets and twin tailgate flood lights	
CAMERA MONITOR LOCATION WILL BE ROOF MOUNTED; Swivel monitor bracket will be provided for dual driv 3rd Eye Camera Systems	ve chassis
x 3rd Eye Double Camera with LCD Color Monitor (Cameras on T/G & LH Cab)	INCLUDED
Additional Hopper Camera - (229-0003-001) Additional Left Hand Alley Camera - (229-0003-005)	\$378 \$378
Additional Right Hand Alley - (229-0003-004) CNG/CNrG Installation	\$378
60 DGE CNrG w/Tank Fill includes install / mount - Includes Front Bumper, Fast Fill and CNrG Decals	\$28,092
75 DGE CNrG w/Tank Fill includes install / mount - Includes Front Bumper, Fast Fill and CNrG Decals 90 DGE CNrG w/Tank Fill includes install / mount - Includes Front Bumper, Fast Fill and CNrG Decals	\$31,429 \$37,915
105 DGE CNrG w/Tank Fill includes install / mount - Includes Front Bumper, Fast Fill and CNrG Decals	\$43,019
CNG Mounting Brackets (Tank Fill, Decal and Installation) Tag Axle or Pusher Axle Option	\$4,334
x Tag Axle Spill shield - Prevents debris from collecting on the tag axle	INCLUDED
Pre-Installed Pusher Axle Pre-Installed Tag Axle	\$0 \$0
13K lb Hendrickson Pusher Steerable Axle - Includes (275/R22 Tires & Alum Wheels)	\$10,151
x 13K lb Hendrickson Tag Steerable Axle - Includes (275/R22 Tires & Alum Wheels) 13K lb Hendrickson Pusher Non Steerable Axle - Includes (275/R22 Tires & Alum Wheels)	\$10,151 \$9,555
13K lb Hendrickson Tag Non Steerable Axle - Included (275/R22 Tires & Alum Wheels)	\$9,555
13K lb Hendrickson Steerable Tag Axle with Tag Lock 20K lb Hendrickson Pusher Steerable Axle	\$12,148 \$10,151
20K lb Hendrickson Tag Steerable Axle	\$10,151
20K lb Hendrickson Pusher Non-Steerable Axle 20K lb Hendrickson Tag Non-Steerable Axle	\$9,555 \$9,555
315 Aluminum Wheels & Tires - Upgrade 315 Aluminum Wheels & Tires - Upgrade	\$1,250
Extended Warranty	\$1,250
x One (1) Year Complete Body Warranty Infinity Series Packer/Eject Cylinders with scrapers and hardened rods to 50 HRC by Rosenboom - Includes	INCLUDED
x Five (5) Year Packer/Eject Cylinders with scrapers and hardened rods to 50 Fine by Rosenboom - includes	INCLUDED
x Two (2) Year Cylinder Parts Warranty	INCLUDED
Paint Options x Republic Blue, Dupont 784083	INCLUDED

Notes:

The estimates are based on the 2010 Census and reflect changes to the April 1, 2010 population due to the Count Question Resolution program and geographic program revisions.

See Geographic Terms and Definitions at http://www.census.gov/popest/about/geo/terms.html for a list of the states that are included in each region and division.

All geographic boundaries for the 2014 population estimates series except statistical area delineations are as of January 1, 2015.

¹ Total population change includes a residual. This residual represents the change in population that cannot be attributed to any specific demographic component.

See Population Estimates Terms and Definitions at http://www.census.gov/popest/about/terms.html.

² Net international migration for the United States includes the international migration of both native and foreign-born populations. Specifically, it includes:
 (a) the net international migration of the foreign born, (b) the net migration between the United States and Puerto Rico, (c) the net migration of natives to and from the United States, and (d) the net movement of the Armed Forces population between the United States and overseas.
 For population estimates methodology statements, see http://www.census.gov/popest/methodology/index.html.

EJ Index for Wastewater Discharge Indicator	4	10	15

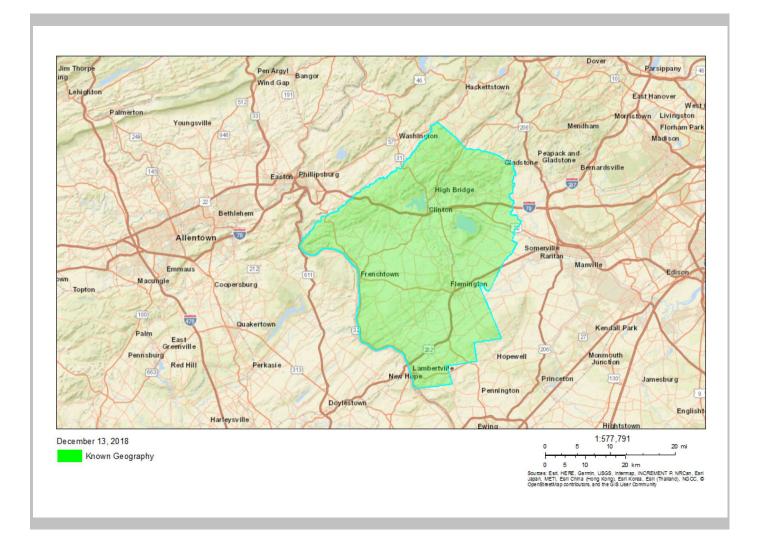

This report shows the values for environmental and demographic indicators and EJSCREEN indexes. It shows environmental and demographic raw data (e.g., the estimated concentration of ozone in the air), and also shows what percentile each raw data value represents. These percentiles provide perspective on how the selected block group or buffer area compares to the entire state, EPA region, or nation. For example, if a given location is at the 95th percentile nationwide, this means that only 5 percent of the US population has a higher block group value than the average person in the location being analyzed. The years for which the data are available, and the methods used, vary across these indicators. Important caveats and uncertainties apply to this screening-level information, so it is essential to understand the limitations on appropriate interpretations and applications of these indicators. Please see EJSCREEN documentation for discussion of these issues before using reports.

* The National-Scale Air Toxics Assessment (NATA) is EPA's ongoing, comprehensive evaluation of air toxics in the United States. EPA developed the NATA to prioritize air toxics, emission sources, and locations of interest for further study. It is important to remember that NATA provides broad estimates of health risks over geographic areas of the country, not definitive risks to specific individuals or locations. More information on the NATA analysis can be found at: https://www.epa.gov/national-air-toxics-assessment.

For additional information, see: <u>www.epa.gov/environmentaljustice</u>

EJSCREEN is a screening tool for pre-decisional use only. It can help identify areas that may warrant additional consideration, analysis, or outreach. It does not provide a basis for decision-making, but it may help identify potential areas of EJ concern. Users should keep in mind that screening tools are subject to substantial uncertainty in their demographic and environmental data, particularly when looking at small geographic areas. Important caveats and uncertainties apply to this screening-level information, so it is essential to understand the limitations on appropriate interpretations and applications of these indicators. Please see EJSCREEN documentation for discussion of these issues before using reports. This screening tool does not provide data on every environmental impact and demographic factor that may be relevant to a particular location. EJSCREEN outputs should be supplemented with additional information and local knowledge before taking any action to address potential EJ concerns.

* The National-Scale Air Toxics Assessment (NATA) is EPA's ongoing, comprehensive evaluation of air toxics in the United States. EPA developed the NATA to prioritize air toxics, emission sources, and locations of interest for further study. It is important to remember that NATA provides broad estimates of health risks over geographic areas of the country, not definitive risks to specific individuals or locations. More information on the NATA analysis can be found at: https://www.epa.gov/national-air-toxics-assessment.

For additional information, see: <u>www.epa.gov/environmentaljustice</u>

EJSCREEN is a screening tool for pre-decisional use only. It can help identify areas that may warrant additional consideration, analysis, or outreach. It does not provide a basis for decision-making, but it may help identify potential areas of EJ concern. Users should keep in mind that screening tools are subject to substantial uncertainty in their demographic and environmental data, particularly when looking at small geographic areas. Important caveats and uncertainties apply to this screening-level information, so it is essential to understand the limitations on appropriate interpretations and applications of these indicators. Please see EJSCREEN documentation for discussion of these issues before using reports. This screening tool does not provide data on every environmental impact and demographic factor that may be relevant to a particular location. EJSCREEN outputs should be supplemented with additional information and local knowledge before taking any action to address potential EJ concerns.

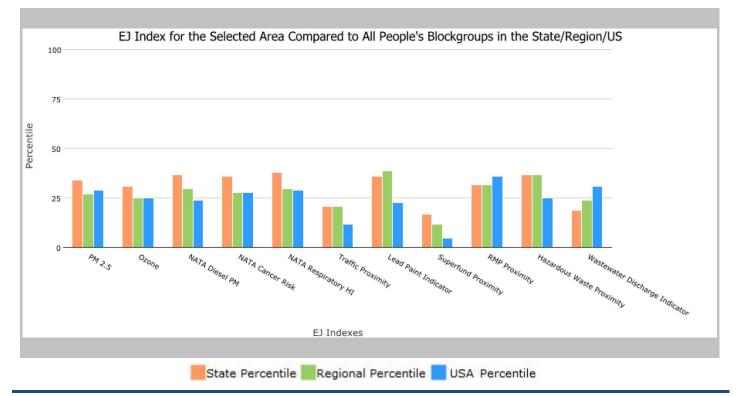

County: Monmouth, NEW JERSEY, EPA Region 2

Approximate Population: 627,532

Input Area (sq. miles): 665.47

(The study area contains 2 blockgroup(s) with zero population.)

EJ Index for Superfund Proximity	17	12	5
EJ Index for RMP Proximity	32	32	36
EJ Index for Hazardous Waste Proximity	37	37	25
EJ Index for Wastewater Discharge Indicator	19	24	31

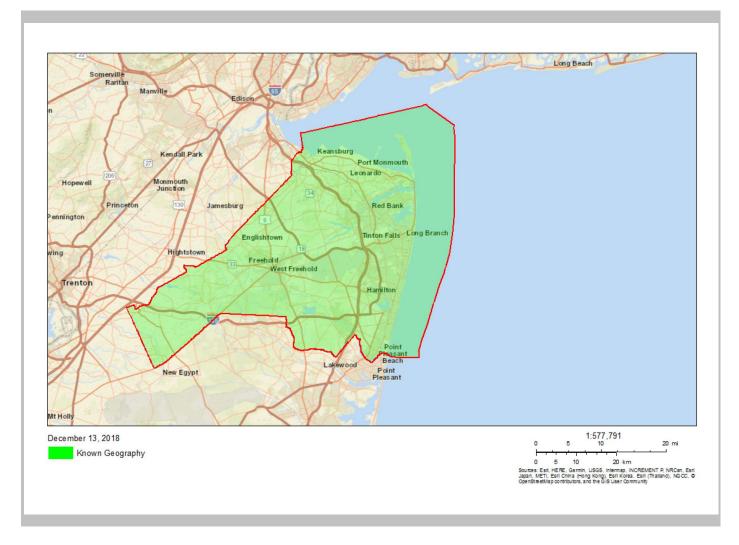

This report shows the values for environmental and demographic indicators and EJSCREEN indexes. It shows environmental and demographic raw data (e.g., the estimated concentration of ozone in the air), and also shows what percentile each raw data value represents. These percentiles provide perspective on how the selected block group or buffer area compares to the entire state, EPA region, or nation. For example, if a given location is at the 95th percentile nationwide, this means that only 5 percent of the US population has a higher block group value than the average person in the location being analyzed. The years for which the data are available, and the methods used, vary across these indicators. Important caveats and uncertainties apply to this screening-level information, so it is essential to understand the limitations on appropriate interpretations and applications of these indicators. Please see EJSCREEN documentation for discussion of these issues before using reports.
