 NJ's Electric Vehicle Charging Grant Program
 DC Fast Charging Station Project Information Form**

Project Information

Proposed Charging Station(s) Location (at least one form per corridor location):	Street Address Line 1: 454 US Highway 202	
	Street Address Line 2:	
	City: Flemington	County: Hunterdon
	State: NJ	Zip Code: 08822

Location Description:

Is the location on government-owned property? Yes No

Which eligible roadway would this location serve? Highway 202 (and State Route 31)

Is this location within one (1) mile from an exit or intersection? Yes No

Name of electric service provider: JC P&L

Charging stations being installed

Please provide the number of each type of charging station you propose to install as well as the make and model or other relevant information to describe the charging station(s).

DC Fast Charging Stations	Description
Number: (2 port minimum) <i>1 location w/ 2 ports</i>	Make: Nidec Industrial Solutions Model: 1 MW/1.2 MW ESS + 2 dispensers Power: <u>160/320</u> kW (minimum of 150kW required)

Grant Requested:	\$ 160,000
-------------------------	-------------------

Lease? Yes No

Optional: We welcome additional information that supports your proposal, including details about amenities (coffee shops, retail, restaurants, public bathrooms, etc.) located within ¼ mile of the proposed DCFC site.

Our approach is innovative, in that we combine the EV charging station with an energy storage unit, allowing us to optimize the economics of the project and minimize the impact on the electrical grid.

Our location will be fitted so that drivers can connect to wifi and surf the internet while their vehicle charges. Depending on number of visitors, we contemplate installing vending machines on site (basic non-alcoholic drinks, snacks).
