Grant Requested: \$ 200,000

Lease? Yes ☐ No ☒

Optional: We welcome additional information that supports your proposal, including details about amenities (coffee shops, retail, restaurants, public bathrooms, etc.) located within ¼ mile of the proposed DCFC site.

Currently, the Township of Middletown has a "very high suitability" score of 83. Therefore with this score, the Township will be able to compliment the State's overall Strategic Plan for a connected electric vehicle infrastructure. The Township of Middletown has a population of 65,490 residents. Electric vehicles have become popular among our residents and municipal employees. The Township is requesting two DC Fast Chargers, which will be located at Town Hall. Moreover, Middletown Town Hall is centrally located and is a suitable location for a DC Fast Charging Station, which is in walking distance to various businesses, restaurants, and neighborhoods. If awarded funding, the Township will be able to offer two charging stations to residents and municipal employees to utilize. Currently, there are very few electric vehicle charging stations within Middletown and purchasing two DC Fast Charging Stations will greatly benefit and enhance the Township of Middletown.
