#### **Balance Sheet Instructions**

Use the following pages to collect the financial information that will be entered into the online application as part of your balance sheet. When entering data into the <u>online application</u>, please remember these important points:

- Financial statements can be consolidated for the entire company; they do not have to be New Jersey specific.
- Round all amounts to the nearest whole US dollar, and do not enter any commas or periods.
- The assets section of the balance sheet contains an "Other Assets" line. If you do not see an appropriate entry for an account on the assets screen, clicking the "Other Assets" link will display a new screen that allows you to enter the description and amount for any account not described on the assets page. The total calculated on the "Other Assets" page will be automatically included on the assets page at the "Other Assets" line. These worksheets are organized in a similar fashion.
- The liabilities section of the balance sheet contains an "Other Liabilities" line. If you do not see an appropriate entry for an account on the liabilities screen, clicking the "Other Liabilities" link will display a new screen that allows you to enter the description and amount for any account not described on the liabilities page. The total calculated on the "Other Liabilities" page will be automatically included on the liabilities page at the "Other Liabilities" line. These worksheets are organized in a similar fashion.
- When entering "Other Assets" or "Other Liabilities", you may organize and combine similar accounts to correspond with your personal accounting needs.
- The stockholders' equity section of the balance sheet contains an "Other Stockholders' Equity" line. If you do not see an appropriate entry for certain accounts on the stockholders' equity screen, add those accounts and enter the total amount on the "Other Stockholders' Equity" line. There is no need to provide detailed descriptions for those entries.
- The online application does not currently provide a facility for entering contra-accounts into the balance sheet. Instead, you must <u>net</u> any accounts that have a corresponding contra-account, and enter only the net amount into the balance sheet.

Example: If Total Fixed Assets is \$100,000, and Total Accumulated Depreciation is (\$10,000), enter \$90,000 as the Total Net Fixed Assets.

• Your Total Assets <u>must</u> equal your Total Liabilities plus your Total Stockholders' Equity. *The online application will not allow you to submit your annual report if your balance sheet does not balance!*
