SEMI-ANNUAL LEGISLATIVE REPORT INDEPENDENT HEALTH CARE APPEALS PROGRAM DEPARTMENT OF BANKING AND INSURANCE

This is the semi-annual report to the Legislature on activities related to the Independent Health Care Appeals Program from January 1, 2024, through June 30, 2024.

The Health Care Quality Act established the Independent Health Care Appeals Program to provide covered persons with the right to appeal to an independent utilization review organization (IURO) a carrier's denial, limitation or termination of a covered service on the grounds that it is not medically necessary. The overturn of a carrier's denial signifies that the IURO determined, after a review of all medical information submitted by the carrier and the covered person, that the services requested for the covered person were medically necessary and appropriate and should therefore be covered by the carrier. If all or part of the IURO's decision is in favor of the covered person, the carrier is required to provide coverage for the healthcare services found to be medically necessary within ten business days. The IURO's decision is binding on the carrier and the covered person, except if other remedies are available under state or federal law. The New Jersey Department of Banking and Insurance (Department) administers the Independent Health Care Appeals Program and currently contracts with one IURO to conduct the appeal reviews.

Two thousand sixty-nine (2,069) external appeals were filed with the Department's vendor during the period of this report. Of the 2,069 appeals, 1,152 were accepted for review by the IURO. Appeals determined to be ineligible for the Independent Health Care Appeals Program were rejected for the following reasons: failure to exhaust the carrier's internal appeal process; not a utilization management (UM) issue; member is covered by self-funded plan; fair hearing request; failure to provide signed consent to appeal; issue already resolved; out of state coverage; appeal untimely; and the appeal involves a non-covered benefit.

The IURO rendered decisions on 1,102 appeals during this period. Of the 1,102 appeals, the IURO upheld the carrier's denial 671 times (61%) and overturned or modified the carrier's denial 431 times (39%). In the previous 6-month period, July 1, 2023, through December 31, 2023, the IURO rendered decisions on 959 appeals. The carrier's denial was upheld in 57% of the cases and overturned or modified in 43% of the cases.

As the table demonstrates, the annual number of appeals filed by covered persons remains low considering the number of residents enrolled in HMOs and other managed care plans (over 3.1 million). However, there has been a continuous increase in appeals, with a marked upturn in appeals starting in 2011. The number of appeals shown on the chart as received, represents the appeals determined to meet the criteria for review. The number of actual appeals reviewed by the IURO is often lower because of the carrier's decision to cover the service before the IURO initiates its review.

How the Appeal System Works

It is important to remember that covered persons are required to exhaust the carrier's internal appeals process before submitting an appeal for review by an IURO, except in urgent or emergency cases.

During the period covered by this report, all external appeal case reviews were conducted by one IURO under contract with the Department – Maximus Federal Services. The reviews are performed by medical professionals, including specialty physicians appropriate to the area under review. The physician reviewers examine cases on the basis of medical records and other documents, generally accepted practice guidelines and applicable clinical protocols. The cost of the review is paid by the carrier and the fees ranged from \$900 to \$920 for this reporting period. Consumers pay a \$25 filing fee for an external appeal, which is waived in cases of financial hardship and for Medicaid enrollees. The carrier is required to refund the \$25 filing fee to the covered person if the carrier's denial is overturned.

Consumers are allowed up to four months and up to sixty days for Medicaid enrollees from the date of a carrier's final adverse benefit determination to file an external appeal. Under routine circumstances, a decision must be rendered by the IURO within 45 calendar days from receiving the appeal request; however, the IURO can act within a matter of hours in urgent or emergency cases.

Consumer Education

New Jersey law requires that covered persons who are denied coverage based on lack of medical necessity for an otherwise covered medical procedure or service must be given an appeal form that includes instructions on how to file an appeal. On the few occasions when the Department has learned that a carrier failed to notify its member of the right to appeal, the Department has taken prompt corrective action.

An Appeal and Complaint Guide for New Jersey Consumers is available on the Department's website at <u>www.state.nj.us/dobi/division_consumers/insurance/appealcomplaintguide.pdf</u>. This Guide explains the utilization management appeal process and provides instructions for filing complaints against carriers with the Department. The Department also produces an annual HMO Report Card which includes information on the appeal process.
