## NOTES TO FINANCIAL STATEMENTS

### 1. Summary of Significant Accounting Policies and Going Concern

#### A. Accounting Practices

The accompanying statutory financial statements of Aetna Health Inc. (a New Jersey corporation) (the “Company”), indirectly a wholly-owned subsidiary of CVS Health Corporation (“CVS Health”), have been prepared in conformity with accounting practices prescribed or permitted by the State of New Jersey Department of Banking and Insurance (“New Jersey Department”) (“New Jersey Accounting Practices”). The New Jersey Department recognizes statutory accounting practices prescribed or permitted by the State of New Jersey for determining and reporting the financial condition and results of operations of an insurance company, which include accounting practices and procedures adopted by the National Association of Insurance Commissioners’ (“NAIC”) *Accounting Practices and Procedures Manual*.

A reconciliation of the Company’s net income and capital and surplus between NAIC SAP and practices prescribed and permitted by the State of New Jersey for the years ending December 31, 2021 and 2020 is as follows:

#### B. Use of Estimates in the Preparation of the Financial Statements

The preparation of these financial statements in conformity with New Jersey Accounting Practices requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and revenue and expenses. Actual results could differ from those estimates.

#### C. Accounting Policies

The Company applies the following significant accounting policies:

##### (1) Cash, Cash Equivalents and Short-Term Investments

Cash, cash equivalents and short-term investments, consisting primarily of money market instruments and other debt issues with an original maturity of up to one year, are carried at amortized cost. Short-term investments consist primarily of investments purchased with an original maturity date of greater than three months but less than one year. Cash equivalents consist of highly liquid instruments, which mature within three months from the date of purchase. The carrying amount of cash, cash equivalents and short-term investments approximates fair value. Cash accounts with positive balances shall not be reported separately from cash accounts with negative balances. If in the aggregate, the reporting entity has a net negative cash balance, it shall be reported as a negative asset and shall not be recorded as a liability.

##### (2) Bonds

Bonds, which include special deposits, are carried at amortized cost except for those bonds with an NAIC designation of 3 through 6, which are carried at the lower of amortized cost or fair value. The amount carried at fair value is not

## NOTES TO FINANCIAL STATEMENTS

material to the financial statements. Bond premiums and discounts are amortized using the scientific interest method. When quoted prices in active markets for identical assets are available, the Company uses these quoted market prices to determine the fair value of bonds. This is used primarily for U.S. government securities. In other cases where a quoted market price for identical assets in an active market is either not available or not observable, the Company estimates fair values using valuation methodologies based on available and observable market information or by using a matrix pricing model. If quoted market prices are not available, the Company determines fair value using broker quotes or an internal analysis of each investment's financial performance and cash flow projections. The Company had no investments where fair value was determined using broker quotes or an internal analysis of financial performance and cash flow projections at December 31, 2021 and 2020. Bonds include all investments whose maturity is greater than one year when purchased. All adjustments between amortized cost and carrying value are reflected in unrealized capital gains and losses and are reported as direct adjustments to surplus.

Bonds are recorded as purchases or sales on the trade date.

The Company periodically reviews its bonds to determine whether a decline in fair value below the carrying value is other-than-temporary. For bonds, other than loan-backed and structured securities ("LB&SS") discussed in Note 1 C. (6) below, an other-than-temporary impairment ("OTTI") shall be recorded if it is probable that the Company will be unable to collect all amounts due according to the contractual terms in effect at the date of acquisition. Declines deemed to be OTTI in the cost basis are recognized as realized capital losses. Yield-related impairments are deemed other-than-temporary when the Company intends to sell an investment at the reporting date before recovery of the cost of the investment.

The Company analyzes all relevant facts and circumstances for each investment when performing its analysis to determine whether an OTTI exists. Among the factors considered in evaluating whether a decline is other-than-temporary, management considers whether the decline in fair value results from a change in the quality of the investment security itself, whether the decline results from a downward movement in the market as a whole, the prospects for realizing the carrying value of the bond based on the investee's current and short-term prospects for recovery and other factors. The risks inherent in assessing the impairment of an investment include the risk that market factors may differ from the Company's expectations and the risk that facts and circumstances factored into its assessment may change with the passage of time. Unexpected changes to market factors and circumstances that were not present in past reporting periods may result in a current period decision to sell securities that were not other-than-temporarily-impaired in prior reporting periods.

The Company had no Securities Valuation Office-identified investments that are being reported at a different measurement method from the prior year annual statement.

(3) Common Stocks

The Company did not own any common stock at December 31, 2021 and 2020.

(4) Preferred Stocks

The Company did not own any preferred stock at December 31, 2021 and 2020.

(5) Mortgage Loans

The Company did not have any mortgage loans at December 31, 2021 and 2020.

(6) Loan-Backed and Structured Securities

LB&SS are carried at amortized cost adjusted for unamortized premiums and discounts and are accounted for using the retrospective adjustment method. Premiums and discounts on loan-backed and structured securities are amortized using the scientific method over the estimated remaining term of the securities, adjusted for anticipated prepayments.

For LB&SS, the Company records OTTI when the fair value of the loan-backed or structured security is less than the amortized cost basis at the balance sheet date and (1) the Company intends to sell the investment, or (2) the Company does not have the intent and ability to retain the investment for the time sufficient to recover the amortized cost basis, or (3) the Company does not expect to recover the entire amortized cost basis of the security, even if it does not intend to sell the security and has the intent and ability to hold. If it is determined an OTTI has occurred because of (1) or (2), the amount of the OTTI is equal to the difference between the amortized cost and the fair value of the security at the balance sheet date and this difference is recorded as a realized capital loss. If it is determined an OTTI has occurred because of (3), the amount of the OTTI is equal to the difference between the amortized cost and the present value of cash flows expected to be collected, discounted at the loan-backed or structured security's effective interest rate and this difference is also accounted for as a realized capital loss.

(7) Investments in Subsidiaries, Controlled or Affiliated Companies

The Company did not have any investments in subsidiaries, controlled or affiliated companies at December 31, 2021 and 2020.

(8) Investments in Joint Ventures, Partnerships and Limited Liability Companies

## NOTES TO FINANCIAL STATEMENTS

The Company did not have any investments in any joint ventures, partnerships and limited liability companies at December 31, 2021 and 2020.

(9) Derivatives

The Company did not have any derivatives at December 31, 2021 and 2020.

(10) Aggregate Health Policy Reserves and Related Expenses

Premium deficiency reserves ("PDR") are recognized when it is probable that the expected future hospital and medical costs, including maintenance costs, will exceed anticipated future premiums and reinsurance recoveries on existing contracts. Anticipated investment income is not considered in the calculation of any PDR. For purposes of calculating a PDR, contracts are grouped in a manner consistent with the method of acquiring, servicing and measuring the profitability of such contracts.

Unearned premium reserves ("UEP") are recognized for premiums that are recorded by the Company that have not been earned as of the statement date. The UEP balance of \$522 was included in aggregate health policy reserves in the Statutory Statements of Liabilities, Capital and Surplus at both December 31, 2021 and 2020.

The Company is required to make premium rebate payments to customers that are enrolled under certain health insurance policies if specific minimum annual medical loss ratios ("MLR") were not met in the prior year. The Company had no MLR rebates at December 31, 2021 and 2020.

The Company contracts with the Office of Personnel Management ("OPM") to provide managed health care services under the Federal Employees Health Benefits ("FEHB") program in its service areas. OPM regulations require that FEHB plans meet a FEHB program-specific MLR by plan code and market. The Company reported minimum FEHB program MLR rebate estimates of \$2,040,000 and \$980,000 in aggregate health policy reserves at December 31, 2021 and 2020, respectively. The Company reported Federal Contingency Reserve of \$675,578 and \$919,788 in aggregate health policy reserves at December 31, 2021 and 2020, respectively.

For Medicare plans, the Company's annual contract with Centers for Medicare & Medicaid Services ("CMS") provides a risk-sharing arrangement to limit exposure to unexpected expenses. The risk-sharing arrangement provides a risk corridor whereby the amount the Company received in premiums from members and CMS based on its annual bid is compared to actual drug costs incurred during the contract year. Based on the risk corridor provision and Part D activity-to-date, estimated risk-sharing payables of \$180,303 and \$57,283 were included in aggregate health policy reserves in the Statutory Statements of Liabilities, Capital and Surplus at December 31, 2021 and 2020, respectively.

The Company reported liabilities associated with contracts subject to redetermination as aggregate health policy reserves in accordance with SSAP No. 54 - Revised - *Individual and Group and Accident Health Contracts* ("SSAP No. 54"). Liabilities associated with estimated adjustments to premium payments to the Company's Medicare plans based on the health status of its Medicare members are included as part of the Company's contracts subject to redetermination. Amounts related to these liabilities are \$18,497,829 and \$16,354,701 and are included in aggregate health policy reserves at December 31, 2021 and 2020, respectively.

(11) Hospital and Medical Costs and Claims Adjustment Expenses and Related Reserves

Hospital and medical costs consist principally of fee-for-service medical claims and capitation costs. Claims unpaid and aggregate health claim reserves include the Company's estimate of payments to be made on claims reported but not yet paid and for health care services rendered to enrollees but not yet reported to the Company as of the Statutory Statements of Assets and Liabilities, Capital and Surplus date. Such estimates are developed using actuarial principles and assumptions, which consider, among other things, historical and projected claim submission and processing payment patterns, medical cost trends, historical utilization of health care services, claim inventory levels, medical inflation, contract requirement changes in membership and product mix, seasonality and other relevant factors. The Company reflects changes in estimates in hospital and medical costs in the Statutory Statements of Revenue and Expenses in the period they are determined. Capitation costs, which are recorded in hospital and medical expenses in the Statutory Statements of Revenue and Expenses, represent contractual monthly fees paid to participating physicians and other medical providers for providing medical care, regardless of the medical services provided to the enrollee.

The Company uses the triangulation method to estimate reserves for claims incurred but not reported. The method of triangulation makes estimates of completion factors that are then applied to the total paid claims (net of coordination of benefits) to date for each incurral month. This provides an estimate of the total projected incurred claims and total amount outstanding or claims incurred but not reported (claims unpaid). For the most current dates of service where there is insufficient paid claim data to rely solely on the triangulation method, the Company examines cost and utilization trends as well as environmental factors, plan changes, provider contracts, changes in membership and/or benefits, and historical seasonal patterns to estimate the reserve required for these months.

Claims adjustment expenses, which include cost containment expenses, represent the costs incurred related to the claim settlement process such as costs to record, process and adjust claims. These expenses are included in the Company's management agreement with an affiliate described in Note 10.

(12) Capitalization Policy

The Company has not modified its capitalization policy from the prior period.

## NOTES TO FINANCIAL STATEMENTS

### (13) Pharmaceutical Rebate Receivables

The Company estimates pharmaceutical rebate receivables based upon historical payment trends, actual utilization and other variables. Pharmaceutical rebates for a quarter are billed to the vendor within one month of the completion of the quarter with any adjustment to previously recorded amounts reflected at the time of billing. The Company reports pharmaceutical rebate receivables as health care receivables. Pharmacy rebate receivables not in accordance with SSAP No. 84 – *Health Care and Government Insured Plan Receivables* or are over 90 days past due are nonadmitted. All rebates are processed and settled monthly with an affiliated entity, including adjustments to previously billed periods. The pharmaceutical rebate receivables are more fully discussed in Note 28.

### (14) Premiums and Amounts Due and Unpaid

Premium revenue for prepaid health or dental care products is recognized as income in the month in which enrollees are entitled to health or dental care services. Premiums collected before the effective period are reported as premiums received in advance. Premiums related to unexpired contractual coverage periods are reported as unearned premiums and are included in aggregate health policy reserves in the Statutory Statements of Liabilities, Capital and Surplus.

Nonadmitted amounts consist of all premiums due and unpaid greater than 90 days past due, with the exception of amounts due under government insured plans, which may be admitted assets under certain circumstances. In addition, for any customer for which the premiums due and unpaid greater than 90 days past due is more than a de minimus portion of the entire balance of premiums due and unpaid for that customer, the entire balance of premiums due and unpaid for that customer is nonadmitted. Management also performs a specific review of accounts and based on the results of the review, additional amounts may be nonadmitted. Uncollectible amounts are generally written-off and charged to revenue in the period in which the customer reconciliations are completed and agreed to by the customer (retroactivity) or when the account is determined to be uncollectible by the Company.

Through the Company's Medicare Advantage Part D annual contract with CMS, the Company receives monthly premium payments from CMS and members, as determined by the Company's annual bid process. The Company recognizes the revenue related to the CMS contract ratably over the term of its annual contract.

The CMS payment is subject to risk sharing provisions through the CMS risk corridor provision, which is accounted for as a retrospectively rated contract in accordance with SSAP No. 66 - *Retrospectively Rated Contracts*. Receivables related to the CMS risk corridor provision are included in accrued retrospective premiums and contracts subject to redetermination on the Statutory Statements of Assets.

The Company's CMS payment is also subject to the CMS risk adjustment process for each member, which is accounted for as a contract subject to redetermination in accordance with SSAP No. 54. Receivables related to the CMS risk adjustment process are included in accrued retrospective premiums and contracts subject to redetermination on the Statutory Statements of Assets.

### (15) Aggregate Health Claim Reserves

The reserve for future contingent benefits includes the estimated cost of services that will continue to be incurred after the Statutory Statements of Liabilities, Capital and Surplus date if the Company is obligated to pay for such services in accordance with contract provisions or regulatory requirements. These balances are recorded in aggregate health claim reserves in the Statutory Statements of Liabilities, Capital and Surplus and are estimated using a percentage of current hospital and medical costs, which is based on the Company's historical cost experience.

### (16) Investment Income Due and Accrued

Accrued investment income consists primarily of interest. Interest is recognized on an accrual basis and dividends are recorded as earned on the ex-dividend date. Due and accrued income is not recorded on: (a) bonds in default; and (b) bonds delinquent more than 90 days or where collection of interest is improbable. At December 31, 2021 and 2020, the Company did not have any nonadmitted investment income due and accrued.

### (17) Covered and Uncovered Expenses and Related Liabilities

Covered expenses and related liabilities represent costs for health care expenses for which a member is not responsible in the event of the insolvency of the Company. Uncovered expenses and related liabilities represent costs to the Company for health care services that are the obligation of the Company and for which a member may also be liable in the event of the Company's insolvency.

### (18) Fees Paid to the Federal Government by Health Insurers

SSAP No. 106 - *Affordable Care Act Section 9010 Assessment* ("SSAP No. 106") required (1) that the annual fee be recognized in full on January 1 of the fee year (the calendar year in which the assessment must be paid to the federal government), in the operating expense category of general administrative expenses, excluding federal income taxes and (2) that in each data year preceding a fee year a reporting entity pro-ratably accrue by reclassifying from unassigned surplus to special surplus funds an amount equal to its estimated subsequent fee year assessment. This reclassification has no impact on total capital and surplus and is reversed in full on January 1 of the fee year. On January 1, 2020, the Company was subject to the annual fee ("ACA assessment"). This annual fee was allocated to individual health insurers based on the ratio of the amount of the entity's net premiums written during the preceding calendar year to the amount of health insurance for any U.S. health risk that was written during the preceding calendar year. A health insurance entity's

## NOTES TO FINANCIAL STATEMENTS

portion of the annual fee becomes payable once the entity provides health insurance for any U.S. health risk for each calendar year beginning on or after January 1 of the year the fee is due. In September 2020, the Company paid \$14,317,800 to the federal government for its portion of the annual fee. In December 2019, the annual fee was repealed beginning in 2021. As a result of this repeal, there was no annual fee payable in 2021 and thereafter, and therefore no estimated subsequent fee year assessment was required to be reclassified from unassigned funds to special surplus funds at December 31, 2021 and December 31, 2020.

(19) The Patient Protection and Affordable Care Act and the Health Care and Education Reconciliation Act of 2010's (collectively, the "ACA") Risk Adjustment

The ACA established a permanent risk adjustment program to transfer funds from qualified individual and small group insurance plans with below average risk scores to plans with above average risk scores. Based on the risk of the Company's qualified plan members relative to the average risk of members of other qualified plans in comparable markets, the Company estimates its ultimate risk adjustment receivable or payable for the current calendar year and reflects the impact as an adjustment to its premium revenue in accordance with SSAP No. 107 - Risk-Sharing Provisions of the Affordable Care Act ("SSAP No. 107"). ACA Risk Adjustment payables are included in aggregate health policy reserves on the Statutory Statements of Liabilities, Capital and Surplus. ACA Risk Adjustment receivables are included in accrued retrospective premiums and contracts subject to redetermination on the Statutory Statements of Assets.

(20) Reinsurance

In the normal course of business, the Company seeks to reduce the loss that may arise from catastrophes or other events that cause unfavorable underwriting results and to help balance its risks and capital by reinsuring certain levels of risk with other insurance enterprises. The reinsurance coverage does not relieve the Company of its primary obligations. Reinsurance premiums and reserves related to reinsured business are accounted for on a basis consistent with those used in accounting for the original policies issued and the terms of the reinsurance contracts. Premiums and claims ceded and the related unpaid reserves have been reported as reductions of these items. The reinsurance agreements are more fully discussed in Notes 23.

(21) Federal and State Income Taxes

Aetna Inc. ("Aetna") and its wholly-owned subsidiaries are included in the consolidated federal income tax return of its ultimate parent company, CVS Health, pursuant to the terms of a tax sharing agreement. In accordance with the agreement, the Company's current federal and state income tax provisions are generally computed as if the Company were filing a separate federal and state income tax return; current income tax benefits, including those resulting from net operating losses, are recognized to the extent expected to be realized in the consolidated return. Pursuant to the agreement, the Company has the enforceable right to recoup federal and state income taxes paid in prior years in the event of future net losses, which it may incur, or to recoup its net losses carried forward as an offset to future net income subject to federal and state income taxes.

Income taxes are accounted for under the asset and liability method. Deferred income tax assets ("DTAs") and liabilities ("DTLs") represent the expected future tax consequences of temporary differences generated by statutory accounting as defined in SSAP No. 101 - *Income Taxes*. DTAs and DTLs are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. DTAs and DTLs are computed by means of identifying temporary differences which are measured using a balance sheet approach whereby statutory and tax basis balance sheets are compared. Current income tax recoverables include all current income taxes, including interest, reasonably expected to be recovered in a subsequent accounting period.

Pursuant to SSAP No. 101, gross DTAs are first reduced by a statutory valuation allowance adjustment to an amount that is more likely than not to be realized ("adjusted gross DTAs"). Adjusted gross DTAs are then admitted in an amount equal to the sum of paragraphs a. b. and c. below:

- a. Federal income taxes paid in prior years that can be recovered through loss carrybacks for existing temporary differences that reverse during a timeframe corresponding with Internal Revenue Code ("IRC") tax loss carryback provisions.
- b. The amount of adjusted gross DTAs, after the application of paragraph a. above, expected to be realized within the applicable period and that is no greater than the applicable percentage as determined using the applicable Realization Threshold Limitation Table. The applicable period refers to the number of years in which the DTA will reverse in the Company's tax return and the applicable percentage refers to the percentage of the Company's statutory capital and surplus as required to be shown on the statutory balance sheet adjusted to exclude any net DTAs, electronic data processing equipment and operating system software and any net positive goodwill ("Stat Cap ExDTA").

The Realization Threshold Limitation Tables allow DTAs to be admitted based upon either realization within 3 years and 15% of Stat Cap ExDTA, 1 year and 10% of Stat Cap ExDTA, or no DTA admitted pursuant to this paragraph b. In general, the Realization Threshold Limitation Tables allow the Company to admit more DTAs if total DTAs as reported by the Company are a smaller percentage of statutory capital and surplus.

- c. The amount of gross DTAs, after the application of paragraphs a. and b. above that can be offset against existing gross DTLs. In applying this offset, the Company considers the character (i.e. ordinary versus capital) of the DTAs and DTLs such that offsetting would be permitted in the tax return under existing enacted federal income tax laws and regulations and the reversal patterns of temporary differences.

The Company and Aetna Health Management, LLC ("AHM") are parties to an administrative services agreement, under which AHM provides certain administrative services, including accounting and processing of premiums and claims. Under this agreement, the Company remits a percentage of its earned commercial and Medicare premium revenue, as applicable, to AHM as a fee, subject to an annual true up mechanism as defined in the agreement. Under the agreement, this true-up is due to be settled with the affiliate by April 15th of the following contract year (which is January 1 to December 31 annually). The terms of settlement require that these amounts be settled within 45 days after the end of the calendar quarter. The agreement was amended effective January 1, 2020 and approved by the New Jersey Department on September 17, 2019. The amendment allows other affiliates to provide services in accordance to a schedule of services and pricing. For these services, the Company was charged \$65,711,838 and \$78,074,757 in 2021 and 2020, respectively.

This agreement provides that in the event that the Company ceases operations or becomes insolvent, AHIC will continue to pay benefits for any members confined as inpatients on the date of insolvency until their discharge. This agreement also provides that AHIC will continue benefits for any member until the end of the contract period for which premium has been paid, but for no longer than thirty-one days. AHIC will also make available to members, for a period of thirty-one days, replacement insurance policies.

As explained in Note 1, Aetna and its wholly-owned subsidiaries, including the Company, participate in a tax sharing agreement with CVS Health. All federal income tax receivables/payables are due from/due to CVS Health.

### 14. Liabilities, Contingencies and Assessments

A. The Company did not have any contingent commitments at December 31, 2021 or 2020.

#### B. Assessments

##### Guaranty Fund Assessments

(1) Under guaranty fund laws existing in all states, insurers doing business in those states can be assessed (in most states up to prescribed limits) for certain obligations of insolvent insurance companies to policyholders and claimants. The life and health insurance guaranty associations in which the Company participates that operate under these laws respond to insolvencies of long-term care insurers and life insurers as well as health insurers. The Company's assessments generally are based on a formula relating to the Company's health care premiums in the state compared to the premiums of other insurers. Certain states allow assessments to be recovered over time as offsets to premium taxes. Some states have similar laws relating to HMOs and/or other payers such as not-for-profit consumer-governed health plans established under the ACA.

The Company did not have any contingent assessments at December 31, 2021 or 2020.

C. The Company did not have any gain contingencies at December 31, 2021 or 2020.

F. Various liabilities arise in the normal course of the Company's business and have been recorded. In the opinion of management, any ultimate contingent losses will not have a material adverse effect on the Company's future results of operations and financial position. The Company, to the best of its knowledge, has no assets that it considers impaired that are not already recorded in the Company's books.

The Company maintains insurance coverage for certain litigation exposures in an amount it believes is reasonable.

--	-------------

(3) In connection with the Company's Medicare (or similarly structured cost based reimbursement contract) contract, the Company has recorded allowance and reserves for adjustment of recorded revenues as and if applicable.

(4) CMS periodically perform audits of Medicare revenue and may seek return of premium payments made to the Company if risk adjustment factors are not properly supported by medical record data. The Company estimates and records reserves for CMS audits based on information available at the time the estimates are made. Although the Company believes it maintains appropriate reserves for its exposure to the CMS audits, actual results could differ materially from those estimates.

### 19. Direct Premium Written/Produced by Managing General Agents/Third Party Administrators

The Company did not have any material direct premiums written through/produced by managing general agents or third party administrators for the years ended December 31, 2021 and 2020.

### 20. Fair Value Measurements

A.

(1) The Company had no material assets and liabilities that are measured and reported at fair value in the financial statements as of December 31, 2021 and 2020.

(2) There were no material realized and unrealized capital gains, purchases, sales, settlements, or transfers into or out of the Company's Level 3 financial assets during December 31, 2021 or 2020.

(3) Transfers in and out of all levels are recognized at the end of the reporting period of which the transfer occurred.

(4) The Company's fair value measurement valuation techniques are described in B. below.

(5) The Company did not have any derivative instruments at December 31, 2021 or 2020.

B. The fair values of the Company's financial instruments are based on valuations that include inputs that can be classified within one of three levels of a hierarchy. The following are the levels of the hierarchy and a brief description of the type of valuation information ("inputs") that qualifies a financial asset or liability for each level:

- **Level 1** – Unadjusted quoted prices for identical assets or liabilities in active markets.
- **Level 2** – Inputs other than Level 1 that are based on observable market data. These include: quoted prices for similar assets in active markets, quoted prices for identical assets in inactive markets, inputs that are observable that are not prices (such as interest rates and credit risks) and inputs that are derived from or corroborated by observable markets.
- **Level 3** – Developed from unobservable data, reflecting the Company's own assumptions.

Financial assets and liabilities are classified based upon the lowest level of input that is significant to the valuation. When quoted prices in active markets for identical assets and liabilities are available, the Company uses these quoted market prices to determine the fair value of financial assets and liabilities and classifies these assets and liabilities as Level 1. In other cases

## NOTES TO FINANCIAL STATEMENTS

where a quoted market price for identical assets and liabilities in an active market is either not available or not observable, the Company estimates fair value using valuation methodologies based on available and observable market information or by using a matrix pricing model. These financial assets and liabilities would then be classified as Level 2. If quoted market prices are not available, the Company determines fair value using broker quotes or an internal analysis of each investment's financial performance and cash flow projections. Thus, financial assets and liabilities may be classified in Level 3 even though there may be some significant inputs that may be observable.

- C. The carrying values and estimated fair values of the Company's financial instruments at December 31, 2021 and 2020 were as follows:

December 31, 2021

Type of Financial Instrument	Aggregate Fair Value	Admitted Assets	(Level 1)	(Level 2)	(Level 3)	Net Asset Value (NAV)	Not Practicable (Carrying Value)
Bonds, Short Term, and Cash Equivalents	\$ 204,762,052	\$ 200,020,444	\$ 37,629,237	\$167,132,815	\$ —	\$ —	\$ —

December 31, 2020

Type of Financial Instrument	Aggregate Fair Value	Admitted Assets	(Level 1)	(Level 2)	(Level 3)	Net Asset Value (NAV)	Not Practicable (Carrying Value)
Bonds, Short Term, and Cash Equivalents	\$ 239,091,176	\$ 228,878,526	\$ 45,121,875	\$193,969,301	\$ —	\$ —	\$ —

In evaluating the Company's management of interest rate and liquidity risk and currency exposures, the fair values of all assets and liabilities should be taken into consideration, not only those presented above.

- D. The Company did not have any financial instruments where it was not practicable to estimate the fair value.  
 E. The Company has not elected to use the net asset value practical expedient to fair value to measure its investments.

### 21. Other Items

#### A. Unusual or Infrequent Items

##### Premium Credits

As of December 31, 2020, the Company recorded premium credits of \$204,256 as a reduction to premiums for certain in-force customers related to the Coronavirus Disease 2019 pandemic.

#### B. Troubled Debt Restructuring

The Company did not have any troubled debt restructuring in the years ended December 31, 2021 and 2020.

#### C. Other Disclosures

##### Minimum Capital and Surplus

Under the laws of the State of New Jersey, the Company is required to maintain a minimum capital and surplus equal to the greater of (1) \$1,000,000 adjusted annually by the Consumer Price Index; (2) 2% of the annual premium revenues as reported by the Company on its most recent annual financial statement filed with the Commissioner of Health and Commissioner of Banking and Insurance for the first \$150,000,000 of premium reported and 1% of the annual premium in excess of the first \$150,000,000 of premium reported; (3) an amount equal to the sum of three months of uncovered health care expenditures; or (4) an amount equal to the sum of 8% of the annual health care expenditures (not including those expenditures paid on a capitated basis and those made on a managed hospital payment basis) plus 4% of the annual hospital expenditures paid on a managed hospital payment basis. At December 31, 2021 and 2020, the Company's capital and surplus exceeded all such requirements.

The NAIC utilizes risk-based capital ("RBC") standards for health organizations, including HMOs, that are designed to identify weakly capitalized companies by comparing each company's adjusted capital and surplus to its required capital and surplus (the "RBC Ratio"). The RBC Ratio is designed to reflect the risk profile of a company. Within certain ratio ranges, regulators have increasing authority to take action as the RBC Ratio decreases. There are four levels of regulatory action, ranging from requiring insurers to submit a comprehensive plan to the state insurance commissioner to requiring the state insurance commissioner to place the insurer under regulatory control. At December 31, 2021 and 2020, the Company had capital and surplus that exceeded the highest threshold specified by the RBC rules.

##### COVID-19

The Coronavirus Disease 2019 ("COVID-19") pandemic continues to evolve. The Company believes COVID-19's impact on the Company's businesses, operating results, cash flows and/or financial condition primarily will be driven by the geographies impacted and the severity and duration of the pandemic; the pandemic's impact on the U.S. and global

## NOTES TO FINANCIAL STATEMENTS

economies and consumer behavior and health care utilization patterns; and the timing, scope and impact of stimulus legislation as well as other federal, state and local governmental responses to the pandemic. Those primary drivers are beyond the Company's knowledge and control. As a result, the impact COVID-19 will have on the Company's businesses, operating results, cash flows and/or financial condition is uncertain, but the impact could be adverse and material. COVID-19 also may result in legal and regulatory proceedings, investigations and claims against the Company.

### Health Care Reform

The Patient Protection and Affordable Care Act and the Health Care and Education Reconciliation Act (collectively, the "ACA"), made broad-based changes to the United States health care system. In June 2021, the United States Supreme Court dismissed a challenge on procedural grounds that argued the ACA is unconstitutional in its entirety and issued an opinion preserving the ACA and its consumer protections in its current form. Even though the ACA was deemed constitutional, there may nevertheless be continued efforts to invalidate, modify, repeal or replace portions of it. In addition to litigation, parts of the ACA continue to evolve through the promulgation of executive orders, legislation, regulations and guidance at the federal or state level. The Company expects the ACA, including potential changes thereto, to continue to significantly impact its business operations and operating results, including pricing, medical benefit ratios ("MBRs") and the geographies in which the Company's products are available.

### Medicare

The Company's Medicare Advantage products are heavily regulated by CMS. The regulations and contractual requirements applicable to the Company and other private participants in Medicare programs are complex, expensive to comply with and subject to change. For example, in the second quarter of 2014, CMS issued a final rule implementing the ACA requirements that Medicare Advantage plans report and refund to CMS overpayments that those plans receive from CMS. The precise interpretation, impact and legality of this rule are not clear and are subject to pending litigation. Payments the Company receives from CMS for its Medicare Advantage business also are subject to risk adjustment based on the health status of the individuals enrolled. Elements of that risk adjustment mechanism continue to be challenged by the U.S. Department of Justice, the Office of Inspector General of the HHS (the "OIG") and CMS itself. Substantial changes in the risk adjustment mechanism, including changes that result from enforcement or audit actions, could materially affect the amount of the Company's Medicare reimbursement, require the Company to raise prices or reduce the benefits offered to Medicare beneficiaries, and potentially limit the Company's (and the industry's) participation in the Medicare program.

The Company has invested significant resources to comply with Medicare standards, and its Medicare compliance efforts will continue to require significant resources. CMS may seek premium and other refunds, prohibit the Company from continuing to market and/or enroll members in or refuse to passively enroll members in one or more of the Company's Medicare or Medicare-Medicaid demonstration (historically known as "dual eligible") plans, exclude the Company from participating in one or more Medicare, dual eligible or dual eligible special needs plan programs and/or institute other sanctions and/or civil monetary penalties against the Company if it fails to comply with CMS regulations or its Medicare contractual requirements.

### Federal Employees Health Benefits Program

The Company contracts with the OPM to provide managed health care services under the FEHB program in its service areas. These contracts with the OPM and applicable government regulations establish premium rating arrangements for this program. OPM regulations require that community-rated FEHB plans meet a FEHB program-specific minimum MLR by plan code and market. Managing to these rules is complicated by the simultaneous application of the minimum MLR standards and associated premium rebate requirements of the ACA. The OPM also is auditing the Company and its other contractors to, among other things, verify that plans meet their applicable FEHB program-specific MLR and the premiums established under the OPM's Insured contracts and costs allocated pursuant to the OPM's cost-based contracts are in compliance with the requirements of the applicable FEHB program. The OPM may seek premium refunds or institute other sanctions against the Company if the Company fails to comply with the FEHB program requirements.

### 24. Retrospectively Rated Contracts and Contracts Subject to Redetermination

A. Through annual contracts with CMS, the Company's Medicare Advantage revenues ultimately received for each member are based on that member's health status and demographic characteristics, as determined via the CMS risk adjustment process, under which the Company regularly submits risk adjustment data to CMS. Under the risk adjustment process, the Company records a receivable for future revenues that it expects to receive from CMS in the following year, after the final reconciliation of risk adjustment data for the current contract year is complete. These amounts are recognized in the current year as premiums under contracts subject to redetermination. In addition, the Company's Medicare Advantage contracts are subject to retrospective rating provisions under which the Company and CMS share in amounts above and below agreed-upon target medical benefit ratios.

Premium revenue subject to the minimum MLR rebate requirements of the ACA is recorded net of the estimated minimum MLR rebates for the current calendar year. The Company estimates the minimum MLR rebates by projecting MLRs for certain markets, as defined by the ACA, for each state in which the Company operates. The claims and premiums used in estimating such rebates are modified for certain adjustments allowed by the ACA and include a statistical credibility adjustment for those states with a number of members that is not statistically credible.

B. Accrued retrospective are recorded as an adjustment to earned premiums and are estimated based on calculations that compare the Company's expected financial results for the contract against the appropriate medical benefit ratio target.

### C. Contracts Subject to Retrospective Rating Features

The Company had net premiums written of \$590,587,173 that were subject to retrospective rating features for the year ending December 31, 2021 representing 100% of total net premiums written.

25. Change in Incurred Claims and Claims Adjustment Expense

The following table shows the components of the change in claims unpaid, unpaid claims adjustment expense and aggregate health claim reserves for the years ended December 31, 2021 and 2020.

**NOTES TO FINANCIAL STATEMENTS**

	2021	2020
Balance, January 1	\$ 66,190,674	\$ 76,197,232
Health care receivable	(3,510,676)	(3,811,574)
Balance, January 1, net of health care receivable	62,679,998	72,385,658
Incurred related to:		
Current year	534,391,587	590,681,281
Prior years	(3,158,961)	(17,679,099)
Total incurred	531,232,626	573,002,182
Paid related to:		
Current year	478,755,297	526,853,631
Prior years	57,663,435	55,854,211
Total paid	536,418,732	582,707,842
Balance, December 31, net of health care receivable	57,493,892	62,679,998
Health care receivable	3,472,445	3,510,676
Balance, December 31	<u>\$ 60,966,337</u>	<u>\$ 66,190,674</u>

- A. Reserves for incurred claims and claim adjustment expenses attributable to insured events of prior years decreased by \$3,158,961 in 2021 and \$17,679,099 in 2020. Changes in prior periods' estimates represents the effect of favorable development of prior period health care cost estimates on current year net income, at each financial statement date. The favorable development of these reserves is primarily a result of the actual claim submission times for health care claims being shorter than the Company had anticipated, as well as lower than expected health care cost trends in determining claims unpaid at prior financial statement date for both 2021 and 2020. Original estimates are increased or decreased, as additional information becomes known regarding individual claims.
- B. There has been no significant change in the Company's methodologies and assumptions used in calculating the liability for unpaid claims and claim adjustment expenses.

The Company did not have any intercompany pooling arrangements at December 31, 2021 or 2020.

The Company estimates pharmaceutical rebate receivables based upon the historical payment trends, actual utilization and other variables. Actual rebates collected are applied to the collection periods below, using a first in first out methodology. At December 31, 2021 and 2020, the Company had pharmaceutical rebate receivables of \$2,549,107 and \$2,899,748, respectively (refer to the Company's accounting practices related to pharmaceutical rebate receivables in Note 1).

The PNR agreement for 2020 has three performance measurement periods ending April 30, August 31 and December 31, respectively.
