# ANNUAL STATEMENT FOR THE YEAR 2023 OF THE WellCare Health Insurance Company of New Jersey, Inc. NOTES TO FINANCIAL STATEMENT

#### 1. Summary of Significant Accounting Policies and Going Concern

#### A. Accounting Practices

The financial statements of WellCare Health Insurance Company of New Jersey, Inc. (the "Company"), domiciled in the State of New Jersey, are presented on the basis of accounting practices prescribed or permitted by the New Jersey Department of Banking and Insurance (the "Department").

The Department recognizes only statutory accounting practices prescribed or permitted by the State of New Jersey for determining and reporting the financial condition, results of operations, and cash flow of an insurance company for determining its solvency under New Jersey insurance law. The National Association of Insurance Commissioners' ("NAIC") Accounting Practices and Procedures manual, ("NAIC SAP") has been adopted as a component of prescribed or permitted practices by the State of New Jersey.

A reconciliation of the Company's net income (loss) and capital and surplus between NAIC SAP and practices prescribed and permitted by the State of New Jersey is shown below:

#### B. Uses of Estimates in the Preparation of the Financial Statements

The preparation of financial statements in accordance with statutory accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities. It also requires disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. The primary use of estimates are related to the Company's reserve for claims unpaid. Actual results could differ significantly from those estimates.

#### C. Accounting Policy

- 1. Cash and short-term investments are carried at cost, which approximates fair value. Short-term investments include securities purchased within twelve months or less of maturity date.
- 2. Investment grade bonds (NAIC designations 1 or 2) not backed by other loans are valued at amortized cost using the scientific (constant yield) method. Bonds containing call provisions, except "make whole" call provisions, are amortized to the call or maturity value/date which produces the lowest asset value (yield to worst). Bonds which are below investment grade (NAIC designation 3 to 6) are carried at lower of amortized cost or fair value.
- 3. The Company holds no common stocks.
- 4. The Company holds no preferred stocks.
- 5. The Company holds no mortgage loans on real estate.
- 6. The Company has loan-backed securities carried at amortized cost. Adjustments are applied prospectively.
- 7. The Company had no investment interest in subsidiaries, controlled or affiliated companies ("SCA").
- 8. The Company had no minor ownership interest in joint ventures.
- 9. The Company holds no derivatives.
- 10. The Company reviews expectations regarding the profitability of contracts in force to determine whether a premium deficiency reserve ("PDR") is required. The Company considers anticipated investment income when calculating its PDR. The adequacy of reserve requirements is continually reviewed by management, with any reductions in the reserve being recorded as a beneficial effect in the statement of revenue and expense.
- 11. Unpaid losses and loss adjustment expenses include amounts determined from claims estimates and loss reports and an amount, based on past experience, for losses incurred but not reported. Such liabilities are necessarily based on assumptions and estimates and while management believes the amount to be adequate, the ultimate liability may be in excess of or less than the amount provided. The methods for making such estimates and for establishing the resulting liability is continually reviewed and any adjustments are reflected in the period determined.

# ANNUAL STATEMENT FOR THE YEAR 2023 OF THE WellCare Health Insurance Company of New Jersey, Inc. NOTES TO FINANCIAL STATEMENT

- 12. The Company did not modify its capitalization policy from the prior period.
- 13. The Company estimates pharmaceutical rebate receivables by assuming the proportional relationship between rebates and premiums exists for periods when actual rebates have been received.
- D. Management does not have any substantial doubt about the Company's ability to continue as a going concern.

#### 2. Accounting Changes and Corrections of Errors

The Company had no changes in accounting principles or correction of errors.

#### 3. Business Combinations and Goodwill

- A. The Company had no transactions that were accounted for as a statutory purchases.
- B. The Company had no statutory mergers.

#### B. Assets Measured on a Fair Value on a Nonrecurring Basis:

The Company's financial statements include certain financial instruments carried at amounts which approximate fair value, such as, cash, cash equivalents, short-term investments and receivables. The carrying amount approximates fair value because of the short-term nature of these items.

The NAIC SAP defines fair value, establishes a framework for measuring fair value, and outlines the disclosure requirements related to fair value measurements. The fair value hierarchy is as follows:

# ANNUAL STATEMENT FOR THE YEAR 2023 OF THE WellCare Health Insurance Company of New Jersey, Inc. NOTES TO FINANCIAL STATEMENT

Level input	Input definition
Level I	Inputs are unadjusted, quoted prices for identical assets or liabilities in active
	markets at the measurement date.
Level II	Inputs other than quoted prices included in Level I that are observable for the asset
	or liability through corroboration with market data at the measurement date.
Level III	Unobservable inputs that reflect management's best estimate of what market
	participants would use in pricing the asset or liability at the measurement date.

#### 25. Change in Incurred Claims and Claim Adjustment Expenses

A. Reserves for unpaid claims as of December 31, 2022 were \$26,071,482. As of December 31, 2023, \$22,962,371 has been paid for incurred claims attributable to insured events of prior years. Reserves remaining for prior years are now \$3,220,554 as a result of reestimation of unpaid claims. Therefore, there has been \$111,443 unfavorable prior-year development since December 31, 2022. The increase or decrease is generally the result of ongoing analysis of recent loss development trends. Original estimates are increased or decreased, as additional information becomes known regarding individual claims. Adjustments to claims adjustment expenses incurred attributable to insured events of the prior year were immaterial.

B. There were no significant changes in methodologies and assumptions used in calculating the liability for unpaid losses and loss adjustment expenses for the most recent reporting period presented.
