B. Use of Estimates in the Preparation of the Financial Statements

The preparation of these financial statements in conformity with the NAIC Annual Statement Instructions and the National Association of Insurance Commissioners’ Accounting Practices and Procedures manual include certain amounts that are based on the Company’s estimates and judgments. These estimates require the Company to apply complex assumptions and judgments, often because the Company must make estimates about the effects of matters that are inherently uncertain and will change in subsequent periods. The most significant estimates relate to hospital and medical benefits, claims unpaid, aggregate health policy reserves (including medical loss ratio rebates), aggregate health claim reserves, risk corridor, and risk adjustment estimates. The Company adjusts these estimates each period as more current information becomes available. The impact of any changes in estimates is included in the determination of net income (loss) in the period in which the estimate is adjusted.

C. Accounting Policy

Basis of Presentation — The Company prepares its financial statements on the basis of accounting practices prescribed or permitted by the New Jersey Department of Banking and Insurance. These statutory practices differ from generally accepted accounting principles in the United States of America.

The Company has deemed the following to be significant differences between statutory practices and generally accepted accounting principles:

- Certain debt investments categorized as available-for-sale or held-to-maturity under generally accepted accounting principles are presented at the lower of book/adjusted carrying value or fair value in accordance with the National Association of Insurance Commissioners' designations in the financial statements, whereas under generally accepted accounting principles, these investments are shown at fair value or book/adjusted carrying value, respectively.
- Cash, cash equivalents, and short-term investments in the financial statements represent cash balances and investments with original maturities of one year or less from the time of acquisition, whereas under generally accepted accounting principles, the corresponding caption of cash, cash equivalents, and short-term investments includes cash balances and investments that will mature in one year or less from the balance sheet date. The Company reported \$13,115,208 and \$0 short-term investments as of December 31, 2024 and 2023, respectively.
- Outstanding checks are required to be netted against cash balances in the financial statements, whereas under generally accepted accounting principles, outstanding checks are presented as other liabilities.
- The statutory basis statements of cash flows reconcile the corresponding captions of cash, cash equivalents, and short-term investments, which can include restricted cash reserves, with original maturities of one year or less from the time of acquisition, whereas under generally accepted accounting principles, the statements of cash flows reconcile the corresponding captions of cash, cash equivalents, and restricted cash with maturities of three months or less. Short-term investments with a final maturity of one year or less from the balance sheet date are not included in the reconciliation of generally accepted accounting principles cash flows. In addition, there are classification differences within the presentation of the cash flow categories between generally accepted accounting principles and National Association of Insurance Commissioners' Accounting Practices and Procedures manual. The statutory basis statements of cash flows are prepared in accordance with the National Association of Insurance Commissioners' Annual Statement Instructions.
- The National Association of Insurance Commissioners' Accounting Practices and Procedures manual provides for an amount to be recorded for deferred taxes on temporary differences between the financial reporting and tax basis of assets, subject to a valuation allowance and admissibility limitations on deferred tax assets (see Note 9). In addition, under the National Association of Insurance Commissioners' Accounting Practices and Procedures manual, the net change in deferred tax assets is recorded directly to unassigned funds (surplus) in the financial statements, whereas under generally accepted accounting principles, the net change in deferred tax assets is recorded as a component of the income tax provision within the income statement and is based on the ultimate recoverability of the deferred tax assets. Based on the admissibility criteria under the National Association of Insurance Commissioners' Accounting Practices and Procedures manual, any deferred tax assets determined to be nonadmitted are charged directly to surplus and excluded from the financial statements, whereas under generally accepted accounting principles, such assets are included in the balance sheet.
- Certain assets, including certain aged premium receivables, certain health care and other amounts receivable, prepaid expenses, and certain amounts receivable relating to uninsured plans are considered nonadmitted assets under the National Association of Insurance Commissioners' Accounting Practices and Procedures manual and are excluded from the financial statements and charged directly to unassigned funds (surplus).
- Comprehensive income and its components are not separately presented in the financial statements, whereas under generally accepted accounting principles, it is a requirement to present comprehensive income and its components in the financial statements.

Accounting policy disclosures that are required by the National Association of Insurance Commissioners' Annual Statement instructions are as follows:

- (1–2) Bonds and short-term investments are stated at book/adjusted carrying value if they meet National Association of Insurance Commissioners designation of one or two and stated at the lower of book/adjusted carrying value or fair value if they meet National Association of Insurance Commissioners' designation of three or higher. The Company does not have any mandatory convertible securities or Securities Valuation Office of the National Association of Insurance Commissioners identified funds (i.e.: exchange traded funds or bond mutual funds) in its bond portfolio. Amortization of bond premium or accretion of discount is calculated using the constant yield interest method. Bonds and short-term investments are valued and reported using market prices published by the Securities Valuation Office in accordance with the National Association of Insurance Commissioners' Valuation of Securities manual prepared by the Securities Valuation Office or an external pricing service;
- (3–4) The Company holds no common or preferred stock;
- (5) The Company holds no mortgage loans on real estate;

- (6) U.S. government and agency securities and corporate debt securities include loan-backed securities (mortgage-backed securities and asset-backed securities), which are valued using the retrospective adjustment methodology. Prepayment assumptions for the determination of the book/adjusted carrying value, commonly referred to as amortized cost, of loan-backed securities are based on a three-month constant prepayment rate history obtained from external data source vendors. The Company's investment policy limits investments in nonagency residential mortgage-backed securities, including home equity and sub-prime mortgages, to 10% of total cash and invested assets. Total combined investments in mortgage-backed securities and asset-backed securities cannot exceed more than 30% of total cash and invested assets;
- (7) The Company holds no investments in subsidiaries, controlled, or affiliated entities;
- (8) The Company has no investment interests with respect to joint ventures, partnerships, or limited liability companies;
- (9) The Company holds no derivatives;
- (10) Premium deficiency reserves (inclusive of conversion reserves) and the related expenses are recognized when it is probable that expected future health care expenses, claims adjustment expenses, direct administration costs, and an allocation of indirect administration costs under a group of existing contracts will exceed anticipated future premiums and reinsurance recoveries considered over the remaining lives of the contracts, and are recorded as aggregate health policy reserves in the financial statements. Indirect administration costs arise from activities that are not specifically identifiable to a specific group of existing contracts, and therefore, those costs are fully allocated among the various contract groupings. The allocation of indirect administration costs to each contract grouping is made proportionately to the expected margins remaining in the premiums after future health care expenses, claims adjustment expenses and direct administration costs are considered. The data and assumptions underlying such estimates and the resulting reserves are periodically updated, and any adjustments are reflected as an increase in reserves for life and accident and health contracts in the financial statements in the period in which the change in estimate is identified. The Company does anticipate investment income as a factor in the premium deficiency reserve calculation (see Note 30);
- (11) Claims adjustment expenses are those costs expected to be incurred in connection with the adjustment and recording of accident and health claims. Pursuant to the terms of the management agreement (see Note 10), the Company pays a management fee to its affiliate, United HealthCare Services, Inc., in exchange for administrative and management services. A detailed review of the administrative expenses of the Company and United HealthCare Services, Inc. is performed to determine the allocation between claims adjustment expenses and general administrative expenses to be reported in the financial statements. It is the responsibility of United HealthCare Services, Inc. to pay claims adjustment expenses in the event the Company ceases operations. The Company has recorded an estimate of unpaid claims adjustment expenses associated with incurred but unpaid claims, which is included in unpaid claims adjustment expenses in the financial statements. Management believes the amount of the liability for unpaid claims adjustment expenses as of December 31, 2024 is adequate to cover the Company's cost for the adjustment and recording of unpaid claims; however, actual expenses may differ from those established estimates. Adjustments to the estimates for unpaid claims adjustment expenses are reflected in operating results in the period in which the change in estimate is identified;
- (12) The Company does not carry any fixed assets in the financial statements;
- (13) Health care and other amounts receivable consist of pharmacy rebates receivable estimated based on the most currently available data from the Company's claims processing systems and from data provided by the Company's affiliated pharmaceutical benefit manager, OptumRx, Inc. Health care and other amounts receivable also include receivables for amounts due to the Company for claim and capitation overpayments to providers, hospitals and other health care organizations. Health care and other amounts receivable are considered nonadmitted assets under the National Association of Insurance Commissioners' Accounting Practices and Procedures manual if they do not meet admissibility requirements. Accordingly, the Company has excluded receivables that do not meet the admissibility criteria from the financial statements (see Note 28).

The Company has also deemed the following to be significant accounting policies:

ASSETS

Cash and Invested Assets

- Bonds include securities with a maturity of greater than one year at the time of purchase;
- Cash equivalents include securities that have original maturity dates of three months or less from the date of acquisition. Cash equivalents also consist of the Company's share of a qualified cash pool sponsored and administered by United HealthCare Services, Inc. The investment pool is recorded at cost or book/adjusted carrying value depending on the composition of the underlying securities. Interest income from the pool accrues daily to participating members based upon ownership percentage. Cash equivalents, excluding money-market funds, are reported at cost or book/adjusted carrying value depending on the nature of the underlying security, which approximates fair value. Money-market funds are reported at fair value or net asset value as a practical expedient;
- Realized capital gains and losses on sales of investments are calculated based upon specific identification of the investments sold. These gains and losses are reported as net realized capital gains (losses) less capital gains tax in the financial statements;

- The Company continually monitors the difference between amortized cost and estimated fair value of its investments. If any of the Company's investments experience a decline in value that the Company has determined is other-than-temporary, or if the Company has determined it will sell a security that is in an impaired status, the Company will record a realized loss in net realized capital gains (losses) less capital gains tax, in the financial statements. The new cost basis is not changed for subsequent recoveries in fair value. The prospective adjustment method is utilized for loan-backed securities for periods subsequent to the loss recognition (see Note 5).

Other Assets

- **Premiums and Considerations** — The Company reports uncollected premium balances from its insured members, groups, and the Centers for Medicare and Medicaid Services as premiums and considerations in the financial statements. Uncollected premium balances that are over 90 days past due, with the exception of amounts due from government insured plans, are considered nonadmitted assets. In addition to those balances, current balances are also considered nonadmitted if the corresponding balance greater than 90 days past due is deemed more than inconsequential. Premiums and considerations also include amounts for commercial risk adjustment receivables as defined in Section 1343 of the Affordable Care Act, the Centers for Medicare and Medicaid Services risk corridor receivables, and the Centers for Medicare and Medicaid Services risk adjustment receivables for the Medicare Plans.

Premium adjustments for the Centers for Medicare and Medicaid Services risk corridor program are accounted for as premium adjustments subject to retrospectively rated features (see Note 24). Premium adjustments for the commercial Affordable Care Act Section 1343 risk adjustment and the Centers for Medicare and Medicaid Services risk adjustment programs are accounted for as premium adjustments subject to redetermination (see Note 24).

LIABILITIES

- **Claims Unpaid and Aggregate Health Claim Reserves** — Claims unpaid and aggregate health claim reserves include claims processed but not yet paid, estimates for claims received but not yet processed, estimates for the costs of health care services enrollees have received but for which claims have not yet been submitted, and payments and liabilities for physician, hospital, and other medical costs disputes.

The estimates for incurred but not yet reported claims are developed using an actuarial process that is consistently applied, centrally controlled, and automated. The actuarial models consider factors such as historical submission and payment data, cost trends, customer and product mix, seasonality, utilization of health care services, contracted service rates, and other relevant factors. The Company estimates such liabilities for physician, hospital, and other medical cost disputes based upon an analysis of potential outcomes, assuming a combination of litigation and settlement strategies. These estimates may change as actuarial methods change or as underlying facts upon which estimates are based change. The Company did not change actuarial methods during 2024 and 2023. Management believes the amount of claims unpaid and aggregate health claim reserves is a best estimate of the Company's liability for unpaid claims and aggregate health claim reserves as of December 31, 2024; however, actual payments may differ from those established estimates.

The Company contracts with hospitals, physicians, and other providers of health care under capitated or discounted fee for service arrangements, including a hospital per diem to provide medical care services to enrollees. Some of these contracts are with related parties (see Note 10). Capitated providers are at risk for the cost of medical care services provided to the Company's enrollees; however, the Company is ultimately responsible for the provision of services to its enrollees should the capitated provider be unable to provide the contracted services.

- **Aggregate Health Policy Reserves** — Aggregate health policy reserves includes commercial risk adjustment payables as defined in Section 1343 of the Affordable Care Act, Centers for Medicare and Medicaid Services risk corridor payables, Centers for Medicare and Medicaid Services risk adjustment payables for the Medicare Plans, and estimated medical loss ratio rebates payable on the Medicare Plans.

Premium adjustments for the Centers for Medicare and Medicaid Services risk corridor and estimated medical loss ratio rebates are accounted for as premium adjustments subject to retrospectively rated features (see Note 24). Premium adjustments for the commercial Affordable Care Act Section 1343 risk adjustment, Centers for Medicare and Medicaid Services risk adjustment are accounted for as premium adjustments subject to redetermination (see Note 24).

CAPITAL AND SURPLUS AND MINIMUM STATUTORY REQUIREMENTS

- **Restricted Cash Reserves** — The Company is in compliance with the various states regulatory deposit requirements as of December 31, 2024 and 2023, respectively, for qualification purposes as a domestic and foreign insurer. The New Jersey Administrative Code also requires the Company to maintain minimum insolvency and administrative deposits with the state of New Jersey. The Company had bonds, cash equivalents, and short-term investments which are stated at book/adjusted carrying value, fair value, or net asset value depending on the underlying security on deposit with the state of New Jersey and is in compliance with the New Jersey requirements as of December 31, 2024 and 2023, respectively. This reserve is included in bonds, cash equivalents, and short-term investments in the financial statements. Interest earned on this deposit accrues to the Company (see Note 5).

- Minimum Capital and Surplus** — Under the laws of the state of New Jersey, the New Jersey Department of Banking and Insurance requires the Company to maintain a minimum capital and surplus equal to the greater of the New Jersey Department of Banking and Insurance adjusted consumer price index amount of \$2,448,299; 2% of the first \$150 million of annual premium revenue and 1% of annual premium revenue over \$150 million; three months of uncovered health care expenditures; or an amount equal to the sum of 8% of the annual health care expenditures (not including those expenditures paid on a capitated basis or those on a managed hospital plan basis), plus 4% of the annual hospital expenditures paid on a managed hospital payment basis. The minimum capital and surplus requirements were \$72,987,403 and \$78,873,280, for December 31, 2024 and 2023, respectively, which were based on health care and hospital expenditures, as that produced the highest minimum requirement.

Risk-based capital is a regulatory tool for measuring the minimum amount of capital appropriate for a health maintenance organization to support its overall business operations in consideration of its size and risk profile. The New Jersey Department of Banking and Insurance requires the Company to maintain minimum capital and surplus equal to the greater of the state statute as outlined above, or the company action level as calculated by the risk based capital formula, or the level needed to avoid action pursuant to the trend test in the risk-based capital formula.

The Company is also subject to minimum capital and surplus requirements in other states where it is licensed to do business.

The Company is in compliance with the minimum required capital and surplus amounts where it is licensed to do business, as of December 31, 2024 and 2023.

STATEMENTS OF OPERATIONS

- Net Premium Income and Change in Unearned Premium Reserves and Reserve for Rate Credits** — Revenues consist of net premium income that is recognized in the period in which enrollees are entitled to receive health care services.

Comprehensive commercial health plans with medical loss ratios on fully insured products, as calculated under the definitions in the Affordable Care Act and implementing regulations, that fall below certain targets are required to rebate ratable portions of premiums annually. The Company classifies changes to the estimated rebates and retrospective premium adjustments as change in unearned premium reserves and reserve for rate credits in the financial statements (see Note 24). In addition, pursuant to Section 1343 of the Affordable Care Act, the Company records premium adjustments for changes to the commercial risk adjustment balances which are reflected in net premium income in the financial statements (see Note 24).

Medicare Plans with medical loss ratios on fully insured products, as calculated under the definitions in the Affordable Care Act and implementing regulations, that fall below certain targets are required to rebate ratable portions of premiums annually. In addition, the Company records premium adjustments for changes to the Centers for Medicare and Medicaid Services Medicare Plans risk corridor program. Changes to these estimates are reflected in change in unearned premium reserves and reserve for rate credits in the financial statements (see Note 24). Net premium income also includes premiums under the Medicare Plans which includes Centers for Medicare and Medicaid Services premiums, including amounts pursuant to the Centers for Medicare and Medicaid Services risk adjustment program (see Note 24), member premiums, and the Centers for Medicare and Medicaid Services low-income premium subsidy for the Company's insurance risk coverage.

- Total Hospital and Medical Expenses** — Total hospital and medical expenses include claims paid, claims processed but not yet paid, estimates for claims received but not yet processed, estimates for the costs of health care services enrollees have received but for which claims have not yet been submitted, and payments and liabilities for physician, hospital, and other medical costs disputes.

Total hospital and medical expenses also include amounts incurred for incentive pool, withhold adjustments, and bonus amounts that are based on the underlying contractual provisions with the respective providers. In addition, adjustments to claims unpaid estimates and aggregate health claim reserves are reflected in the period once the change in estimate is identified and included in total hospital and medical expenses in the financial statements.

- General Administrative Expenses** — General expenses that have been paid as of the reporting date in addition to general expenses that have been incurred but are not due until a subsequent period are reported as general administrative expenses. Pursuant to the terms of the management agreement (see Note 10), the Company pays a management fee to United HealthCare Services, Inc. in exchange for administrative and management services. State income taxes are also a component of general administrative expenses. Costs for items not included within the scope of the management agreement are directly expensed as incurred. A detailed review of the administrative expenses of the Company and United HealthCare Services, Inc. is performed to determine the allocation between claims adjustment expenses and general administrative expenses to be reported in the financial statements.

OTHER

- Vulnerability Due to Certain Concentrations** — The Company is subject to substantial federal and state government regulation, including licensing and other requirements relating to the offering of the Company's existing products in new markets and offerings of new products, both of which may restrict the Company's ability to expand its business. The business is subject to normal claims fluctuations and environmental issues.

The Company has no commercial customers that individually exceed 10% of total direct premiums written for the years ended December 31, 2024 and 2023, respectively. The Company's commercial business represents less than 1% of total direct premiums written as of December 31, 2024 and 2023 respectively.

The Company contracts with the Centers for Medicare and Medicaid Services to serve Medicare members across the states it is licensed in, which represents 99% of total direct premiums written as of December 31, 2024 and 2023, respectively.

Recently Issued Accounting Standards

In May 2024, the National Association of Insurance Commissioners revised Statement of Statutory Accounting Principles No. 107, *Risk-Sharing Provisions of the Affordable Care Act* to remove the federal Affordable Care Act disclosure on the transitional reinsurance program and the risk corridor program (see Note 24), effective for annual 2024. The Company chose to early adopt the revision during quarter 2 of 2024.

The Company reviewed all other recently issued guidance in 2024 and 2023 that has been adopted for 2024 or subsequent years' implementation and has determined that none of the items would have a significant impact to the financial statements.

C. Nature of any Significant Continuing Involvement with Discontinued Operations after Disposal — Not applicable.

D. Equity Interest Retained in the Discontinued Operation after Disposal — Not applicable.

5. INVESTMENTS

For purposes of calculating gross realized gains and losses on sales of investments, the amortized cost of each investment sold is used. The gross realized gains and losses on sales of long-term investments were \$1,716,044 and \$230, respectively, for 2024 and \$16,228 and \$13,264, respectively, for 2023. There were no gross realized gains and losses on sales of short-term investments for 2024 and 2023. The net realized gains and losses are included in net realized capital gains (losses) less taxes in the financial statements. Total proceeds on the sale of long-term investments were \$99,886,512 and \$1,941,996 in 2024 and 2023, respectively. There were no proceeds on short-term investments for 2024 and 2023.

As of December 31, 2024 and 2023, the book/adjusted carrying value, fair value, and gross unrecognized unrealized gains and losses of the Company’s investments, excluding cash and cash equivalents of \$91,388,851 and \$161,990,949 respectively, are disclosed in the table below:

For the years to maturity table above, these securities have been presented in the maturity group based on the securities’ final maturity date and at a book/adjusted carrying value of \$60,170,959 and fair value of \$59,504,945.

The unrecognized unrealized losses on investments in U.S. government and agency securities, state and agency municipal securities, city and county municipal securities, and corporate debt securities at December 31, 2024 and 2023, were mainly caused by interest rate fluctuations and not by unfavorable changes in the credit ratings associated with these securities. The Company evaluates impairment at each reporting period for each of the securities whereby the fair value of the investment is less than its book/adjusted carrying value. The contractual cash flows of the U.S. government and agency securities are guaranteed either by the U.S. government or an agency of the U.S. government. It is expected that the securities would not be settled at a price less than the cost of the investment, and the Company does not intend to sell the investment until the unrealized loss is fully recovered. The Company assessed the credit quality of the state and agency municipal securities, city and county municipal securities and corporate debt securities, noting whether a significant deterioration since purchase or other factors that may indicate an other-than-temporary impairment, such as the length of time and extent to which fair value has been less than cost, the financial condition, and near-term prospects of the issuer as well as specific events or circumstances that may influence the operations of the issuer and the Company's intent to sell the investment. Additionally, the Company evaluated its intent and ability to retain loan-backed securities for a period of time sufficient to recover the amortized cost. As a result of this review, no other-than-temporary impairments were recorded by the Company as of December 31, 2024 and 2023.

A–C. The Company has no mortgage loans, real estate loans, restructured debt, or reverse mortgages. The Company also has no real estate property occupied by the Company, real estate property held for the production of income, or real estate property held for sale.

D. Loan-Backed Securities

- (1) U.S. government and agency securities and corporate debt securities include loan-backed securities (mortgage-backed securities and asset-backed securities), which are valued using the retrospective adjustment methodology. Prepayment assumptions for the determination of the book/adjusted carrying value, commonly referred to as amortized cost, of loan-backed securities are based on a three-month constant prepayment rate history obtained from external data source vendors.
- (2) The Company did not recognize any other-than-temporary impairments on loan-backed securities as of December 31, 2024.
- (3) The Company did not have any loan-backed securities with other-than-temporary impairments to report by CUSIP as of December 31, 2024 or 2023.
- (4) The following table illustrates the fair value, gross unrecognized unrealized losses, and length of time that the loan-backed securities have been in a continuous unrecognized unrealized loss position as of December 31, 2024 and 2023:

	2024
The aggregate amount of unrealized losses:	
1. Less than 12 months	\$ 76,344
2. 12 months or longer	807,749
The aggregate related fair value of securities with unrealized losses:	
1. Less than 12 months	13,107,009
2. 12 months or longer	11,461,939
	2023
The aggregate amount of unrealized losses:	
1. Less than 12 months	\$ 40,345
2. 12 months or longer	1,088,216
The aggregate related fair value of securities with unrealized losses:	
1. Less than 12 months	6,474,113
2. 12 months or longer	22,134,786

- (5) The Company believes that it will continue to collect timely the principal and interest due on its loan-backed securities that have an amortized cost in excess of fair value. The unrealized losses were primarily caused by interest rate changes and not by unfavorable changes in the credit quality associated with these securities that impacted the assessment on collectability of principal and interest. At each reporting period, the Company evaluates available-for-sale debt securities for any credit-related impairment when the fair value of the investment is less than its amortized cost. The Company evaluated the expected cash flows and the underlying credit quality and credit ratings of the issuers, noting no significant credit deterioration since purchase. As of December 31, 2024, the unrealized loss on any security that the Company classified as available-for-sale was not material to the Company's investment portfolio. Any other securities in an unrealized loss position as of December 31, 2024, the Company considers to be temporary.

E. Joint and Several Liabilities — Not applicable.

F. All Other Contingencies

The Company’s business is regulated at the federal, state, and local levels. The laws and rules governing the Company’s business and interpretations of those laws and rules are subject to frequent change. Broad latitude is given to the agencies administering those regulations. Further, the Company must obtain and maintain regulatory approvals to market and sell many of its products.

The Company has been, or is currently involved, in various governmental investigations, audits and reviews. These include routine, regular, and special investigations, audits and reviews by Centers for Medicare and Medicaid Services, state insurance and health and welfare departments and other governmental authorities. The Company cannot reasonably estimate the range of loss, if any, that may result from any material government investigations, audits and reviews in which it is currently involved given the inherent difficulty in predicting regulatory action, fines and penalties, if any, and the various remedies and levels of judicial review available to the Company in the event of an adverse finding.

On February 14, 2017, the Department of Justice announced its decision to pursue certain claims within a lawsuit initially asserted against the Company and filed under seal by a whistleblower in 2011. The whistleblower’s complaint, which was unsealed on February 15, 2017, alleges that the Company made improper risk adjustment submissions and violated the False Claims Act. On February 12, 2018, the court granted in part and denied in part the Company’s motion to dismiss. In May 2018, the Department of Justice moved to dismiss the Company’s counterclaims, which were filed in March 2018, and moved for partial summary judgment. In March 2019, the court denied the government’s motion for partial summary judgment and dismissed the Company’s counterclaims without prejudice. The Company cannot reasonably estimate the outcome that may result from this matter given its procedural status.

Because of the nature of its businesses, the Company is frequently made party to a variety of legal actions and regulatory inquiries, including class actions and suits brought by members, care providers, consumer advocacy organizations, customers, and regulators, relating to the Company’s businesses, including management and administration of health benefit plans and other services.

The Company records liabilities for its estimates of probable costs resulting from these matters where appropriate. Estimates of costs resulting from legal and regulatory matters involving the Company are inherently difficult to predict, particularly where the matters involve: indeterminate claims for monetary damages or may involve fines, penalties or punitive damages; present novel legal theories or represent a shift in regulatory policy; involve a large number of claimants or regulatory bodies; are in the early stages of the proceedings; or could result in a change in business practices. Accordingly, the Company is often unable to estimate the losses or ranges of losses for those matters where there is a reasonable possibility, or it is probable that a loss may be incurred. Although the outcomes of any such legal actions cannot be predicted, in the opinion of management, the resolution of any currently pending or threatened actions will not have a material adverse effect on the financial statements of the Company.

The Company routinely evaluates the collectability of all receivable amounts included in the financial statements. Impairment reserves are established for those amounts where collectability is uncertain. Based on the Company’s past experience, exposure related to uncollectible balances and the potential of loss for those balances not currently reserved for is not material to the Company’s statutory basis financial condition.

There are no assets that the Company considers to be impaired at December 31, 2024 and 2023.

15. LEASES

A–B. According to the management agreement between the Company and United HealthCare Services, Inc. The receivables and payables are recorded in amounts receivable relating to uninsured plans and liability for amounts held under uninsured plans, respectively, in the financial statements.

The Company did not have any direct premiums written or produced by managing general agents or third-party administrators in 2024 and 2023.

20. FAIR VALUE MEASUREMENTS

The National Association of Insurance Commissioner Practices and Procedures manual defines fair value, establishes a framework for measuring fair value, and outlines the disclosure requirements related to fair value measurements. The fair value hierarchy is as follows:

Level 1 — Quoted (unadjusted) prices for identical assets in active markets.

Level 2 — Other observable inputs, either directly or indirectly, including:

- Quoted prices for similar assets in active markets;
- Quoted prices for identical or similar assets in nonactive markets (few transactions, limited information, noncurrent prices, high variability over time, etc.);
- Inputs other than quoted prices that are observable for the asset (interest rates, yield curves, volatilities, default rates, etc.);
- Inputs that are derived principally from or corroborated by other observable market data.

Level 3 — Unobservable inputs that cannot be corroborated by observable market data.

The estimated fair values of bonds, cash equivalents, and short-term investments are based on quoted market prices, where available. The Company obtains one price for each security primarily from a third-party pricing service ("pricing service"), which generally uses quoted prices or other observable inputs for the determination of fair value. The pricing service normally derives the security prices through recently reported trades for identical or similar securities, making adjustments through the reporting date based upon available observable market information. For securities not actively traded, the pricing service may use quoted market prices of comparable instruments or discounted cash flow analyses, incorporating inputs that are currently observable in the markets for similar securities. Inputs that are often used in the valuation methodologies include, but are not limited to, non-binding broker quotes, benchmark yields, credit spreads, default rates, and prepayment speeds. As the Company is responsible for the determination of fair value, it performs quarterly analyses on the prices received from the pricing service to determine whether the prices are reasonable estimates of fair value. Specifically, the Company compares the prices received from the pricing service to a secondary pricing source, prices reported by its custodian, its investment consultant, and third-party investment advisors. Additionally, the Company compares changes in the reported market values and returns to relevant market indices to test the reasonableness of the reported prices. The Company's internal price verification procedures and review of fair value methodology documentation provided by independent pricing services have not historically resulted in an adjustment in the prices obtained from the pricing service.

In instances in which the inputs used to measure fair value fall into different levels of the fair value hierarchy, the fair value measurement has been determined based on the lowest-level input that is significant to the fair value measurement in its entirety. The Company's assessment of the significance of a particular item to the fair value measurement in its entirety requires judgment, including the consideration of inputs specific to the asset or liability.

E. Risk-Sharing Provisions of the Affordable Care Act

- (1) The Company has accident and health insurance premiums in 2024 and 2023 subject to the Affordable Care Act risk-sharing provisions for the permanent risk adjustment program.

The risk adjustment program is a permanent program designed to mitigate the potential impact of adverse selection that generally applies to non-grandfathered individual and small group plans inside and outside of exchanges. The program helps to stabilize market premiums by transferring funds from plans with relatively low-risk enrollees to plans with relatively high-risk enrollees. The data used by the Centers for Medicare and Medicaid Services to determine the risk adjustment transfer amount is subject to audits along with the true-up to the final Centers for Medicare and Medicaid Services report, which may result in a material change to arrive at the final risk adjustment amount from the initial risk adjustment estimate recorded. Premium adjustments pursuant to the risk adjustment program are accounted for as premium subject to redetermination and user fees are accounted for as assessments.

- (2) The following table presents the current year impact for the permanent risk adjustment program regarding the risk-sharing provisions of the Affordable Care Act on assets, liabilities, and operations:

*Health care receivables excludes provider loans and advances not yet expensed of \$2,141,438 and \$2,593,348 for 2024 and 2023, respectively.

End of year health care receivables*	(93,982,426)	(3,487,821)	(97,470,247)
Total incurred claims	\$ 1,686,808,057	\$ 3,786,526	\$ 1,690,594,583

*Health care receivables excludes provider loans and advances not yet expensed of \$2,593,348 and \$0 for 2023 and 2022, respectively.

The liability for claims unpaid, accrued medical incentive pool and bonus amounts, and aggregate health claim reserves, net of health care and other amounts receivable (excluding provider loans and advances not yet expensed) as of December 31, 2023 was \$50,033,405. As of December 31, 2024, \$40,693,873 has been paid for incurred claims attributable to insured events of prior years. Reserves remaining for prior years, net of health care and other amounts receivable (excluding provider loans and advances not yet expensed) are now \$128,472, as a result of re-estimation of unpaid claims. Therefore, there has been \$9,211,060 favorable prior year development since December 31, 2023 to December 31, 2024. The primary drivers consist of favorable development as a result of a change in the provision for adverse deviations in experience of \$6,966,120, favorable development of \$3,072,016 in capitation, and favorable development of \$2,894,729 in pharmacy rebates offset by unfavorable development of \$3,379,967 in Medicare Part D expenses, and unfavorable development of \$1,057,523 in retroactivity for inpatient, outpatient, physician, and pharmacy claims.

At December 31, 2023, the Company recorded \$3,786,526 of unfavorable development. The primary drivers consist of unfavorable development of \$2,891,532 in retroactivity for inpatient, outpatient, physician, and pharmacy claims, unfavorable development of \$2,854,790 in risk share, and unfavorable development of \$1,709,879 in capitation, partially offset by favorable development of \$4,017,595 as a result of a change in provision for adverse deviations in experience. Original estimates are increased or decreased as additional information becomes known regarding individual claims, which could have an impact to the accruals for medical loss ratio rebates and retrospectively rated contracts. As a result of the prior year effects, on a regular basis, the Company adjusts revenue and the corresponding liability and/or receivable related to retrospectively rated policies and the impact of the change is included as a component of change in unearned premium reserves and reserve for rate credits in the financial statements.

The Company incurred claims adjustment expenses of \$58,474,161 and \$58,327,080 in 2024 and 2023, respectively. These costs are included in the management service fees paid by the Company to United HealthCare Services, Inc. as a part of the management agreement (see Note 10). The following table discloses paid claims adjustment expenses, incurred claims adjustment expenses, and the balance in unpaid claims adjustment expenses reserve for 2024 and 2023:

	2024	2023
Total claims adjustment expenses	\$ 58,474,161	\$ 58,327,080
Less: current year unpaid claims adjustment expenses	(1,525,983)	(1,618,284)
Add: prior year unpaid claims adjustment expenses	1,618,284	1,132,105
Total claims adjustment expenses paid	<u>\$ 58,566,462</u>	<u>\$ 57,840,901</u>
