The state of New Jersey prescribes the use of the National Association of Insurance Commissioners’ Accounting Practices and Procedures manual in effect for the accounting periods covered in the financial statements.

The New Jersey Department of Banking and Insurance adopted certain prescribed accounting practices that differ from those found in the National Association of Insurance Commissioners’ Accounting Practices and Procedures manual. These prescribed accounting practices have no effect on the Company’s net income (loss) and capital and surplus as of December 31, 2025 and December 31, 2024, and therefore are not reported in the reconciliation table below. The prescribed accounting practices relate to certain Medicaid pass-through payments. Pass-through payments are now required to be reported as premium income and medical expense (see Note 25) depending upon the program.

No significant differences exist between the practices prescribed or permitted by the state of New Jersey and the National Association of Insurance Commissioners’ Accounting Practices and Procedures manual, also known as NAIC SAP, which materially affect the statutory basis net income (loss) and capital and surplus, as illustrated in the table below:

B. Use of Estimates in the Preparation of the Financial Statements

The preparation of these financial statements in conformity with the National Association of Insurance Commissioners' Annual Statement Instructions and the National Association of Insurance Commissioners' Accounting Practices and Procedures manual include certain amounts that are based on the Company's estimates and judgments. These estimates require the Company to apply complex assumptions and judgments, often because the Company must make estimates about the effects of matters that are inherently uncertain and will change in subsequent periods. The most significant estimates relate to hospital and medical benefits, claims unpaid, aggregate health policy reserves (including premium deficiency reserves), aggregate health claim reserves, and risk corridor estimates. The Company adjusts these estimates each period as more current information becomes available. The impact of any changes in estimates is included in the determination of net income (loss) in the period in which the estimate is adjusted.

C. Accounting Policy

Basis of Presentation — The Company prepares its financial statements on the basis of accounting practices prescribed or permitted by the New Jersey Department of Banking and Insurance. These statutory practices differ from generally accepted accounting principles in the United States of America.

The Company has deemed the following to be significant differences between statutory practices and generally accepted accounting principles:

- Certain debt investments categorized as available-for-sale or held-to-maturity under generally accepted accounting principles are presented at the lower of book/adjusted carrying value or fair value in accordance with the National Association of Insurance Commissioners' designations in the financial statements, whereas under generally accepted accounting principles, these investments are shown at fair value or book/adjusted carrying value, respectively.
- Cash, cash equivalents, and short-term investments in the financial statements represent cash balances and investments with original maturities of one year or less from the time of acquisition, whereas under generally accepted accounting principles, the corresponding caption of cash, cash equivalents, and short-term investments includes cash balances and investments that will mature in one year or less from the balance sheet date. The Company did not report any short-term investments as of December 31, 2025 and 2024, respectively.
- The statutory basis statements of cash flows reconcile the corresponding captions of cash, cash equivalents, and short-term investments, which can include restricted cash reserves, with original maturities of one year or less from the time of acquisition, whereas under generally accepted accounting principles, the statements of cash flows reconcile the corresponding captions of cash, cash equivalents, and restricted cash with maturities of three months or less. Short-term investments with a final maturity of one year or less from the balance sheet date are not included in the reconciliation of generally accepted accounting principles cash flows. In addition, there are classification differences within the presentation of the cash flow categories between generally accepted accounting principles and National Association of Insurance Commissioners' Accounting Practices and Procedures manual. The statutory basis statements of cash flows are prepared in accordance with the National Association of Insurance Commissioners' Annual Statement Instructions.
- The National Association of Insurance Commissioners' Accounting Practices and Procedures manual provides for an amount to be recorded for deferred taxes on temporary differences between the financial reporting and tax basis of assets, subject to a valuation allowance and admissibility limitations on deferred tax assets, and tax basis of liabilities (see Note 9). In addition, under the National Association of Insurance Commissioners' Accounting Practices and Procedures manual, the net change in deferred tax assets is recorded directly to unassigned funds (surplus) in the financial statements, whereas under generally accepted accounting principles, the net change in deferred tax assets is recorded as a component of the income tax provision within the income statement and is based on the ultimate recoverability of the deferred tax assets. Based on the admissibility criteria under the National Association of Insurance Commissioners' Accounting Practices and Procedures manual, any deferred tax assets determined to be nonadmitted are charged directly to surplus and excluded from the financial statements, whereas under generally accepted accounting principles, such assets are included in the balance sheet.
- Certain assets, including certain health care and other amounts receivable and prepaid expenses, are considered nonadmitted assets under the National Association of Insurance Commissioners' Accounting Practices and Procedures manual and are excluded from the financial statements and charged directly to unassigned funds (surplus).
- Comprehensive income and its components are not separately presented in the financial statements, whereas under generally accepted accounting principles, it is a requirement to present comprehensive income and its components in the financial statements.

Accounting policy disclosures that are required by the National Association of Insurance Commissioners' Annual Statement instructions are as follows:

- (1–2) Bonds include maturities of greater than one year at the time of purchase, respectively. Bonds are stated at book/adjusted carrying value if they meet National Association of Insurance Commissioners designation of one or two and stated at the lower of book/adjusted carrying value or fair value if they meet National Association of Insurance Commissioners' designation of three or higher. The Company does not have any mandatory convertible securities or Securities Valuation Office of the National Association of Insurance Commissioners identified funds (i.e.: exchange traded funds or bond mutual funds) in its bond portfolio. Amortization of bond premium or accretion of discount is calculated using the constant yield interest method. Bonds are valued and reported using market prices published by the Securities Valuation Office in accordance with the National Association of Insurance Commissioners' Valuation of Securities manual prepared by the Securities Valuation Office or an external pricing service.
- (3–4) The Company holds no common or preferred stock.
- (5) The Company holds no mortgage loans on real estate.
- (6) Issuer credit obligations and asset-backed securities include U.S government obligations and agency securities, corporate debt securities and mortgage backed securities, which are valued using the retrospective adjustment methodology. Prepayment assumptions for the determination of the book/adjusted carrying value, commonly referred to as amortized cost, of asset-backed securities are based on a three-month constant prepayment rate history obtained from external data source vendors. The Company's investment policy limits investments in nonagency residential mortgage-backed securities, including home equity and sub-prime mortgages, to 10% of total cash and invested assets. Total investments for combined Agency commercial mortgage-backed securities and Agency residential mortgage-backed securities cannot exceed 35%, Non-Agency asset-backed securities cannot exceed 30%, Non-Agency residential mortgage-backed securities cannot exceed 10%, and Non-Agency commercial mortgage-backed securities cannot exceed 10% of the total cash and invested assets.
- (7) The Company holds no investments in subsidiaries, controlled, or affiliated entities.
- (8) The Company has no investment interests with respect to joint ventures, partnerships, or limited liability companies.
- (9) The Company holds no derivatives.
- (10) Premium deficiency reserves and the related expenses are recognized when it is probable that expected future health care expenses, claims adjustment expenses, direct administration costs, and an allocation of indirect administration costs under a group of existing contracts will exceed anticipated future premiums and reinsurance recoveries considered over the remaining lives of the contracts, and are recorded as aggregate health policy reserves in the financial statements. Indirect administration costs arise from activities that are not specifically identifiable to a specific group of existing contracts, and therefore, those costs are fully allocated among the various contract groupings. The allocation of indirect administration costs to each contract grouping is made proportionately to the expected margins remaining in the premiums after future health care expenses, claims adjustment expenses and direct administration costs are considered. The data and assumptions underlying such estimates and the resulting reserves are periodically updated, and any adjustments are reflected as an increase in reserves for life and accident and health contracts in the financial statements in the period in which the change in estimate is identified. The Company does anticipate investment income as a factor in the premium deficiency reserves calculation (see Note 30).
- (11) Claims adjustment expenses are those costs expected to be incurred in connection with the adjustment and recording of accident and health claims. Pursuant to the terms of the management agreement (see Note 10), the Company pays a management fee to its affiliate, United HealthCare Services, Inc., in exchange for administrative and management services. A detailed review of the administrative expenses of the Company and United HealthCare Services, Inc. is performed to determine the allocation between claims adjustment expenses and general administrative expenses to be reported in the financial statements. It is the responsibility of United HealthCare Services, Inc. to pay claims adjustment expenses in the event the Company ceases operations. The Company has recorded an estimate of unpaid claims adjustment expenses associated with incurred but unpaid claims, which is included in unpaid claims adjustment expenses in the financial statements. Management believes the amount of the liability for unpaid claims adjustment expenses as of December 31, 2025 is adequate to cover the Company's cost for the adjustment and recording of unpaid claims; however, actual expenses may differ from those established estimates. Adjustments to the estimates for unpaid claims adjustment expenses are reflected in operating results in the period in which the change in estimate is identified.
- (12) The Company does not carry any fixed assets in the financial statements.
- (13) Health care and other amounts receivable consist of pharmacy rebates receivable estimated based on the most currently available data from the Company's claims processing systems and from data provided by the Company's affiliated pharmaceutical benefit manager, OptumRx, Inc. Health care and other amounts receivable also include amounts due to the Company for claim overpayments to providers, hospitals and other health care organizations. Health care and other amounts receivable are considered nonadmitted assets under the National Association of Insurance Commissioners' Accounting Practices and Procedures manual if they do not meet admissibility requirements. Accordingly, the Company has excluded receivables that do not meet the admissibility criteria from the financial statements (see Note 28).

ASSETS AND LIABILITIES

- **Cash, Cash Equivalents and Other Invested Assets -**

Cash equivalents include securities that have original maturity dates of three months or less from the date of acquisition. Cash equivalents also consist of the Company's share of a qualified cash pool sponsored and administered by United HealthCare Services, Inc. The investment pool is recorded at cost or book/adjusted carrying value depending on the composition of the underlying securities. Interest income from the pool accrues daily to participating members based upon ownership percentage. Money-market funds are reported at fair value or net asset value as a practical expedient.

- **Premiums and Considerations / Aggregate Health Policy Reserves** — The Company reports uncollected premium balances from the New Jersey Division of Medical Assistance and Health Services as premiums and considerations in the financial statements. Uncollected premium balances that are over 90 days past due, with the exception of amounts due from government insured plans, are considered nonadmitted assets. In addition to those balances, current balances are also considered nonadmitted if the corresponding balance greater than 90 days past due is deemed more than inconsequential.

The Company establishes a receivable and liability for estimated accrued retrospective and redetermination premiums due to/from the Company based on the actuarial method and assumptions for each respective contract which is included in premiums and considerations and aggregate health policy reserves in the financial statement. Premiums and considerations and aggregate health policy reserves could include premium adjustments for State of New Jersey Division of Medical Assistance and Health Services risk corridor and minimum loss ratio rebate programs which are accounted for as premium adjustments subject to retrospectively rated features (see Note 24). Premium adjustments for the State of New Jersey Division of Medical Assistance and Health Services pay for performance receivables are accounted for as premium adjustments subject to redetermination (see Note 24). Aggregate health policy reserves also includes the liability for premium deficiency reserves (see Note 30).

- **Claims Unpaid and Aggregate Health Claim Reserves** — Claims unpaid and aggregate health claim reserves include claims processed but not yet paid, estimates for claims received but not yet processed, estimates for the costs of health care services enrollees have received but for which claims have not yet been submitted, and payments and liabilities for physician, hospital, and other medical costs disputes.

The estimates for incurred but not yet reported claims are developed using an actuarial process that is consistently applied, centrally controlled, and automated. The actuarial models consider factors such as historical submission and payment data, cost trends, customer and product mix, seasonality, utilization of health care services, contracted service rates, and other relevant factors. The Company estimates such liabilities for physician, hospital, and other medical cost disputes based upon an analysis of potential outcomes, assuming a combination of litigation and settlement strategies. These estimates may change as actuarial methods change or as underlying facts upon which estimates are based change. The Company did not change actuarial methods during 2025 and 2024. Management believes the amount of claims unpaid and aggregate health claim reserves is a best estimate of the Company's liability for unpaid claims and aggregate health claim reserves as of December 31, 2025; however, actual payments may differ from those established estimates.

The Company contracts with hospitals, physicians, and other providers of health care under capitated or discounted fee for service arrangements, including a hospital per diem to provide medical care services to enrollees. Some of these contracts are with related parties (see Note 10). Capitated providers are at risk for the cost of medical care services provided to the Company's enrollees; however, the Company is ultimately responsible for the provision of services to its enrollees should the capitated provider be unable to provide the contracted services.

- **Receivables from / Amounts Due to Parent, Subsidiaries, and Affiliates** — In the normal course of business, the Company has various transactions with related parties (see Note 10). The Company reports any net unsettled amounts due or owed as receivables from parent, subsidiaries, and affiliates or amounts due to parent, subsidiaries, and affiliates, respectively, in the financial statements. The Company has excluded receivables that do not meet the admissibility criteria from the financial statements.
- **General Expenses Due or Accrued** — General expenses that are due as of the reporting date in addition to general expenses that have been incurred but are not due until a subsequent period are reported as general expenses due or accrued in the financial statements.

CAPITAL AND SURPLUS AND MINIMUM STATUTORY REQUIREMENTS

- **Restricted Cash Reserves** — The Company is in compliance with the state of New Jersey regulatory deposit requirements as of December 31, 2025 and 2024, respectively, for qualification purposes as a domestic insurer. The New Jersey Administrative Code also requires the Company to maintain minimum insolvency and administrative deposits with the state of New Jersey. The Company had bonds and cash equivalents, which are stated at book/adjusted carrying value or fair value depending on the underlying security, on deposit with the state of New Jersey and is in compliance with the New Jersey requirements as of December 31, 2025 and 2024, respectively. This reserve is included in bonds and cash equivalents in the financial statements. Interest earned on this deposit accrues to the Company (see Note 5).

- **Minimum Capital and Surplus** — Under the laws of the state of New Jersey, the New Jersey Department of Banking and Insurance requires the Company to maintain a minimum capital and surplus equal to the greater of \$2,480,127; 2% of the first \$150 million of annual premium revenue and 1% of annual premium revenue over \$150 million; three months of uncovered health care expenditures; or an amount equal to the sum of 8% of the annual health care expenditures (not including those expenditures paid on a capitated basis or those on a managed hospital plan basis), plus 4% of the annual hospital expenditures paid on a managed hospital payment basis. The minimum capital and surplus requirements were \$213,939,559 and \$183,188,496, for December 31, 2025 and 2024, respectively, which were based on health care expenditures, as that produced the highest minimum requirement.

Risk-based capital is a regulatory tool for measuring the minimum amount of capital appropriate for a health maintenance organization to support its overall business operations in consideration of its size and risk profile. The New Jersey Department of Banking and Insurance requires the Company to maintain minimum capital and surplus equal to the greater of the state statute as outlined above, or the company action level as calculated by the risk-based capital formula, or the level needed to avoid action pursuant to the trend test in the risk-based capital formula.

The Company is in compliance with the minimum required capital and surplus amounts where it is licensed to do business, as of December 31, 2025 and 2024.

STATEMENTS OF OPERATIONS

- **Net Premium Income and Change in Unearned Premium Reserves and Reserve for Rate Credits** — Revenues consist of net premium income that is recognized in the period in which enrollees are entitled to receive health care services.

The Medicaid plan is subject to experience rated rebates, including medical loss ratios and risk corridor programs, and performance guarantees based on various utilization measures. The Company records premium adjustments for the changes to the estimates for experience rated rebates and risk corridor programs which are reflected in change in unearned premium reserves and reserve for rate credits and performance guarantees which are reflected in net premium income in the financial statements (see Note 24). Net premium income also includes amounts paid by state and federal governments on a per member basis in exchange for the provision and administration of medical benefits under the Medicaid and Children's Health Insurance Program, and maternity payments. Premiums are contractual and are recognized in the coverage period in which members are entitled to receive services, except in the case of maternity payments. Maternity income is billed on contractual rates and recognized as income as each birth case is identified by the Company.

- **Total Hospital and Medical Expenses** — Total hospital and medical expenses include claims paid, claims processed but not yet paid, estimates for claims received but not yet processed, estimates for the costs of health care services enrollees have received but for which claims have not yet been submitted, and payments and liabilities for physician, hospital, and other medical costs disputes.

Total hospital and medical expenses also include amounts incurred for incentive pool, withhold adjustments, and bonus amounts that are based on the underlying contractual provisions with the respective providers. In addition, adjustments to claims unpaid estimates and aggregate health claim reserves are reflected in the period once the change in estimate is identified and included in total hospital and medical expenses in the financial statements.

- **General Administrative Expenses** — General expenses that have been paid as of the reporting date in addition to general expenses that have been incurred but are not due until a subsequent period are reported as general administrative expenses. Pursuant to the terms of the management agreement (see Note 10), the Company pays a management fee to United HealthCare Services, Inc. in exchange for administrative and management services. State income taxes are also a component of general administrative expenses. Costs for items not included within the scope of the management agreement are directly expensed as incurred. A detailed review of the administrative expenses of the Company and United HealthCare Services, Inc. is performed to determine the allocation between claims adjustment expenses and general administrative expenses to be reported in the financial statements.
- **Net Investment Gains (Losses)** — Net investment income earned includes investment income collected during the period, as well as the change in investment income due and accrued on the Company's holdings. Amortization of premium or discount on bonds and certain external investment management costs are also included in net investment income earned (see Note 7).
- **Federal Income Taxes Incurred** — The provision for federal income taxes incurred is calculated based on applying the statutory federal income tax rate of 21% to net income or (loss) before federal income taxes (see Note 9).

OTHER

- **Vulnerability Due to Certain Concentrations** — The Company is subject to substantial federal and state government regulation, including licensing and other requirements relating to the offering of the Company's existing products in new markets and offerings of new products, both of which may restrict the Company's ability to expand its business. The business is subject to normal claims fluctuations and environmental issues.

The Company has a Medicaid contract with the state of New Jersey to serve the Medicaid population, which represents 100% of total direct premiums written as of December 31, 2025 and 2024, respectively.

The Company adopted the new requirement on the effective date.

The Company reviewed all other recently issued guidance in 2025 and 2024 that has been adopted for 2025 or subsequent years' implementation and has determined that none of the items would have a significant impact to the financial statements.

U.S. government and agency securities, state and agency municipal securities, city and county municipal securities, and corporate debt securities are now included as a component of issuer credit obligations and asset-backed securities as of December 31, 2025, whereas in 2024, these securities were listed in separate categories. The current year disclosures and corresponding tables reflect this change in presentation. No presentation change has been made to the prior year tables.

The unrecognized unrealized losses on investments in issuer credit obligations and asset-backed securities at December 31, 2025 and 2024, were mainly caused by interest rate fluctuations and not by unfavorable changes in the credit ratings associated with these securities. The Company evaluates impairment at each reporting period for each of the securities whereby the fair value of the investment is less than its book/adjusted carrying value. The contractual cash flows of issuer credit obligations and asset-backed securities related to U.S. government and agency securities are guaranteed either by the U.S. government or an agency of the U.S. government. It is expected that the securities would not be settled at a price less than the cost of the investment, and the Company does not intend to sell the investment until the unrealized loss is fully recovered. The Company assessed the credit quality of the issuer credit obligations and asset-backed securities related to state and agency municipal securities, city and county municipal securities and corporate debt securities, noting whether a significant deterioration since purchase or other factors that may indicate an other-than-temporary impairment, such as the length of time and extent to which fair value has been less than cost, the financial condition, and near-term prospects of the issuer as well as specific events or circumstances that may influence the operations of the issuer and the Company's intent to sell the investment. Additionally, the Company evaluated its intent and ability to retain asset-backed securities for a period of time sufficient to recover the amortized cost. As a result of this review, no other-than-temporary impairments were recorded by the Company as of December 31, 2025 and 2024.

A–C. The Company has no mortgage loans, real estate loans, restructured debt, or reverse mortgages. The Company also has no real estate property occupied by the Company, real estate property held for the production of income, or real estate property held for sale.

D. Asset-Backed Securities

- (1) Asset-backed securities include U.S government obligations and agency securities, corporate debt securities and mortgage-backed securities, which are valued using the retrospective adjustment methodology. Prepayment assumptions for the determination of the book/adjusted carrying value, commonly referred to as amortized cost, of asset-backed securities are based on a three-month constant prepayment rate history obtained from external data source vendors.
- (2) The Company did not recognize any other-than-temporary impairments on asset-backed securities as of December 31, 2025.
- (3) The Company did not have any asset-backed securities with other-than-temporary impairments to report by CUSIP as of December 31, 2025 or 2024.

(4) The following table illustrates the fair value, gross unrecognized unrealized losses, and length of time that the asset-backed securities have been in a continuous unrecognized unrealized loss position as of December 31, 2025 and 2024:

	2025
The aggregate amount of unrealized losses:	
1. Less than 12 months	\$ 40,891
2. 12 months or longer	10,215,274
The aggregate related fair value of securities with unrealized losses:	
1. Less than 12 months	13,212,776
2. 12 months or longer	143,353,760
	2024
The aggregate amount of unrealized losses:	
1. Less than 12 months	\$ 3,216,617
2. 12 months or longer	14,113,863
The aggregate related fair value of securities with unrealized losses:	
1. Less than 12 months	83,953,526
2. 12 months or longer	112,447,329

(5) The Company believes that it will continue to collect timely the principal and interest due on its asset-backed securities that have an amortized cost in excess of fair value. The unrealized losses were primarily caused by interest rate changes and not by unfavorable changes in the credit quality associated with these securities that impacted the assessment on collectability of principal and interest. At each reporting period, the Company evaluates available-for-sale debt securities for any credit-related impairment when the fair value of the investment is less than its amortized cost. The Company evaluated the expected cash flows and the underlying credit quality and credit ratings of the issuers, noting no significant credit deterioration since purchase. As of December 31, 2025, the unrealized loss on any security that the Company classified as available-for-sale was not material to the Company’s investment portfolio. Any other securities in an unrealized loss position as of December 31, 2025, the Company considers to be temporary.

The corporate alternative minimum tax is calculated as 15% of adjusted financial statement income and applies only to corporations with average annual adjusted financial statement income in excess of \$1 billion for three prior taxable years. The applicability of the corporate alternative minimum tax is determined on a tax-controlled group basis.

The Company is included in the consolidated federal income tax return with its ultimate parent, UnitedHealth Group Incorporated, which constitutes a controlled group. The controlled group's expected federal income tax will exceed the corporate alternative minimum tax and therefore the Company does not expect to be subject to the minimum tax.

The controlled group has not made any material modifications to the methodology used to project the corporate alternative minimum tax.

The change in the valuation allowance is attributable to the cumulative taxable loss in the carryback period.

D. The provision for federal income taxes incurred is different from that which would be obtained by applying the statutory federal income tax rate of 21% to net income or (loss) before federal income taxes. A summarization of the significant items causing this difference as of December 31, 2025 and 2024 is as follows:

The Company has not admitted any aggregate amounts of deposits that are included within Section 6603 (“Deposits made to suspend running of interest on potential underpayments, etc.”) of the Internal Revenue Service Code.

F. The Company is included in the consolidated federal income tax return with its ultimate parent, UnitedHealth Group Incorporated which constitutes a controlled group. The entities included within the consolidated return are included in the National Association of Insurance Commissioners’ Statutory Statement Schedule Y - Information Concerning Activities of Insurer Members Of A Holding Company Group. Federal income taxes are paid to or refunded by UnitedHealth Group Incorporated pursuant to the terms of a tax-sharing agreement, approved by the Board of Directors, under which taxes approximate the amount that would have been computed on a separate company basis, with the exception of net operating losses and capital losses. For these losses the Company receives a benefit at the federal rate in the current year for current taxable losses incurred in that year to the extent losses can be utilized in the consolidated federal return of UnitedHealth Group Incorporated. UnitedHealth Group Incorporated currently files income tax returns in the U.S. federal jurisdiction, various states, and foreign jurisdictions. The U.S. Internal Revenue Service has completed exams on UnitedHealth Group Incorporated’s consolidated income tax returns for fiscal years 2016 and prior. UnitedHealth Group Incorporated’s 2017 through 2023 tax returns are under review by the Internal Revenue Service, with the 2017 through 2020 tax years under the Internal Revenue Service’s Compliance Assurance Program. UnitedHealth Group Incorporated is no longer subject to income tax examinations prior to the 2015 tax year. In general, the Company is subject to examination in non-U.S. jurisdictions for years 2015 and forward.

10. INFORMATION CONCERNING PARENT, SUBSIDIARIES, AND AFFILIATES

A–B. In the ordinary course of business, the Company contracts with several affiliates to provide a wide variety of services to the Company’s members. These agreements are filed with and approved by the New Jersey Department of Banking and Insurance according to Management’s understanding of the current requirements and standards. Within the confines of the applicable filed and approved agreements (including subsequent amendments thereto), the amount and types of services provided by these affiliated entities can change year over year.

United HealthCare Services, Inc. maintains a private short-term investment pool in which affiliated companies may participate (see Note 1). F. All Other Contingencies

The Company’s business is regulated at the federal, state, and local levels. The laws and rules governing the Company’s business and interpretations of those laws and rules are subject to frequent change. Broad latitude is given to the agencies administering those regulations. Further, the Company must obtain and maintain regulatory approvals to market and sell many of its products.

The Company has been, or is currently, involved in various governmental investigations, audits and reviews. These include routine, regular, and special investigations, audits and reviews by Centers for Medicare and Medicaid Services, state insurance and health and welfare departments and other governmental authorities. The Company cannot reasonably estimate the range of loss, if any, that may result from any material government investigations, audits and reviews in which it is currently involved given the inherent difficulty in predicting regulatory action, fines and penalties, if any, and the various remedies and levels of judicial review available to the Company in the event of an adverse finding.

Because of the nature of its businesses, the Company is frequently made party to a variety of legal actions and regulatory inquiries, including class actions and suits brought by members, care providers, consumer advocacy organizations, customers, and regulators, relating to the Company’s businesses, including management and administration of health benefit plans and other services.

The Company records liabilities for its estimates of probable costs resulting from these matters where appropriate. Estimates of costs resulting from legal and regulatory matters involving the Company are inherently difficult to predict, particularly where the matters involve: indeterminate claims for monetary damages or may involve fines, penalties or punitive damages; present novel legal theories or represent a shift in regulatory policy; involve a large number of claimants or regulatory bodies; are in the early stages of the proceedings; or could result in a change in business practices. Accordingly, the Company is often unable to estimate the losses or ranges of losses for those matters where there is a reasonable possibility, or it is probable that a loss may be incurred. Although the outcomes of any such legal actions cannot be predicted, in the opinion of management, the resolution of any currently pending or threatened actions will not have a material adverse effect on the financial statements of the Company.

The Company routinely evaluates the collectability of all receivable amounts included in the financial statements. Impairment reserves are established for those amounts where collectability is uncertain. Based on the Company’s past experience, exposure related to uncollectible balances and the potential of loss for those balances not currently reserved for is not material to the Company’s statutory basis financial condition.

There are no assets that the Company considers to be impaired at December 31, 2025 and 2024.

C. Medicare or Other Similarly Structured Cost Based Reimbursement Contract

The Company's Medicaid contract with the state Medicaid agency includes provisions for various types of enhanced payments to participating providers. Funds are received from the state Medicaid agency and the Company subsequently disburses these funds to providers as directed by the state Medicaid agency. There is no risk to the Company as a result of these pass-through payments. The Company did not record a payable as of December 31, 2025 and 2024, respectively, in liability for amounts held under uninsured plans in the financial statements for the additional pass-through payments to be made to providers. 20. FAIR VALUE MEASUREMENTS

The National Association of Insurance Commissioner Practices and Procedures manual defines fair value, establishes a framework for measuring fair value, and outlines the disclosure requirements related to fair value measurements. The fair value hierarchy is as follows:

Level 1 — Quoted (unadjusted) prices for identical assets in active markets.

Level 2 — Other observable inputs, either directly or indirectly, including:

- Quoted prices for similar assets in active markets;
- Quoted prices for identical or similar assets in nonactive markets (few transactions, limited information, noncurrent prices, high variability over time, etc.);
- Inputs other than quoted prices that are observable for the asset (interest rates, yield curves, volatilities, default rates, etc.);
- Inputs that are derived principally from or corroborated by other observable market data.

Level 3 — Unobservable inputs that cannot be corroborated by observable market data.

The estimated fair values of bonds and cash equivalents are based on quoted market prices, where available. The Company obtains one price for each security primarily from a third-party pricing service, which generally uses quoted prices or other observable inputs for the determination of fair value. The third-party pricing service normally derives the security prices through recently reported trades for identical or similar securities, making adjustments through the reporting date based upon available observable market information. For securities not actively traded, the third-party pricing service may use quoted market prices of comparable instruments or discounted cash flow analyses, incorporating inputs that are currently observable in the markets for similar securities. Inputs that are often used in the valuation methodologies include, but are not limited to, non-binding broker quotes, benchmark yields, credit spreads, default rates, and prepayment speeds. As the Company is responsible for the determination of fair value, it performs quarterly analyses on the prices received from the third-party pricing service to determine whether the prices are reasonable estimates of fair value. Specifically, the Company compares the prices received from the third-party pricing service to a secondary pricing source, prices reported by its custodian, its investment consultant, and third-party investment advisors. Additionally, the Company compares changes in the reported market values and returns to relevant market indices to test the reasonableness of the reported prices. The Company's internal price verification procedures and review of fair value methodology documentation provided by independent third-party pricing services have not historically resulted in an adjustment in the prices obtained from the third-party pricing service.

In instances in which the inputs used to measure fair value fall into different levels of the fair value hierarchy, the fair value measurement has been determined based on the lowest-level input that is significant to the fair value measurement in its entirety. The Company's assessment of the significance of a particular item to the fair value measurement in its entirety requires judgment, including the consideration of inputs specific to the asset or liability.

U.S. government and agency securities, state and agency municipal securities, city and county municipal securities, and corporate debt securities are now included as a component of issuer credit obligations and asset-backed securities as of December 31, 2025, whereas in 2024, these securities were listed in separate categories. The current year disclosures and corresponding tables reflect this change in presentation. No presentation change has been made to the prior year tables.

25. CHANGE IN INCURRED CLAIMS AND CLAIMS ADJUSTMENT EXPENSES

A. Changes in estimates related to the prior year incurred claims are included in total hospital and medical expenses in the current year in the financial statements. As stated in Note 1, the New Jersey Department of Banking and Insurance adopted certain prescribed accounting practices that differ from those found in the National Association of Insurance Commissioners' Accounting Practices and Procedures manual. The Medicaid pass-through payments that are subject to these prescribed accounting practices have been excluded from the table below. The following tables disclose paid claims, incurred claims, and the balance in claims unpaid, accrued medical incentive pool and bonus amounts, aggregate health claim reserves, and health care and other amounts receivable (excluding provider loans and advances not yet expensed) for the years ended December 31, 2025 and 2024:

The liability for claims unpaid, accrued medical incentive pool and bonus amounts, and aggregate health claim reserves, net of health care and other amounts receivable (excluding provider loans and advances not yet expensed) as of December 31, 2024 was \$246,663,003. As of December 31, 2025, \$231,685,187 has been paid for incurred claims attributable to insured events of prior years. Reserves remaining for prior years, net of health care and other amounts receivable (excluding provider loans and advances not yet expensed) are now \$15,965,739, as a result of re-estimation of unpaid claims. Therefore, there has been \$987,923 unfavorable prior year development since December 31, 2024 to December 31, 2025. The primary drivers consist of unfavorable development of \$17,440,924 in retroactivity for inpatient, outpatient, physician, and pharmacy claims, unfavorable development of \$506,091 in capitation, unfavorable development of \$421,197 in risk share activity, and unfavorable development of \$288,364 in pharmacy rebates offset by favorable development of \$14,098,168 as a result of a change in the provision for adverse deviations in experience, and favorable development of \$3,390,704 in provider settlements.

At December 31, 2024, the Company recorded \$48,050,493 of favorable development. The primary drivers consist of favorable development of \$27,012,162 retroactivity for inpatient, outpatient, physician, and pharmacy claims and favorable development as a result of a change in the provision for adverse deviations in experience of \$16,006,538. Original estimates are increased or decreased as additional information becomes known regarding individual claims, which could have an impact to the accruals for medical loss ratio rebates and retrospectively rated contracts. As a result of the prior year effects, on a regular basis, the Company adjusts revenue and the corresponding liability and/or receivable related to retrospectively rated policies and the impact of the change is included as a component of change in unearned premium reserves and reserve for rate credits in the financial statements.

The Company incurred claims adjustment expenses of \$117,109,867 and \$118,660,149 in 2025 and 2024, respectively. These costs are included in the management service fees paid by the Company to United HealthCare Services, Inc. as part of the management agreement (see Note 10). The following table discloses paid claims adjustment expenses, incurred claims adjustment expenses, and the balance in unpaid claims adjustment expenses reserve for 2025 and 2024:

	2025		2024	
Total claims adjustment expenses	\$	117,109,867	\$	118,660,149
Less: current year unpaid claims adjustment expenses		(2,059,511)		(2,562,503)
Add: prior year unpaid claims adjustment expenses		2,562,503		2,379,603
		<u>2,562,503</u>		<u>2,379,603</u>
Total claims adjustment expenses paid	\$	<u>117,612,859</u>	\$	<u>118,477,249</u>

A–G. The Company did not have any intercompany pooling arrangements in 2025 or 2024.

27. STRUCTURED SETTLEMENTS

A–B. The Company did not have structured settlements in 2025 or 2024.

28. HEALTH CARE AND OTHER AMOUNTS RECEIVABLE

A. Pharmacy rebates receivable are recorded when reasonably estimated or billed by the affiliated pharmaceutical benefit manager in accordance with pharmaceutical rebate contract provisions. Information used to support rebates billed to the manufacturer is based on utilization information gathered by the pharmaceutical benefit manager and adjusted for significant changes in pharmaceutical contract provisions.

The Company evaluates admissibility of all pharmacy rebates receivable based on the administration of each underlying pharmaceutical benefit management agreement. The Company has nonadmitted and excluded all pharmacy rebates receivable that do not meet the admissibility criteria of Statement of Statutory Accounting Principles No. 84, *Health Care and Government Insured Plan Receivables* from the financial statements.

For each pharmaceutical management agreement for which a portion of the total pharmacy rebates receivable can be admitted based on the admissibility criteria of Statement of Statutory Accounting Principles No. 84, *Health Care and Government Insured Plan Receivables*, the pharmacy rebate transaction history is summarized as follows:

Quarter	Estimated Pharmacy Rebates as Reported on Financial Statements	Pharmacy Rebates as Billed or Otherwise Confirmed	Actual Rebates Received within 90 Days of Billing	Actual Rebates Received within 91 to 180 Days of Billing	Actual Rebates Received More than 180 Days After Billing
12/31/2025	\$ 3,841,134	\$ 1,072,864	\$ —	\$ —	\$ —

3/31/2023	4,137,605	4,219,003	904,305	2,824,634	449,637

Of the amount reported as health care and other amounts receivable, \$5,821,330 and \$4,717,059 relate to pharmacy rebates receivable as of December 31, 2025 and 2024, respectively. This change is primarily due to the change in generic/name brand mix.

B. The Company does not have any risk-sharing receivables.

The Company also admitted \$1,211,743 and \$900,844 of provider receivables resulting from claim overpayments as of December 31, 2025 and December 31, 2024, respectively, which are included in health care and other amounts receivable in the financial statements.
