B. Investment Policies and Strategies

Employer contributions and benefits paid in the table above include only those amounts contributed directly to or paid directly from plan assets.

In 2017, the Company increased the interest crediting rate on the pension plan to 6.0% from 5.77%. As a result of this plan amendment the Company recognized \$4,200 of prior service cost in other comprehensive income/(loss). Such amount will be amortized using a straight-line basis over the average remaining years of service to full eligibility for benefits of the plan participants.

In 2021, the Company surveyed the participants in the existing pension plan to determine if there was any interest in receiving a lump-sum distribution of their pension benefits. Effective August 2021, the Company terminated and spun-off its pension plan. Those participants who did not elect a lump-sum distribution had their cash balance spun-off to a new plan that mirrored all the benefits of the existing plan. Those participants that opted for a lump-sum distribution remained in the terminating plan until the distribution was made. Annuities will be purchased for those participants in the terminating plan that ultimately opted not to take a lump-sum distribution. As a result of this transaction the Company recorded a settlement gain of approximately \$12,000.

(2) Basis Used to Determine Expected Long-Term Rate-of-Return

The following table provides the components of net periodic cost for the plans for the year ended December 31:

ANNUAL STATEMENT FOR THE YEAR 2025 OF THE Horizon Healthcare Services, Inc.

	Pension	
	2025	
Interest cost	\$	8,274
Actual return on plan assets		(8,206)

Service cost		359
Interest cost		3,563

The prior service cost of the other post-retirement benefit plan is amortized on a straight-line basis over the average remaining years of service to full eligibility for benefits of the active plan participants. Actuarial gains and losses are amortized on a straight-line basis over five years.

The weighted average assumptions used to determine the Company’s net benefit cost as of December 31, were as follows:

	Pension
	2025
Discount rate	5.40% / 5.10%

	Other Postretirement
	2025
Discount rate	5.22%
Rate of compensation increases	3.00% + merit

The asset allocation for the Company’s pension plans as of December 31, 2025 and the target allocation for 2026, by asset category, is 100% in fixed income debt securities for all periods.

The Company’s investment policy for the pension plans is designed to anticipate the financial needs of the plans, consider risk tolerance, and document and communicate objectives, guidelines, and standards to the investment managers. The asset allocation contains guideline percentages, at market value, of the total plan investments which can be invested in various asset classes. The target allocation is an assumption and may vary from period to period as actual asset allocations at any point will be dictated by current and anticipated market conditions, the independent actions of the committee and/or the investment managers which oversee the investment policy, and required cash flows to and from the plans.

Information about the expected cash flows for the plans is as follows:

Expected Employer Contributions	Pension		Other Postretirement	
	2026		2026	
	\$	172	\$	6,969

Expected Benefit Payments	Pension		Other Postretirement	
			Before Subsidy	Expected Subsidy
2026	\$	29,299	\$ 7,135	\$ 166
2027		13,529	7,512	203
2028		14,741	7,600	241

2030		13,562	7,329	317
2031-2035		61,505	30,695	1,788
	\$	146,037	\$ 67,789	\$ 2,994

The table above reflects the total benefits expected to be paid from the plan or from the Company’s assets, including both the Company’s share of the benefit cost and the participants’ share of the cost, which is funded by participant contributions to the plan. The Company believes that benefits provided to certain of the Company’s retirees will be at least actuarially equivalent to the Medicare Part D subsidy, and, accordingly, the Company will be entitled to a subsidy for those retirees.

The following table represents the Plans’ fair value hierarchy for its financial assets (cash equivalents and investments) measured at fair value on a recurring basis as of December 31, 2025:
