The agency proposal follows:

Summary

On December 13, 2001, N.J.S.A. 17B:27B-1 et seq. (the "Act") was enacted requiring all third party administrators of health and dental benefits plans to be licensed or registered with the Commissioner of Banking and Insurance (Commissioner), and that all third party billing services be certified by the Commissioner. The Act set forth various requirements including required applicant information, the standards for approval of applications, annual reporting requirements

and fiduciary duties. In addition, the Act required the Commissioner to adopt rules and regulations to implement its provisions.

Therefore, the Department is proposing these new rules to implement the Act. The Department's proposed new rules include the following:

Subchapter 1, General Provisions, includes N.J.A.C. 11:23-1.1, which sets forth the purpose and scope of the chapter, and N.J.A.C. 11:23-1.2, which defines the terms, used throughout the chapter. Definitions are included for “Act,” “affiliate,” “benefits payer,” “client,” “Commissioner,” “control,” “Department,” “enrollee,” “health benefits plan,” “health care provider,” “impaired third party administrator” “insolvent third party administrator,” “insurer,” “NAIC,” “temporary initial license, registration or certification,” “third party administrator” and “third party billing service.”

Subchapter 2, License or Registration Requirements for Third Party Administrators, consists of five sections. N.J.A.C. 11:23- 2.1 sets forth the requirement that no person may act, offer to act or hold themselves out to be a third party administrator unless licensed or registered by the Commissioner. The section requires third party administrators who are not licensed by the Department as insurers or organized delivery systems and are not an affiliate or subsidiary of an insurer to be licensed. Likewise, third party administrators that are affiliates or subsidiaries of an insurer that only process or pay claims on behalf of benefits payers other than insurers must be licensed. Third party administrators that are subsidiaries or affiliates of an insurer that process claims on behalf of the insurer and other benefits payers as well, must be registered.

N.J.A.C. 11:23-2.2 sets forth the application filing requirements for licensure or registration, including all the information that must be included with the application.

N.J.A.C. 11:23-2.2(a) requires that all third party administrators operating in this State prior to adoption of these rules include with their application for licensure or registration, a

certification. The Commissioner may rely on this certification to issue a temporary initial license or registration, which will allow the applicant to continue operating while the application for the permanent license or registration is being reviewed.

N.J.A.C. 11:23-2.2(b) requires all third party administrators subject to licensure or registration who do not apply for a temporary initial license within the 90 days of the effective date of this chapter, to obtain licensure or registration before operating or continuing to operate in this State.

N.J.A.C. 11:23-2.2(c) requires all applications or registrations to be on a form prescribed by the Commissioner and which will be available on the Department's website address at www.njdoib.org/tpapage.htm. It also delineates the information to be supplied with the application as required by N.J.S.A. 17B:27B-3. The information includes copies of: basic organizational documents; executed bylaws, rules and regulations; biographical affidavits on each person responsible for the conduct of the third party administrator's affairs; the most recent audited financial statement; statements of any criminal convictions, enforcement or regulatory actions against each person responsible for the conduct of the affairs of the third party administrator; and the business plan. The biographical affidavits must be on forms which can be found either on the Department's website or on the NAIC website at <http://www.naic.org/ucaa/forms/forms.htm>.

N.J.A.C. 11:23-2.2(d) requires applicants to make available for inspection by the Commissioner copies of all contracts with persons with whom the third party administrator does claims administration business.

N.J.A.C. 11:23-2.3(a) sets forth the minimum standards for approval of the application for licensure or registration as a third party administrator by the Commissioner. The applicant must submit all materials required. All persons responsible for conducting the applicant's affairs

must be competent, trustworthy, of good reputation and possess the appropriate experience, training and education. Applicants must demonstrate the ability to operate the business efficiently. The standard contract forms to be used by the applicant must be acceptable. Applicants must have adequate financial arrangements with the benefits payer and make adequate provision for complying with N.J.S.A.17B:30-23 and N.J.A.C. 11:22-3 (the “prompt pay” laws), if applicable. The compensation arrangement between the applicant and the benefits payer may not result in the assumption of financial risk by the applicant. The name used by the applicant to do business in the State must not so closely resemble the name of an insurer authorized to do business in this State or otherwise include such descriptive language as to be likely to mislead the public with respect to the nature of its business operations. Lastly, the applicant must meet all the requirements of the Act and the rules, and must demonstrate the ability to continue to meet all those requirements. The applicant must meet all the requirements of the Act and the rules, and must demonstrate the ability to continue to meet all those requirements.

N.J.A.C. 11:23-2.3(b) limits the applicability of some of the requirements of 2.3(a) to applicants for registration whose services are provided only to benefits payers other than an insurer.

N.J.A.C. 11:23-2.3(c) provides that the Commissioner may rely on the certification provided by the applicant to issue a temporary initial license or registration, which shall be valid for the earlier of one year, or until the entity's application is approved or disapproved based on a full and detailed review. The applicant will be advised that the Commissioner has relied on their certification and that the temporary license or registration is valid for one year or until the Commissioner approves or disapproves their application if sooner. Applications which have not been approved or disapproved, or on which the applicant has not been notified that the

application is incomplete within one year from date of issuance of the temporary initial license or registration, shall be deemed approved. This provision allows for those already operating to continue operating on the basis of the initial temporary licensure or registration while allowing the Department adequate time to complete the detailed review of all those already transacting business in the State.

N.J.A.C. 11:23-2.4 sets forth the procedure for review of the application. The time period for review of the application commences on the day the application is received. The Department shall advise an applicant if an application is incomplete not later than 60 days after receipt, specifying the missing items or information. If the applicant is not advised that the application is incomplete or disapproved within 60 days of the receipt of the application, that application is deemed complete and approved. If approval is deemed because the applicant is not advised that the application is incomplete or disapproved within the time limits, the applicant shall notify the Department in writing of its intent to rely on a deemed approval prior to commencing operations.

N.J.A.C. 11:23-2.5 concerns denial of applications. The Commissioner may deny an application for licensure or registration if the standards set forth by the Act or the regulations are not met. Applicants shall be notified by certified mail of the reasons for denial and may request a hearing by notice to the Commissioner no later than the 30th day after receipt of the notice of denial.

N.J.A.C. 11:23-3, Third Party Administrators, consists of nine sections. N.J.A.C. 11:23-3.1 requires written agreements between the administrator and the benefits payer, sets forth the provisions that the agreement must contain, and requires the agreement to be retained for the duration of the agreement and five years thereafter. The agreements must contain a description of the services to be provided by the administrator and the manner in which the administrator is

to be compensated. The agreement must delineate the responsibilities of the benefits payer to the administrator with respect to claims to be paid by the administrator on behalf of the benefits payer and the responsibilities of the administrator to the benefits payer. The agreement must also specify performance standards, evaluation criteria and penalties.

N.J.A.C. 11:23-3.2 sets forth the provisions concerning the books and records of a third party administrator. The Commissioner shall have access to all books and records of the administrator for purposes of examination, audit and inspection. The reasonable expense for examination, audit and inspection shall be borne by the third party administrator. The benefits payer shall own the records generated by the administrator pertaining to the benefits payer, with the administrator retaining the right of access to permit fulfillment of its contractual obligations. Lastly, if an agreement between the benefits payer and the administrator is canceled the administrator may, with written permission of the benefits payer, transfer all records to a new administrator.

N.J.A.C. 11:23-3.3 sets forth the rules for compensation of third party administrators who adjudicate claims. Commissions, fees or charges based solely on the number or amount of claims denied or adjusted downward by the administrator are prohibited.

N.J.A.C. 11:23-3.4 deems a third party administrator to act in a fiduciary capacity in the receipt and transmittal of the funds of benefits payers. It requires fidelity bonds to be maintained on each director, officer, partner or employee of the administrator in the amount of \$100,000 or, if greater, one percent of the total amounts received from benefits payers for the purpose of paying claims.

N.J.A.C. 11:23-3.5 sets forth the requirement that all funds remitted to an administrator by a benefits payer licensed or authorized to do business in New Jersey be held in separate accounts. Funds collected by the administrator from a provider or enrollee on behalf of a

benefits payer shall be maintained in a separate account in the name of the benefits payer, maintained in a joint account or remitted to the benefits payer, in accordance with the agreement between the benefits payer and the administrator. Funds shall not be commingled with any other funds of the administrator or other clients of the administrator. Joint accounts shall be deposited in a State or Federally chartered depository institution and the administrator shall provide the benefits payer with a monthly accounting of all transactions. Benefits payers shall have the responsibility of making funds available to the administrator, for payment of claims, in a timely manner, and an administrator shall not be liable to any party for the failure of the benefits payer to make funds available to pay a claim.

N.J.A.C. 11:23-3.6 requires that policies, certificates, booklets, termination notices or other written communications delivered by the benefits payer to the administrator be promptly delivered to enrollees by the administrator.

N.J.A.C. 11:23-3.7 requires that third party administrators notify the Commissioner of any change of control or other material fact affecting its qualifications for licensure including changes in names or contracts and addition of new clients or new benefits payers.

N.J.A.C. 11:23-3.8 sets forth the requirement that third party administrators file an annual unaudited report on or before March 1 and an audited annual report on or before June 1. The section also establishes a filing fee of \$100.

N.J.A.C. 11:23-3.9 sets forth the requirement that third party administrators shall not contract with or on behalf of a self-funded Multiple Employer Arrangement (MEWA) which is not registered pursuant to N.J.S.A. 17B:27C-1 et seq. It states that it is the responsibility of the third party administrator to verify the registration of the MEWA. The third party administrator shall be diligent in monitoring the status of the MEWA and shall report any change in status as a material change pursuant to N.J.A.C. 11:23-3.7.

N.J.A.C. 11:23-4, Suspension or Revocation of License or Registration, sets forth the grounds for suspension or revocation of a license or registration and further allows for an immediate suspension if certain conditions are met.

N.J.A.C. 11:23-4.1 permits the Commissioner to suspend or revoke a license if the third party administrator is in an unsound financial condition; is using methods or practices in the conduct of its business that render its further transaction of business in this State hazardous or injurious to the benefits payers with which it has contracted or to the public; has failed to pay any judgment rendered against it in this State within 60 days after the judgment has become final; has violated any lawful rule or order of the Commissioner or any provision of State law; has refused to be examined or to produce its accounts, records and files for examination, or if any of its officers have refused to supply information with respect to its affairs, or has refused to perform any other legal obligation as to an examination, when required by the Commissioner; has, without just cause, refused or failed to pay proper claims or perform services arising under its contracts; has at any time failed to meet any requirement, on the basis of which issuance of the initial license could have been refused had that failure then existed and been known to the Commissioner; has been convicted of, or has entered a plea of guilty or nolo contendere to a felony or crime of the first, second or third degree in this State, without regard to whether adjudication was withheld; has had a credential as a third party administrator suspended, revoked or non-renewed for cause in another state; has willfully reimbursed enrollees for benefits not eligible under the benefits payer's benefits plan; has provided false or inaccurate information in the certification provided with an initial application for licensure or registration pursuant to N.J.A.C. 11:23-2.2(a) or in any other submission to the Department; or has contracted with or on behalf of a self-funded MEWA which is not registered pursuant to N.J.S.A. 17B:27C-1 et seq..

N.J.A.C. 11:23-4.1 (b) allows the Commissioner to impose a fine upon the administrator in lieu of, or in addition to, suspension or revocation.

N.J.A.C. 11:23-4.2(a) allows the Commissioner, without advance notice or hearing, to enter an order temporarily suspending the license or registration of a third party administrator if he or she finds that one or more of the following circumstances exist: the administrator is insolvent or impaired; a proceeding for receivership, conservatorship, rehabilitation or other delinquency proceeding regarding the administrator has been commenced in another state; or the financial condition or business practices of the administrator otherwise pose an imminent threat to the public health, safety or welfare of the residents of this State. N.J.A.C. 11:23-4.2(b) requires a hearing to be held within 30 days of the effective date of the temporary suspension to determine if the suspension should continue.

N.J.A.C. 11:23-4.3(a) provides that the Commissioner may, upon notice and hearing, assess a civil administrative penalty in an amount not less than \$250.00 nor more than \$5,000 for each day that a third party administrator is in violation of the Act. A penalty imposed by the Commissioner pursuant to this section may be in lieu of, or in addition to, suspension or revocation of a license pursuant to the Act. A penalty may be recovered in a summary proceeding pursuant to the "Penalty Enforcement Law of 1999," P.L.1999, c. 274 (N.J.S.A. 2A:58-10 et seq.).

N.J.A.C. 11:23-5, Third Party Billing Services, sets forth the rules for third party billing services.

N.J.A.C. 11:23-5.1(a) sets forth the requirement that no person may act as, offer to act as or hold themselves out as being a third party billing service unless certified by the Commissioner. N.J.A.C. 11:23-5.1(b) requires that all third party billing services operating in the State prior to the effective date of this chapter apply for a temporary initial certification within

120 days of the effective date of the chapter. The rule requires third party billing service applicants to certify that the application is complete, that the applicant is familiar with all pertinent statutory and regulatory requirements and that the applicant has met or exceeded all those requirements. The use of the temporary initial certification will allow those already operating to continue to operate if they obtain the temporary initial certification, while at the same time allowing the Department adequate time to review the initial applications for certification. N.J.A.C. 11:23-5.1(c) states that, with the exception of those who apply for temporary initial certification within 120 days of the effective date of this chapter all third party billing services shall obtain certification prior to operating in this State.

N.J.A.C. 11:23-5.2 sets forth the application filing requirements for certification, including all of the information that must be included with the application. The information includes copies of: basic organizational documents; executed bylaws, rules and regulations; the names, addresses and official positions of each person responsible for conducting the affairs of the third party billing service; the business plan; a list of the applicant's clients; the standard contract; and, if the applicant accepts monies from benefits payers on behalf of clients, its most recent audited financial statement and a power of attorney appointing the Commissioner for receipt of service of all lawful process.

N.J.A.C. 11:23-5.3 requires that a third party billing service file with the Commissioner a description of the applicant's proposed method of marketing; a statement setting forth the means by which the applicant is to be compensated and a description of the quality assurance procedures established. In addition, applicants must have adequate provision for complying with the provisions of N.J.S.A. 17B:30-23 and N.J.A.C. 11:22-3, "prompt pay" laws.

N.J.A.C. 11:23-5.4(a) sets forth the minimum standards for approval of the application for certification as a third party billing service by the Commissioner. The applicant must submit

all materials required. All persons responsible for conducting the applicant's affairs must be competent, trustworthy, of good reputation and possess the appropriate experience, training and education. Applicants must demonstrate the ability to operate the business efficiently. The standard contract forms used by the applicant must be acceptable. In addition, applicants must have adequate provision for complying with the provisions of N.J.S.A.17B:30-23 et seq. and N.J.A.C. 11:22-3.1 et seq.

N.J.A.C. 11:23-5.4(b) provides that the Commissioner may rely on the certification received from the applicant to issue a temporary initial certification, which shall be valid for the earlier of one year, or until the entity's application is approved or disapproved based on a full and detailed review. In the case of a temporary initial certification, the applicant will be advised that the Commissioner has relied on the applicant's submissions and accompanying certification, and that the temporary certification issued by the Commissioner is valid for one year or until the Commissioner approves or disapproves their application if sooner.

N.J.A.C. 11:23-5.5 allows the Commissioner to deny an application for certification upon the finding that any of the standards established by the Act or these rules have not been met or, as provided in N.J.S.A. 17B:27B-5, for any other reasonable grounds. Notification of denial shall be by certified mail and set forth the reasons for denial. The applicant may request a hearing on the denial by notice to the Commissioner no later than the 30th day following the receipt of the notice of denial.

N.J.A.C. 11:23-5.6 requires that no third party billing service shall conduct business with a client without a written agreement that includes: the services to be provided by the service; the financial arrangements to be used if the service accepts monies on behalf of a client; provisions setting forth the respective liability of the client and service for the accuracy and eligibility of claims and provisions for the prompt submission of claims pursuant to the "prompt pay rules";

and the responsibilities of the service to the client with respect to the maintenance of appropriate back-up systems against loss of records and the maintenance of appropriate insurance coverage against the risk of loss.

N.J.A.C. 11:23-5.7 provides that third party billing services that accept monies from health benefits payers on behalf of a client act in a fiduciary capacity on behalf of the client in the receipt and transmittal of funds. Such monies are to be kept in a separate account maintained in the name of the client or jointly with the service and shall not be commingled with any other funds of the third party billing service or other clients of the third party billing service.

N.J.A.C. 11:23-5.8 requires a third party billing service to immediately notify the Commissioner of any fact or circumstance affecting its continuing qualification for certification, including any material change in its ownership or control.

N.J.A.C. 11:23-5.9 sets forth the standards for revocation or suspension of a third party billing service's certification.

N.J.A.C. 11:23-5.10 provides that the Commissioner may, upon notice and hearing, assess a civil administrative penalty in an amount not less than \$250.00 nor more than \$5,000 for each day that a third party billing service is in violation of the Act. A penalty imposed by the Commissioner pursuant to this section may be in lieu of, or in addition to, suspension or revocation of a license pursuant to the Act. A penalty may be recovered in a summary proceeding pursuant to the "Penalty Enforcement Law of 1999," P.L.1999, c. 274 (N.J.S.A. 2A:58-10 et seq.).

A 60 day comment period is provided on this notice of proposal, and therefore, pursuant to N.J.A.C. 1:30-3.3(a)5, the proposal is not subject to the provisions of N.J.A.C. 1:30-3.1 and 3.2 governing rulemaking calendars.

Social Impact

The Department believes that New Jersey consumers, benefits providers and insurers will be positively affected by the safeguards and protections established by the regulatory framework for the licensing, operation and monitoring of third party administrators (TPAs) and third party billing services (TPBs) created by these rules. Moreover, the proposed new rules will affect all persons or entities that act as, offer to act as or hold themselves out to be TPAs or TPBs of health or dental benefits in the State of New Jersey, as well as New Jersey consumers, benefits providers and insurers of those benefits. Accordingly, TPAs and TPBs will be directly affected by the requirement to be licensed, registered or certified, and by being subjected to regulatory oversight.

Economic Impact

The Department believes that the proposed rules will have some negative economic effect on TPAs and TPBs who apply for a license, registration or certification, to the extent that these parties will be required to bear the costs associated with submitting applications, completing the documentation and preparing the annual reports. These expenses will vary according to the type and size of the entity and whether the entity is applying for licensing, registration or certification. While many of these administrative services may be completed in house with no additional staff, the annual audited report required of TPAs will require the use of a professional accountant, who may or may not be on staff. The Department believes that these expenses are a reasonable, necessary and appropriate cost of doing business.

The Department will incur some additional costs associated with processing applications and regulating TPAs and TPBs. The Department will seek to mitigate some of these costs by

charging reasonable examination fees. However, the Department's obligations, as well as the other reporting and compliance requirements for the TPAs and TPBs, are mandated by statute.

Further, the Department believes that there may also be a slight negative impact on consumers if the costs related to the licensing process are passed through to the consumer. However, the Department believes that any adverse economic impact to any of these entities will be outweighed by the benefits to New Jersey consumers and the insurers and other companies with which these entities do business. Licensing, registration or certification, and the ongoing oversight of the Department will help assure consumers and insurers that these entities have undergone scrutiny and possess the financial safety and soundness to fulfill their contractual obligations to those they serve.

Federal Standards Statement

A Federal standards analysis is not required because the proposed new rules are not subject to any Federal requirements or standards.

Jobs Impact

The Department does not anticipate that any jobs will be generated or lost as a result of the proposed new rules. With the exception of the professional services of an accountant as discussed in the Economic Impact above, the Department believes that implementation will be made by in house staff.

The Department invites commenters to submit data or studies concerning the job impact of the proposed rules together with their written comments on other aspects of this proposal.

Agriculture Industry Impact

The Department does not expect any agriculture industry impact from the proposed new rules.

Regulatory Flexibility Statement

A regulatory flexibility analysis is required because some TPAs or TPBs may employ fewer than 100 full-time employees and therefore are “small businesses” as that term is defined by the Regulatory Flexibility Act, N.J.S.A. 52:14B-16 et seq. Reporting and compliance requirements, which affect all TPAs and TPBs regardless of size, can be found in the rules. See the Summary above for a discussion of the reporting and compliance requirements and see the Economic Impact above for a discussion on the costs of these requirements.

The proposed new rules provide no different reporting, recordkeeping or other compliance requirements specifically based on business size. Businesses of all sizes will be required to use professional services for compliance, such as the accountant as discussed above. The use of these services as well as various other reporting, recordkeeping or other compliance requirements are mandated by the Act for businesses without regard to size. The proposed new rules establish a regulatory framework for the licensure, registration or certification of TPAs and TPBs to ensure they possess the minimum qualifications necessary to protect New Jersey consumers and those businesses with which they contract. Providing different compliance requirements based on business size would, therefore, thwart the intent of the Legislature as expressed in the Act. Therefore, the proposed new rules provide no differentiation in compliance requirements based on business size.

Smart Growth Impact

The proposed new rules have no impact on the achievement of smart growth and the implementation of the State Development and Redevelopment Plan.
