

Appendix F: Model to Data Comparisons

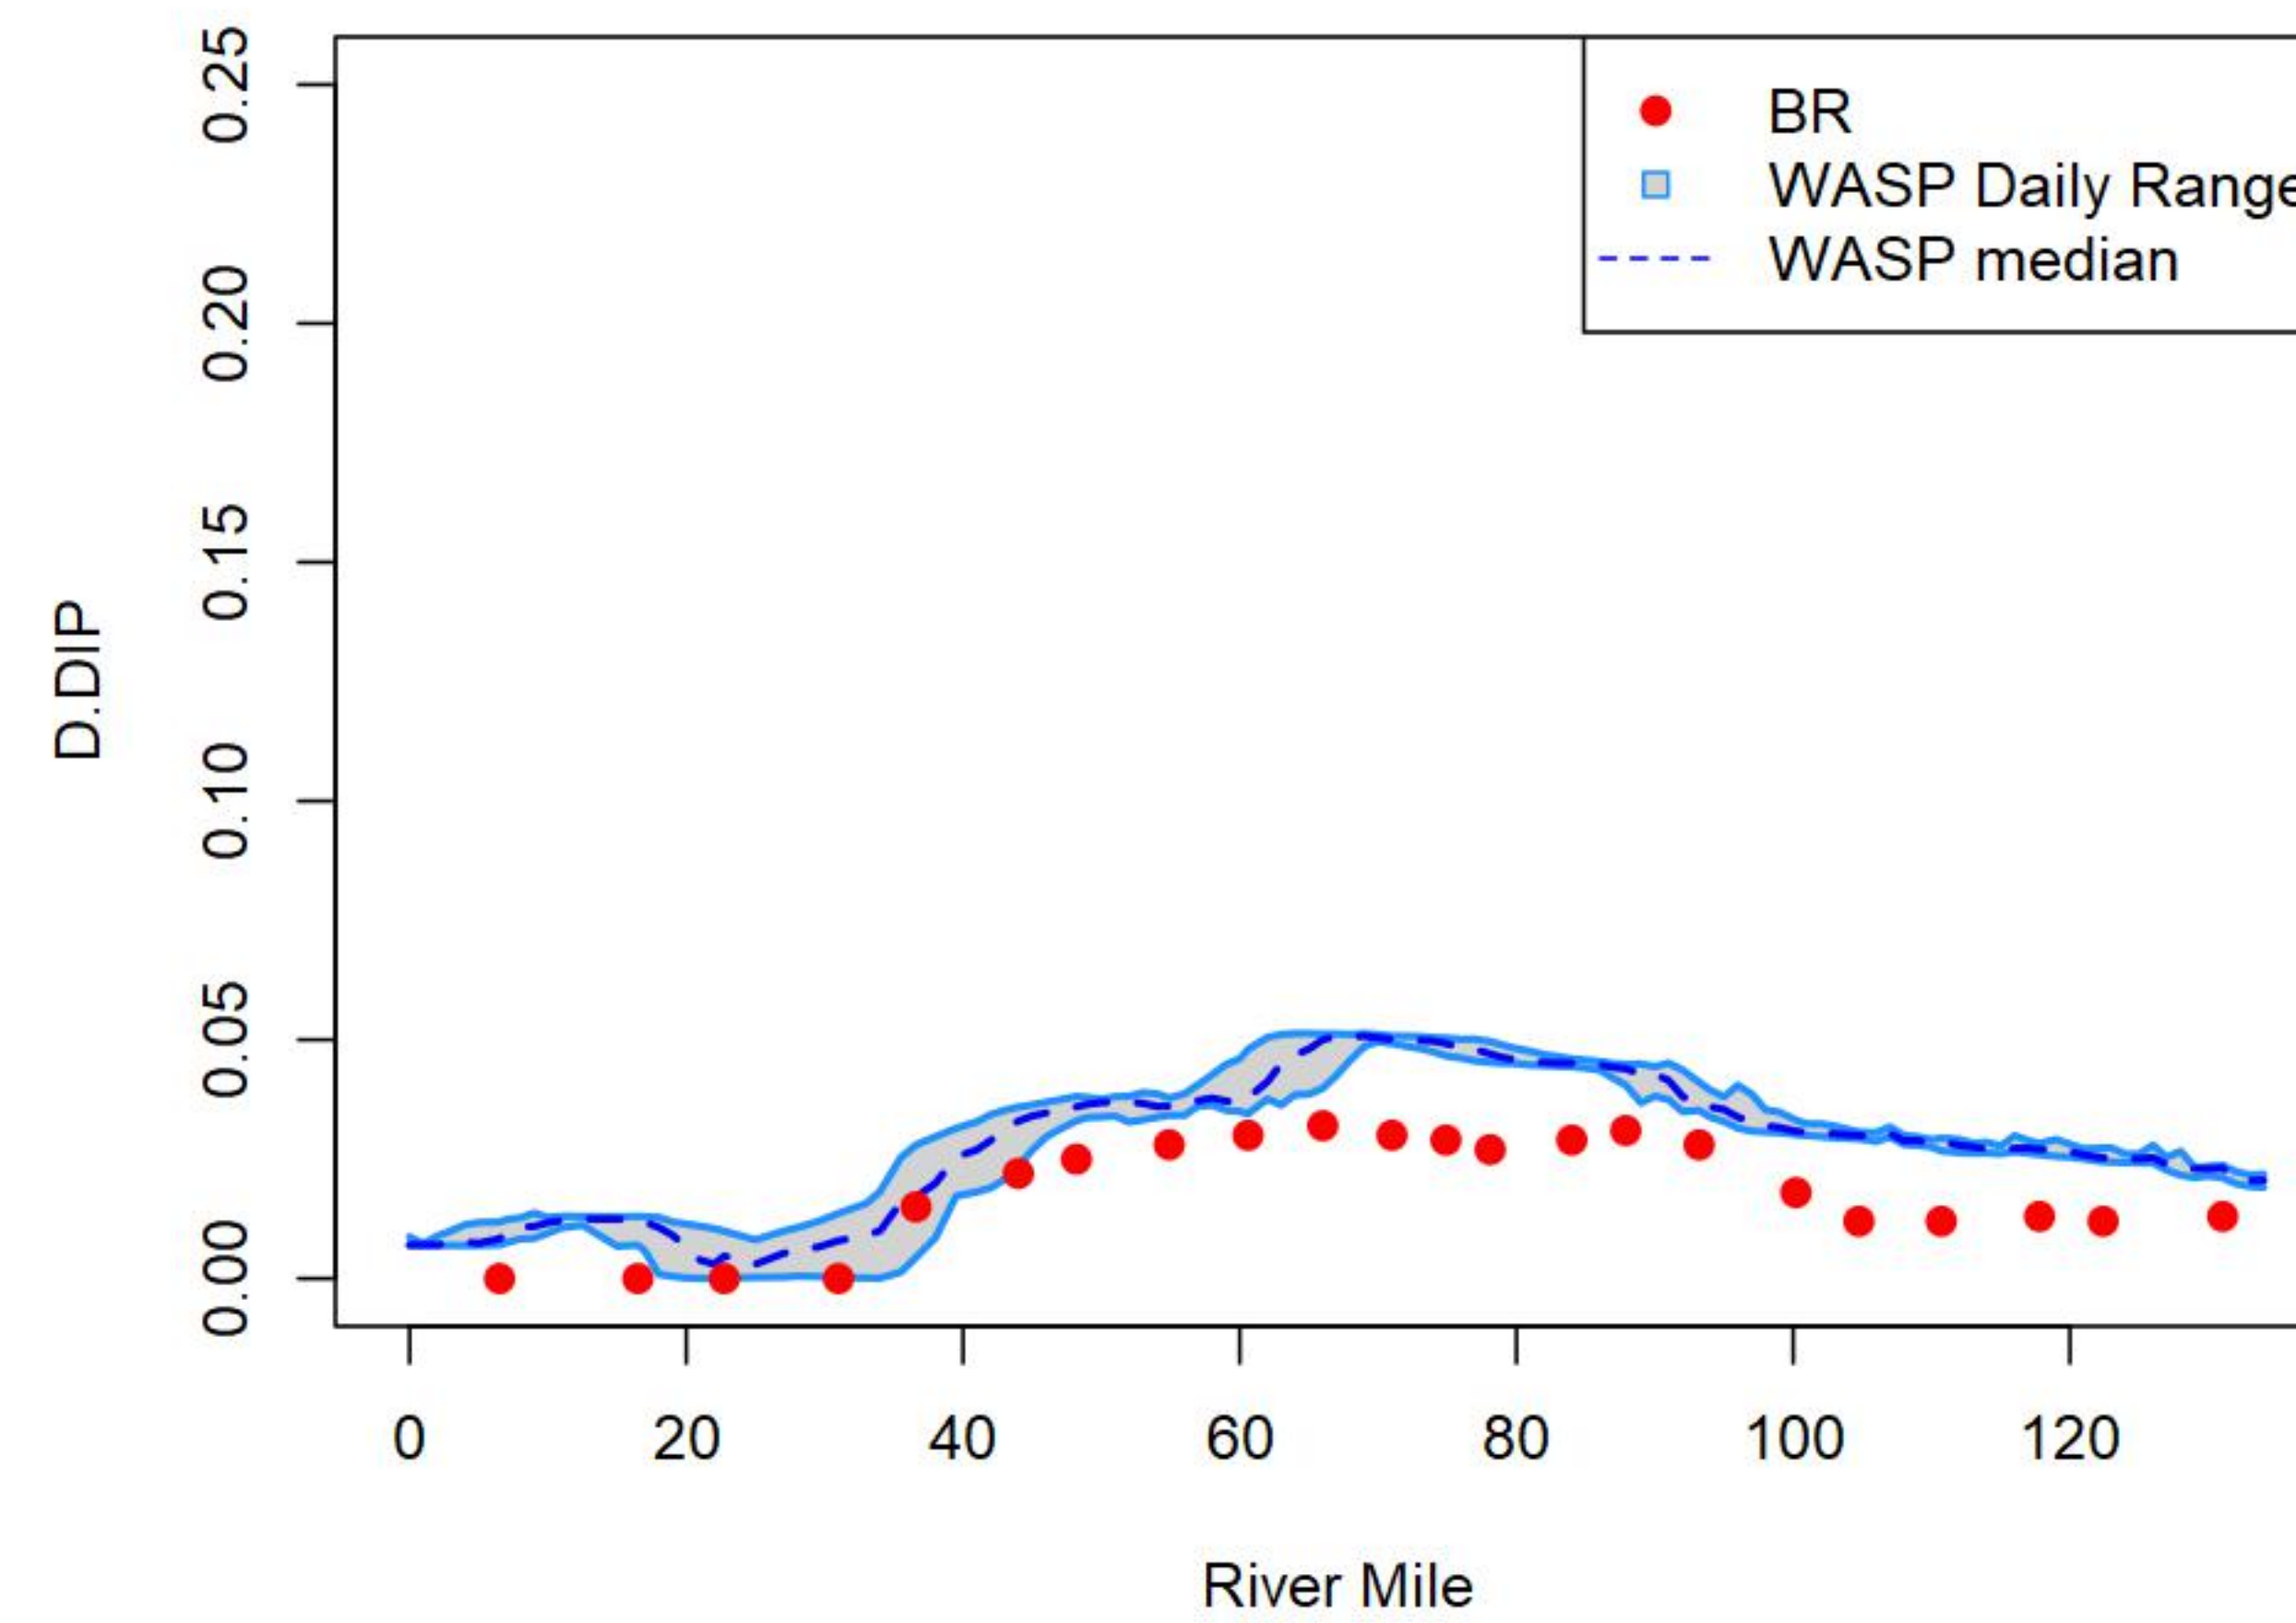

Appendix F-2: Boat-run data (Spatial)

This appendix is in connection with Section 3.2.4.1.1 in the main report – Spatial plots for individual sampling events at Boat Run stations. Model results at the surface layer of Boat Run stations were extracted and compared to data along the river mile. This appendix presents a complete set of comparisons for the calibration years 2018 – 2019 and corroboration year 2012.
