During this workshop, participants will learn . . .

- How to recognize high potential in minority students and teach to that potential
- Keys to ensuring equity and excellence
- Evidence-based practices that have improved achievement of students from diverse backgrounds and those in poverty
- Strategies for nurturing the highly able learner's intellectual and social emotional development
- Techniques for designing appropriate curriculum for rigorous learning
- How to use cultural indicators to nurture and motivate high potential students
- Ways to address underachievement
- Skills for making connections by reaching out to families, communities and beyond
