## SCHOOL DISTRICT

December 13, 2024

Honorable President  
and Members of the Board of Education  
Dennis Township School District  
County of Cape May, New Jersey

Dear Board Members:

The Annual Comprehensive Financial Report of the Dennis Township School District for the fiscal year ended June 30, 2024, is hereby submitted. Responsibility for both the accuracy of the data and completeness and fairness of the presentation, including all disclosures, rests with the management of the Board of Education. To the best of our knowledge and belief, the data presented in this report are accurate in all material respects and are reported in a manner designed to present fairly the financial position and results of operations of the various funds and account groups of the District. All disclosures necessary to enable the reader to gain an understanding of the District's financial activities have been included.

The Annual Comprehensive Financial Report is presented in four sections: Introductory, Financial, Statistical and Single Audit. The Introductory section includes this transmittal letter, the District's organizational chart and a list of principal officials. The Financial section includes the basic financial statements and schedules, as well as the auditor's report thereon. The Statistical section includes selected financial and demographic information, generally presented on a multi-year basis. The District is required to undergo an annual single audit in conformity with the provisions of the Single Audit Act of 1984 and the U.S. Office of Management and Budget Circular Uniform Guidance, "Audits of State, Local Governments, and Nonprofit Organizations" and New Jersey OMB's Circular 15-08, "Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid." Information related to this single audit, including the auditor's report on the internal control structure and compliance with applicable laws and regulations and findings and recommendations, are included in the Single Audit section of this report.

### **1. REPORTING ENTITY AND ITS SERVICES**

The Dennis Township School District is an independent reporting entity within the criteria adopted by the GASB as established by GASB Statement No. 14. All funds and account groups of the District are included in this report. The Dennis Township Board of Education and all its schools constitute the district's reporting entity.

The district provides a full range of educational services appropriate to grade levels pre-school through 8. These include regular, as well as special education for handicapped youngsters. The district sends students in grades 9 through 12 to Middle Township High School and Cape May County Vocational School on a sending/receiving tuition basis. The district completed the 2023-24 fiscal year with an average daily enrollment of 610 students. The following details the changes in the student enrollment of the District over the last five years:

<u>Year</u>	<u>Enrollment</u>	<u>Change</u>
2023-2024	640	-1.72%
2022-2023	651	4.45%
2021-2022	622	3.22%
2020-2021	602	2.16%
2019-2020	589	5.26%

## **2. ECONOMIC OUTLOOK**

The Dennis Township area has seen slight residential growth as well as little commercial or industrial growth. Any proposed commercial/industrial properties may provide tax base growth; however, current regulatory restrictions limit the size, scope and timing of any such initiatives to stabilize tax rates. Existing property owners will continue to bear a higher portion of the school costs while the short-term status of the United States and New Jersey economy remains uncertain. Due to economic and budgetary concerns, the State of New Jersey has stabilized state aid for school districts, has again “delayed” the final state aid payments and introduced new legislation in an effort to limit school spending. This has and will continue to shift an additional cost burden to the local taxpayers. The District will continue to seek new sources of revenue and focus on cost containment. The Dennis Township School District asked the voters for a separate question in November 2023. This question failed to pass, therefore, class sizes have increased in Grades K-5. The State of New Jersey passed a Tax Cap Flexibility legislation that allowed certain eligible districts to exceed the 2% tax levy cap, up to 9.9% for the 2024-2025 budget cycle. Dennis Township School District qualified for this one-time cap exception and has used this to fund some of the current programs and services. The District has utilized substantially all available fund balance for the 2024-2025 school year to support the budget, however, with both funding sources, the district has a significant shortfall. The District has put forth a referendum for the September 17, 2024 special election to support programs and services. This referendum was unsuccessful. The District will continue to eliminate programs and services in an effort to balance the budget. With over 30 students in classes in many grades, the District must look at all options.

## **3. INTERNAL ACCOUNTING CONTROLS**

Management of the District is responsible for establishing and maintaining an internal control structure designed to ensure that the assets of the District are protected from loss, theft or misuse and to ensure that adequate accounting data are compiled to allow for the preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP). The internal control structure is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived; and (2) the valuation of costs and benefits requires estimates and judgments by management.

As a recipient of federal and state financial assistance, the District also is responsible for ensuring that an adequate internal control structure is in place to ensure compliance with applicable laws and regulations related to those programs. This internal control structure is also subject to periodic evaluation by the District management. As part of the District's single audit described earlier, tests are made to determine the adequacy of the internal control structure, including that portion related to federal and state financial assistance programs, as well as to determine that the District has complied with applicable laws and regulations.

## **4. BUDGETARY CONTROLS**

In addition to internal accounting controls, the District maintains budgetary controls. The objective of these budgetary controls is to ensure compliance with legal provisions embodied in the annual appropriated budget approved by the voters of the municipality. Annual appropriated budgets are adopted for the general fund, the special revenue fund, and the debt service fund. The final budget amount as amended for the fiscal year is reflected in the financial section.

An encumbrance accounting system is used to record outstanding purchase commitments on a line item basis. Open encumbrances at year-end are either canceled or are included as reappropriations of fund balance in the subsequent year. Those amounts to be reappropriated are reported as reservations of fund balance at June 30, 2024.

## **5. ACCOUNTING SYSTEM AND REPORTS**

The District's accounting records reflect generally accepted accounting principles, as promulgated by the Governmental Accounting Standards Board (GASB). The accounting system of the District is organized on the basis of funds. These funds are explained in "Notes to the Financial Statements," Note 1.

## **6. FINANCIAL INFORMATION AT FISCAL YEAR-END**

As demonstrated by the various statements and schedules included in the financial section of this report, the District continues to meet its responsibility for sound financial management.

## **8. CASH MANAGEMENT**

The investment policy of the District is guided in large part by state statute as detailed in "Notes to the Financial Statements," Note 2. The District has adopted a cash management plan, which requires it to deposit public funds in public depositories protected from loss under the provisions of the Governmental Unit Deposit Protection Act ("GUDPA"). GUDPA was enacted in 1970 to protect Governmental Units from a loss of funds on deposit with a failed banking institution in New Jersey. The law requires governmental units to deposit public funds only in public depositories located in New Jersey, where the funds are secured in accordance with the Act.

## **9. RISK MANAGEMENT**

The Board carries various forms of insurance, including but not limited to general liability, automobile liability and comprehensive/collision, hazard and theft insurance on property and contents, and fidelity bonds.

## **10. OTHER INFORMATION**

Independent Audit - State statutes require an annual audit by independent certified public accountants or registered municipal accountants. The accounting firm of Ford, Scott & Associates, L.L.C., CPAs, was selected by the Board of Education. In addition to meeting the requirements set forth in state statutes, the audit also was designed to meet the requirements of the Single Audit Act of 1984 and the related OMB Circular Uniform Guidance and New Jersey OMB's Circular 15-08. The auditor's report on the basic financial statements and combining and individual fund statements and schedules is included in the financial section of this report. The auditor's reports related specifically to the single audit are included in the single audit section of this report.

## **11. ACKNOWLEDGMENTS**

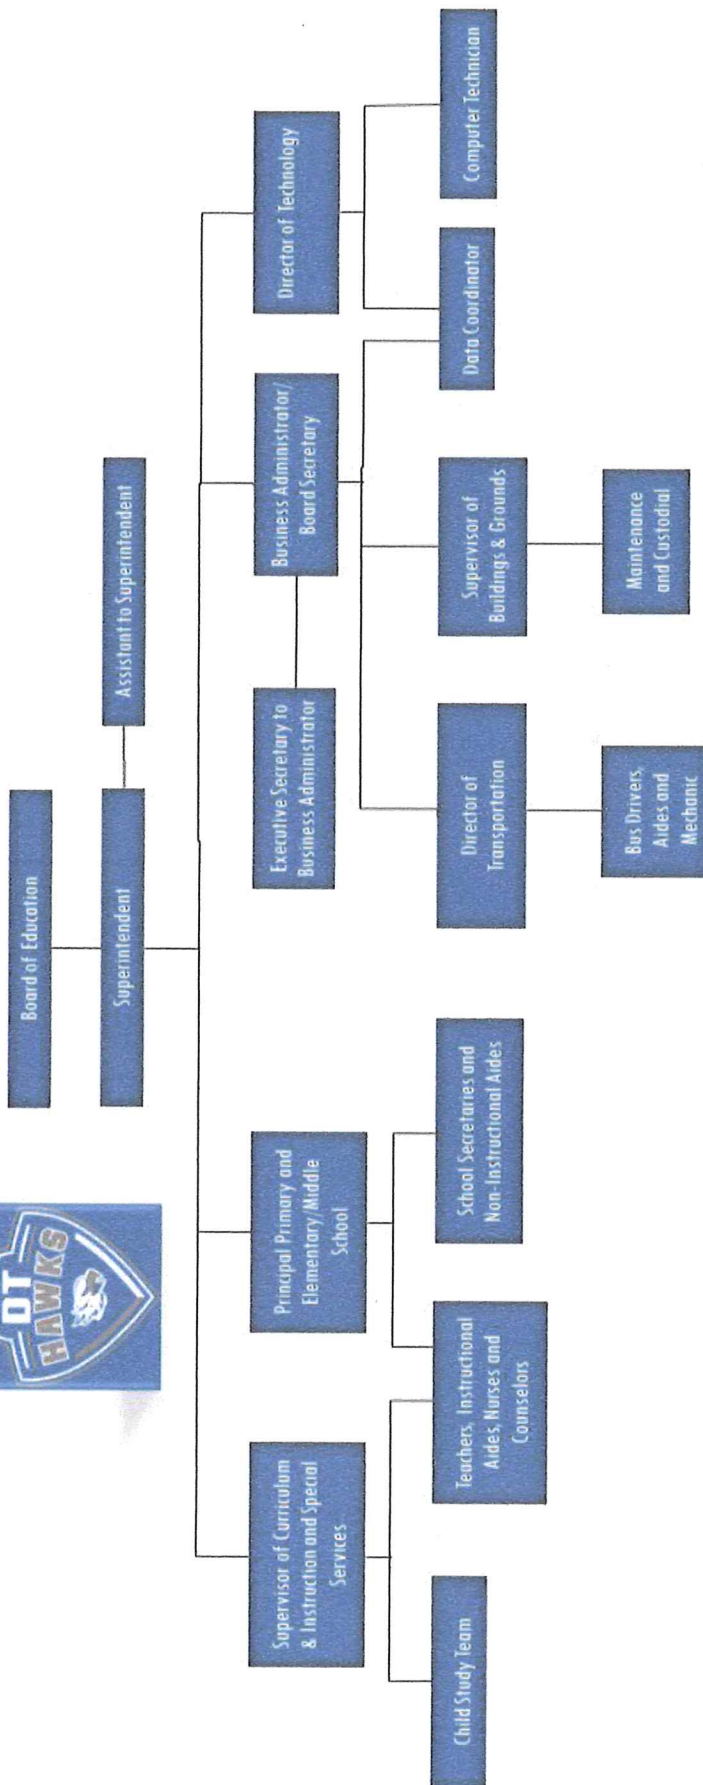

We would like to express our appreciation to the members of the Dennis Township Board of Education for their concern in providing fiscal accountability to the citizens and taxpayers of the school district and thereby contributing their full support to the development and maintenance of our financial operation. The preparation of this report could not have been accomplished without the efficient and dedicated services of our financial and accounting staff.

We would like to thank the Township Committee for their continued support of local funds to strengthen the educational endeavors of the community.

Respectfully submitted,

## **Independent Auditor's Report**

Honorable President and  
Members of the Board of Education  
Township of Dennis School District  
County of Cape May

### **Report on the Audit of Financial Statements**

#### **Opinions**

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Township of Dennis School District, in the County of Cape May, State of New Jersey, as of and for the year ended June 30, 2024, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Township of Dennis School District, as of June 30, 2024, and the respective changes in financial position and, where applicable, cash flows thereof for the fiscal year then ended in accordance with accounting principles generally accepted in the United States of America.

#### **Basis for Opinions**

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS), the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States and the audit requirements prescribed by the Office of School Finance, Department of Education, State of New Jersey. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of Financial Statements section of our report. We are required to be independent of the Township of Dennis School District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### **Responsibility of Management for the Financial Statements**

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatements, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Township of Dennis School District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

## **Auditor's Responsibilities for the Audit of the Financial Statements**

Our objectives are to obtain reasonable assurance about whether the financial statements, as a whole, are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS, *Government Auditing Standards* and audit requirements prescribed by the Office of School Finance, Department of Education, State of New Jersey will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from an error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgement made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, *Government Auditing Standards* and audit requirements prescribed by the Office of School Finance, Department of Education, State of New Jersey, we:

- exercise professional judgement and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of the internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether in our judgement there are conditions or events considered in the aggregate, that raise substantial doubt about the entity's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charge with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control – related matters that we identified during the audit.

## **Other Matters**

### **Required Supplementary Information**

Accounting principles generally accepted in the United States of America require that the Required Supplementary Information identified in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

## Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Township of Dennis School District's basic financial statements. The combining and individual non-major fund financial statements and schedule of expenditures of federal awards as required by Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance) and the schedule of state financial assistance as required by NJ OMB 15-08 and the introductory and statistical sections are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual non-major fund financial statements, schedule of expenditures of federal awards, as required by the Uniform Guidance, and the schedule of state financial assistance as required by NJ OMB 15-08 is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

## Other Information

Management is responsible for the other information included in the Annual Comprehensive Financial Report. The other information comprises of the introductory and statistical sections and have not been subject to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

## Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 13, 2024, on our consideration of the Township of Dennis School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Township of Dennis School District's internal control over financial reporting and compliance.

**DENNIS TOWNSHIP SCHOOL DISTRICT  
MANAGEMENT'S DISCUSSION AND ANALYSIS  
FOR THE FISCAL YEAR ENDED JUNE 30, 2024  
UNAUDITED**

The discussion and analysis of Dennis Township School District's financial performance provides an overall review of the School District's financial activities for the fiscal year ended June 30, 2024. The intent of this discussion and analysis is to look at the School District's financial performance as a whole; readers should also review the basic financial statements and notes to enhance their understanding of the School District's financial performance.

**Financial Highlights**

Key financial highlights for 2024 are as follows:

- In total, net position decreased \$1,032,826.85, which represents a 9.05 percent decrease from 2023.
- General revenues accounted for \$12,176,923.75 in revenue or 60 percent of all revenues. Program specific revenues in the form of charges for services and operating grants and contributions accounted for \$8,085,693.97 or 40 percent of total revenues of \$20,262,617.72.
- Cash and cash equivalents decreased by \$1,210,293.51, receivables increased by \$1,078,009.52, inventory decreased by \$1,648.74, capital assets decreased by \$160,007.33 and deferred outflows of resources decreased by \$180,505.00.
- The School District had \$21,296,144.23 in expenses; \$8,085,693.97 of these expenses were offset by program specific charges for services, grants or contributions. General revenues (primarily taxes and state aid) of \$12,176,923.75 were adequate to provide for these programs.
- Among governmental funds, the General Fund had \$16,292,015.84 in revenues and \$17,334,388.47 in expenditures. The General Fund's fund balance decreased \$1,107,532.38 over 2023.

**Using this Annual Comprehensive Financial Report (ACFR)**

This annual report consists of a series of financial statements and notes to those statements. These statements are organized so the reader can understand Dennis Township School District as a financial whole, an entire operating entity. The statements then proceed to provide an increasingly detailed look at specific financial activities.

The Statement of Net Position and Statement of Changes in Net Position provide information about the activities of the whole School district, presenting both an aggregate view of the School district's finances and a longer-term view of those finances. Fund financial statements provide the next level of detail. For governmental funds, these statements tell how services were financed in the short-term as well as what remains for future spending. The fund financial statements also look at the School district's most significant funds with all other non-major funds presented in total in one column. In the case of Dennis Township School District, the General Fund is by far the most significant fund.

MANAGEMENT'S DISCUSSION AND ANALYSIS  
FOR THE FISCAL YEAR ENDED JUNE 30, 2024  
UNAUDITED (CONTINUED)**

**Reporting the School District as a Whole**

Statement of Net Position and the Statement of Changes in Net Position

While this document contains the large number of funds used by the School District to provide programs and activities, the view of the School District, as a whole looks at all financial transactions and ask the question, "How did we do financially during 2024?" The Statement of Net Position and the Statement of Changes in Net Position answer this question. These statements include all assets and liabilities using the accrual basis of accounting similar to the accounting used by most private-sector businesses. This basis of accounting takes into consideration all of the current year's revenues and expenses regardless of when cash is received or paid.

These two statements report the School District's net position and changes in those positions. This change in net position is important because it tells the reader that, for the school district as a whole, the financial position of the School district have improved or diminished. The causes of this change may be the result of many factors, some financial and some not. Non-financial factors include the School District's property tax base, current laws in New Jersey restricting revenue growth, facility condition, required educational programs and other factors.

In the Statement of Net Position and the Statement of Changes in Net Position, the School District is divided into two distinct kinds of activities:

- **Governmental Activities** - All of the School District's programs and services are reported here including instruction, support services, operation and maintenance of plant facilities, pupil transportation and extracurricular activities.
- **Business-Type Activity** - This service is provided on a charge for goods or services basis to recover all the expenses of the goods or services provided. The Food Service and Community Education enterprise funds are reported as a business activity.

**Reporting the School District's Most Significant Funds**

Fund Financial Statements

Fund financial reports provide detailed information about the School District's funds. The School District uses many funds to account for a multitude of financial transactions. The School District's governmental funds are the General Fund, Special Revenue Fund and Debt Service Fund.

Governmental Funds

The School District's activities are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end available for spending in the future years. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the School district's general government operations and the basic services it provides. Governmental fund information helps the reader determine whether there are more or fewer financial resources that can be spent in the near future to finance educational programs. The relationship (or differences) between governmental activities (reported in the Statement of Net Assets and the Statement of Activities) and governmental funds is reconciled in the financial statements.

**DENNIS TOWNSHIP SCHOOL DISTRICT  
MANAGEMENT'S DISCUSSION AND ANALYSIS  
FOR THE FISCAL YEAR ENDED JUNE 30, 2024  
UNAUDITED (CONTINUED)**

Enterprise Funds

The enterprise funds use the same basis of accounting as business-type activities; therefore, these statements are essentially the same.

**Notes to the Financial Statements**

The notes provide additional information that is essential to a full understanding of the data provided in the District-wide and fund financial statements.

**The School District as a Whole**

Recall that the Statement of Net Position provides the perspective of the School District as a whole. Net position may serve over time as a useful indicator of a government's financial position.

The District's financial position is the product of several financial transactions including the net results of activities, the acquisition and payment of debt, the acquisition and disposal of capital assets, and the depreciation of capital assets.

Table 1 provides a summary of the School District's net position for 2024 and 2023.

Instruction expenses include activities directly dealing with the teaching of pupils and the interaction between teacher and student, including extracurricular activities.

Tuition is predominately made up of charges from the Township of Middle School District for Dennis Township's 9 – 12 Grade students.

Pupils and instructional staff include the activities involved with assisting staff with the content and process of teaching to students, including curriculum and staff development.

General administration, school administration, and business include expenses associated with administrative and financial supervision of the District.

Operation and maintenance of facilities involve keeping the school grounds, buildings, and equipment in an effective working condition.

Pupil transportation includes activities involved with the conveyance of students to and from school, as well as to and from school activities, as provided by State law.

Interest on debt involves the transactions associated with the payment of interest and other related charges to debt of the School District.

**The School District's Funds**

All governmental funds (i.e., general fund, special revenue fund, and debt service fund presented in the fund-based statements) are accounted for using the modified accrual basis of accounting. Total revenues amounted to \$21,156,633.82 expenditures were \$22,285,630.41. The decrease in fund balance for the year was \$1,128,996.59.

As demonstrated by the various statements and schedules included in the financial section of this report, the District continues to meet its responsibility for sound financial management. The following schedules present a summary of the revenues of the governmental funds for the fiscal year ended June 30, 2024, and the amount and percentage of increases and decreases in relation to prior year revenues.

**General Fund Budgeting Highlights**

The School District's budget is prepared according to New Jersey law, and is based on accounting for certain transactions on a basis of cash receipts, disbursements, and encumbrances. The most significant budgeted fund is the General Fund.

Over the course of the year, the District revised the annual operating budget several times. Revisions in the budget were made to recognize revenues that were not anticipated and to prevent over-expenditures in specific line item accounts. There were no material modifications noted from the original adopted budget.

**Capital Assets**

At the end of the fiscal year 2024, the School District had \$9,775,579.00 invested in land, building, furniture and equipment, and vehicles. Table 4 shows fiscal year 2024 balances compared to 2023.

**Table 4  
Capital Assets (Net of Depreciation) at June 30,**

Total	<u>\$ 9,775,579.00</u>	<u>9,935,586.33</u>

Overall capital assets decreased \$160,007.33 from fiscal year 2023 to fiscal year 2024. This decrease was due to depreciation. For more detailed information, please refer to the Notes to the Financial Statements.

**Debt Administration**

At June 30, 2024, the School District had \$2,922,554.32 of outstanding debt. Of this amount, \$304,303.10 is for compensated absences; \$45,319.22 is for various copiers leases; \$2,572,932.00 is for the net pension liability. At June 30, 2024, the School District was within its legal debt margin.

**For the Future**

The Dennis Township School District is in good financial condition presently. A major concern is the continued cost increases and essentially flat state aid, which increases reliance on local property taxes.

**Contacting the School District's Management**

This financial report is designed to provide our citizens, taxpayers, investors, and creditors with a general overview of the School District's finances and to show the School District's accountability for the money it receives. Total Net Change in Fund Balance - Governmental Funds (from B-2) \$ (1,128,996.59)

Amounts reported for governmental activities in the statement of activities (A-2) are different because:

Capital outlays are reported in governmental funds as expenditures. However, on the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the current fiscal year.

Depreciation expense	(781,895.00)	
Capital Outlay	511,338.00	
		(270,557.00)

Repayment of bond principal is an expenditure in the governmental funds, but the repayment reduces long - term liabilities in the statement of net assets and is not reported in the statement of activities.

Capital Lease Payments		51,231.00
------------------------	--	-----------

Governmental funds report district pension contributions as expenditures. However in the Statement of Activities, the cost of pension benefits earned net of of employee contributions is reported as pension expense.

District pension contributions - PERS		
Cost of benefits earned net of employee contributions	318,627.00	
		318,627.00

In the statement of activities, certain operating expenses, e.g., compensated absences (vacations and sick pay) are measured by the amounts earned during the year. In the governmental funds, however, expenditures for these items are reported in the amount of financial resources used (paid). When the earned amount exceeds the paid amount, the difference is a reduction in the reconciliation; when the paid amount exceeds the earned amount, the difference is an addition to the reconciliation.

**DENNIS TOWNSHIP SCHOOL DISTRICT  
NOTES TO BASIC FINANCIAL STATEMENTS  
FOR THE YEAR ENDED JUNE 30, 2024**

**NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The Dennis Township District is an instrumentality of the State of New Jersey, established to function as an educational institution. The Board consists of elected officials and is responsible for the fiscal control of the District. A superintendent is appointed by the Board and is responsible for the administrative control of the District.

The financial statements of the Board of Education (Board) of Dennis Township School District (District) have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the Board's accounting policies are described below.

**A. REPORTING ENTITY:**

The Dennis Township School District is a Type II district located in the County of Cape May, State of New Jersey. As a Type II District, the School District functions independently through a Board of Education. The board is comprised of nine members elected to three-year terms. The purpose of the district is to educate students in grades K-8. The District operates a primary, elementary, and middle school located in Dennis Township. Students in grades 9-12 attend Middle Township High School on a tuition basis. The Dennis Township School District had an enrollment at June 30, 2024 of 640 students.

The primary criterion for including activities within the District's reporting entity, as set forth in Section 2100 of the GASB Codification of Governmental Accounting and Financial Reporting Standards, is whether:

- the organization is legally separate (can sue or be sued in their own name);
- the District holds the corporate powers of the organization;
- the District appoints a voting majority of the organization's board;
- the District can impose its will on the organization;
- the organization has the potential to impose a financial benefit/burden on the District;
- there is a fiscal dependency by the organization on the District;

Based on the aforementioned criteria, the District has no component units.

**B. BASIC FINANCIAL STATEMENTS – GOVERNMENT-WIDE STATEMENTS:**

The District's basic financial statements include both government-wide statements (reporting the District as a whole) and fund financial statements (reporting the District's major funds). Both the government-wide and fund financial statements categorize primary activities as either governmental or business type. The District's general, special revenue and debt service activities are classified as governmental activities. The District's food service and community service programs are classified as business-type activities.

In the government-wide Statement of Net Position, both the governmental and business-type activities columns (a) are presented on a consolidated basis by column, (b) and are reported on a full accrual, economic resource basis, which recognizes all long-term assets and receivables as well as long-term debt and obligations. The District's net position is reported in three parts—invested in capital assets, net of related debt; restricted net position; and unrestricted net position. The District first utilizes restricted resources to finance qualifying activities.

**DENNIS TOWNSHIP SCHOOL DISTRICT  
NOTES TO BASIC FINANCIAL STATEMENTS  
FOR THE YEAR ENDED JUNE 30, 2024  
(CONTINUED)**

The government-wide Statement of Changes in Net Position reports both the gross and net cost of each of the District's functions and business-type activities (food service and community education). The functions are also supported by general government revenues (property taxes, tuition, certain intergovernmental revenues, etc.). The Statement of Changes in Net Position reduces gross expenses (including depreciation) by related program revenues, operating and capital grants. Program revenues must be directly associated with the function (regular instruction, vocational programs, student & instruction related services, etc.) or a business-type activity. Operating grants include operating-specific and discretionary (either operating or capital) grants while the capital grants column reflects capital-specific grants.

The net costs (by function or business-type activity) are normally covered by general revenue (property taxes, interest income, etc.).

- a. The District does allocate indirect costs such as depreciation expense, compensated absences, On-behalf TPAF Pension Contributions, and Reimbursed TPAF Social Security Contributions.

The government-wide focus is more on the sustainability of the District as an entity and the change in the District's net position resulting from the current year's activities. Fiduciary funds are not included in the government-wide statements.

### **C. BASIC FINANCIAL STATEMENTS – FUND FINANCIAL STATEMENTS**

The financial transactions of the District are reported in individual funds in the fund financial statements. Each fund is accounted for by providing a separate set of self-balancing accounts that comprise its assets, liabilities, reserves, fund equity, revenues and expenditures/expenses. The various funds are reported by generic classification within the financial statements.

The emphasis in fund financial statements is on the major funds in either the governmental or business-type activities categories. Nonmajor funds by category are summarized into a single column. GASBS No. 34 sets forth minimum criteria (percentage of the assets, liabilities, revenues, or expenditures/expenses of either fund category or the governmental and enterprise combined) for the determination of major funds. The nonmajor funds are combined in a column in the fund financial statements. The State of New Jersey Department of Education has mandated that all New Jersey School Districts must report all governmental funds as major, regardless of the fund meeting the GASB definition of a major fund. However, the criteria are applied to proprietary funds.

The following fund types are used by the District:

#### **1. Governmental Funds**

The focus of the governmental funds' measurement (in the fund statements) is upon determination of financial position and changes in financial position (sources, uses, and balances of financial resources) rather than upon net income. The following is a description of the governmental funds of the District.

- a. **General fund** is the general operating fund of the District. It is used to account for all financial resources except those required to be accounted for in another fund.
- b. **Special revenue** funds are used to account for the proceeds of specific revenue sources that are legally restricted to expenditures for specified purposes. The special revenue fund is specifically used to account for state and federal grant monies that have been allocated to the District.
- c. **Debt service** funds are used to account for the accumulation of resources for, and the payment of, principal and interest on bonds issued to finance major property acquisition, construction and improvement programs.

**DENNIS TOWNSHIP SCHOOL DISTRICT  
NOTES TO BASIC FINANCIAL STATEMENTS  
FOR THE YEAR ENDED JUNE 30, 2024

**Fund Balances – Governmental Funds**

In the fund financial statements, governmental funds report the following classifications of fund balance:

Nonspendable – includes amounts that cannot be spent because they are either not spendable in form or are legally or contractually required to be maintained intact.

Restricted – includes amounts restricted by external sources (creditors, laws of other governments, etc.) or by constitutional provision or enabling legislation.

Committed – includes amounts that can only be used for specific purposes. Committed fund balance is reported pursuant to resolutions passed by the Board of Education, the District's highest level of decision making authority. Commitments may be modified or rescinded only through resolutions approved by the Board of Education.

Assigned – includes amounts that the District intends to use for a specific purpose, but do not meet the definition of restricted or committed fund balance. Under the District's policy, amounts may be assigned by the Business Administrator.

Unassigned – includes amounts that have not been assigned to other funds or restricted, committed or assigned to a specific purpose within the General Fund. The District reports all amounts that meet the unrestricted General Fund Balance Policy described below as unassigned.

The details of the fund balances are included in the Governmental Funds Balance Sheet. When an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available, the District considers restricted funds to have been spent first. When an expenditure is incurred for which committed, assigned, or unassigned fund balance are available, the District considers amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned funds, as needed.

**2. Proprietary Funds:**

The focus of proprietary fund measurement is upon determination of operating income, changes in net position, financial position, and cash flows. The generally accepted accounting principles applicable are those similar to businesses in the private sector. The following is a description of the proprietary funds of the District:

- a. Enterprise funds** are required to be used to account for operations for which a fee is charged to external users for goods or services and the activity (a) is financed with debt that is solely secured by a pledge of the net revenues, (b) has third party requirements that the cost of providing services, including capital costs, be recovered with fees and charges or (c) establishes fees and charges based on a pricing policy designated to recover similar costs. The District operates a food service fund to provide a child nutrition program and a community education fund for the students of the district.

The District's Enterprise Funds are comprised of the Food Service Fund and the Community Education Fund.

**DENNIS TOWNSHIP SCHOOL DISTRICT  
NOTES TO BASIC FINANCIAL STATEMENTS  
FOR THE YEAR ENDED JUNE 30, 2024  
(CONTINUED)**

**3. Fiduciary Funds:**

Fiduciary funds are used to report assets held in a trustee or agency capacity for others and therefore are not available to support District programs. The reporting focus is on net position and changes in net position, which are reported using accounting principles similar to proprietary funds.

The District's fiduciary funds are presented in the fiduciary fund financial statements by type (pension, private purpose and agency). Since by definition these assets are being held for the benefit of a third party (other local governments, private parties, pension participants, etc.) and cannot be used to address activities or obligations of the government, these funds are not incorporated into the government-wide statements.

All funds internal activity is eliminated when carried to the Government-wide statements.

**D. BASIS OF ACCOUNTING**

Basis of accounting refers to the point at which revenues or expenditures/expenses are recognized in the accounts and reported in the financial statements. It relates to the timing of the measurements made regardless of the measurement focus applied.

**1. Accrual:**

Both governmental and business-type activities in the government-wide financial statements and the proprietary and fiduciary fund financial statements are presented on the accrual basis of accounting. Revenues are recognized when earned and expenses are recognized when incurred.

**2. Modified Accrual:**

The governmental fund financial statements are presented on the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recorded when susceptible to accrual; i.e., both measurable and available. "Available" means collectible within the current period or within 60 days after year end. Expenditures are generally recognized under the modified accrual basis of accounting when the related liability is incurred. The exception to this general rule is that principal and interest on general obligation long-term debt, if any, is recognized when due.

**E. FINANCIAL STATEMENT AMOUNTS**

**1. Cash and Cash Equivalents:**

Cash and cash equivalents include petty cash, change funds, cash in banks and all highly liquid investments with a maturity of three months or less at the time of purchase and are stated at cost plus accrued interest. U.S. Treasury and agency obligations and certificates of deposit with maturities of one year or less when purchased are stated at cost. All other investments are stated at fair value.

New Jersey school districts are limited as to the types of investments and types of financial institutions they may invest in. New Jersey statute 18A:20-37 provides a list of permissible investments that may be purchased by New Jersey school districts.

Additionally, the District has adopted a cash management plan that requires it to deposit public funds in public depositories protected from loss under the provisions of the Governmental Unit Deposit Protection Act ("GUDPA"). GUDPA was enacted in 1970 to protect governmental units from a loss of funds on deposit with a failed banking institution in New Jersey.

**DENNIS TOWNSHIP SCHOOL DISTRICT  
NOTES TO BASIC FINANCIAL STATEMENTS  
FOR THE YEAR ENDED JUNE 30, 2024  
(CONTINUED)**

N.J.S.A. 17:9-41 et. seq. establishes the requirements for the security of deposits of governmental units. The statute requires that no governmental unit shall deposit public funds in a public depository unless such funds are secured in accordance with the Act. Public depositories include savings and loan institutions, banks (both state and national banks) and savings banks the deposits of which are federally insured. All public depositories must pledge collateral, having a market value at least equal to five percent of the average daily balance of collected public funds, to secure the deposits of Governmental Units. If a public depository fails, the collateral it has pledged, plus the collateral of all other public depositories, is available to pay the full amount of their deposits to the governmental units.

**2. Investments:**

Investments, including deferred compensation and pension funds, are stated at fair value, (quoted market price or the best available estimate). Interest earned on investments in the Capital Projects Fund is recognized as a reserve to pay future debt service or transferred to the general fund.

**3. Inventories**

Inventories in the general fund consist of expendable supplies held for the District's use and are carried at cost using the first-in, first-out method. Inventories in the enterprise fund are valued at cost, which approximates market, using the first-in, first-out method. As of June 30, 2024 the District did not have inventory in the general fund and had the following inventory in the enterprise fund:

Food & Supplies	\$	12,782.21
	\$	<u>12,782.21</u>

The value of Federal donated commodities is the difference between market value and cost of the commodities at the date of purchase and has been included as an item of nonoperating revenue in the financial statements.

**4. Capital Assets:**

Capital assets purchased or acquired with an original cost of \$2,000 or more are reported at historical cost or estimated historical cost. Contributed assets are reported at fair market value as of the date received. Additions, improvements and other capital outlays that significantly extend the useful life of an asset are capitalized. Other costs incurred for repairs and maintenance are expensed as incurred. Depreciation on all assets is provided on the straight-line basis over the following estimated useful lives:

Building	20-50 years
Machinery and equipment	5-10 years
Improvements	10-20 years
Infrastructure Assets	50-65 years

Infrastructure assets include roads, parking lots, underground pipe, etc. The District includes all infrastructure assets as depreciable assets in the financial statements.

**DENNIS TOWNSHIP SCHOOL DISTRICT  
NOTES TO BASIC FINANCIAL STATEMENTS  
FOR THE YEAR ENDED JUNE 30, 2024  
(CONTINUED)**

**5. Revenues:**

Substantially all governmental fund revenues are accrued. Property taxes are susceptible to accrual under New Jersey State Statutes a municipality is required to remit to its school district the entire balance of taxes in the amount certified, prior to the end of the school year. The District records the entire approved tax levy as revenue (accrued) at the start of the fiscal year, since the revenue is both measureable and available. Subsidies and grants to proprietary funds, which finance either capital or current operations, are reported as non operating revenue. In respect to grant revenues, the provider recognizes liabilities and expenses and the recipient recognizes receivables and revenue when the applicable eligibility requirements, including time requirements are met. Resources transmitted before the eligibility requirements are met are reported as advances by the provider and unearned revenue by the recipient. Program revenues, including tuition revenue are reported as reductions to expenses in the statement of activities.

**6. Expenditures:**

Expenses are recognized when the related fund liability is incurred. Inventory costs are reported in the period when inventory items are used, rather than in the period purchased.

**7. Compensated absences:**

Compensated absences are those absences for which employees will be paid, such as vacation, sick leave, and sabbatical leave. A liability for compensated absences that are attributable to services already rendered, and that are not contingent on a specific event this is outside the control of the District and its employees, is accrued as the employees earn the rights to the benefits. Compensated absences that relate to future services, or that are contingent on a specific event that is outside the control of the District and its employees, are accounted for in the period in which such services are rendered or in which such events take place.

In governmental and similar trust funds, compensated absences that are expected to be liquidated with expendable available financial resources are reported as both an expenditure and a fund liability in the fund that will pay for the compensated absences. The remainder of the compensated absences liability is reported in the District-wide Financial Statements as a Governmental Activity.

In proprietary and similar trust funds, compensated absences are recorded as an expense and liability of the fund that will pay for them.

**8. Interfund Activity:**

Interfund activity is reported as loans, services provided, reimbursements or transfers. Loans are reported as interfund receivables and payables as appropriate and are subject to elimination upon consolidation. Services provide, deemed to be at market or near market rates, are treated as revenues and expenditures/expenses. Reimbursements are when one fund incurs a cost, charges the appropriate benefiting fund and reduces its related costs as reimbursement. All other interfund transactions are treated as transfer. Transfers between governmental or proprietary funds are netted as part of the reconciliation to the government-wide financial statements.

**9. Budgets/Budgetary Control**

Annual appropriated budgets are prepared in the spring of each year for the general, special revenue, and debt service funds. The budgets are submitted to the county office for approval and, as long as the District budget is within State mandated CAPS, there is no public vote on the budget. If the budget exceeds State mandated CAPS, the voters have an opportunity to approve or reject the budget at the regular election held in November. Budgets are prepared using the modified accrual basis of accounting, except for special revenue fund as described later. The legal level of budgetary control is established at line-item accounts within each fund. Line-item accounts are defined as the lowest (most specific) level of detail as established pursuant to the minimum chart of accounts referenced in N.J.A.C. 6:23-2(g). Transfers of appropriations may be made by School Board resolution at any time during the fiscal year and are subject to a two-thirds majority vote by the School Board and under certain circumstances require approval by the County Superintendent of Schools.

Significant transfers approved by the Board of Education during the fiscal year were as follows:

Formal budgetary integration into the accounting system is employed as a management control device during the year. For governmental funds there are no substantial differences between the budgetary basis of accounting and generally accepted accounting principles with the exception of the legally mandated revenue recognition of the last state aid payment for budgetary purposes only and the special revenue fund as noted below. Encumbrance accounting is also employed as an extension of formal budgetary integration in the governmental fund types. Unencumbered appropriations lapse at fiscal year end.

The accounting records of the special revenue fund are maintained on the grant accounting budgetary basis. The grant accounting budgetary basis differs from GAAP in that the grant accounting budgetary basis recognizes encumbrances as expenditures and also recognizes the related revenues, whereas the GAAP basis does not. Sufficient supplemental records are maintained to allow for the presentation of GAAP basis financial reports.

**10. Tuition Receivable**

Tuition charges were established by the Board of Education based on estimated costs.

**11. Tuition Payable**

Tuition charges for the fiscal year 2023/2024 were based on rates established by the receiving district. These rates are subject to change when the actual costs have been determined.

**12. Use of Estimates**

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those results.

**13. Allocation of Costs**

In the government-wide statement of activities, the District has allocated unallocated benefits to various programs based on the budgetary expenditures by program.

**14. Pensions**

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Teachers' Pension and Annuity Fund (TPAF) and Public Employee Retirement System (PERS) and additions to/deductions from the fiduciary net position have been determined on the same basis as they are reported by the TPAF and PERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

**F. IMPACT OF RECENTLY ISSUED ACCOUNTING PRINCIPLES**

Adopted Accounting Pronouncements

The following GASB Statements became effective for the fiscal year ended June 30, 2024:

In April 2022, the Governmental Accounting Standards Board (GASB) issued Statement No. 99, "Omnibus 2022". This statement, which is effective for fiscal years beginning after June 15, 2023, and all reporting periods, thereafter. This standard did not have any effect on the School District's financial reporting.

In June 2022, the Governmental Accounting Standards Board (GASB) issued Statement No. 100, "Accounting Changes and Error Corrections (an amendment of GASB Statement No. 62)". This statement, which is effective for fiscal years beginning after June 15, 2023, may have an effect on the School District's financial reporting. This standard did not have any effect on the School District's financial reporting.

**G. RECENT ACCOUNTING PRONOUNCEMENTS NOT YET EFFECTIVE**

In March 2020, the Governmental Accounting Standards Board (GASB) issued Statement No. 94, "Public-Private and Public-Public Partnerships and Availability Payment Arrangements". This statement, which is effective for fiscal years beginning after December 31, 2023, and all reporting periods, thereafter, will not have any significant effect on the School District's financial reporting.

In June 2022, the Governmental Accounting Standards Board (GASB) issued Statement No. 101, "Compensated Absences". This statement, which is effective for fiscal years beginning after December 15, 2023, may have an effect on the School District's financial reporting.

In December 2023, the Governmental Accounting Standards Board (GASB) issued Statement No. 102, "Certain Risk Disclosures". This statement, which is effective for fiscal years beginning after June 15, 2024, and all reporting periods, thereafter, will not have any significant effect on the School District's financial reporting.

In April 2024, the Governmental Accounting Standards Board (GASB) issued Statement No. 103, "Financial Reporting Model Improvements". This statement, which is effective for fiscal years beginning after June 15, 2025, and all reporting periods, thereafter, will not have any significant effect on the School District's financial reporting.

In September 2024, the Governmental Accounting Standards Board (GASB) issued Statement No. 104, "Disclosure of Certain Capital Assets". This statement, which is effective for fiscal years beginning after June 15, 2025, and all reporting periods, thereafter, will not have any significant effect on the School District's financial reporting.

**NOTE 2 – CASH**

**Custodial Credit Risk- Deposits.** Custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned to it. The district's policy is based on New Jersey Statutes requiring cash be deposited only in New Jersey based banking institutions that participate in the New Jersey Governmental Depository Protection Act (GUDPA) or in qualified investments established in New Jersey Statutes 18A:20-37 that are treated as cash equivalents. As of June 30, 2024, \$25,206.75 of the district's bank balance of \$4,188,715.23 was exposed to custodial credit risk.

Lease Liability

The District entered into agreements to lease certain equipment. The lease agreements qualify as other than short-term leases under GASB 87 and, therefore, have been recorded at present value of the future minimum lease payments as of the date of their inception. The District has determined the accumulated amortization to be immaterial to the governmental-wide financial statements and has elected to record the remaining payments in full.

The first agreement was executed in January 2022, to lease copiers across the different locations within the school district. The term of the lease is 48 months and matured in January 2026. The remaining liability as of June 30, 2024, is \$35,711.64.

The second agreement was executed in January 2022, to lease copiers across the different locations within the school district. The term of the lease is 48 months and matured in January 2026. The remaining liability as of June 30, 2024, is \$8,420.23.

The third agreement was executed in November 2020, to lease lease copiers across the different locations within the school district. The term of the lease is 48 months and matures in November 2024. The remaining liability as of June 30, 2024, is \$1,187.35.

**NOTE 7 – PENSION PLANS**

Description of Plans - All required employees of the District are covered by either the Public Employees' Retirement System or the Teachers' Pension and Annuity Fund which have been established by state statute and are administered by the New Jersey Division of Pension and Benefits (Division). According to the State of New Jersey Administrative Code, all obligations of both Systems will be assumed by the State of New Jersey should the Systems terminate. The Division issues a publicly available financial report that includes the financial statements and required supplementary information for the Public Employees Retirement System and the Teachers' Pension and Annuity Fund. These reports may be obtained by writing to the Division of Pension and Benefits, PO Box 295, Trenton, New Jersey, 08625 or the reports can be accessed on the internet at <https://www.state.nj.us/treasury/pensions/financial-reports.shtml>.

Teachers' Pension and Annuity Fund (TPAF)

The Teachers' Pension and Annuity Fund was established as of January 1, 1955, under the provisions of N.J.S.A. 18A:66 to provide retirement benefits, death, disability and medical benefits to certain qualified members. The Teachers' Pension and Annuity Fund is considered a cost-sharing multiple-employer plan with a special funding situation, as under current statute, all employer contributions are made by the State of New Jersey on behalf of the District and the system's other related non-contributing employers. Membership is mandatory for substantially all teachers or members of the professional staff certified by the State Board of Examiners, and employees of the Department of Education who have titles that are unclassified, professional and certified.

Public Employees' Retirement System (PERS)

The Public Employees' Retirement System (PERS) was established as of January 1, 1955 under the provisions of N.J.S.A. 43:15A to provide retirement, death, disability and medical benefits to certain qualified members. The Public Employees' Retirement System is a cost-sharing multiple-employer plan. Membership is mandatory for substantially all full-time employees of the State of New Jersey or any county, municipality, school district, or public agency, provided the employee is not required to be a member of another state-administered retirement system or other state or local jurisdiction.

Defined Contribution Retirement Program (DCRP)

The Defined Contribution Retirement Program (DCRP) was established as of July 1, 2007 under the provisions of Chapter 92, P.L. 2007 and Chapter 103, P.L. 2007 (N.J.S.A. 43:15C-1 et seq.). The DCRP is a cost-sharing multiple-employer defined contribution pension fund. The DCRP provides eligible members, and their beneficiaries with a tax-sheltered, defined contribution retirement benefit, along with life insurance and disability coverage. Vesting and benefit provisions are established by N.J.S.A. 43:15C-1 et. seq.

Funding Policy

The contribution policy is set by N.J.S.A. 43:15A, Chapter 62, P.L. of 1994, Chapter 115, P.L. of 1997 and N.J.S.A. 18:66, and requires contributions by active members and contributing employers. Plan member and employer contributions may be amended by State of New Jersey legislation. TPAF and PERS provide for employee contributions of 7.50% of employees' annual compensation, as defined. Employers are required to contribute at an actuarially determined rate in both TPAF and PERS. The current TPAF and the PERS rate is 7.5% of covered payroll. The School District's contributions to TPAF for the years ending June 30, 2024, 2023, and 2022 were \$1,803,748.00, \$1,714,764.00, and \$1,756,674.00, respectively, and paid by the State of New Jersey on behalf of the board, equal to the required contributions for each year. The School District's contributions to PERS for the years ending June 30, 2024, 2023, and 2022 were \$249,232.33, \$251,832.00, and \$215,431.00, respectively, equal to the required contributions for each year.

**DENNIS TOWNSHIP SCHOOL DISTRICT  
NOTES TO BASIC FINANCIAL STATEMENTS  
FOR THE YEAR ENDED JUNE 30, 2024  
(CONTINUED)**

During the fiscal years ended June 30, 2024, 2023, and 2022, the State of New Jersey contributed \$490,914.00, \$450,465.00, and \$410,430.00, respectively, to the TPAF for post-retirement medical benefits on behalf of the Board. Also, in accordance with NJSA 18A:66-66 the State of New Jersey reimbursed the Board \$318,955.77, \$334,489.29, and \$355,133.00, during the same fiscal years for the employer's share of social security contributions for TPAF members as calculated on their base salaries. These amounts, which are not required to be budgeted, have been included in the financial statements, and the combining and individual fund and account group statements and schedules as revenues and expenditures in accordance with GASB Standards.

For the DCRP, members contribute at a uniform rate of 5.5% of their base salary. Employers are required to contribute at a set rate of 3.0% of base salary. There were employees enrolled in the DCRP for the year ended June 30, 2024.

Vesting and Benefit Provisions - The vesting and benefit provisions for PERS are set by N.J.S.A. 43:15A and 43.3B, and N.J.S.A. 18A:6C for TPAF. All benefits vest after eight to ten years of service, except for medical benefits that vest after 25 years of service. Retirement benefits for age and service are available at age 60 and are generally determined to be 1/60 of the final average salary for each year of service credit, as defined. Final average salary equals the average salary for the final three years of service prior to retirement (or highest three years' compensation if other than the final three years). Members may seek early retirement after achieving 25 years of service credit or they may elect deferred retirement after achieving eight to ten years of service in which case benefits would begin the first day of the month after the member attains normal retirement age. The TPAF and PERS provides for specified medical benefits for members who retire after achieving 25 years of qualified service, as defined, or under the disability provisions of the System. Members are always fully vested for their own contributions and, after three years of service credit, become vested for 2% of related interest earned on the contributions. In the case of death before retirement, members' beneficiaries are entitled to full interest credited to the members' accounts.

Significant Legislation

Chapter 78, P.L. 2011, effective June 28, 2011 made various changes to the manner in which the Public Employees' Retirement System (PERS) and the Teacher's Pension and Annuity Fund (TPAF) operate and to the benefit provisions of those systems.

Chapter 78's provisions impacting employee pension and health benefits include:

- New members of the PERS hired on or after June 28, 2011 (Tier 5 members) will need 30 years of creditable service and age 65 for receipt of the early retirement benefit without a reduction of ¼ of 1% for each month that the member is under age 65.
- The eligibility age to qualify for a service retirement in the PERS is increased from age 63 to 65 for Tier 5 members.
- Increases in active member contribution rates. PERS active member rates increase from 5.5% of annual compensation to 6.5% plus an additional 1% phased-in over 7 years. For fiscal year 2013, the member contribution rates increased in October 2012. The phase-in of the additional incremental member contribution rates for PES members will take place in July of each subsequent fiscal year.
- The payment of automatic cost-of-living adjustment (COLA) additional increases to current and future retirees and beneficiaries is suspended until reactivated as permitted by this law.
- New employee contribution requirements towards the cost of employer-provided health benefit coverage. Employees are required to contribute a certain percentage of the cost of coverage. The rate of contribution is determined based on the employee's annual salary and the selected level of coverage. The increased employee contributions will be phased in over a 4-year period

for those employed prior to Chapter 78's effective date with a minimum contribution required to be at least 1.5% of salary.

- In addition, this new legislation changes the method for amortizing the pension systems' unfunded accrued liability (from a level percent of pay method to a level dollar of pay).

Chapter 1, P.L. 2010, effective May 21, 2010, made a number of changes to the State-administered retirement systems concerning eligibility, the retirement allowance formula, the definition of compensation, the positions eligible for service credit, the non-forfeitable right to a pension, the prosecutor's part of the PERS and employer contributions to the retirement systems.

Chapter 3, P.L. 2010, effective May 21, 2010, replaced the accidental and ordinary disability retirement for new members of the PERS and TPAF with disability insurance coverage similar to that provided by the State to individuals enrolled in the State's Defined Contribution Retirement Program.

Chapter 92, P.L. 2007 implemented certain recommendations contained in the December 1, 2006, report of the Joint Legislative Committee on Public Employee Benefits Reform; established a DCRP for elected and certain appointed officials, effective July 1, 2007; the new pension loan interest rate became 4.69% per year, and an \$8.00 processing fee per loan was charged, effective January 1, 2008. The legislation also removed language from existing law that permits the State Treasurer to reduce employer pension contributions needed to fund the Funds and Systems when excess assets are available.

**NOTE 8: PENSION LIABILITIES – PUBLIC EMPLOYEES' RETIREMENT SYSTEM (PERS)**

In 2012, the Governmental Accounting Standards Board issued GASB statement 68. This statement is effective for fiscal years beginning after June 15, 2014. This statement changes the method of reporting the district's pension liabilities. The following information describes the district's proportionate share of the statewide pension system's liabilities and expenses.

The following represents the district's pension liabilities as June 30, 2023:

**Public Employees' Retirement System**

The district has a liability of \$2,572,932 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2023, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2022, that was rolled forward to June 30, 2023. The district's proportion of the net pension liability was based on a projection of the District's long-term share of contributions to the pension plan relative to the projected contributions of all participating employers, actuarially determined. At June 30, 2023, the District's proportion is 0.01776349850%, which is a decrease of 8.58% from its proportion measured as of June 30, 2022.

For the year ended June 30, 2023, the District recognized pension expense of \$81,213. At June 30, 2023, the District reported deferred outflows of resources and deferred inflows of resources related to PERS from the following sources:

**Actuarial Assumptions**

The total pension liability for the June 30, 2023, measurement date was determined by an actuarial valuation as of July 1, 2022, which was rolled forward to June 30, 2023. This actuarial valuation used the following assumptions, applied to all periods in the measurement:

Inflation rate	
Price	2.75%
Wage	3.25%
Salary increases:	2.75% – 6.55% (based on years of service)
Investment rate of return:	7.00%

Pre-retirement mortality rates were based on the Pub-2010 General Below-Median Income Employee mortality table with an 82.2% adjustment for males and 101.4% adjustment for females, and with future improvement from the base year of 2010 on a generational basis. Post-retirement mortality rates were based on the Pub-2010 General Below-Median Income Healthy Retiree mortality table with a 91.4% adjustment for males and 99.7% adjustment for females, and with future improvement from the base year of 2010 on a generational basis. Disability retirement rates used to value disable retirees were based on the Pub-2010 Non-Safety Disabled Retiree mortality table with a 127.7% adjustment for males and 117.2% adjustment for females, and with future improvement from the base year of 2010 on generational basis. Mortality improvement is based on Scale MP-2021.

**DENNIS TOWNSHIP SCHOOL DISTRICT  
NOTES TO BASIC FINANCIAL STATEMENTS  
FOR THE YEAR ENDED JUNE 30, 2024  
(CONTINUED)**

The actuarial assumptions used in the July 1, 2022, valuation were based on the results of an actuarial experience study for the period July 1, 2018 to June 30, 2021.

In accordance with State statute, the long-term expected rate of return on plan investments (7.00% at June 30, 2023) is determined by the State Treasurer, after consultation with the Directors of the Division of Investments and Division of Pensions and Benefits, the board of trustees and the actuaries. The long term expected rate of return was determined using a building block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighing the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in PERS's target asset allocation as of June 30, 2023 are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
US equity	28.00%	8.98%
Non-U.S. developed markets equity	12.75%	9.22%
International small cap equity	1.25%	9.22%

***Discount Rate***

The discount rate used to measure the total pension liability was 7.00% as of June 30, 2023. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers will be made based on 100% of the actuarially determined contributions for the State employer and 100% of actuarially determined contributions for local employers. Based on those assumptions, the plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on plan investments was applied to all projected benefit payments in determining the total pension liability.

***Sensitivity of the District's proportionate share of the net pension liability to changes in the discount rate.***

The following presents the District's proportionate share of the net pension liability calculated using the discount rate as disclosed above, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage point lower or 1-percentage point higher than the current rate:

**NOTE 9 – PENSION LIABILITIES - TEACHERS' PENSION AND ANNUITY FUND (TPAF)**

At June 30, 2023, the District liability for its proportionate share of the net pension liability which is considered a Special Funding Situation with the State of New Jersey is reported below.

The employer contributions for local participating employers are legally required to be funded by the State of New Jersey in accordance with N.J.S.A 18:66-33. Therefore, local participating employers are considered to be in a special funding situation as defined by GASB Statement No. 68 and the State is treated as a non-employer contributing entity. Since the local participating employers do not contribute directly to the plan, there is no net pension liability or deferred outflows or inflows to report in the financial statements of the local participating employers. However, the notes to the financial statements of the local participating employers must disclose the portion of the non-employer contributing entities' total proportionate share of the net pension liability that is associated with the local participating employer. In addition, each local participating employer must recognize pension expense associated with the employer as well as revenue in an amount equal to the non-employer contributing entities' total proportionate share of the collective pension expense associated with the local participating employer.

The amount recognized by the district as its proportionate share of the net pension liability, the related State support, and the total portion of the net pension liability that was associated with the District were as follows:

District's proportionate share of the net pension liability	\$ -
State's proportionate share of the net position liability associated with the District	<u>\$ 21,113,071</u>
Total	<u><u>\$ 21,113,071</u></u>

The net pension liability was measured as of June 30, 2023, and the total pension liability to calculate the net pension liability was determined by an actuarial valuation as of that date. The district's proportion of the net pension liability was based on a projection of the District's long-term share of contributions to the pension plan relative to the projected contributions of all participating school districts and the State, actuarially determined. At June 30, 2023, the District's proportion was 0.00%, which was no change from its proportion measured as of June 30, 2022.

For the year ended June 30, 2023, the District recognized pension expense of \$518,687 and revenue of \$518,687 for support provided by the State.

*Actuarial assumptions.* The total pension liability in the June 30, 2023, actuarial valuation was determined by an actuarial valuation as of July 1, 2022, which was rolled forward to June 30, 2023. This actuarial valuation used the following assumptions, applied to all period included in the measurement:

Post-retirement mortality rates were based on the Pub-2010 Teachers Above-Median Income Healthy Retiree mortality table with a 114.7% adjustment for males and 99.6% adjustment for females, and with future improvement from the base year of 2010 on a generational basis. Disability mortality rates were based on the Pub-2010 Non-Safety Disabled Retiree mortality table with a 106.3% adjustment for males and 100.3% adjustment for females, and with future improvement from the base year of 2010 on a generational basis. Mortality improvement is based on Scale MP-2021.

**General Information about the OPEB Plan**

**State Health Benefit State Retired Employees Plan:**

Pension and Other Postemployment Benefits (OPEB) Obligations in Fiscal Year 2022 the State funded the various defined benefit pension systems at 108 percent of the full actuarially determined contributions. Employer contributions to the pension plans are calculated per the requirements of the governing State statutes using generally accepted actuarial procedures and practices. The actuarial funding method used to determine the State's contribution is a matter of State law. Any change to the funding method requires the approval of the State Legislature and the Governor. The amount the State actually contributes to the pension plans may differ from the actuarially determined contributions of the pension plans because the State's contribution to the pension plans is subject to the appropriation of the State Legislature and actions by the Governor. GASB Statement No. 68, Accounting and Financial Reporting for Pensions, requires participating employers to recognize their proportionate share of the collective net pension liability. Under the new statement, the calculation of the pension liability was changed to a more conservative methodology and each employer was allocated a proportional share of the pension plans' net pension liability. The State's share of the net pension liability, based on a measurement date of June 30, 2021, which is required to be reported on the financial statements, is \$75.1 billion. The Fiscal Year 2023 projected aggregate State contribution to the pension plans of \$6.8 billion represents 104 percent of the actuarially determined contributions. The State provides post-retirement medical (PRM) benefits for certain State and other retired employees meeting the service credit eligibility requirements. In Fiscal Year 2022, the State paid PRM benefits for 161,238 State and local retirees. The State funds post-retirement medical benefits on a "pay-as-you-go" basis, which means that the State does not pre-fund, or otherwise establish a reserve or other pool of assets against the PRM expenses that the State may incur in future years. For Fiscal Year 2022, the State contributed \$1.9 billion to pay for "pay-as-you-go" PRM benefit costs incurred by covered populations, a slight increase from \$1.8 billion in Fiscal Year 2021. The State has appropriated \$2.1 billion in Fiscal Year 2023 as the State's contribution to fund increases in prescription drugs and medical claims costs. In accordance with the provisions of GASBE Statement No. 75, Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions, the State is required to quantify and disclose its obligations to pay Other Postemployment Benefits (OPEB) to retired plan members. This new standard supersedes the previously issued guidance, GASB Statement No. 45, Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions, effective for Fiscal Year 2018. The State is now required to accrue a liability in all instances where statutory language names the State as the legal obligor for benefit payments. The Fiscal Year 2022 State OPEB liability to provide these benefits is \$88.9 billion, a decrease of \$12.7 billion, or 12.5 percent, from the \$101.6 billion liability recorded in Fiscal Year 2021. Additional information on Pensions and OPEB can be accessed on the Division of Pensions & Benefits Financial Reports webpage: <https://www.state.nj.us/treasury/pensions/financial-reports.shtml>.

***Total OPEB Liability***

The State, a non-employer contributing entity, is the only entity that has a legal obligation to make employer contributions to OPEB for qualified retired PERS and TPAF participants. The LEA's proportionate share percentage determined under paragraphs 193 and 203 through 205 of GASBS No. 75 is zero percent. Accordingly, the LEA did not recognize any portion of the collective net OPEB liability on the Statement of Net Position. Accordingly, the following OPEB liability note information is reported at the State's level and is not specific to the board of education/board of trustees. Note that actual numbers will be published in June 30, 2023 III-3.8 the NJ State ACFR on the Office of Management and Budget's Financial Publications webpage: [NJ OMB - Financial Publications](#)

Actuarial assumptions and other imputes. The total OPEB liability in the June 30, 2023, actuarial valuation reported by the State in the State's most recently issued ACFR was determined by an actuarial valuation as of June 30, 2022, which was rolled forward to June 30, 2023. The actuarial assumptions vary for each plan member depending on the pension plan the member is enrolled in. This actuarial valuation used the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified:

*Salary Increases*

<u>TPAF/ABP</u>	<u>PERS</u>	<u>PFRS</u>
2.75% to 4.25% based on service years	2.75% to 6.55% based on service years	3.25% to 16.25% based on service years

*Mortality Rates*

Preretirement mortality rates were based on the Pub-2010 Healthy "Teachers" (TPAF/ABP), "General" (PERS), and "Safety" (PFRS) classification headcount-weighted mortality table with fully generational mortality improvement projections from the central year using Scale MP-2021. Postretirement mortality rates were based on the Pub-2010 "General" classification headcount-weighted mortality table with fully generational mortality improvement projections from the central year using Scale MP-2021. Disability mortality was based on the Pub-2010 "General" classification headcount-weighted disabled mortality table with fully generational mortality improvement projections from the central year using Scale MP-2021 for current disabled retirees. Future disabled retirees was based on the Pub-2020 "Safety" (PFRS), "General" (PERS), and "Teachers" (TPAF/ABP) classification headcount-weighted disabled mortality table with fully generational mortality improvement projections from the central year using Scale MP-2021.

The actuarial assumptions used in the June 30, 2022, valuation were based on the results of the TPAF, PERS, and PFRS experience studies for the period July 1, 2018 to June 30, 2021.

100% of active members are considered to participate in the Plan upon retirement.

*Health Care Trend Assumptions*

For pre-Medicare medical benefits, the trend rate is initially 6.5% and decreases to a 4.5% long-term trend rate after nine years. For post-65 medical benefits PPO, the trend is increasing to 14.8% in fiscal year 2026, and decreases to 4.5% in fiscal year 2033. For HMO the trend is increasing to 17.4% in fiscal year 2026, and decreases to 4.5% in fiscal year 2033. For prescription drug benefits, the initial trend rate is 9.5% and decreases to a 4.5% long-term trend rate after seven years. For the Medicare Part B reimbursement, the trend rate is 5.0%.

*Discount Rate*

The discount rate used to measure the total OPEB liability was 3.65%. This represents the municipal bond return rate as chosen by the Division. The source is the Bond Buyer Go 20-Bond Municipal Bond Index, which includes tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher. As the long-term rate of return is less than the municipal bond rate, it is not considered in the calculation of the discount rate, rather the discount rate is set at the municipal bond rate.

**NOTE 12 – COMPENSATED ABSENCES**

The District accounts for compensated absences (e.g., unused vacation, sick leave) as directed by Governmental Accounting Standards Board Statement No. 16 (GASB 16), "Accounting for Compensated Absences". A liability for compensated absences attributable to services already rendered and not contingent on a specific event that is outside the control of the employer and employee is accrued as employees earn the rights to the benefits.

District employees are granted varying amounts of vacation and sick leave in accordance with the District's personnel policy. Upon termination, employees are paid for accrued vacation. The District's policy permits employees to accumulate unused sick leave and carry forward the full amount to subsequent years as long as it does not violate Title 18A. Upon retirement, employees shall be paid by the District for unused sick leave in accordance with the District's agreements with the various employee unions.

The liability for vested compensated absences for the governmental fund types is recorded in current and long-term liabilities. The current portion of the compensated absences balance of the governmental funds is not considered material to the applicable funds' total liabilities, and therefore is not shown separately from the long-term liability of compensated absences.

The liability for vested compensated absences of the proprietary fund types is recorded within those funds as the benefits accrue to employees. As of June 30, 2024, there was no liability for compensated absences in the Food Service Enterprise Fund.

**NOTE 13 – MAINTENANCE RESERVE ACCOUNT**

A maintenance reserve account was established by the Dennis Township Board of Education for the accumulation of funds for use as required maintenance expenditures in subsequent fiscal years. The maintenance reserve account is maintained in the general fund and its activity is included in the general fund annual budget.

The activity of the Maintenance reserve for the July 1, 2023, to June 30, 2024, fiscal year is as follows:

**NOTE 15 – CAPITAL RESERVE ACCOUNT**

A capital reserve account was established by the Dennis Township Board of Education by inclusion of \$200,000.00 in the original 1999-2000 annual capital outlay budget for the accumulation of funds for use as capital outlay expenditures in subsequent fiscal years. A capital reserve account is maintained in the general fund and its activity is included in the general fund annual budget.

Funds placed in the capital reserve account are restricted to capital projects in the district's approved Long-Range Facilities Plan (LRFP). Upon submission of the LRFP to the department, a district may increase the balance in the capital reserve by appropriating funds in the annual general fund budget certified for taxes or by transfer by board resolution at year end (June 1 to June 30) of any unanticipated revenue or unexpended line-item appropriation amounts, or both. A district may also appropriate additional amounts when the express approval of the voters has been obtained either by a separate proposal at budget time or by a special question at on of the four special elections authorized pursuant to NJSA 19:60-2. Pursuant to NJAC 6A:23A-14.1(g), the balance in the account cannot at any time exceed the local support costs of uncompleted capital projects in its approved LRFP.

The activity of the capital reserve for the July 1, 2023 to June 30, 2024 fiscal year is as follows:

Management is not aware of any material items of noncompliance would result in the disallowance of program expenditures.

**NOTE 19 – ECONOMIC DEPENDENCY**

The District receives support from federal government and from the state government. A significant reduction in the level of support, if this were to occur, would have an effect on the District's programs and activities.

**NOTE 20 – FUND BALANCE APPROPRIATED**

General Fund – Of the \$3,539,719.91 General Fund fund balance, at June 30, 2024, \$1,270,832.03 is reserved for encumbrances, \$1,031,887.00 is reserved as excess surplus in accordance with NJSA 18A:7F-7 (\$1,031,887.00 of the total reserve for excess surplus has been appropriated and included as anticipated revenue for the year ending June 30, 2025); \$66,779.31 has been reserved in the Emergency Reserve Account; \$346,881.54 has been reserved in the Maintenance Reserve Account; \$136,997.41 has been reserved in the Capital Reserve Account; \$315,850.00 has also been assigned and appropriated and included as anticipated revenue for the year ending June 30, 2024; and \$370,492.62 is classified as Unassigned Fund Balance.

**NOTE 21 – CALCULATION OF EXCESS SURPLUS**

In accordance with N.J.S.A. 18A:7F-7, the designation for Reserved Fund Balance - Excess Surplus is a required calculation pursuant to the New Jersey Comprehensive Educational Improvement and Financing Act of 1996 (CEIFA). New Jersey school districts are required to reserve General Fund fund balance at the fiscal year end of June 30 if they did not appropriate a required minimum amount of budgeted fund balance in their subsequent years' budget. There was no excess fund balance generated at June 30, 2024.

**NOTE 22 – DEFICIT FUND BALANCES**

The District has a deficit unassigned fund balance of (\$39,587.99) in the Special Revenue Fund as of June 30, 2024 as reported in the fund statements (modified accrual basis). N.J.S.A. 18A:22-44.2 provides that in the event a state school aid payment is not made until the following school budget year, districts must record the last payment as revenue, for budget purposes only, in the current school budget year. For intergovernmental transactions, GASB Statement No. 33 requires that recognition (revenue, expenditure, asset, liability) should be in symmetry i.e., if one government recognizes an asset, the other government recognizes a liability. Since the State is recording the June state aid payments in the subsequent fiscal year, the school district cannot recognize the June state aid payments on the GAAP financial statements until the year the state records the payable. Due to the timing difference of recording the last state aid payment, the Special Revenue Fund balance deficit does not alone indicate that the district is facing financial difficulties. The District deficit in the Special revenue fund in the GAAP fund statements of (\$39,587.99) is equal to the last state aid payment for that fund and the student activity fund balance.

**NOTE 23 – LITIGATION**

From time to time, the District is a defendant in legal proceedings relating to its operations as a school district. In the best judgment of the District's management, the outcome of any legal proceedings will not have any adverse effect on the accompanying financial statements.

**NOTE 24 – RIGHT TO USE ASSETS**

The district has recorded the right to use assets as a result of implementing GASB 87. The right to use assets are initially measured at an amount equal to the initial measurement of the related lease liability, plus any lease payments made prior to the lease term, less lease incentives, and plus ancillary charges necessary to place to lease into service. The District has determined the other charges and amortization to be immaterial to the government-wide financial statements and has elected to record the Right to Use Assets at their remaining liability payments.

**NOTE 25 – SUBSEQUENT EVENTS**

Management has reviewed and evaluated all events and transactions that occurred from June 30, 2024 through December 13, 2024, the date that the financial statements were available to be issued for possible disclosure and recognition in the financial statements.

**Budget Referendum** – On September 17, 2024, the district's Budget Referendum that would have authorized the District to raise an Additional Tax Levy in the amount of \$2,200,000 for the 2024/2025 and future year's School District Budgets failed. The District determined that due to the continued decreases in State Aid over the last six years, this Budget Referendum was needed in order to provide a Thorough and Efficient Education to Students in the District. Specifically, these additional Tax Levy Funds would have allowed the district to maintain, Teachers and Instructional Assistants, Program Levels, Facilities, Transportation Services, Athletic and Other Co-Curricular Activities, at previous levels. The District is currently in the process of evaluating all areas of its operations in order to continue providing a Thorough and Efficient Education to the Students of the District without the Additional Tax Levy Funds that were requested by this Referendum. The District does not believe they are able to provide a thorough and efficient education for the 2024-2025 school year. At this time, it is unknown as to what measures will be taken by the District in future years to remedy the situation.

**REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND  
OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS IN ACCORDANCE WITH  
GOVERNMENT AUDITING STANDARDS**

Honorable President and  
Members of the Board of Education  
Township of Dennis School District  
County of Cape May  
State of New Jersey

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards issued by the Comptroller General of the United States and audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Dennis Township School District, as of and for the year ended June 30, 2024, and the related notes to the financial statements, which collectively comprise the Dennis Township School District's basic financial statements, and have issued our report thereon dated December 13, 2024.

**Report on Internal Control over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the Dennis Township School District's control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements but not for the purpose of expressing an opinion on the effectiveness of the Dennis School District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

### **Report on Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the Dennis Township School District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards* and audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey.

### **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL AND STATE PROGRAM; REPORT ON  
INTERNAL CONTROL OVER COMPLIANCE; AND REPORT ON SCHEDULE OF EXPENDITURES OF  
FEDERAL AWARDS AND STATE FINANCIAL ASSISTANCE REQUIRED BY UNIFORM  
ADMINISTRATIVE AWARDS (UNIFORM GUIDANCE), AND NEW JERSEY OMB'S CIRCULAR 15-08**

Honorable President and  
Members of the Board of Education  
Dennis Township School District  
County of Cape May, New Jersey

## **Report on Compliance for Each Major Federal and State Program**

### **Opinion on Each Major Federal & State Program**

We have audited the Dennis Township School District's compliance with the types of compliance requirements described in the *OMB Compliance Supplement* and the *New Jersey State Aid/Grant Compliance Supplement* that could have a direct and material effect on each of the Dennis Township School District's major federal and state programs for the year ended June 30, 2024. The Dennis Township School District's major federal and state programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, the Dennis Township School District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal and state programs for the year ended June 30, 2024.

### **Basis for Opinion on Each Major Federal & State Program**

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS), the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States, the audit requirements prescribed by the Office of School Finance, Department of Education, State of New Jersey, and the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance) and NJ OMB 15-08. Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the Dennis Township School District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on compliance for each major federal and state program. However, our audit does not provide a legal determination of the Dennis Township School District's compliance with the requirements referred to above.

## **Responsibilities of Management for Compliance**

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules and provisions of contracts or grant agreements applicable to its Federal and State programs.

## **Auditor's Responsibilities for the Audit of Compliance**

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the Dennis Township School District's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards, *Government Auditing Standards*, the Uniform Guidance and NJ OMB 15-08 will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about Dennis Township School District's compliance with the requirements of each major federal or state program as a whole.

In performing an audit in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding Dennis Township School District's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of Dennis Township School District's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance and NJ OMB 15-08, but not for the purpose of expressing an opinion on the effectiveness of Dennis Township School District's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

## **Other Matters**

The results of our auditing procedures disclosed no instances of noncompliance which are required to be reported in accordance with the Uniform Guidance or NJ OMB 15-08.

## Report on Internal Control Over Compliance

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal or state program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal or state program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal or state program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that have not been identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance and NJ OMB 15-08. Accordingly, this report is not suitable for any other purpose.

**DENNIS TOWNSHIP SCHOOL DISTRICT**  
**Notes to the Schedules of Financial Assistance**  
**June 30, 2024**

**K-5**

**NOTE 1 - GENERAL**

The accompanying schedules of expenditures of federal awards and state financial assistance include federal and state award activity of the Board of Education, Township of Dennis School District. The Board of Education is defined in Note 1 to the Board's basic financial statements. All federal and state awards received directly from federal and state agencies, as well as federal awards and state financial assistance passed through other government agencies is included on the schedule of expenditures of federal awards and state financial assistance.

**NOTE 2 - BASIS OF ACCOUNTING**

The accompanying schedules of expenditures of awards and financial assistance are presented on the budgetary basis of accounting with the exception of programs recorded in the food service fund, which are presented using the accrual basis of accounting. These bases of accounting are described in Note 1 to the Board's basic financial statements. The information in this schedule is presented in accordance with the requirements of 2 CFR 200-*Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*. Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the basic financial statements. The District has elected not to use the 10% de minimis indirect cost rate.

**NOTE 3 - RELATIONSHIP TO BASIC FINANCIAL STATEMENTS**

The basic financial statements present the general fund and special revenue fund on a GAAP basis. Budgetary comparison statements or schedules (RSI) are presented for the general fund and special revenue fund to demonstrate finance – related legal compliance in which certain revenue is permitted by law or grant agreement to be recognized in the audit year, whereas for GAAP reporting, revenue is not recognized until the subsequent year or when expenditures have been made.

The general fund is presented in the accompanying schedules on the modified accrual basis with the exception of the revenue recognition of the last state aid payment in the current budget year, which is mandated pursuant to *N.J.S.A. 18A:22-44.2*. For GAAP purposes payments are not recognized until the subsequent year due to the state deferral and recording of the last state aid payment in the subsequent year. The special revenue fund is presented in the accompanying schedules on the grant accounting budgetary basis, which recognizes encumbrances as expenditures and recognizes the related revenues, whereas the GAAP basis does not. The special revenue fund also recognizes the last state aid payment in the current budget year, consistent with *N.J.S.A. 18A:22-44.2*.

The net adjustment to reconcile from the budgetary basis to the GAAP basis is \$48,342.20 for the general fund and (\$1,412,525.37) for the special revenue fund. See the Notes to Required Supplementary Information for a reconciliation of the budgetary basis to the modified accrual basis of accounting for the general and special revenue funds. Awards and financial assistance revenues are reported in the Board's basic financial statements on a GAAP basis as follows:

		Federal	State	On-Behalf Payments	Total
General Fund	\$	33,703.80	4,558,727.77	(2,295,482.00)	2,296,949.57
Special Revenue Fund		1,112,501.74	5,049,904.25		6,162,405.99
Food Service Fund		156,097.03	7,631.23		163,728.26
	\$	<u>1,302,302.57</u>	<u>9,616,263.25</u>	<u>(2,295,482.00)</u>	<u>8,623,083.82</u>

The On-Behalf Pension Contributions made for the district by the State of New Jersey are recognized as revenue in the basic financial statements, but are not considered in the major program determination.

**NOTE 4 - RELATIONSHIP TO FEDERAL AND STATE FINANCIAL REPORTS**

Amounts reported in the accompanying schedules agree with the amounts reported in the related federal and state financial reports.

**NOTE 5 - OTHER**

Revenues and expenditures reported under the Food Distribution Program represent current year value received and current year distributions respectively. The amount reported as TPAF Pension Contributions represents the amount paid by the state on behalf of the district for the year ended June 30, 2024. TPAF Social Security Contributions represents the amount reimbursed by the state for the employer's share of social security contributions for TPAF members for the year ended June 30, 2024.

**NOTE 6 - ADJUSTMENTS**

Both favorable and unfavorable differences incurred as a result of final grant payments being rounded by the grantor and are included in the schedule(s) of financial assistance in a column entitled "Adjustments."
