Honorable President and Members  
Sea Girt Borough Board of Education  
451 Bell Place  
Sea Girt, New Jersey 08750

Dear Board Members:

The annual comprehensive financial report of the Sea Girt Borough School District (District) for the fiscal year ended June 30, 2024, is hereby submitted. Responsibility for both the accuracy of the data and completeness and fairness of the presentation, including all disclosures, rests with the management of the Board of Education (Board). To the best of our knowledge and belief, the data presented in this report is accurate in all material respects and is reported in a manner designed to present fairly the financial position and results of operations of the various funds and account groups of the District. All disclosures necessary to enable the reader to gain an understanding of the District's financial activities have been included.

The annual comprehensive financial report is presented in four sections: introductory, financial, statistical and single audit. The introductory section includes this transmittal letter, the District's Organizational chart and a list of officials. The financial section includes the basic financial statements and schedules, as well as the auditor's report thereon. The statistical section includes selected financial and demographic information, generally presented on a multi-year basis. The District is required to undergo an annual single audit and in conformity with the provisions of the Single Audit Act of 1984 and the U. S. Office of Management and Budget Single Audit Act and Title 2 U.S. Code of Federal Regulations (CFR) Part 200 Uniform Administrative Requirements, Cost Principles and Audit Requirements for Federal Awards (Uniform Guidance), and New Jersey OMB's Circular 15-08, "Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid." Information related to this single audit, including the auditor's report on the internal control structure and compliance with applicable laws and regulations and findings and recommendations are included in the single audit section of this report.

1. REPORTING ENTITY AND ITS SERVICES: Sea Girt Borough School District is an independent reporting entity within the criteria adopted by the GASB as established by NCGA Statement No. 3. All funds and account groups of the

District are included in this report. The Sea Girt Board of Education, the Pre-K-8 elementary school and the 9-12 sending-receiving relationship with the Manasquan Board of Education and the Monmouth County Vocational School District constitute the District's reporting entity. The District provides a full range of educational services appropriate to grade levels Pre-K through 8, and has a sending-receiving relationship with the Manasquan Board of Education for grades 9-12. Classes offered are regular, vocational, and special education for disabled youngsters. The preschool program began in the 2007-08 school year. The School District also began a K-5 private parent paid tuition program in 2007-08. The District (Pre-K-12) completed the 2023-2024 fiscal year with an enrollment of 141 students representing a -2% change from the previous year. The Pre-K-8 enrollment stood at 141 - a decrease of 3 students from the previous year. The following details the changes in the Pre-K-12 student enrollment over the last ten years:

### Enrollment, Pre-K-12

<u>Fiscal</u> <u>Year</u>	<u>Student</u> <u>Enrollment</u>	<u>Percent</u> <u>Change</u>
2023-24	141	-2.0
2022-23	144	+9.0
2021-22	132	-12.0
2020-21	150	-2.0

2017-18	184	-0.5
2016-17	185	-7.0
2015-16	198	-2.5
2014-15	203	-7.4
2013-14	218	-1.4

2. ECONOMIC CONDITIONS AND OUTLOOK: The Borough of Sea Girt is an elegant seaside community with well-maintained homes, manicured lawns, a nationally recognized Blue Ribbon School system and low property tax rates. The business district is small in size and not expected to contribute to the Borough's economy in any significant manner; however, the enterprises are well established and add to the town's ambiance. Residential building opportunities are also limited. It is not uncommon to have an older residence sold and demolished in order to make way for new construction, or for a large property to be divided in order to accommodate a new building. Given these factors, the Borough of Sea Girt is expected to have limited economic growth as a municipal entity, but will continue to be regarded as one of the premiere residential communities in New Jersey.

3. MAJOR INITIATIVES: A demanding academic program is delivered in a caring, supportive educational environment. The District maintains high standards for administrative and pedagogical excellence. Students continue surpassing state and national averages on assessment instruments, including the New Jersey Assessment of Student Knowledge grades 3 through 8. In the fall of 2005 and 2017 the District was selected by the United States Department of Education to receive the prestigious Blue Ribbon School award based on overall academic excellence. This award affirms the hard work of students, educators, families and the Sea Girt community in creating a safe and welcoming environment where students master challenging content.

The Sea Girt School District is progressive in planning for future initiatives in academic programming, staff development, technology, and facility planning. Selected curriculum is revised yearly and is in alignment with New Jersey Student Learning Standards. The district Local Professional Development Plan provides staff training which is sustained and ongoing.

4. INTERNAL ACCOUNTING CONTROLS: Management of the District is responsible for establishing and maintaining an internal control structure designed to ensure that the assets of the District are protected from loss, theft or misuse, and to ensure that adequate accounting data are compiled to allow for the preparation of financial statements in conformity with generally accepted accounting principles (GAAP). The internal control structure is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived; and (2) the valuation of costs and benefits requires estimates and judgments by management.

As a recipient of federal and state financial assistance, the District is also responsible for ensuring that an adequate internal control structure is in place to ensure compliance with applicable laws and regulations related to those programs. This internal control structure is also subject to periodic evaluation by the District management.

As part of the District's single audit described earlier, tests are made by the District auditor to determine the adequacy of the internal control structure, including that portion related to federal and state financial assistance programs, as well as to determine that the District has complied with applicable laws and regulations.

5. BUDGETARY CONTROLS: In addition to internal accounting controls, the District maintains budgetary controls. The objective of these budgetary controls is to ensure compliance with legal provisions embodied in the annual appropriated budget approved by the voters of the

municipality. Annual appropriated budgets are adopted for the general fund, the special revenue fund, and the debt service fund. Project-length budgets are approved for the capital improvements accounted for in the capital projects fund. The final budget amount as amended for the fiscal year is reflected in the financial section.

An encumbrance accounting system is used to record outstanding purchase commitments on a line item basis. Open encumbrances at year-end are either canceled or are included as re-appropriations of fund balance in the subsequent year.

6. ACCOUNTING SYSTEM AND REPORTS: The District's accounting records reflect generally accepted accounting principles as promulgated by the Governmental Accounting Standards Board (GASB). The accounting system of the District is organized on the basis of funds and account groups. These funds and account groups are explained in "Notes to the Financial Statements", Note 1.

7. FINANCIAL INFORMATION AT FISCAL YEAR-END: As demonstrated by the various statements and schedules included in the financial section of this report, the District continues to meet its responsibility for sound financial management.

8. DEBT ADMINISTRATION: As of June 30, 2024, the District has no outstanding debt.

9. CASH MANAGEMENT: The investment policy of the District is guided in large part by state statute as detailed in "Notes to the Financial Statements", Note 2. The District has adopted a cash management plan, which requires it to deposit public funds in public depositories protected from loss under the provisions of the Governmental Unit Deposit Protection Act ("GUDPA"). GUDPA was enacted in 1970 to protect Governmental Units from a loss of funds on deposit with a failed banking institution in New Jersey. The law requires governmental units to deposit public funds only in public depositories located in New Jersey where the funds are secured in accordance with the Act. The Board's cash position is adequate, with a balance of \$4,529,808 in General Fund cash and temporary investments at June 30, 2024.

10. RISK MANAGEMENT: The Board carries various forms of insurance, including but not limited to: general liability, comprehensive/collision, student and volunteer accident, hazard and theft insurance on property and contents, earthquake, flood and fidelity bonds. The Board worked with its insurance broker, Alliant Insurance Services, Inc., to review insurance requirements in order to secure the most appropriate coverage at the least possible cost. The Board was once again the proud recipient of the New

Jersey Schools Insurance Group Safety Award. The award is based upon a safety audit and the implementation of effective safety programs.

11. OTHER INFORMATION: Independent Audit - State statutes require an annual audit by independent certified public accountants or registered municipal accountants. The accounting firm of Jump, Perry and Company, L.L.P, was selected by the Board to provide this service. In addition to meeting the requirements set forth in state statutes, the audit was designed to meet the requirements of the Single Audit Act of 1984 and the related Uniform Guidance and New Jersey OMB's Circular 15-08. The auditor's report on the basic financial statements and combined and individual fund statements and schedules is included in the financial section of this report. The auditor's reports specifically related to the single audit are included in the single audit section of this report.

12. ACKNOWLEDGEMENTS: We would like to express our appreciation to the members of the Sea Girt Board of Education for their continued concern in providing fiscal accountability to the taxpayers and citizens of the Borough of Sea Girt, thereby contributing their full support to the development and maintenance of the District's financial operation.  
Respectfully submitted,

## FINANCIAL SECTION

## INDEPENDENT AUDITOR'S REPORT

Honorable President and  
Members of the Board of Education  
Sea Girt School District:  
County of Monmouth  
Sea Girt, New Jersey

### Report on the Audit of the Financial Statements

#### *Opinions*

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Sea Girt School District in the County of Monmouth, State of New Jersey, as of and for the year ended June 30, 2024, and the related notes to the financial statements, which collectively comprise the School District's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above, present fairly in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Sea Girt School District in the County of Monmouth, State of New Jersey as of June 30, 2024 and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### *Basis for Opinions*

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Sea Girt School District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### *Responsibilities of Management for the Financial Statements*

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Sea Girt School District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

## ***Auditor's Responsibilities for the Audit of the Financial Statements***

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Sea Girt School District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Sea Girt School District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

## **Required Supplementary Information**

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, the schedules related to accounting and reporting for pensions and the schedules related to accounting and reporting for postemployment benefits other than pensions, be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

## Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise of Sea Girt School District's basic financial statements. The accompanying combining and individual nonmajor fund financial statements and schedule of expenditures of federal awards, as required by Title 2 U.S. *Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements and the schedule of expenditures of federal awards are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

## Other Information

Management is responsible for the other information included in the annual report. The other information comprises the introductory and statistical sections but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

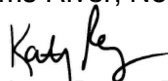

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

## Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated January 3, 2025 on our consideration of Sea Girt School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Sea Girt School District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Sea Girt School District's internal control over financial reporting and compliance.

Respectfully Submitted,

## REQUIRED SUPPLEMENTARY INFORMATION - PART I

Sea Girt School District  
Management's Discussion and Analysis  
For the Fiscal Year Ended June 30, 2024  
Unaudited

The discussion and analysis of Sea Girt School District's financial performance provides an overall review of the School Board's financial activities for the fiscal year ended June 30, 2024. The intent of this discussion and analysis is to look at the School Board's financial performance as a whole; readers should also review the notes to the basic financial statements and financial statements to enhance their understanding of the School Board's financial performance.

### **Financial Highlights**

Key financial highlights for June 30, 2024 are as follows:

Net position totaled \$9,602,291, which represents a 1.54 percent increase from June 30, 2023.

General revenues accounted for \$5,926,833 in revenue or 90.87 percent of all revenues. Program specific revenues in the form of charges for services, operating grants and contributions, and capital grants and contributions accounted for \$595,343 or 9.13 percent of total revenues of \$6,522,176.

Total assets increased \$98,385 as current assets increased by \$223,881 and capital assets decreased by \$(125,496).

The School Board had \$6,376,682 in expenses; only \$595,343 of these expenses were offset by program specific charges for services, grants or contributions. General revenues (primarily property taxes) of \$5,926,833 were adequate to provide for these programs.

Among major funds, the General Fund had \$5,955,985 in revenues and \$5,764,403 in expenditures and transfers. The General Fund's balance increased \$191,582 over June 30, 2023. The General Fund's balance is \$4,582,524.

### **Using this Annual Comprehensive Financial Report (ACFR)**

The annual report consists of a series of financial statements and notes to those statements. These statements are organized so the reader can understand Sea Girt School District as a financial whole, an entire operating entity. The statements then proceed to provide an increasingly detailed look at specific financial activities.

The Statement of Net Position and Statement of Activities provide information about the activities of the School Board, presenting both an aggregate view of the School Board's finances and longer-term view of those finances. Fund financial statements provide the next level of detail. For government funds, these statements tell how services were financed in the short term as well as what remains for future spending. The fund financial statements also look at the School Board's most significant funds with all other non-major funds presented in total in one column. In the case of Sea Girt School District, the General Fund is by far the most significant.

## **Reporting the School Board as a Whole**

### **Statement of Net Position and the Statement of Activities**

The Statement of Net Position and Statement of Activities provide information about the activities of the entire School District and are designed to provide readers with a broad overview of the District's finances, in a manner similar to private-sector business.

These statements include all assets, deferred outflows of resources, liabilities, and deferred inflows of resources using the accrual basis of accounting similar to the accounting used by most private-sector businesses. This basis of accounting takes into consideration all of the current year's revenues and expenses regardless of when cash is received or paid.

These two statements report the District's net position and changes in net position. The change in net position is important because it informs the reader that, for the School District as a whole, the financial position of the School District has improved or worsened. The causes of the change may be the result of many factors, some financial and some not. Non-financial factors include, but are not limited to, the District's property tax base, current laws in New Jersey restricting revenue growth, facility conditions, and required educational programs. In the Statement of Net Position and the Statement of Activities, the School Board is divided into two kinds of activities:

**Governmental Activities** - All of the School Board's programs and services are reported here including, instruction, support services, operation and maintenance of plant facilities, pupil transportation and extracurricular activities.

**Business-Type Activities** - This service is provided on a charge for goods or services basis to recover all the expense of the goods or services provided. The EBS Funds are reported as a business activity.

## **Reporting the School Board's Most Significant Funds**

### **Fund Financial Statement**

The Analysis of the School Board's major funds begins with Exhibit B-1. Fund financial reports provide detailed information about the School Board's major funds. The School Board's major governmental funds are the General Fund and Special Revenue Fund.

### **Governmental Funds**

The School Board's activities are reported in governmental funds, which focus on how money flows into and out of the funds and balances left at year-end available for spending in the future years. These funds are reported using a modified accrual accounting method which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the School Board's general government operations and the basic services it provides. Governmental fund information helps determine whether there are more or fewer financial resources that can be spent in the near future to finance educational programs. The relationship between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds is reconciled in the financial statements.

### **Enterprise Fund**

The Enterprise Fund uses the same basis of accounting as business-type activities.

## The School Board as a Whole

The Statement of Net Position provides the financial perspective of the School Board as a whole.

Table 1 provides a summary comparison of the School Board's net position for June 30, 2024 and 2023.

The unrestricted net position is a negative balance due to the unfunded liabilities for compensated absences and PERS pension. The District expects to be able to fund these liabilities as they come due yearly.

The School Board's combined net position was \$9,602,291 on June 30, 2024. This is a change of 1.54% from the previous year.

Table 2 provides a comparison analysis of the School Board's changes in net position from fiscal years June 30, 2024 and 2023.

The Federal and State aid decreased due to the decrease in grants available.

Regular instructional costs overall increased, but the budget did include the negotiated contractual increases in salary and benefits as well as program maintenance and enhancements. Increase in instructional programs were caused by unilateral placements not occurring as budgeted and health benefit costs.

Other support services increased primarily due to the additional other purchased professional services from the Special Revenue Fund.

## Expenses for Fiscal Year June 30, 2024

### Business-Type Activities

Revenues for the District's business-type activities (EBS) were comprised of charges for royalties.

Total Enterprise Fund revenue exceeded expenses by \$30,726.

Charges for services represent \$211,557 of revenue. This represents the amount paid for royalty fees.

### Governmental Activities

The Statement of Activities shows the cost of program services and the charges for services and grants offsetting those services. Table 3 shows the total costs of services and the net cost of services. The net cost shows the financial burden that was placed on the School District's taxpayers by each of these functions.

Instruction expenses include activities directly dealing with the teaching of pupils and the interaction between teacher and student, including extracurricular activities.

Extracurricular activities includes expenses related to student activities provided by the District which are designed to provide opportunities for students to participate in school and public events for the purpose of motivation, enjoyment, skill improvement, school spirit and leadership. Greater than 90% of the student population participates in extracurricular activities.

Pupils and instructional staff include the activities involved with assisting staff with the content and process of teaching to students, including curriculum and staff development.

General administration, school administration and business include expenses associated with administrative and financial supervision of the District.

Operation and maintenance of facilities activities involve keeping the school grounds, buildings, and equipment in an effective working condition.

Pupil transportation includes activities involved with the conveyance of students to and from school, to school curricular and athletic activities and field trips as provided by state law.

## The School Board's Funds

The School Board uses funds to control and manage money for particular purposes. The Fund's basic financial statements allow the School Board to demonstrate its stewardship over and accountability for resources received from the Borough of Sea Girt, State of New Jersey and other entities. These statements also allow the reader to obtain more insight into the financial workings of the School Board, and assess further the School Board's overall financial health.

As the School Board completed the fiscal year ended June 30, 2024, it reported a combined fund balance of \$4,620,127, which is a increase of \$191,816. The Statement of Revenues, Expenditures and Changes in Fund Balances of Governmental Funds, Exhibit B-2, presents the reader with a detailed explanation of the increase in fund balance for the fiscal year.

The following schedule presents a summary of General Fund, Special Revenue Fund, Capital Projects Fund and Debt Service Fund revenues for the fiscal year ended June 30, 2024.

## General Fund Budgeting Highlights

The School Board's budget is prepared according to New Jersey law and is based on accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances. The most significant budgeted fund is the General Fund.

Over the course of the year, the School Board revises its budget as it attempts to take into consideration unexpected changes in revenue and expenditures.

A schedule showing the School Board's original and final budget compared with actual operating results is provided in Section C of the ACFR, entitled Budgetary Comparison Schedules. The School Board generally did better than had been budgeted in its General Fund since it practices conservative budgetary practices in which revenues are forecasted very conservatively and expenditures are budgeted with worst-case scenarios in mind.

The General Fund finished the fiscal year approximately \$684,750 better than had been budgeted in terms of expenditures. Revenue-wise, the General Fund fared about \$348,919 better than expected. Both these amounts have been adjusted for the non-budgeted amounts reflected in the comparison schedule for reimbursed TPAF social security contributions and on-behalf TPAF post-retirement medical contributions, TPAF LTDI, and TPAF Pension Contributions.

The General Fund has restricted a portion of its Fund Balance. The restricted Fund Balance items are as follows:

Excess Surplus - Designated for Subsequent Year	
Expenditures	\$ 549,158
Capital Reserve	2,739,914
Maintenance Reserve	200,000
Unemployment Reserve	51,040
Excess Surplus - Current Year	651,919

These restricted reserves are regulated as to their use by the State of New Jersey. Therefore, the Board places funds in the reserves in combination with the future financial needs of the District.

The expenditures were less due to cost containment by the Board even after the salary and benefit increases. General supplies were purchased at better prices than expected due to the school board joining other schools in cooperative bidding. The district also joined a co-op for energy consumption, which was done after the budget was struck. Through efforts made in finding jointures with other local districts, and increase in students on district owned vehicles the district transportation costs were lowered for special needs students.

The revenue situation arose primarily because of tuition received from out of district students.

The excesses will be carried forward into the beginning fund balance from the 2023-2024 fiscal year and may be used to reduce the local tax levy for the 2025-2026 fiscal year.

## Capital Assets and Debt Administration

*Capital Assets.* At the end of the fiscal year June 30, 2024, the School Board had \$4,728,916 invested in land, buildings, and machinery and equipment.

Table 4

Capital Assets (Net of Depreciation) at June 30, 2024 and June 30, 2023

During the current fiscal year, \$37,363 of capital assets were capitalized as additions. Increases in capital assets were offset by depreciation expense for the year.

*Debt Administration.* The District's long-term liabilities are as follows for the governmental activities at June 30, 2024 and June 30, 2023.

	June 30, 2024	June 30, 2023

For more detailed information, please refer to the Capital Assets and Long-term debt notes in the basic financial statements.

## Economic Factors and Next Year's Budget

For the 2023-2024 school year, the School Board was able to sustain its budget through the local tax levy, state education aid and local revenue sources. Approximately 12.62% of the School Board's revenue is from federal, state and local aid (restricted and not restricted), while 87.38% of total revenue is from local sources.

The \$(136,386) in unrestricted net position for all governmental activities represents the accumulated results of all past years' operations. It means that if the School Board had to pay off all bills today, including all of the School Board's non-capital liabilities (compensated absences, etc.), the School Board would have that much in value.

The 2023-2024 budget was adopted in March 2023 based in part on the state education aid the School Board anticipated receiving. Any future increases based on the enrollment formula, originally formulated to allocate state education aid amongst school boards, will be minimal. Future decreases in local revenue and state education aid will place additional burden on the Sea Girt School District for increased aid.

The School Board anticipates the same enrollment for the 2024-2025 fiscal year. If the School Board were to experience a significant increase in enrollment with no appreciable increase in state aid for future budgets, the School Board will be faced with the following alternatives: (a) reduce programs and services, (b) increase local tax levy or (c) seek alternative sources of funding.

### **Contacting the School Board's Financial Management**

This financial report is designed to provide our citizens, taxpayers, investors and creditors with a general overview of the School Board's finances and to show the School Board's accountability for the money it receives. Sea Girt School District

Notes to Financial Statements

For the Year Ended June 30, 2024

**1. Summary of Significant Accounting Policies**

The financial statements of the Board of Education ("Board") of the Sea Girt School District ("District") have been prepared in conformity with accounting principles generally accepted in the United States of America ("GAAP") as applied to governmental units. The Governmental Accounting Standards Board ("GASB") is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the Board's accounting policies are described below.

**A. Reporting Entity:**

The Sea Girt School District is a Type II district located in the county of Monmouth, State of New Jersey. As a Type II district, the School District functions independently through a Board of Education. The Board is comprised of five members elected to three-year staggered terms. The purpose of the District is to educate students in grades PreK - 8. The Sea Girt School District had an approximate enrollment of 144 students at June 30, 2024.

The Board is an instrumentality of the State of New Jersey, established to function as an educational institution. The Board consists of elected officials and is responsible for the fiscal control of the District. A Superintendent is appointed by the Board and is responsible for the administrative control of the District.

The primary criterion for including activities within the District's reporting entity, as set forth in Section 2100 of the GASB Codification of Governmental Accounting and Financial Reporting Standards, is the degree of oversight responsibility maintained by the District. Oversight responsibility includes financial interdependency, selection of governing authority, designation of management, ability to significantly influence operations and accountability for fiscal matters. The district-wide financial statements include all funds and account groups of the District over which the Board exercises operating control. There were no additional entities required to be included in the reporting entity under the criteria as described above, in the current fiscal year. Furthermore, the District is not includable in any other reporting entity on the basis of such criteria.

**B. Basis of Presentation, Basis of Accounting**

The School District's basic financial statements consist of District-wide statements, including a Statement of Net Position and a Statement of Activities, and Fund Financial Statements which provide a more detailed level of financial information.

The School District has employees that are enrolled in a defined benefit plan operated by the State of New Jersey which creates deferred outflows and inflows as described in Note 9.

1. Summary of Significant Accounting Policies (Continued)

B. Basis of Presentation, Basis of Accounting (Continued)

District-Wide Statements: The district-wide financial statements (A-1 and A-2) include the statement of net position and the statement of activities. These Statements include the financial activities of the overall District, except for fiduciary activities. All interfund activity, excluding the fiduciary funds, has been eliminated in the statement of activities. Individual funds are not displayed but the statements distinguish governmental activities, generally financed in whole or in part with fees charged to external customers.

The Statement of Net Position presents the financial condition of the governmental and business-type activity of the District at fiscal year end. The Statement of Activities presents a comparison between direct expenses and program revenues for the business-type activity of the District and for each function of the District's governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function.

Program revenues include (a) fees and charges paid by the recipients of goods or services offered by the programs and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues. The comparison of direct expenses with program revenues identifies the extent to which each governmental function or business segment is self-financing or draws from the general revenues of the District.

Fund Financial Statements: During the fiscal year, the District segregates transactions related to certain District functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. The Fund Financial Statements provide information about the District's funds, including its fiduciary funds. Separate statements for each Fund category - governmental, proprietary, and fiduciary - are presented. The New Jersey Department of Education ("NJDOE") has elected to require New Jersey districts to treat each governmental fund as a major fund in accordance with the option noted by Governmental Accounting Standards. The NJDOE believes that the presentation of all funds as major is important for public interest and to promote consistency among district financial reporting models.

The District reports the following governmental funds:

**General Fund** - The General Fund is the general operating fund of the District and is used to account for all financial resources except those required to be accounted for in another fund. Included are certain expenditures for vehicles and movable instructional or noninstructional equipment, which are classified in the Capital Outlay subfund.

As required by the NJDOE, the District includes budgeted capital outlay in this Fund. Generally accepted accounting principles as they pertain to governmental entities state that General Fund resources may be used to directly finance capital outlays for long-lived improvements as long as the resources in such cases are derived exclusively from unrestricted revenues.

Notes to Financial Statements

For the Year Ended June 30, 2024

1. **Summary of Significant Accounting Policies (Continued)**

**B. Basis of Presentation, Basis of Accounting (Continued)**

Resources for budgeted capital outlay purposes are normally derived from State of New Jersey Aid, District taxes and appropriated Fund Balance. Expenditures are those that result in the acquisition of or additions to Capital Assets for land, existing buildings, improvements of grounds, construction of buildings, additions to or remodeling of buildings and the purchase of built-in equipment. These resources can be transferred from and to Current Expense by Board resolution.

**Special Revenue Fund** - The Special Revenue Fund is used to account for all proceeds of specific revenue from State and Federal Government, (other than major capital projects, Debt Service or the Enterprise Funds) and local appropriations that are legally restricted to expenditures for specified purposes.

**Capital Projects Fund** - The Capital Projects Fund is used to account for all financial resources to be used for the acquisition or construction of major capital facilities (other than those financed by Proprietary Funds). The financial resources are derived from temporary notes or serial bonds that are specifically authorized by the voters as a separate question on the ballot either during the annual election or at a special election.

**Debt Service Fund** - The Debt Service Fund is used to account for the accumulation of resources for, and the payment of, principal and interest on bonds issued to finance major property acquisition, construction and improvement programs.

The focus of Proprietary Fund measurement is upon determination of net income, changes in net position, financial position and cash flows. The accounting principles generally accepted in the United States of America applicable are those similar to businesses in the private sector. Proprietary Funds are classified as enterprise or internal service; the Board has no internal service funds. The District reports the following proprietary funds:

**Enterprise Fund** - The Enterprise Fund accounts for all revenues and expenses pertaining to the Board's EBS Royalty program. The Enterprise Fund is utilized to account for operations that are financed and operated in a manner similar to private business enterprises. The stated intent is that the costs (i.e., expenses including depreciation and indirect costs) of providing goods or services to the students on a continuing basis be financed or recovered primarily through user charges.

**Fiduciary Funds** - The Fiduciary Funds are used to account for assets held by the District on behalf of others if applicable.

Basis of Accounting determines when transactions are recorded in the financial records and reported on the financial statements.

Sea Girt School District

Notes to Financial Statements

For the Year Ended June 30, 2024

1. **Summary of Significant Accounting Policies (Continued)**

**B. Basis of Presentation, Basis of Accounting (Continued)**

**District-Wide, Proprietary, and Fiduciary Fund Financial Statements:** The District-wide financial statements are prepared using the accrual basis of accounting. Governmental funds are accounted for using the "economic resources" measurement focus and the modified accrual basis of accounting; the Enterprise Fund and Fiduciary Funds are accounted for using the "economic resources" measurement focus and the accrual basis of accounting. Differences in the accrual basis of accounting arise in the recognition of revenue, the recording of unearned revenue, and in the presentation of expenses versus expenditures. Revenue from grants, entitlements, and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

**Governmental Fund Financial Statements:** Governmental Funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, claims and judgments, and compensated absences, which are recognized as expenditures to the extent they have matured. General capital asset acquisitions are reported as expenditures in governmental funds, proceeds of general long-term debt and acquisitions under capital releases are reported as other financing sources.

**Property Taxes:** Ad Valorem (Property) Taxes are susceptible to accrual as, under New Jersey State Statute, a municipality is required to remit to its school district the entire balance of taxes in the amount voted upon or certified, prior to the end of the school year. The District records the entire approved tax levy as revenue (accrued) at the start of the fiscal year, since the revenue is both measurable and available. The District is entitled to receive monies under the established payment schedule and the unpaid amount is considered to be an "Accounts Receivable".

**C. Budgets/Budgetary Control**

Annual appropriated budgets are prepared in the spring of each year for the General, Special Revenue, and Debt Service Funds. The budgets are submitted to the County Office and are not voted upon in the annual school election. Budgets are prepared using the modified accrual basis of accounting, except for Special Revenue Fund. Line item accounts are defined as the lowest (most specific) level of detail as established pursuant to the minimum chart of accounts referenced in N.J.A.C 6A:23A-16.2(f). All budget amendments/transfers must be approved by Board resolution. All budget amounts presented in the accompanying supplementary information reflect the original budget and the amended budget (which have been adjusted for legally-authorized revisions of the annual budgets during the year).

Appropriations, except remaining project appropriations, encumbrances, and unexpected grant appropriation, lapse at the end of each fiscal year. The Capital Project Fund presents the remaining project appropriations compared to current-year expenditures.

Sea Girt School District

Notes to Financial Statements

For the Year Ended June 30, 2024

**1. Summary of Significant Accounting Policies (Continued)**

**C. Budgets/Budgetary Control (Continued)**

Formal budgetary integration into the accounting system is employed as a management control device during the year. For governmental funds there are no substantial differences between the budgetary basis of accounting and generally accepted accounting principles with the exception of the legally mandated revenue recognition of the last state aid payment for budgetary purposes only and the Special Revenue Fund as noted below. Encumbrance accounting is also employed as an extension of formal budgetary integration in the governmental fund-types. Unencumbered appropriations lapse at fiscal year end.

The accounting records of the Special Revenue Fund are maintained on the grant accounting budgetary basis. The grant accounting budgetary basis differs from GAAP in that the grant accounting budgetary basis recognizes encumbrances as expenditures and also recognizes the related revenues, whereas the GAAP basis does not. Sufficient supplemental records are maintained to allow for the presentation of GAAP basis financial reports. At June 30, 2024, there was a reconciling difference of \$(760,385) between the budgetary basis and GAAP basis in the General Fund and of \$49,605 in the Special Revenue Fund.

**D. Encumbrances**

Under Encumbrance Accounting, purchase orders, contracts and other commitments for the expenditure of resources are recorded to reserve a portion of the applicable appropriation. Open encumbrances in governmental funds other than the Special Revenue Fund are reported as reservations of fund balances at fiscal year end as they do not constitute expenditures or liabilities but rather commitments related to unperformed contracts for goods and services.

Open encumbrances in the Special Revenue Fund, for which the District has received advances are reflected in the Balance Sheet as deferred revenues at fiscal year end.

The encumbered appropriation authority carries over into the next fiscal year. An entry will be made at the beginning of the next fiscal year to increase the appropriation reflected in the certified budget by the outstanding encumbrance amount as of the current fiscal year end.

**E. Cash, Cash Equivalents and Investments**

Cash and cash equivalents include petty cash, change funds, cash in banks and all highly liquid investments with a maturity of three months or less at the time of purchase and are stated at cost plus accrued interest. U.S. Treasury and agency obligations and certificates of deposit with maturities of one year or less when purchased are stated at cost. All other investments are stated at fair value.

New Jersey school districts are limited as to the types of investments and types of financial institutions they may invest in. New Jersey statute 18A:20-37 provides a list of permissible investments that may be purchased by New Jersey school districts.

Sea Girt School District

Notes to Financial Statements

For the Year Ended June 30, 2024

**1. Summary of Significant Accounting Policies (Continued)**

**E. Cash, Cash Equivalents and Investments (Continued)**

Additionally, the District has adopted a cash management plan that requires it to deposit public funds in public depositories protected from loss under the provisions of the Governmental Unit Deposit Protection Act ("GUDPA"). GUDPA was enacted in 1970 to protect Governmental Units from a loss of funds on deposit with a failed banking institution.

N.J.S.A. 17:9-41 et. seq. establishes the requirements for the security of deposits of governmental units. The statute requires that no governmental unit shall deposit public funds in a public depository unless such funds are secured in accordance with the Act. Public depositories include Savings and Loan institutions, banks (both state and national banks) and savings banks the deposits of which are federally insured. All public depositories must pledge collateral, having a market value at least equal to five percent of the average daily balance of collected public funds, to secure the deposits of Governmental Units. If a public depository fails, the collateral it has pledged, plus the collateral of all other public depositories, is available to pay the full amount of their deposits to the Governmental Units.

**F. Assets, Liabilities, and Equity**

**Short-Term Interfund Receivables/Payables**

Short-term interfund receivables/payables represent amounts that are owed, other than charges for goods or services rendered to/from a particular fund in the District and that are due within one year. All interfund receivables and payables between the governmental and proprietary funds have been eliminated in the district-wide statements.

**Interfund Transactions**

Transfers between Governmental and Business-Type activities on the District-wide statements are reported in the same manner as general revenues.

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as Interfund transfers. Interfund transfers are reported as other financing sources/uses in Governmental Funds and after non-operating revenues/expenses to the funds that initially paid for them are not presented on the financial statements.

**Inventory**

On District-wide financial statements, inventories are presented at cost, which approximates market on a first in, first-out basis and are expensed when used.

On fund financial statements inventories are valued at cost, which approximates market, using the first-in-first-out (FIFO) method. Inventories of proprietary funds consist of food and goods held for resale, as well as supplies, and are expensed when used.

1. Summary of Significant Accounting Policies (Continued)

F. Assets, Liabilities, and Equity (Continued)

Prepaid items

Payments made to vendors for services that will benefit periods beyond June 30, 2024, are recorded as prepaid items using the consumption method. A current asset for the prepaid amount is recorded at the time of purchase and an expenditure/expense is reported in the year in which services are consumed.

Deferred Outflows/Inflows of Resources

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represent a consumption of net position that applies to a future period(s) and so will *not* be recognized as an outflow of resources (expense/expenditure) until then.

In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to future periods and so will *not* be recognized as an inflow of resources (revenue) until that time.

Capital Assets

The District has an established formal system of accounting for its Capital Assets. Purchased or constructed Capital Assets are reported at cost. Donated Capital Assets are valued at their estimated fair market value on the date received. The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized. The District does not possess any infrastructure. The capitalization threshold used by school districts in the State of New Jersey is \$2,000.

All reported Capital Assets except for Land and Construction in Progress are depreciated. Depreciation is computed using the straight-line method over the following estimated useful lives:

<u>Asset Class</u>	<u>Estimated Useful Lives</u>
Building and improvements	20-50 years
Furniture and equipment	5-20 years
Vehicles	8 years

In the fund financial statements, capital assets used in governmental fund operations are accounted for as capital outlay expenditures of the governmental fund upon acquisition. Capital assets are not capitalized and related depreciation is not reported in the fund financial statements.

Sea Girt School District

Notes to Financial Statements

For the Year Ended June 30, 2024

**1. Summary of Significant Accounting Policies (Continued)**

**F. Assets, Liabilities, and Equity (Continued)**

**Capital Assets (Continued)**

In the fund financial statements, capital assets used in governmental fund operations are accounted for as capital outlay expenditures of the governmental fund upon acquisition. Capital assets are not capitalized and related depreciation is not reported in the fund financial statements.

**Compensated Absences**

The District accounts for Compensated Absences (e.g., unused vacation, sick leave) as directed by Governmental Accounting Standards. A liability for Compensated Absences attributable to services already rendered and not contingent on a specific event that is outside the control of the employer and the employee is accrued as the employees earn the rights to the benefits.

District employees are granted varying amounts of vacation and sick leave in accordance with the District's personnel policy. Upon termination, employees are paid for accrued vacation. The District's Policy permits employees to accumulate unused sick leave and carry forward the full amount to subsequent years. Upon retirement, employees shall be paid by the District for the unused sick leave in accordance with the District's agreements with the various employee unions.

In the District-wide Statement of Net Position, the liabilities whose average maturities are greater than one year should be reported in two components - the amount due within one year and the amount due in more than one year.

The liability for vested compensated absences of the proprietary fund-types is recorded within those funds as the benefits accrue to employees. As of June 30, 2024, no liability existed for compensated absences in the Enterprise Fund.

**Unearned Revenue**

Unearned Revenue arises when assets are recognized before revenue recognition criteria have been satisfied. Grants and entitlement received before the eligibility requirements are met are also recorded as Unearned Revenue.

**Accrued Liabilities and Long-Term Obligations**

All Payables, Accrued Liabilities, and Long-Term Obligations are reported on the District-wide financial statements. In general, governmental fund payables are accrued liabilities that, once incurred are paid in a timely manner and in full from current financial resources are reported as obligations of the funds. However, contractually-required pension contributions and compensated absences that are paid from governmental funds are reported as liabilities on the fund financial statements only to the extent that they are due for payment during the current year. Bonds are recognized as a liability on the fund financial statements when due.

F. Assets, Liabilities, and Equity (Continued)

**Net Position**

Net Position represents the difference between assets and liabilities. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balance of any borrowing used for the acquisition, construction, or improvement of those assets. Net Position is reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the District or through external restrictions imposed by creditors, grantors, or laws or regulations of other governments. The District's policy is to first apply restricted resources when an expense is incurred for purposes for which both restricted and unrestricted Net Position are available.

**Fund Balance Reserves**

Governmental Accounting Standards established fund balance classifications that comprise a hierarchy based primarily on the extent to which a government is bound to observe constraints imposed upon the use of the resources reported in governmental funds. Fund balances in the governmental funds financial statements are reported under the modified accrual basis of accounting and classified into the following five categories, as defined below:

1. Nonspendable - includes amounts that cannot be spent because they are either (a) not in spendable form or (b) legally or contractually required to be maintained intact. Assets included in this fund balance category include prepaid assets, inventories, long-term receivables, and corpus of any permanent funds.
2. Restricted - includes amounts that can be spent only for the specific purposes stipulated by constitution, external resource providers, or through enabling legislation.
3. Committed - includes amounts that can be spent only for the specific purposes determined by a formal action of the government's highest level of decision-making authority.
4. Assigned - amounts intended to be used by the government for specific purposes but do not meet the criteria to be classified as restricted or committed. This intent can be expressed by the Board of Education or through the Board of Education delegating this responsibility to the business administrator through the budgetary process.
5. Unassigned - includes all spendable amounts not contained in the other classifications.

**Revenues - Exchange and Nonexchange Transactions**

Revenue resulting from Exchange Transactions, in which each party gives and receives essentially equal value, is recorded on the actual accrual basis when the Exchange takes place. On the modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the District available means within sixty days of the fiscal year end.

Nonexchange Transactions, in which the District receives value without directly giving equal value in return, include property taxes, income taxes, grants, entitlements, and donations. On the accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from income taxes is recognized in the period in which the income is earned. Revenue from grants, entitlements, and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the fiscal year when use is first permitted; matching requirements, in which the District must provide local resources to be used for a specific purpose; and expenditure requirements, in which the resources are provided to the District on a reimbursement basis. On the modified accrual basis, revenue from Nonexchange Transactions must also be available before it can be recognized.

Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at fiscal year end: property taxes available as an advance, interest, and tuition.

**Tuition Revenue/Receivables**

Tuition charges were established by the Board of Education based on estimated costs. The charges are subject to adjustment when the final costs have been determined.

**Operating Revenues and Expenses**

Operating revenues are those revenues that are generated directly from the primary activity of the Enterprise Fund. For the School District, these revenues are royalties. Operating expenses are necessary costs incurred to provide the service that is the primary activity of the Enterprise Fund.

**Allocation of Indirect Expenses**

The District reports all Direct Expenses by function in the Statement of Activities. Direct Expenses are those that are clearly identifiable with a function. Indirect Expenses are allocated to functions but are reported separately in the Statement of Activities. Employee Benefits, including the employer's share of Social Security, workers compensation, and medical and dental benefits, were allocated based on salaries of that program. Depreciation expense, where practicable, is specifically identified by function and is included in the Indirect Expense column of the Statement of Activities. Depreciation expense that could not be attributable to a specific function is considered an Indirect Expense and is reported separately in the Statement of Activities. Interest on long-term debt is considered an Indirect Expense and is reported separately on the Statement of Activities.

**Extraordinary and Special Items**

Extraordinary Items are transactions or events that are unusual in nature and infrequent in occurrence. Special items are transactions or events that are within the control of management and are either unusual in nature or infrequent in occurrence. Neither of these types of transactions occurred during the fiscal year.

**Management Estimates**

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of revenues and expenditures/expenses during the reporting period. Actual results could differ from those estimates.

G. GASB Pronouncements

Recently Issued Accounting Pronouncements to be implemented in future years

Statement No. 101, *Compensated Absences*. The objective of this Statement is to better meet the information needs of financial statement users by updating the recognition and measurement guidance for compensated absences. Statement No. 101 is effective for fiscal years beginning after December 15, 2023, and all reporting periods thereafter. Earlier application is encouraged.

Statement No. 102, *Certain Risk Disclosures*. The objective of this Statement is to provide users of government financial statements with essential information about risks related to a government's vulnerabilities due to certain concentrations or constraints. The requirements of this Statement are effective for fiscal years beginning after June 15, 2024, and all reporting periods thereafter. Earlier application is encouraged.

Statement No. 103, *Financial Reporting Model Improvements*. The objective of this Statement is to provide users of government financial statements with essential information about certain types of capital assets. The requirements of this Statement are effective for fiscal years beginning after June 15, 2025, and all reporting periods thereafter. Earlier application is encouraged.

2. Cash, Cash Equivalents and Investments

Custodial Credit Risk is the Risk that, in the event of a bank failure, the Board's deposit might not be recovered. Although the Board does not have a formal policy regarding custodial credit risk, NJSA 17:9-41 et seq. requires that governmental units shall deposit public funds in public depositories protected from loss under the provisions of GUDPA. Under the Act, the first \$250,000 of governmental deposits in each insured depository is protected by FDIC. Public funds owned by the Board in excess of FDIC insured amounts are protected by GUDPA. However, GUDPA does not protect intermingled trust funds such as salary withholdings, bail funds, or funds that may pass to the Board relative to the happening of a future condition. Such funds are shown as Uninsured and Uncollateralized in the schedule below. At June 30, 2024, the School District's bank balances of \$6,319,072 were exposed to Custodial Credit Risk as follows:

	2024
Insured	\$ 6,272,054
Uninsured and Uncollateralized	<u>47,018</u>
	<u>\$ 6,319,072</u>

**2. Cash, Cash Equivalents and Investments (Continued)**

Investments

Pursuant to the Enabling Act, the funds of the District may be invested in any direct obligations of, or obligations as to which the principal and interest thereof is guaranteed by, the United States of America or other obligations as the District may approve.

New Jersey Asset and Rebate Management Program ("NJARM") - The Program has been established as a joint investment trust, (the "Trust"), by local governmental units in the State of New Jersey, (the "State"), consistent with the Interlocal Services Act, constituting Chapter 208 of the Pamphlet Laws of 1973 of the State of New Jersey and the acts amendatory thereof and supplemental thereto (N.J.S.A. 40:8A-1 et seq.), (the "Interlocal Services Act"), to make available to counties, municipalities, school districts, authorities, or other political subdivisions of the State, and where applicable, any bond trustee acting on behalf of such local government, a convenient method for investing and accounting for surplus cash and tax-exempt debt proceeds. The Program seeks to invest tax-exempt bond and note proceeds in compliance with arbitrage management and rebate requirements of the Internal Revenue Code of 1986, as amended. The Program also provides for record keeping, depository and arbitrage rebate calculation.

New Jersey Cash Management Fund ("NJCMF") - The NJCMF is administered by the New Jersey Department of Treasury. It invests pooled monies from various State and non-State agencies in primarily short-term investments. These investments include: U.S. Treasuries, short-term Commercial Paper, U.S. Agency Bonds, Corporate Bonds, and investment rates. Monies can be freely added or withdrawn from the NJCMF on a daily basis without penalty.

As of June 30, 2024, the District had \$2,065,874 on deposit with the New Jersey Asset and Rebate Management Program and \$44,614 with the New Jersey Cash Management Fund.

Interest Rate Risk

The District does not have a policy to limit interest rate risk. The average maturity of the District's investments with the NJARM and NJCMF is less than one year.

Credit Risk

State law limits investments as noted above (N.J.S.A. 18A:20-37). The District has an investment policy that further limits its investment choices.

Investment and interest earnings in the Capital Projects Fund are assigned to the Debt Service Fund in accordance with Board policy.

**3. Capital Reserve Account**

A Capital Reserve Account was established by the Sea Girt School District for the accumulation of funds for use as capital outlay expenditures in subsequent fiscal years. The Capital Reserve Account is maintained in the General Fund and its activity is included in the General Fund annual budget.

Funds placed in the Capital Reserve Account are restricted to Capital Projects in the District's approved Long Range Facilities Plan ("LRFP"). Upon submission of the LRFP to the Department, a district may deposit funds at any time upon board resolution through the transfer of undesignated, unreserved general fund balance or of excess undesignated, unreserved general fund balance that is anticipated in the budget certified for taxes. Post-April 2004 transfers must be in compliance with P.L. 2004, C.73 (S1701). Pursuant to N.J.A.C. 6:23A-14.1(g), the balance in the Account cannot at any time exceed the local support costs of uncompleted Capital Projects in its approved LRFP.

The activity of the Capital Reserve for the July 1, 2023 to June 30, 2024 fiscal year is as follows:

Beginning Balance, July 1, 2023	\$ 2,394,432
Add:	
Increase per Resolution	285,000
Interest earnings	60,482
Less:

Ending Balance, June 30, 2024	<u>\$ 2,739,914</u>

**4. Maintenance Reserve Account**

A maintenance Reserve Account was established by the Sea Girt School District by inclusion of \$200,000 for the accumulation of funds for use as maintenance of Capital Projects in subsequent fiscal years. The Maintenance Reserve Account is maintained in the General Fund and its activity is included in the General Fund annual budget.

Funds placed in the Maintenance Reserve Account are restricted to maintenance projects in the District's approved Comprehensive Maintenance Plan (CMP). Upon submission of the CMP to the New Jersey Department of Education, the District may increase the balance in the maintenance reserve by appropriating funds in the annual general fund budget certified for taxes or by transfer by board resolution at year end (June 1 to June 30) of any unanticipated revenue or unexpended line-item appropriation amounts, or both. The District may also appropriate additional amounts when the express approval of the voters has been obtained either by a separate proposal at budget time or by a special question at one of the four special elections authorized pursuant to N.J.S.A. 19:60-2. Pursuant to N.J.A.C. 6A:23A-14.2(g), the balance in the account cannot at any time exceed four percent of the replacement cost of the school district's school facilities for the current year.

For governmental activities, compensated absences payable and pension liability - PERS are liquidated by the general fund.

District employees are granted varying amounts of vacation and sick leave in accordance with the District's personnel policy. Upon termination, employees are paid for accrued vacation. The District's policy permits employees to accumulate unused sick leave and carry forward the full amount to subsequent years. Upon retirement employees shall be paid by the District for the unused sick leave in accordance with the District's agreements with the various employee unions.

B. Bonds Payable

Bonds are authorized in accordance with State law by the voters of the municipality through referendums. All bonds are retired in serial installments within the statutory period of usefulness. Bonds issued by the Board are general obligation bonds.

There are no serial bonds outstanding at June 30, 2024.

C. Bonds Authorized Not Issued

As of June 30, 2024, the Board had no bonds authorized.

9. Pension Plans

A. Public Employees' Retirement System (PERS)

**Plan Description** - The State of New Jersey, Public Employees' Retirement System (PERS) is a cost-sharing multiple-employer defined benefit pension plan administered by the State of New Jersey, Division of Pensions and Benefits (the Division). For additional information about PERS, please refer to Division's annual financial statement which can be found at [www.state.nj.us/treasury/pensions/annual-reports.shtml](http://www.state.nj.us/treasury/pensions/annual-reports.shtml).

9. Pension Plans (cont'd)

**A. Public Employees' Retirement System (PERS) (cont'd)**

The vesting and benefit provisions are set by *N.J.S.A. 43:15A*. PERS provides retirement, death and disability benefits. All benefits vest after ten years of service.

The following represents the membership tiers for PERS:

<u>Tier</u>	<u>Definition</u>
1	Members who were enrolled prior to July 1, 2007
2	Members who were eligible to enroll on or after July 1, 2007 and prior to November 2, 2008
3	Members who were eligible to enroll on or after November 2, 2008 and prior to May 22, 2010
4	Members who were eligible to enroll on or after May 22, 2010 and prior to June 28, 2011
5	Members who were eligible to enroll on or after June 28, 2011

Service retirement benefits of 1/55th of final average salary for each year of service credit is available to tiers 1 and 2 members upon reaching age 60 and to tier 3 members upon reaching age 62. Service retirement benefits of 1/60th of final average salary for each year of service credit is available to tier 4 members upon reaching age 62 and tier 5 members upon reaching age 65. Early retirement benefits are available to tiers 1 and 2 members before reaching age 60, tiers 3 and 4 with 25 years or more of service credit before age 62, and tier 5 with 30 years or more of service credit before age 65. Benefits are reduced by a fraction of a percent for each month that a member retires prior to the age at which a member can receive full early retirement benefits in accordance with their respective tier. Tier 1 members can receive an unreduced benefit from age 55 to age 60 if they have at least 25 years of service. Deferred retirement is available to members who have at least 10 years of service credit and have not reached the service retirement age for the respective tier.

**Contributions** - The contribution policy for PERS is set by N.J.S.A. 43:15A and requires contributions by active members and contributing employers. State legislation has modified the amount that is contributed by the State. The State's pension contribution is based on an actuarially determined amount which includes the employer portion of the normal cost and an amortization of the unfunded accrued liability. Funding for noncontributory group insurance benefits is based on actual claims paid. For fiscal year 2023, the State's pension contribution was less than the actuarial determined amount.

9. Pension Plans (cont'd)

**A. Public Employees' Retirement System (PERS) (cont'd)**

The local employers' contribution amounts are based on an actuarially determined rate, which includes the normal cost and unfunded accrued liability. Chapter 19, P.L. 2009 provided an option for local employers of PERS to contribute 50% of the normal and accrued liability contribution amounts certified for payments due in State fiscal year 2009. Such employers will be credited with the full payment and such amounts will not be included in their unfunded liability. The actuaries will determine the unfunded liability of those retirement systems, by employer, for the reduced normal and accrued liability contributions provided under this law. This unfunded liability will be paid by the employer in level annual payments over a period of 15 years beginning with the payments due in the fiscal year ended June 30, 2012 and will be adjusted by the rate of return on the actuarial value of assets.

**Special Funding Situation** - Under N.J.S.A. 43:15A-15, local participating employers are responsible for their own contributions based on actuarially determined amounts, except where legislation was passed which legally obligated the State if certain circumstances occurred. The legislation which legally obligates the State, are Chapter 366, P.L. 2001 and Chapter 133, P.L. 2001.

The amounts contributed on behalf of the local participating employers under this legislation is considered to be a special funding situation as defined by GASB Statement No. 68 and the State is treated as a non-employer contributing entity. Since the local participating employers do not contribute under this legislation directly to the plan (except for employer specific financed amounts), there is no net pension liability to report in the financial statements of the local participating employers related to this legislation.

However, the notes to the financial statements of the local participating employers must disclose the portion of the nonemployer contributing entities' total proportionate share of the collective net pension liability that is associated with the local participating employer. In addition, each local participating employer must recognize pension expense associated with the employers as well as revenue in an amount equal to the nonemployer contributing entities' total proportionate share of the collective pension expense associated with the local participating employer.

Additionally, the State has no proportionate share of the PERS net pension liability attributable to the District as of June 30, 2024. At June 30, 2024, the State's proportionate share of the employer pension expense and related revenue, associated with the District, calculated by the plan as of the June 30, 2023 measurement date was \$1,148.

**Pension Liability, Pension Expense and Deferred Outflows/Inflows of Resources - At**

June 30, 2024, the School District reported a liability of \$368,209 for its proportionate share of the PERS net pension liability. The net pension liability was measured as of June 30, 2023. The total pension liability used to calculate the net pension liability was determined using update procedure to roll forward the total pension liability from an actuarial valuation as of July 1, 2022, to the measurement date of June 30, 2023. The School District's proportion of the net pension liability was based on the School District's actual contributions to the plan relative to the total of all participating employers' contributions for the year ended June 30, 2023. The School District's proportion measured as of June 30, 2023, was 0.0025421105%, which was a decrease of .0000335250% from its proportion measured as of June 30, 2022.

For the year ended June 30, 2024, the School District recognized full accrual pension expense of \$13,599 in the government-wide financial statements consisting of employer contributions of \$33,976 and non-employer contributions of \$(20,377). This pension expense was based on the pension plans June 30, 2023 measurement date. At June June 30, 2024, the School District reported deferred outflows of resources and deferred inflows of resources related to PERS from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 3,521	\$ 1,505

Inflation Rate

Price	2.75%
Wage	3.25%

Salary Increases:

2.75% - 6.55%  
Based on years of service

Investment Rate of Return

7.00%

Pre-retirement mortality rates were based on the Pub-2010 General Below-Median Income Employee mortality table with an 82.2% adjustment for males and 101.4% adjustment for females, and with future improvement from the base year of 2010 on a generational basis. Post-retirement mortality rates were based on the Pub-2010 General Below-Median Income Healthy Retiree mortality table with a 91.4% adjustment for males and 99.7% adjustment for females, and with future improvement from the base year of 2010 on a generational basis. Disability retirement rates used to value disabled retirees were based on the Pub-2010 Non-Safety Disabled Retiree mortality table with a 127.7% adjustment for males and 117.2% adjustment for females, and with future improvement from the base year of 2010 on a generational basis. Mortality improvement is based on Scale MP-2021.

The actuarial assumptions used in the July 1, 2022 valuation were based on the results of an actuarial experience study for the period July 1, 2018 to June 30, 2021.

In accordance with State statute, the long-term expected rate of return on plan investments (7.00% at June 30, 2023) is determined by the State Treasurer, after consultation with the Directors of the Division of Investments and Division of Pensions and Benefits, the board of trustees and the actuaries. The long-term expected rate of return was determined using a building block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in PERS's target asset allocation as of June 30, 2023 are summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>
U.S. Equity	28.00 %	8.98 %
Non-U.S. Developed Markets Equity	12.75 %	9.22 %
International Small Cap Equity	1.25 %	9.22 %

Cash Equivalents	2.00 %	3.31 %
U.S. Treasuries	4.00 %	3.31 %

**Discount Rate**

The discount rate used to measure the total pension liability was 7.00% as of June 30, 2023. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers and the nonemployer contributing entity will be based on 100% of the actuarially determined contributions for the State employer and 100% of actuarially determined contributions for the local employers. Based on those assumptions, the plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on plan investments was applied to all projected benefit payments to determine the total pension liability.

**B. Teachers' Pension and Annuity (TPAF)**

**Plan Description** - The State of New Jersey, Teachers' Pension and Annuity Fund (TPAF) is a cost sharing multiple-employer defined benefit plan with a special-funding situation, by which a State of New Jersey (the State) is responsible to fund 100% of the employer contributions, excluding any local employer early retirement incentive (ERI) contributions. TPAF is administered by the State of New Jersey, Division of Pensions and Benefits (the Division). For additional information about TPAF, please refer to Division's annual financial statement which can be found at [www.state.nj.us/treasury/pensions/annual-reports.shtml](http://www.state.nj.us/treasury/pensions/annual-reports.shtml).

The vesting and benefit provisions are set by N.J.S.A 18A:66. TPAF provides retirement, death, and disability benefits. All benefits vest after ten years of service. Members are always fully vested for their own contributions and, after three years of service credit, become vested for 2% of related interest earned on the contributions. In the case of death before retirement, members' beneficiaries are entitled to full interest credited to the members' accounts.

The following represents the membership tiers for TPAF:

<u>Tier</u>	<u>Definition</u>
1	Members who were enrolled prior to July 1, 2007
2	Members who were eligible to enroll on or after July 1, 2007 and prior to November 2, 2008
3	Members who were eligible to enroll on or after November 2, 2008 and prior to May 22, 2010
4	Members who were eligible to enroll on or after May 22, 2010 and prior to June 28, 2011
5	Members who were eligible to enroll on or after June 28, 2011

Service retirement benefits of 1/55th of final average salary for each year of service credit is available to tiers 1 and 2 members upon reaching age 60 and to tier 3 members upon reaching age 62. Service retirement benefits of 1/60th of final average salary for each year of service credit is available to tier 4 members upon reaching age 62 and tier 5 members upon reaching age 65. Early retirement benefits are available to tiers 1 and 2 members before reaching age 60, tiers 3 and 4 with 25 years or more of service credit before age 62, and tier 5 before age 65 with 30 years or more of service credit. Benefits are reduced by a fraction of a percent for each month that a member retires prior to the retirement age for his/her respective tier. Deferred retirement is available to members who have at least 10 years of service credit and have not reached the service retirement age for the respective tier.

**Contributions** - The contribution policy for TPAF is set by *N.J.S.A. 18A:66* and requires contributions by active members and contributing employers. State legislation has modified the amount that is contributed by the State. The State's pension contribution is based on an actuarially determined amount, which includes the employer portion of the normal cost and an amortization of the unfunded accrued liability. Funding for noncontributory group insurance benefits is based on actual claims paid. For fiscal year 2023, the State's pension contribution was less than the actuarial determined amount.

As mentioned previously, the employer contributions for local participating employers are legally required to be funded by the State in accordance with *N.J.S.A. 18A:66-33*. Therefore, the School District is considered to be in a special funding situation as defined by GASB Statement No. 68 and the State is treated as a nonemployer contributing entity. Since the School District does not contribute directly to the plan (except for employer specific financed amounts), there is no net pension liability or deferred outflows or inflows to report in the financial statements of the School District.

**Pension Liability and Pension Expense** - The State's proportionate share of the TPAF net pension liability, attributable to the School District as of June 30, 2023 was \$8,738,360. The School District's proportionate share was \$0.

The net pension liability was measured as of June 30, 2023, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2022, which was rolled forward to June 30, 2023. The State's proportionate share of the net pension liability associated with the District was based on projection of the State's long-term contributions to the pension plan associated with the District relative to the projected contributions by the State associated with all participating school districts, actuarially determined. At June 30, 2023, the State proportionate share of the TPAF net pension liability attributable to the School District was .0171230699%, which was an increase of .000009924% from its proportion measured as of June 30, 2022.

For the fiscal year ended June 30, 2024, the State of New Jersey recognized a pension expense in the amount of \$713,455 for the State's proportionate share of the TPAF pension expense attributable to the School District. This pension expense was based on the pension plans June 30, 2023 measurement date.

**Actuarial Assumptions** - The collective total pension liability for the June 30, 2023 measurement date was determined by an actuarial valuation as of July 1, 2022, which was rolled forward to June 30, 2023. This actuarial valuation used the following assumptions, applied to all periods in the measurement:

Inflation Rate	
Price	2.75%
Wage	3.25%
Salary Increases:	2.75-4.25%
	based on years of service
Investment Rate of Return	7.00%

Pre-retirement mortality rates were based on the Pub-2010 Teachers Above-Median Income Employee mortality table with a 93.9% adjustment for males and 85.3% adjustment for females, and with future improvement from the base year of 2010 on a generational basis. Post-retirement mortality rates were based on the Pub-2010 Teachers Above-Median Income Healthy Retiree mortality table with a 114.7% adjustment for males and 99.6% adjustment for females, and with future improvement from the base year of 2010 on a generational basis. **C. Defined Contribution Retirement Plan (DCRP)**

The Defined Contribution Retirement Plan is a cost-sharing multiple-employer defined contribution pension plan which was established on July 1, 2007, under the provisions of Chapter 92, P.L. 2007 and Chapter 103, P.L. 2007 (N.J.S.A.43:15C-1 et. seq), and expanded under the provisions of Chapter 89, P.L. 2008 and Chapter 1, P.L. 2010. The Defined Contribution Retirement Program Board oversees the DCRP, which is administered for the Divisions of Pensions and Benefits by Prudential Financial. The DCRP provides eligible members, and their beneficiaries, with tax-sheltered, defined contribution retirement benefit, along with life insurance and disability coverage. Vesting and benefit provisions are established by N.J.S.A.43:15C-1 et. seq.

The contribution requirements of plan members are determined by State statute. In accordance with Chapter 92, P.L. 2007 and Chapter 103, P.L. 2007, plan members are required to contribute 5.5% of their annual covered salary. In addition to the employee contributions, the School District's contribution amounts for each pay period are transmitted to Prudential not later than the fifth business day after the date on which the employee is paid for that pay period.

The District's contributions to the DCRP for June 30, 2024 were \$868. There was no liability for unpaid contributions at June 30, 2024.

**Related Party Investments** - The Division of Pensions and Benefits does not invest in securities issued by the School District.

**General Information about the OPEB Plan**

**Plan description and benefits provided**

The State of New Jersey reports a liability as a result of its statutory requirements to pay other post-employment (health) benefit for State Health Benefits Local Education Retired Employees Plan. The State Health Benefits Local Education Retired Employees Plan is a multiple-employer defined benefit OPEB plan that is administered on a pay-as-you-go basis. Accordingly, no assets are accumulated in a qualifying trust that meets the criteria in paragraph 4 of GASB Statement No. 75, *Accounting and Financial Reporting for the Postemployment Benefits Other Than Pensions*. The State Health Benefit Local Education Retired Employees Plan provides medical, prescription drug, and Medicare Part B reimbursement to retirees and their covered dependents of local education employers.

General Information about the OPEB Plan (cont'd)

Plan description and benefits provided (cont'd)

The employer contributions for the participating local education employers are legally required to be funded by the State of New Jersey in accordance with N.J.S.A 52:14-17.32f. According to N.J.S.A 52:14-17.32f, the State provides employer-paid coverage to employees who retire from a board of education or county college with 25 years or more of service credit in, or retires on a disability pension from, one or more of the following plans: the Teachers' Pension and Annuity Fund (TPAF), the Public Employees' Retirement System (PERS), the Police and Firemen Retirement System (PFRS), or the Alternate Benefit Program (ABP). Pursuant to Chapter 78, P.L. 2011, future retirees eligible for postretirement medical coverage who have less than 20 years of creditable service on June 28, 2011 will be required to pay a percentage of the cost of their health care coverage in retirement provided they retire with 25 or more years of pension service credit. The percentage of the premium for which the retiree will be responsible will be determined based on the retiree's annual retirement benefit and level of coverage.

The total nonemployer OPEB liability does not include certain other postemployment benefit obligations that are provided by the local education employers. The reporting of these benefits are the responsibility of the individual local education employers.

Basis of Presentation

The Schedule presents the State of New Jersey's obligation under NJSA 52:14-17.32f. The Schedule does not purport to be a complete presentation of the financial position or changes in financial position of the State Health Benefits Local Education Retired Employees Plan or the State of New Jersey. The accompanying Schedule was prepared in accordance with U.S. generally accepted accounting principles. Such preparation requires management of the State of New Jersey to make a number of estimates and assumptions relating to the reported amounts. Due to the inherent nature of these estimates, actual results could differ from those estimates.

Employees covered by benefit terms

At June 30, 2022, the following employees were covered by the benefit terms:

Inactive plan members or beneficiaries currently receiving benefit payments	152,383
Active plan members	<u>217,212</u>

**State Health Benefit State Retired Employees Plan**

Pension and Other Postemployment Benefits (OPEB) Obligations in Fiscal Year 2022 the State funded the various defined benefit pension systems at 108 percent of the full actuarially determined contributions. Employer contributions to the pension plans are calculated per the requirements of the governing State statutes using generally accepted actuarial procedures and practices. The actuarial funding method used to determine the State's contribution is a matter of State law. Any change to the funding method requires the approval of the State Legislature and the Governor. The amount the State actually contributes to the pension plans may differ from the actuarially determined contributions of the pension plans because the State's contribution to the pension plans is subject to the appropriation of the State Legislature and actions by the Governor. GASB Statement No. 68, Accounting and Financial Reporting for Pensions, requires participating employers to recognize their proportionate share of the collective net pension liability. Under the new statement, the calculation of the pension liability was changed to a more conservative methodology and each employer was allocated a proportional share of the pension plans' net pension liability. The State's share of the net pension liability, based on a measurement date of June 30, 2021, which is required to be recorded on the financial statements, is \$75.1 billion. The Fiscal Year 2023 projected aggregate State contribution to the pension plans of \$6.8 billion represents 104 percent of the actuarially determined contribution. The State provides post-retirement medical (PRM) benefits for certain State and other retired employees meeting the service credit eligibility requirements. In Fiscal Year 2022, the State paid PRM benefits for 161,238 State and local retirees. The State funds post-retirement medical benefits on a "pay-as-you-go" basis, which means that the State does not prefund, or otherwise establish a reserve or other pool of assets against the PRM expenses that the State may incur in future years. For Fiscal Year 2022, the State contributed \$1.9 billion to pay for "pay-as-you-go" PRM benefit costs incurred by covered populations, a slight increase from \$1.8 billion in Fiscal Year 2021. The State has appropriated \$2.1 billion in Fiscal Year 2023 as the State's contribution to fund increases in prescription drugs and medical claims costs. In accordance with the provisions of GASB Statement No. 75, Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions, the State is required to quantify and disclose its obligations to pay Other Postemployment Benefits (OPEB) to retired plan members. This new standard supersedes the previously issued guidance, GASB Statement No. 45, Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions, effective for Fiscal Year 2018. The State is now required to accrue a liability in all instances where statutory language names the State as the legal obligor for benefit payments. The Fiscal Year 2022 State OPEB liability to provide these benefits is \$88.9 billion, a decrease of \$12.7 billion, or 12.5 percent from the \$101.6 billion liability recorded in Fiscal Year 2021. Additional information on Pensions and OPEB can be accessed on the Division of Pensions & Benefits Financial Reports webpage: <https://www.state.nj.us/treasury/pensions/financial-reports.shtml>.

**Total Nonemployer OPEB Liability**

The total nonemployer OPEB liability as of June 30, 2023 was determined by an actuarial valuation as of June 30, 2022, which was rolled forward to June 30, 2023. The actuarial assumptions vary for each plan member depending on the pension plan the member is enrolled in. This actuarial valuation used the following actuarial assumptions, applied to all periods in the measurement:

Inflation Rate	2.5%
Salary Increases through 2026	PERS 2.75%-6.55% PFRS 3.25%-16.25% TPAF 2.75%-4.25%
Discount Rate	3.65%
Healthcare Cost Trend Rates	4.5%-6.5%
Retirees' Share of Benefit Related Costs	1.5% of projected health insurance premiums for retirees

Preretirement mortality rates were based on the Pub-2010 Healthy "Teachers" (TPAF/ABP), "General" (PERS), and "Safety" (PFRS) classification headcount-weighted mortality table with fully generational mortality improvement projections from the central year using Scale MP-2021. Postretirement mortality rates were based on the Pub-2010 "General" classification headcount-weighted mortality table with fully generational mortality improvement projections from the central year using Scale MP-2021. Disability mortality was based on the Pub-2010 "General" classification headcount-weighted disabled mortality table with fully generational mortality improvement projections from the central year using Scale MP-2021 for current disables retirees. Future disabled retirees was based on the Pub-2010 "Safety" (PFRS), "General" (PERS), and "Teachers" (TPAF/ABP) classification headcount-weighted disabled mortality table with fully generational mortality improvement projections from the central year using Scale MP-2021.

The actuarial assumptions used in the July 1, 2022 valuation were based on the results of TPAF, PERS and PFRS experience studies prepared for July 1, 2018 to June 30, 2021.

Health Care Trend Assumptions

For pre-Medicare medical benefits, the trend rate is initially 6.50% and decreases to a 4.50% long-term trend rate after eight years. For post-65 medical benefits PPO, the trend is increasing to 14.8% in fiscal year 2026 and decreases to 4.50% in fiscal year 2033. For HMO the trend is increasing to 17.4% in fiscal year 2026 and decreases to 4.50% in fiscal year 2033. For prescription drug benefits, the initial trend rate is 8.00% and decreases to a 4.50% long-term trend rate after seven years. For the Medicare Part B reimbursement, the trend rate is 5.00%.

Discount rate

The discount rate used to measure the total OPEB liability was 3.65%. This represents the municipal bond return rate as chosen by the Division. The source is the Bond Buyer Go 20-Bond Municipal Bond Index, which includes tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher. As the long-term rate of return is less than the municipal bond rate, it is not considered in the calculation of the discount rate, rather the discount rate is set at the municipal bond rate.

Sensitivity of the total OPEB liability to changes in the discount rate

The following presents the June 30, 2023 total OPEB liability of the State for school board retirees, as well as the State's total OPEB liability for the school district calculated using a discount rate that is 1-percentage-point lower or 1-percentage-point higher than the current discount rate:

11. Risk Management (cont'd)

**New Jersey Unemployment Compensation Insurance** - The District has elected to fund its New Jersey Unemployment Compensation Insurance under the "Benefit Reimbursement Method". Under this plan, the District is required to reimburse the New Jersey Unemployment Trust Fund for benefits paid to its former employees and charged to its account with the State. The District is billed quarterly for amounts due to the State. The table below is a summary of the District contributions, employee contributions, reimbursements to the State for benefits paid and the ending balance of the District's trust fund for the current and the previous two years.

<u>Fiscal Year</u>	<u>District Contributions</u>	<u>Employee Contributions</u>	<u>Amount Reimbursed</u>	<u>Ending Balance</u>
2024	\$ -	\$ 1,774	\$ -	\$ 51,040
2023	-	1,192	(2,300)	49,266
2022	-	4,073	-	50,374

12. Contingent Liabilities

**Grant Programs**

The District participates in federally-assisted grant programs. These programs are subject to program compliance audits by the grantors or their representatives. The District is potentially liable for expenditures which may be disallowed pursuant to the terms of these grant programs. Management is not aware of any material items of noncompliance which would result in the disallowance of program expenditures.

The District is also involved in several claims and lawsuits incidental to its operations. In the opinion of the administration and legal counsel, the ultimate resolution of these matters will not have a material adverse effect on the financial position of the Board.

13. Compensated Absences

The District accounts for compensated absences (e.g., sick leave) as directed by Governmental Accounting Standards. A liability for compensated absences attributable to services already rendered and not contingent on a specific event that is outside the control of the employer and employee is accrued as employees earn the rights to the benefits.

District employees are granted varying amounts of sick leave in accordance with the District's personnel policy. The District's policy permits employees to accumulate unused sick leave and carry forward the full amount to subsequent years. Upon retirement, employees shall be paid by the District for the unused sick leave in accordance with the District's agreements with the various employee unions. The liability for vested compensated absences of the governmental fund types is recorded as a non-current liability in the governmental activities fund (see footnote 8).

For the Year Ended June 30, 2024

**14. Fund Balance**

General Fund - of the \$4,582,524 General Fund balance at June 30, 2024, \$- of encumbrances is assigned to other purposes, \$2,739,914 is restricted for capital reserve, \$200,000 is restricted for maintenance reserve, \$651,919 is restricted for excess surplus, \$549,158 is restricted for excess surplus for subsequent year expenditures, \$51,040 is restricted for unemployment compensation, \$120,158 has been classified as assigned fund balance designated for subsequent year expenditures, and \$270,335 is unassigned.

Special Revenue Fund - \$37,603 Special Revenue Fund balance at June 30, 2024, and is restricted for student activities.

**15. Calculation of Excess Surplus**

The Designation for Reserved Fund Balance - Excess Surplus is a required calculation pursuant to N.J.S.A. 18A:7F-7, as amended. New Jersey school districts are required to reserve General Fund fund balance at the fiscal year end of June 30 if they did not appropriate a required minimum amount as budgeted fund balance in their subsequent years' budget. The excess fund balance at June 30, 2024 is \$651,919.

**16. Uncertain Tax Positions**

The school district had no unrecognized tax benefits at June 30, 2024. The school district files tax returns in the U.S. federal jurisdiction and New Jersey. The school district has no open year prior to June 30, 2021.

**17. Subsequent Events**

Management has evaluated subsequent events through January 3, 2025, the date the financial statements were available to be issued.

**18. Tax Abatement**

As defined by the Governmental Accounting Standards Board (GASB), a tax abatement is an agreement between a government and an individual or entity in which the government promises to forgo tax revenues and the individual or entity promises to subsequently take a specific action that contributes to economic development or otherwise benefits the government or its citizens. School districts are not authorized by New Jersey statute to enter into tax abatement agreements. However, the county or municipality in which the school district is situated may have entered into tax abatement agreements, and that potential must be disclosed in these financial statements. If the county or municipality entered into tax abatement agreements, those agreements will not directly affect the school district's local tax revenue because N.J.S.A. 54:4-75 and N.J.S.A. 54:4-76 require that amounts so forgiven must effectively be recouped from other taxpayers and remitted to the school district.

**19. Economic Dependency**

The School district receives a substantial amount of its support from federal and state governments. A significant reduction in the level of support, if this were to occur, could have an effect on the School District's programs and activities.

## SINGLE AUDIT SECTION

K-1

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL  
REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF  
FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT  
AUDITING STANDARDS***

Honorable President and  
Members of the Board of Education  
Sea Girt School District  
County of Monmouth  
Sea Girt, New Jersey 07760

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, and audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Sea Girt School District in the County of Monmouth, State of New Jersey, as of and for the year ended June 30, 2024, and the related notes to the financial statements, which collectively comprise of the Sea Girt School District basic financial statements, and have issued our report thereon dated January 3, 2025.

**Report on Internal Control Over Financial Reporting**

In planning and performing our audit of the financial statements, we considered Sea Girt School District's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Sea Girt School District's internal control. Accordingly, we do not express an opinion on the effectiveness of the Sea Girt School District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the School District's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that have not been identified.

### **Report on Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the Sea Girt School District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards* and audit requirements as prescribed by the Division of Finance, Department of Education, State of New Jersey.

### **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the School District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* and audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey in considering the School District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM  
AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM  
GUIDANCE AND NEW JERSEY OMB CIRCULAR 15-08**

Honorable President and  
Members of the Board of Education  
Sea Girt School District  
County of Monmouth  
Sea Girt, New Jersey 07760

**Report on Compliance for Each Major Federal and State Program**  
***Opinion on Each Major Federal and State Program***

We have audited Sea Girt School District's compliance with the types of compliance requirements described in the OMB Compliance Supplement and the New Jersey OMB Circular 15-08 that could have a direct and material effect on each of Sea Girt School District's major federal and state programs for the year ended June 30, 2024. Sea Girt School District's major federal and state programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, Sea Girt School District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal and state programs for the year ended June 30, 2024.

***Basis for Opinion on Each Major Federal and State Program***

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States and the audit requirements of *Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance) and the New Jersey OMB Circular 15-08. Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of Sea Girt School District and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of Sea Girt School District's compliance with the compliance requirements referred to above.

### ***Responsibilities of Management for Compliance***

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to Sea Girt School District's federal and state programs.

### ***Auditor's Responsibilities for the Audit of Compliance***

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on Sea Girt School District's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards, *Government Auditing Standards*, the Uniform Guidance and New Jersey OMB Circular 15-08 will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about Sea Girt School District's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with generally accepted auditing standards, *Government Auditing Standards*, the Uniform Guidance, and New Jersey OMB Circular 15-08, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding Sea Girt School District's, compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of Sea Girt School District's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance and New Jersey OMB Circular 15-08, but not for the purpose of expressing an opinion on the effectiveness of Sea Girt School District's, internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

## Report on Internal Control Over Compliance

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal and state program on a timely basis. A *material weakness* in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal and state program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal and state program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance and New Jersey OMB Circular 15-08. Accordingly, this report is not suitable for any other purpose.

## 1. General

The accompanying schedules of expenditures of award present the activity of all federal and state awards of the Board of Education, Sea Girt School District. The Board of Education is defined in Note 1(A) to the Board's general purpose financial statements. All federal and state awards received directly from federal and state agencies, as well as federal and state awards passed through other government agencies are included on the schedules of expenditures of federal and state awards.

## 2. Basis of Accounting

The accompanying schedules of expenditures of federal and state awards are presented on the budgetary basis of accounting with the exception of programs recorded in the enterprise fund, which are presented using the accrual basis of accounting. These bases of accounting are described in Note 1 to the Board's basic financial statements.

## 3. Relationship to General Purpose Financial Statements

## Relationship to Basic Financial Statements

The basic financial statements present the general fund and special revenue fund on a GAAP basis. Budgetary comparison statements or schedules (RSI) are presented for the general fund and special revenue fund to demonstrate finance-related legal compliance in which certain revenue is permitted by law or grant agreement to be recognized in the audit year, whereas for GAAP reporting, revenue is not recognized until the subsequent year or when expenditures have been made.

The general fund is presented in the accompanying schedules on the modified accrual basis with the exception of the revenue recognition of the one or more deferred June state aid payments in the current budget year, which is mandated pursuant to *N.J.S.A. 18A:22-44.2*. For GAAP purposes payments are not recognized until the subsequent budget year due to the state deferral and recording of the one or more June state aid payments in the subsequent year. The special revenue fund is presented in the accompanying schedules on the grant accounting budgetary basis which recognizes encumbrances as expenditures and also recognizes the related revenues, whereas the GAAP basis does not. The special revenue fund also recognizes the one or more state aid June payments in the current budget year, consistent with *N.J.S.A. 18A:22-4.2*.
