6A:23-4.2 Tuition rate procedures

(a) The board of directors of a private school for the disabled located in New Jersey shall determine the final tuition rate charged to be an amount less than or equal to the certified actual cost per student. The board of directors shall identify the certified actual cost per student and final tuition rate charged in the audited financial statements submitted to the Department pursuant to N.J.A.C. 6A:23-4.9.

1. When determining the actual allowable costs for the program, the board of directors shall ensure that such costs are:

- i. Based on all costs required for student instruction from July 1 through June 30;
- ii. Consistent with the students' individualized education programs (IEP);
- iii. Inclusive of all costs required to implement all students' IEPs and all related services;

and

- iv. Reasonable, that is, ordinary and necessary and not in excess of the cost which would be incurred by an ordinarily prudent person in the administration of public funds.

2. If the private school for the disabled proposes to charge a final tuition rate in excess of 10 percent above the tentative tuition rate charged, the private school shall notify each sending district board of education and the Assistant Commissioner, Division of Finance that such an increase will be charged and the reason for the increase on or before the following dates: December 15th for the first quarter, March 15th for the second quarter, June 15th for the third quarter and September 15th for the fourth quarter, or the next business day when applicable.

- i. If the sending district board of education and the Assistant Commissioner, Division of Finance are not notified on or before the dates noted in (a)2 above, the private school shall charge an increase not to exceed 10 percent of the tentative tuition rate charged.

3. Costs for the program shall include instructional costs and administrative costs, as defined in the chart of accounts, as follows:

- i. For the 2003-2004 school year, minimum instructional costs of 50 percent and maximum administrative costs of 30 percent; and

- ii. For the 2004-2005 school year and thereafter, minimum instructional costs of 55 percent and maximum administrative costs of 25 percent.

4. Unless otherwise determined pursuant to (b) below, the approved private school for the disabled shall charge one tentative tuition rate, charge one final tuition rate, and calculate one certified actual cost per student for the school year.

- i. A private school for the disabled shall report all tuition rates on a per diem and school year basis, calculated as the number of enrolled days in the school year multiplied by the per diem rate.

- ii. A private school that operates both a 10-month and an extended school year shall report tuition rates for both the July/August through June and September through June school years.

5. The private school shall not bill the sending district board of education separately for related services that are required by a student's initial or subsequent IEP.

6. For programs in operation less than the minimum of 180 days of instruction (September 1 through June 30) the private school shall calculate total costs minus $1/180$ for each day less than the 180-day requirement to determine actual allowable costs.

7. The average daily enrollment for students enrolled in a program for a time period other than a full day shall be based on the total number of hours actually enrolled during the school year divided by the total possible number of hours in the school year.

8. For fiscal reporting purposes, an extended school year program means a program in which activities commence on or after July 1 and end on or before August 31 of the same year. For program activities that begin prior to July 1, a private school shall report all costs and revenues in the prior fiscal year.

(b) An approved private school for the disabled may charge one tuition rate per school location for the school year, or separate tuition rates by class type and by school location for the school year. Private schools for the disabled that choose to charge by class type shall:

1. Maintain bookkeeping and accounting records by class type and school location for the school year;

2. Charge a separate tuition rate for each class type served;

3. Prepare in the Department-prescribed format the audited costs by class type for the first two years that tuition is charged by class type in order for the Commissioner to determine the tentative tuition rates in accordance with (i) below; and

4. Determine on a pro rata basis the individual share of a particular allowable cost item for a class type, when it is not possible to charge the actual amount expended, in accordance with the following ratios or an alternative method as approved by the Commissioner:

i. Ratio of average daily enrollment in each class type to the total average daily enrollment;

ii. Ratio of square feet of floor space in each class type to the total square feet of floor space used; and

iii. Direct costs.

(c) A private school shall record direct costs that can be specifically attributed to a program and/or revenue source, in the prescribed bookkeeping and accounting system pursuant to N.J.A.C. 6A:23-4.4(a)8.

(d) For indirect costs, which are incurred for a common or joint purpose and not readily assignable to a program and/or a revenue source, a private school for the disabled may establish

indirect cost pools as appropriate for allocation between common or joint purposes at the end of the fiscal year.

(e) An entity that operates only as a private school for the disabled and operates one or more tuition programs at one or more locations shall charge their costs as follows:

1. Direct costs for each program as determined pursuant to (c) above; and
2. Indirect costs in accordance with an equitable allocation plan approved by the Commissioner, or in accordance with either of the following ratios:
 - i. Direct costs for each program determined pursuant to (c) above to total direct costs; or
 - ii. Average daily enrollment for each program to total average daily enrollment.

(f) An entity that operates other programs in addition to a private school for the disabled program(s) at one or more locations shall charge their costs as follows:

1. Direct costs for each program as determined pursuant to (c) above;
2. Indirect cost centers established as follows:
 - i. A cost center, which shall include indirect costs that are allowable costs in accordance with N.J.A.C. 6A:23-4; and
 - ii. A cost center, which shall include indirect non-allowable costs in accordance with N.J.A.C. 6A:23-4.

3. Allowable indirect costs shall be included on a consistent basis in the respective actual cost per student in accordance with an equitable allocation plan approved by the Commissioner, or in accordance with either of the following ratios:

- i. Direct costs for each program determined pursuant to (c) above to total direct costs; or
- ii. Average daily enrollment for each program to total average daily enrollment.

(g) Whenever a facility used by an approved private school for the disabled is also used for unrelated activities and/or enterprises by related or unrelated parties, all costs, direct or indirect, associated with such facilities and operations shall be charged according to the associated activities and/or enterprises which they benefit. Indirect costs shall be distributed in accordance with an equitable allocation plan approved by the Commissioner.

(h) A tentative tuition rate shall be established by written contractual agreement between the approved private school for the disabled and the sending district board of education. The tentative tuition rate charged shall be an amount not in excess of the maximum tentative tuition rate established in accordance with (i) and (j) below for the ensuing school year, and shall not be

changed during the school year regardless of the private school's financial or other circumstances. The written contract shall be on the mandated tuition contract form prescribed by the Commissioner and shall be executed prior to the enrollment of a student.

1. The contractual agreement shall require the sending district board of education to pay a tentative tuition charge based upon a per diem rate for the total number of days the student was enrolled during the month, for each month the student is enrolled. The per diem rate is determined by dividing the tentative tuition rate for the school year by the estimated number of days school will be in session, but not less than 180 days, and rounding to the nearest two decimal places.

2. The contractual agreement shall require the sending district board of education to pay the approved private school for the disabled the tentative tuition charge based on one of the following options as determined by the approved private school for the disabled. The approved private school for the disabled shall use the same option for all students enrolled in the private school for the disabled:

i. Option 1: A sending district board of education shall pay the private school for the disabled no later than the first of each month prior to the services being rendered.

(1) For a student already enrolled in the private school, the sending district board of education shall pay the tentative tuition charge by the first day of the second month after services begin. A sending district board of education that fails to pay tuition by the 30th day after services begin may be charged interest by the private school calculated at the rate of one percent per month on the unpaid balance.

(2) For a student enrolled after the first of the month, the sending district board of education shall pay the tentative tuition charge for the first two months of enrollment no later than 60 days after the first day services begin. Payment in subsequent months are due by the first of each month prior to the services being rendered. A sending district board of education that fails to pay tuition by the 30th day after services begin may be charged interest by the private school calculated at the rate of one percent per month on the unpaid balance.

ii. Option 2: A sending district board of education shall pay the private school for the disabled no later than 60 days after the last day of each month in which services were rendered. A sending district board of education that fails to pay tuition by the 60th day after the last day of a month in which services were rendered may be charged interest by the private school calculated at the rate of one percent per month on the unpaid balance.

(i) The Commissioner will issue notification of the maximum tentative tuition rate for each approved private school for the disabled no later than January 1 for the ensuing school year, calculated as follows:

1. The maximum tentative tuition rate per student shall equal the product of the audited actual cost per student for the school year prior to the current school year inflated by twice the spending growth limitation of three percent or the CPI, whichever is greater.

2. The maximum tentative tuition rate includes:

i. For profit-making schools, the annual surcharge permitted in accordance with N.J.A.C. 6A:23-4.6; and

ii. For non-profit schools, a public school placement restricted working capital fund in accordance with N.J.A.C. 6A:23-4.7.

(j) The Commissioner may approve a higher tentative tuition rate for any year in which the approved private school for the disabled can prove to the satisfaction of the Commissioner that the maximum tentative tuition rate for the year is not adequate and would cause an undue financial hardship on the private school.

1. In the event of such hardship claim, the approved private school for the disabled shall submit its request for a higher tentative tuition rate for the entire school year to the Assistant Commissioner, Division of Finance no later than January 31 preceding the beginning of the ensuing school year. The private school for the disabled shall submit such request with appropriate documentation, which shall include, but may not be limited to, the following information:

i. A budget reflecting projected costs, working capital fund or surcharge, estimated enrollment and the requested tuition rate based on this information;

ii. A detailed explanation of the need for increases in excess of those already provided in the tentative tuition rate calculation; and

iii. A financial report which is properly completed and in the format prescribed by the Commissioner for the six months of operations ending December 31 immediately preceding the school year. This report format is available at the Division of Finance, PO Box 500, Trenton, New Jersey 08625-0500.

(k) The Commissioner will issue notification that the final tuition rates charged are based on the certified actual cost per student pursuant to (a) above.

(l) If the Commissioner determines that the tentative tuition rate for the school year established by written contractual agreement is greater than the final tuition rate charged for the school year, the private school for the disabled shall pay or credit the difference to subsequent tuition bills for each sending district board of education no later than June 30 of the school year in which the final tuition rate charged is received from the Commissioner, or not more than 30 days after an appeal on a certified amount is finally resolved. The same final tuition rate charged shall be charged to each sending district board of education.

(m) If the tentative tuition rate for the school year established by written contractual agreement pursuant to (h) above is less than the final tuition rate charged for the school year, the approved private school for the disabled may charge each sending district board of education all or part of the difference owed, but the same final tuition rate shall be charged to each sending district board of education. The sending district board of education shall pay the difference on a mutually agreed upon date during the second school year following the year for which the actual cost per student is certified.

(n) The private school for the disabled shall prepare the contract and the form to establish the tentative tuition rate for the ensuing school year on forms prepared by the Commissioner.

(o) An approved private school for the disabled shall reference as guidance the list of maximum allowable salaries by job title and county according to the job titles contained in N.J.A.C. 6:11 which pertain to private schools for the disabled that is published by the Commissioner. Except for administrative job titles referenced in (p) below, maximum allowable salaries are based on the highest contracted salaries (not including payment of unused sick and vacation days and severance pay) of certified staff by job title in a district board of education for any prior year indexed by the average increase in salary between the two preceding school years for each job title. Such salaries are based on a 12-month contract period from July 1 through June 30, and the maximum allowable salary of a private school staff member shall be prorated for staff employed for less than 12 months. Under no circumstances shall the maximum allowable salary calculated be less than the corresponding salary in the prior year for the same job title and county. Unrecognized job titles shall be correlated to similar job titles in public schools based on their functional activities. The maximum allowable salary of a staff member holding a part-time or split-time position shall be prorated including the salary of staff employed in entities defined in (e) and (f) above.

(p) An approved private school for the disabled shall reference as guidance a list of maximum allowable salaries by administrative job titles and county according to the job titles contained in N.J.A.C. 6:11 and 6A:23-4.1 which pertain to private schools for the disabled that is published by the Commissioner. Maximum allowable salaries are based on the highest contracted salary (not including payment of unused sick and vacation days and severance pay) by administrative job title for the entire State in a district board of education, special services district board of education and educational services commissions with comparable average daily enrollments for any prior year, indexed by the average increase in salary between the two preceding school years for each job title. Such salaries are based on a 12-month contract period from July 1 through June 30, and the maximum allowable salary of the private school staff member shall be prorated for staff employed for less than 12 months. Each district board of education, special services district board of education and educational services commission with an ADE equal to or less than the highest private school ADE will be considered comparable. Under no circumstances shall the maximum allowable salary calculated, be less than the corresponding salary in the prior year for the same job title. The maximum allowable salary of a staff member holding a part-time or split-time position shall be prorated including the salary of staff employed in entities defined in (e) and (f) above.

(q) For the 2004-2005 school year and years thereafter:

1. For a staff member who was employed by the private school prior to the 2004-2005 school year whose salary is greater than the maximum allowable salary in accordance with (o) and (p) above, such salary shall be frozen at the 2003-2004 salary level or until such time as the maximum allowable salary in accordance with (o) and (p) above exceeds the 2003-2004 salary level;

2. For a staff member who was employed by the private school prior to the 2004-2005 school year whose salary is less than the maximum allowable salary in accordance with (o) and (p) above, the maximum salary shall be determined in accordance with (o) and (p) above; and

3. For a staff member in a new private school opening on or after July 1, 2004, for a staff member whose employment commences on or after July 1, 2004 at private schools existing as of June 30, 2004 and for a staff member employed by a private school prior to June 30, 2004 whose job title changes effective July 1, 2004 or any time thereafter, the maximum salaries shall be determined in accordance with (o) and (p) above.

(r) An approved private school for the disabled shall employ staff pursuant to the list of the recognized job titles in accordance with N.J.A.C. 6:11 that require certification and N.J.A.C.

6A:23-4.1 that require a bachelor's degree, which is published by the Commissioner. An approved private school for the disabled shall only hire staff or consultants in job titles that require certification or a bachelor's degree if such titles are included on this list, or if such titles are unrecognized job titles for instruction that are approved in accordance with N.J.A.C. 6:11-3.3(b). The private school for the disabled may use unrecognized administrative job titles, but maximum salaries of these titles are restricted in accordance with N.J.A.C. 6A:23-4.5(a)9.

(s) For students who are transitioning back to a program of the sending district board of education for a portion of the enrolled school day, or to a third party location and require the services of a private school staff person, the ADE for tuition rate purposes shall be computed as follows:

1. Regardless of the time period that a student is enrolled in a program outside the private school, the student shall be considered a full time student of the private school, the student's ADE shall be considered as 1.0 and the sending district board of education shall pay the full-time tuition rate.

2. The sending district board of education shall pay all costs associated with the transition service if it involves a third party.

(t) For students who are transitioning back to a program of the sending district board of education for a portion of the enrolled school day or to a third party location, the private school shall compute the tuition rate as follows:

1. The private school shall calculate the student's ADE based on the number of hours enrolled in the program relative to the total number of possible hours of the program.

2. The sending district board of education shall pay all costs associated with the transition service if it involves a third party.

6A:23-4.3 New private schools for the disabled

(a) A prospective applicant shall file an application and obtain approval of such application from the Commissioner prior to operating an approved private school for the disabled.

1. A currently approved private school for the disabled which is expanding a program to another location or opening a new program is considered a new private school subject to (a) above.

2. A currently approved private school for the disabled that is expanding a program, or adding a new class type(s) to be housed in another building at the current location, shall not be considered a

new private school for the disabled and shall charge as a tentative tuition rate the tuition the school is currently charging.

(b) An applicant applying for approval as a new private school for the disabled shall provide evidence to the Department that there is sufficient need for the new private school as defined as follows:

1. The applicant shall submit documentation of intent signed by the superintendent of the sending district board of education to place a student in the new program and verification that there is no other appropriate placement for the student(s); and

2. The applicant shall document the need for a minimum of 24 public school placement students in order to be approved by the Commissioner.

(c) Applicants that meet the criteria in (b) above, shall be approved as follows:

1. The school shall receive preliminary approval to operate for a two year period, after which the school shall provide documentation that the school has a minimum ADE of 24 public school placement students by the end of the second school year;

i. A school meeting the minimum ADE of 24 public school placement students by the end of the second school year shall receive new school approval;

ii. A school not meeting the minimum ADE of 24 public school placement students by the end of the second school year shall have its preliminary approval status revoked and shall no longer be considered an approved private school for the disabled;

iii. Any previously approved private school for the disabled that falls below the previous minimum ADE of 16 public school placement students in a school year shall have its status as an approved private school for the disabled rescinded and shall be considered preliminarily approved. The school shall attain a minimum ADE of 16 public school placement students by the end of the third school year after the year in question or its approval shall be rescinded and it shall no longer be considered an approved private school for the disabled;

iv. Any new private school for the disabled approved in 2004-05 or thereafter that falls below an ADE of 24 public school placement students in a subsequent school year shall be considered preliminarily approved. The school shall attain a minimum ADE of 24 public school placement students by the end of the third school year after the year in question or its approval shall be rescinded and it shall no longer be considered an approved private school for the disabled; and

v. Private schools for the disabled operating in and affiliated with a public school are exempt from (b)2 and (c)1i, ii and iii above.

(d) An approved private school for the disabled shall amortize start-up costs, if any, over a 60-month period.

(e) For the first two years of operation of an approved private school for the disabled, the estimated cost per student and per diem rate at each site or in each program shall be established annually and be based on budgeted allowable costs. An approved private school for the disabled shall submit such estimated cost(s) to the Assistant Commissioner, Division of Finance for approval no later than 90 days preceding the beginning of each school year. The proposed budget shall be on a form prepared by the Assistant Commissioner, Division of Finance which provides for, but is not limited to, the following:

1. Fiscal and programmatic data;
2. Projected allowable cost items and projected enrollments;
3. A projected budget that reflects administrative costs not in excess of, and instructional costs not less than, the percentages identified in N.J.A.C. 6A:23-4.2(a)3 and as defined in the chart of accounts;
4. A report of all funding resources;
5. An affidavit of compliance; and
6. A statement of assurance.

(f) If the Commissioner approves the estimated cost(s) per student, each sending district board of education shall pay tentative tuition charges based upon the approved estimated costs per student for the first two years of operation.

(g) If, after each year of operation, the actual cost per student or per diem rate differs from the estimated cost per student or per diem rate, the tentative tuition charges will be adjusted in accordance with the provisions of this subchapter.

6A:23-4.4 Bookkeeping and accounting

(a) An approved private school for the disabled shall maintain accounting and bookkeeping systems as prescribed in Financial Accounting for New Jersey Private Schools for the Disabled issued by the Department in accordance with the following standards:

2. At a minimum, an approved private school for the disabled shall use accrual accounting on a quarterly basis.

3. An approved private school for the disabled shall capitalize fixed asset expenditures of \$2,000 or more and depreciate such expenditures using the straight line depreciation method and using a useful life consistent with current Federal tax law as defined in Internal Revenue Code Section 168 and class lives as defined in that section (also see IRS Publication 946), except for real property which may be depreciated using a useful life of 15 years or the term of the original mortgage, whichever is greater.

4. An approved private school for the disabled shall capitalize leasehold improvements and depreciate such improvements using the straight-line method and a useful life equal to that of the lease, but not less than five years.

6. Non-profit organizations shall maintain financial records on a fund basis, which requires that restricted or unrestricted donations shall be maintained in funds separate from the public school restricted fund. Profit-making organizations shall maintain financial records on a modified fund basis.

7. A chart of accounts issued by the Commissioner shall be maintained by each private school for the disabled. For entities that operate other programs and the total private school tuition expenses are less than 51 percent of the entity's total expenses, the Commissioner may approve the use of an alternative chart of accounts, but the private school shall

provide evidence that such chart of accounts may be cross-walked to the prescribed chart of accounts.

8. If multiple facilities for a private school have been approved, financial information shall be segregated by facility in the bookkeeping records. If the private school chooses to charge tuition rates by class type, financial information shall be segregated by class type in the bookkeeping records. 9. An approved private school for the disabled shall maintain documentation to verify all amounts recorded in the general ledger. Invoices or cash register receipts shall be attached to their related purchase orders to support all purchases of goods and services. Detailed vouchers signed by the payee shall be attached to their related purchase orders to support all payments for personal services, employee mileage reimbursements or any payment for which invoices or cash register receipts are not used.

10. An approved private school shall prepare a payroll that is supported by an accurate employee time record in a format prescribed or approved by the Commissioner, signed by the employee and supervisor, prepared in the time period in which the work was done and completed at minimum semi-monthly. An employee time record shall be prepared for all employees of the private school for the disabled including all administrative employees.

11. An approved private school for the disabled shall prepare a financial report in a format prescribed or approved by the Commissioner each quarter at a minimum for the school year program.
