| Working Capital C (Lesser of A and B) (2)             | \$34,459          |  |

(1) A negative prior year Working Capital Fund Balance must be added to the maximum Working Capital Fund Balance to determine Working Capital A.

The example presented shows the entire prior year working capital fund balance applied against the Total School Year expenses and no prior year working capital fund balances are applied against the extraordinary services, by pupil, reflected on page NP-35 (Less: Prior Year Working Capital Fund Balance). Schools with extraordinary services may apply the prior year working capital fund balance to the extraordinary services, by pupil, at their discretion. A school may choose to apply a prior year amount to one pupil and zero to another pupil. The amount applied, by pupil, must be an amount equal to or less than the "Maximum Working Capital Fund" but not less than zero.

(2) A prior year Working Capital Fund which is greater than the maximum Working Capital Fund will result in a negative Working Capital A and a negative Working Capital C. When this occurs, the Total Public School Placement Expenditures on the Statement of Tuition Rate Part I must be reduced by the amount to arrive at the Total Public School Placement Expenditures and Working Capital.
