

Dear Esther,

Hi! My name is Kate Blanas and I live in Atco, New Jersey. I just saw a play about you called "Dear Esther". It really touched me. I always feel terrible after I see things about the Holocaust. But somehow after this I was really happy for you. I think it is so amazing how you escaped the camp and found your brother again. I'm sorry for what you had to go through. I'm a little German and I feel a little guilty but my German grandfather fought against the Germans in the war. I have a question. When you think back about everything what do you wish you could have changed about the past? I promise you I will never forget what you went through. Much love.

Love,
Kate Blanas
