Foreword

This handbook provides guidance on collecting and submitting data to the New Jersey Department of Education's (NJDOE) statewide longitudinal education data system (SLEDs). It outlines the required format and specifies the data elements that must be collected. The NJDOE will compile this information into a standardized dataset for various essential purposes.

- Complying with federal and state requirements
- Ensuring that each school district receives the funding it is entitled to
- Identifying trends and areas of focus for future initiatives

The State Assessment Registration Handbook is intended to guide schools and districts in properly registering students for state assessments, ensuring that accurate and complete data is submitted. The assessment vendor files and handbooks serve as models for the continual development of this *Handbook*. The terms and definitions included in this *Handbook* are consistent with those outlined by the respective assessment vendors.

How to use this handbook

This handbook is a valuable resource to share with your data provider or in-house data administrator to ensure that the information you receive from them matches the data requirements set by the NJDOE. Submitting accurate data now minimizes future errors, thereby saving time and effort later.

December 11, 2024	V3.7	<ul style="list-style-type: none"> An Additional Note was removed from TitleIIIMLStatus. This data element should be used to indicate whether an ML student has been served by an LIEP. Updates have been made to the Validation Checks for NJMLStatus. Updates have been made to the Validation Checks for MultilingualLearner.
November 7, 2024	V3.7	<ul style="list-style-type: none"> Updated the definition for EconomicDisadvantageStatus. The data element will now indicate that a student has met Federal criteria for classification as having an economic disadvantage. An Additional Note was added to EconomicDisadvantageStatus.
August 6, 2024	V3.7	<ul style="list-style-type: none"> Updated references of English Language Learners to Multilingual Learners. Updated references of ELL to ML. Updated English Language Program Services or ELL Program Services to LIEP. The data element EnglishLearner has been renamed to MultilingualLearner The data element TitleIIIELLStatus has been renamed to TitleIIIMLStatus The data element ELLAccommodation has been renamed to MLAccommodation The data element NJELLStatus has been renamed to NJMLStatus The data element EnglishLearnerAccommodatedResponse has been renamed to MultilingualLearnerAccommodatedResponse The data element ELLExemptFromTakingLAL has been renamed to MLExemptFromTakingELA Updated the acceptable value for ExtendedTime of ELL to ML.
February 28, 2024	V3.6	<ul style="list-style-type: none"> Changed the title of the ELLExemptFromTakingLAL data element to MLExemptFromTakingELA. Removed the Validation Check: If field has a value of Y, DateFirstEnrolledInUSSchool must be less than one year from the first day of the official period for State Assessment Registration.

		<ul style="list-style-type: none"> Added two bullet points to the Additional Notes section.
November 10, 2023	V3.5	<ul style="list-style-type: none"> Updated dates for F1, F2, F3, and F4 values for the NJELLStatus data element. Removed a bullet point from the Additional Notes for the FirstHighSchoolMathAssessment data element. This data element should no longer be reported as N if students are taking NJSLA as their first high school math assessment, as current graduates can no longer take the NJSLA assessment to meet their math graduation pathway.
August 4, 2023	V3.4	<ul style="list-style-type: none"> Updated dates for the 2023-2024 SY. Updated the HomelessStatus field to ensure acceptable values match the acceptable values in SID Management. Updated the requirements and validation rules for DateFirstEnrolledInUSSchool so that it is required for all students taking ACCESS for ELLs, regardless of their country of birth. Added a new field, HomelessPrimaryNighttimeResidence, in place of StateField13 (placeholder field) so that Homeless data can be reported and validated against SID Management. Added additional details to the acceptable values of ColorContrast for better clarification.
March 17, 2023	V3.3	<ul style="list-style-type: none"> Updated a validation rule for ExemptFromPassing so the field is not required for any NJSLA Science TestCodes.
November 16, 2022	V3.2	<ul style="list-style-type: none"> Updated a validation rule for PaperTier so the field is not required for any Kindergarten students.
November 7, 2022	V3.1	<ul style="list-style-type: none"> Removed the acceptable value of 00 from GradeLevel as that value is no longer necessary. Removed the new validation rule for PaperTier that was added for version 3.0.
October 18, 2022	V3.0	<ul style="list-style-type: none"> Added a new acceptable value to GradeLevel of 00 that is only acceptable for Kindergarten students taking ACCESS for ELLs. Updated the validation rule for ELLExemptFromTakingLAL to disallow Y for students in grades 10 and 12 as ELA assessments are not given in for these Grade Levels. Updated the validation rule for TestCode to allow the use of EXELA for 10th and 12th grade students. Updated the validation rule for ResponseMath to require this field for records with Science TestCodes. Updated the validation rule for DateFirstEnrolledInUSSchool to compare against CountryOfBirth in SID Management instead of EnglishLearner in SID Management. Added a new validation rule for PaperTier so that it is required for all paper tests except for Kindergarten students.

		<ul style="list-style-type: none"> Updated dates for 2022-2023 SY.
November, 2021	V2.9	<ul style="list-style-type: none"> Updated the date range for the acceptable values of NJELLStatus field to adjust per vendor requirements.

Executive Summary

The growing need for comprehensive, accurate, timely data on our state's schools, staff, and students calls for a technology-based solution that can provide better information to all stakeholders, simplify complicated data reporting requirements, and increase administrative efficiency. The NJ statewide longitudinal education data system was created to meet this need.

The system enables compliance with the increasingly intensive regulatory requirements driven by Federal and State legislation. The system also provides the data that helps drive improvements and monitor progress toward key goals and ensures that our state's educational institutions receive the funding they need to continue to meet the needs of New Jersey's students.

Periodically, schools are asked to provide specific data sets to ensure that the information in the system remains timely and up to date. This handbook is designed to support administrators and their partners as they gather and submit this information to the system.

Privacy and Security

The NJDOE prioritizes privacy and security. To protect district data, it employs an audit trail to monitor activities, detect breaches, and ensure proper use. Only registered and authorized users, authenticated through a secure login platform can access the system. Data is segmented by districts, so users only see information relevant to their educational interest. All data will be secured to maintain confidentiality and integrity. Illegal access or downloads will result in prosecution.

Data Elements and Definitions

This *State Assessment Registration Student Data Handbook* includes data elements that are currently collected and maintained by schools, districts, and the NJDOE. Not all data elements are relevant to each. It is important to understand how each definition is implemented. In those situations where the implementation of a definition is not clear it should be reported to NJSLEDS so that a collaborative resolution can be reached.

The following information is provided for each data element in the *Handbook*:

- **Name of Data Element:** The data element name used within the NJSLEDS system.
- **NJDOE Number:** The numerical identification of the data element, which will remain in effect over time regardless of data elements retired or added.
- **Definition of Data Elements:** A brief description of the data element.
- **Functional, Policy or Legal Description:** The rationale for collecting the data element, and how the data element will be used. Other policy and legal implications for its collection.
- **CEDS Mapping:** An indication of how the NJSLEDS data element maps to Common Education Data Standards (CEDS).
- **Is This Data Element Required?:** Indication of whether the data element is required for file submission.
- **Acceptable Values:** Indication of the data type, minimum and maximum number of characters permitted, and lists values and ranges accepted for each element.
- **Validation Checks:** Specific data validation that will occur with respect to each data element.
- **Additional Notes:** Additional relevant notes about the data element.
- **Warnings:** (if applicable) The warning message indicating that the data entered does not meet the standards outline by the NJDOE. Warnings are not considered validation errors.
- **Common Errors:** Guidance on how to resolve common errors within NJSLEDS

State Identification Number (SID)

Definition of Data Element

A unique number assigned and maintained by the New Jersey Department of Education that is unique for each student over time and across districts.

Functional, Policy or Legal Document

In order to track students within and across districts over time, NJDOE will assign a unique 10-digit number to all students enrolled in New Jersey public schools. After the initial assignment of identification numbers, districts will be required to verify or obtain an identification number whenever a new student enrolls in the district.

SID will be a new number assigned by NJSLEDS. The initial batch assignment of the SID occurred in March 2007. After initial assignment, districts must use the SID on all student-level data submitted to the New Jersey Department of Education and annually resolve all duplicate students within the district prior to the beginning of the school year.

Local Identification Number (LID)

Definition of Data Element

A number assigned and maintained by the local school district that is unique for each student in the district and is consistently used by the district across all of its data systems.

Functional, Policy or Legal Document

A local student identifier is assigned by the district and used to track students within a district over time and to keep student information secure and confidential. Districts must assign the Local Identification Number for each student in order to receive a State Identification Number (SID). This provides an additional matching field and an efficient way for NJDOE to provide SIDs to districts. This data element is used to verify the unique identification of the student.

Is this Data Element Required?

Field is mandatory for all students.

Acceptable Values

Type: Alpha

Minimum Length: 1

Maximum Length: 50

Validation Checks

- Periods are not accepted in the LastName field.

Additional Notes

- First name and last name must be reported as separate fields.
- Students with multiple last names should include multiple last names in this field. Hyphens are acceptable if they are part of the student's legal name; place both last names in this field. grad: Jenny R. Smith-Jones would be input as the last name "Smith-Jones" while John F. Davis Smyth would be input as the last name "Davis Smyth". First name and last name must be reported as separate fields.
- If the student's only form of ID is their passport (no birth certificate or state ID available) and their last name is presented as "LNU" or "Unknown" on the passport, then "Unknown" should be reported as the student's last name. If the student has one name on another form of ID, the student's one name should be reported in the correct field, and the other field should be reported as "Unknown."

Common Errors

Error Message: Field contains an invalid character or exceeds 50 characters.

Resolution: This field cannot have more than 50 characters or contain periods. If the student's name has more than 50 characters or has periods in the LastName field, please update the student's information within your district's Student Information System and reupload the record to Student Management to resolve the error.

Warnings

"LNU" should not be entered for a student with an unknown Last Name. If Last Name is unknown, please enter "Unknown" for this field.

Additional Notes

- If two codes are provided for a language, use the first code for this element.
- If more than one language is spoken at home, the one that is used most frequently should be reported.
- If a home language is not on the list, try checking the language category AND the subcategories of each language. If a student has a home language that is not included in the list, try to determine the language family for that language. Additional information on language families is contained on the [Ethnologue website](#). An example of this would be for students who speak the Maay language. This language is not included in the language list. According to the Ethnologue Web site Maay is a Cushitic language. The ISO 639-2 has a value for Cushitic (Other). In this case you would report your Maay speaking students under "Cushitic (Other)."
- Additional information can be found on the [official language reference list](#).

Is this Data Element Required?

Field is mandatory for all students who have a special education classification.

Acceptable Values

Type: Alpha

Minimum Length: 2

Maximum Length: 3

Choose an **alpha code** in the left column that corresponds to the classification category for the student:

Primary Disability Type Codes

CODE	Federal Category	State Category (Special Education Classification Code)
HI	Hearing Impairments	01 Auditory Impairment
AUT	Autism	02 Autism
ID	Intellectual Disability	03 Mild Intellectual Disability
ID	Intellectual Disability	04 Moderate Intellectual Disability
ID	Intellectual Disability	05 Severe Intellectual Disability
SLI	Speech or Language Impairments	06 Communication Impairment
EMN	Emotional Disturbance	07 Emotional Regulation Impairment
MD	Multiple Disabilities	08 Multiple Disabilities
DB	Deaf-Blindness	09 Deaf-Blindness
OI	Orthopedic Impairments	10 Orthopedic Impairment
OHI	Other Health Impairments	11 Other Health Impairment
SLD	Specific Learning Disabilities	14 Specific Learning Disability
TBI	Traumatic Brain Injury	15 Traumatic Brain Injury
VI	Visual Impairments	16 Visual Impairment
SLI	Speech or Language Impairments	17 Eligible for Speech-Language Services

Validation Checks

- Unless blank, Primary Disability Type must be the ALPHA code that maps to the two-digit Special Education Classification in Student Management.
- If StudentsWithDisabilities504Eligibility has a value of IEP, PrimaryDisabilityType must have a value.
- Primary Disability Type must be left blank if Special Education Classification has a value of 99 or 00 in Student Management.

HomelessStatus

Definition of Data Element

Homeless status is an indication of whether a student is homeless. Homeless students lack a fixed, regular, and adequate nighttime residence and include students who:

1. are sharing the housing of other persons due to loss of housing, economic hardship, or a similar reason; are living in motels, hotels, trailer parks, or camping grounds due to the lack of alternative adequate accommodations; are living in emergency or transitional shelters; or are abandoned in hospitals;
2. have a primary nighttime residence that is a public or private place not designed for or ordinarily used as a regular sleeping accommodation for human beings (within the meaning of section 103(a)(2)(C));
3. are living in cars, parks, public spaces, abandoned buildings, substandard housing, bus or train stations, or similar settings; and
4. migratory children who qualify as homeless because the children are living in circumstances described in (1) through (3) above.

Submitted as a characteristic, homeless is submitted only when it is true. When this characteristic does not exist for a student, the student is identified as not qualifying as homeless. For more information about "fixed, regular, and adequate nighttime residence" see below.

The definition of homeless status provided above is based on Section 725 (2) of McKinney-Vento Homeless Assistance Act, Subtitle VII-B, reauthorized by Title IX, Part A of the Every Student Succeeds Act (ESSA) (42 U.S.C. 11434A(2)). Students who meet the McKinney-Vento definition should be coded 'Y'. Those who do not should be coded 'N'.

If homeless information is submitted on a student, then the student's record will display a Homeless value for the Homeless Status characteristic in StudentManagement/NJSSEDS. If no homeless information is submitted, this value would automatically be No and will not display anything in NJSSEDS.

For Age 3-5 (Only five year olds who are enrolled in a preschool program):

- 18 = At least 50% of the school week is spent in a regular education early childhood program or Kindergarten
- 19 = Less than 50% of the school week is spent in a regular education early childhood program or Kindergarten
- 04 = Separate class (students who attend a special education program in a class with less than 50% nondisabled children. Does not include children who also attend a regular early childhood program)
- 05 = Separate school (students receiving special education and related services for greater than 50% of the school day in public or private separate schools)
- 06 = Residential facility (students who receive education programs and live in public or private residential facilities during the school week. Includes children receiving special education and related services for greater than 50% of the school day in public or private residential facilities)
- 07 = Home (students who receive special education and related services in the principal residence of the child's family or caregivers/babysitters, and who DID NOT attend an early childhood program or a special education program provided in a separate class, separate school, or residential facility. Includes children who receive special education both at home and in a service provider location)
- 08 = Service Provider Location (students who receive all of their special education and related services from a service provider and who DID NOT attend an early childhood program or a special education program)

provided in a separate class, separate school, or residential facility. For example, speech instruction provided in: a private clinician's office, in clinicians' offices located in school buildings, hospital facilities on an outpatient basis, or libraries or other public locations. Do not include children who also receive special education at home. Children who receive special education both in a service provider location and at home should be reported in the home category)

For Age 5-21 (Only five year olds who are enrolled in Kindergarten):

- 09 = 80% or more of the school day in the presence of regular education students (students included in the regular education setting at least 80% of the school day)
- 10 = Between 40-79% of the school day in the presence of regular education students (students included in the regular education setting from 40% to 79% percent of the school day)
- 11 = Less than 40% of the school day in the presence of regular education students (students who are included in the regular education setting up to 39% of the school day. This includes students who are in out-of-district placements including public and approved private school programs that are operated in public school buildings with regular education grades)
- 12 = Public Separate School (students who receive special education and related services for more than 50% of the school day in a public school building without regular education students. These settings may include the following receiving schools: educational services commission, regional day school, special services school district, jointure commission, public college operated program)
- 13 = Private Day School (students who receive special education and related services at public expense for more than 50% of the school day in a separate private school for the disabled. In addition to reporting students who attend a separate private day program, districts should report students in residential programs for whom the district pays only the educational costs and not the residential costs)
- 14 = Private Residential (students who receive special education and related services in a private residential facility for greater than 50% of the school day and lived in the facility during the school week. The district of residence reports the student in this placement group when the district pays both the educational and residential costs. Districts should not report students in residential programs whose residential costs are paid by the Department of Children and Families as these students are reported by the Department of Children and Families)
- 15 = Public Residential (students in this placement group that are attending Katzenbach School for the Deaf are reported by the district of residence. Students that are placed by the Department of Children and Families in a state facility are reported by the Department of Children and Families)
- 16 = Home Instruction (students receiving special education and related services in the home, hospital, or other setting)
- 17 = Correctional Facility (students receiving special education and related services in short term detention facilities (community-based or residential) or longer-term correctional facilities. Students receiving special education and related services in county detention facilities are reported in this category by the district of residence. Students receiving special education and related services in state facilities operated or contracted by the Juvenile Justice Commission or by the Department of Corrections are reported in this category by those state agencies, respectively)

Validation Checks

- An error will occur if field is left blank if StateAssessmentName = 1, 3, 4, or 5, and StudentsWithDisabilities504Eligibility has a value of IEP, 504, or B.

Additional Notes

- Leave NULL, or blank, if student is not classified as special education eligible.
- To determine time in presence of regular education students:
 - For five year olds who are enrolled in a preschool program:
 - a. When determining the percentage of time a child spends in a regular education early childhood program or Kindergarten, you must calculate the percentage of time the child spends in a program **in which at least 50% of the students are not disabled.**
 - b. To determine which data value is appropriate for those students, divide the number of hours per week the child spends in a regular education early childhood program by the number of hours per week the child spends in a regular education early childhood program + the number of hours the child spends receiving special education and/or related services in another location (e.g., separate class, therapy room). Multiply the result by 100. If the result is 50% or higher, data value = 18 is appropriate. If the result is less than 50%, data value = 19 is appropriate.
 - c. Students who are 5 years of age at the time of the snapshot and in first grade should be reported using the age 3-5 Special Education Placement categories.
 - For Age 5-21 (Only five year olds who are enrolled in kindergarten):
 - a. To calculate the percentage of time in the presence of general education students: Divide the number of minutes per day in the presence of general education students by the total number of minutes in the entire school day (between the first and last bell) and multiply times 100.
 - b. If a student's schedule varies from day to day, calculate the percentage on a weekly basis: Divide the number of hours per week in the presence of general education students by the total number of hours in the entire school week and multiply times 100.
 - c. Special education and related services provided in the regular education classroom should be counted as time spent in the presence of regular education students.

Use the following Test Codes for students taking a NJSLA or NJGPA:

- ELA03 = Grade 03 ELA
- ELA04 = Grade 04 ELA
- ELA05 = Grade 05 ELA
- ELA06 = Grade 06 ELA
- ELA07 = Grade 07 ELA
- ELA08 = Grade 08 ELA
- ELA09 = Grade 09 ELA
- MAT03 = Grade 03 Math
- MAT04 = Grade 04 Math
- MAT05 = Grade 05 Math
- MAT06 = Grade 06 Math
- MAT07 = Grade 07 Math
- MAT08 = Grade 08 Math
- ALG01 = Algebra I
- ALG02 = Algebra II
- GEO01 = Geometry
- SC05 = Grade 05 Science
- SC08 = Grade 08 Science
- SC11 = Grade 11 Science
- MATGP = Math Graduation Proficiency Test
- ELAGP = ELA Graduation Proficiency Test

Use the following Test Codes for students taking an ACCESS for ELLs or DLM assessment:

- ELANT = Not taking NJSLA and taking DLM for the ELA Assessment
- EXELA = Exempt from NJSLA and taking the ACCESS for ELLs 2.0 assessment
- EXEK2 = K-2 student exempt from NJSLA and taking the ACCESS for ELLs 2.0 assessment
- MATNT = Not taking NJSLA and taking the DLM Math Assessment
- SCNT = Not taking NJSLA and taking DLM for the Science Assessment

Validation Checks

- An error will occur if field is left blank.
- Must conform to codes listed or error will occur.
- If ELA TestCode is EXELA, StateAssessmentName = 1 (NJSLA/NJGPA) or 5 (NJSLA/NJGPA and ACCESS for ELLs 2.0), and student is in Grade Levels 03-09 and 11, MLExemptFromTakingELA must = Y.
- ELA11 and ELA10 are no longer valid TestCodes.
- The Grade Level identified in the Test Code must match the student's Grade Level or an Error will occur.
 - For ELA09, acceptable Grade Levels are: 09, 10, 11, 12, A1, OR A2.
 - For ALG01, ALG02, and GEO01, acceptable Grade Levels are: 05, 06, 07, 08, 09, 10, 11, 12, A1, OR A2
 - For MATGP and ELAGP, the acceptable Grade Level is 11

Additional Notes

- Each student should have two records, one for ELA and one for Math. Students taking the NJSLA Science assessment will have an additional record.
- Identify the NJSLA Assessment the student is taking. If the student is not taking a NJSLA Assessment report the appropriate subject specific exempt code based on the assessment the student is taking.
- Mapping of Exempt Test Codes:
 - Student is taking the NJSLA ELA and ACCESS for ELLs 2.0 ELA Assessments = The ELA NJSLA TestCode
 - Student is grade 3-11 and taking the ACCESS for ELLs 2.0 Assessment as the only ELA Assessment = EXELA
 - Student is grade K-2 and taking the ACCESS for ELLs 2.0 Assessment as the only ELA Assessment = EXEK2
 - Student is taking the DLM Assessment for ELA = ELANT
 - Student is taking the DLM Assessment for Math = MATNT
 - Student is taking the DLM Assessment for Science = SCNT
