Subject: [EXTERNAL] Moratorium on Fossil Fuel Projects
Date: Friday, September 13, 2019 4:51:01 PM

Please add my name to those who are requesting that our state's new energy master plan reflect a moratorium on fossil fuel plants and pipelines. We do not need a slowdown, we do not need a stoppage, we need a reversal of greenhouse gas emissions which are contributing to the climate change catastrophe we are heading toward. We have an opportunity in New Jersey to be the leader of a clean energy initiative that other states can emulate. Thank you.
