Household Income

(provide documents for *each member* of your tax household if they have income)

Choose the best documents to support your entire tax household's annual expected income attested to on your application.

Estimating annual tax household income accurately is important to avoid paying back extra advance premium tax credits when you file taxes next year.

Modified Adjusted Gross Income: Including Tax household's Adjusted Gross Income, foreign income, Nontaxable social security benefits (but not SSI benefits), and tax-exempt interest.

Consider whether your tax household's income is similar to last year. If so, last year's 1040 can be used to verify expected income this year. Or if your income source or amounts have changed for any member of your tax household, recent pay stubs or other documents can be used to verify each member of your tax household's expected annual income.

- ✓ **Income from Job:**
 - Current valid pay stubs for 4 weeks with employer information, income amount, pay period or frequency of pay with the date of payment. If a pay stub includes overtime, indicate average overtime amount per paycheck.
