To the Senate:

Pursuant to Article V, Section I, Paragraph 14 of the New Jersey Constitution, I herewith return Senate Bill No. 3238 (Second Reprint) with my recommendations for reconsideration.

The bill requires the Department of Banking and Insurance ("DOBI") to establish and operate the New Jersey Easy Enrollment Health Insurance Program ("Easy Enrollment Program") and to integrate the program with the State-based health insurance exchange. Under the Easy Enrollment Program, individuals filing a State income tax return will be able to indicate that they are seeking health care coverage. Using the information provided on a State income tax return, and other data from third-party data sources, DOBI, in coordination with the Department of Human Services, would be able to verify an individual's eligibility for the State Medicaid Program, NJ FamilyCare Program, and insurance affordability assistance on the State-based exchange and assist in enrolling the individual in insurance affordability assistance and minimum essential coverage.

In 2019, my legislative partners and I enacted legislation to establish a State-Based Health Exchange in New Jersey. On November 1, 2020 open enrollment began at Get Covered New Jersey, which provides a one-stop shop for health insurance for residents who do not have coverage from an employer or other program. Along with the establishment of the State-based health insurance exchange, the State invested heavily in outreach and awareness efforts to connect residents to available health coverage options. During its inaugural Open Enrollment Period, enrollment increased by nearly 10 percent compared to the previous year. Enrollment on the marketplace reached record levels this year, with more than 283,000 residents signing up for coverage as of September of 2021.
While we have advanced strong policies to protect access to health care for our residents with very encouraging results, more can be done to ensure that all residents have access to the coverage and care they deserve. The program established in this bill would leverage the information provided through tax filings to increase enrollment among the uninsured.

I commend the bill’s sponsors for their efforts to build upon the critical steps we have already taken to improve access to coverage for New Jersey families. However, although I fully support the concept of integrating unemployment and tax data to streamline enrollment in health coverage, the program designed under the bill presents numerous operational challenges that risk creating consumer confusion and unattainable expectations. I am therefore recommending that additional changes be made to the bill to ensure an effective rollout of the Easy Enrollment Program.

My recommended revisions retain the key aspects of the legislation while ensuring that the numerous departments that are tasked with the implementation of the Easy Enrollment Program have the time, resources, and flexibility needed for a successful launch and execution of the program. The proposed changes include a longer implementation timeline, a clearer delineation of the work to be performed by each department, and the leveraging of existing systems and programs to increase efficiencies and ensure full compliance with federal law.

Access to quality and affordable health insurance is a basic human right and I will continue to fight to ensure that this right extends to all 9.3 million of our residents. By establishing the State-based exchange, ending surprise out-of-network billing, and codifying the protections of the Affordable Care Act, my Administration is fulfilling its promise to New Jerseyans to make
health care in the State more accessible, more affordable, and more transparent. With the changes recommended, this legislation has tremendous potential to deliver quality health care to all of our residents.

Therefore, I herewith return Senate Bill No. 3238 (Second Reprint) and recommend that it be amended as follows:
