

Adults Need Vaccines, Too!

Vaccinations are needed across the lifespan. Getting vaccinated can help to protect both you and your loved ones from preventable diseases. Check with your healthcare provider to be sure that you are up to date on all vaccinations.

Are You Protected?

RECOMMENDED FOR ALL ADULTS

- COVID-19
- Influenza — *every year!*
- Tetanus, diphtheria, pertussis (Tdap/Td)

You may also need the following depending on your age, health condition, job, prior immunization history, or other factors.

- Hepatitis A
- Hepatitis B
- Human papillomavirus (HPV)
- Measles, mumps, rubella (MMR)
- Meningococcal
- Pneumococcal
- Shingles (Herpes Zoster)
- Chickenpox (Varicella)

Locations that may offer immunizations

- Healthcare Provider
- Health Clinic
- Local Health Department
- Local Pharmacy

Find the immunization-related words listed below within the word search.
