

# PEDIATRIC & ADOLESCENT IMMUNIZATION STANDARDS JOB AID

The Pediatric & Adolescent Immunization Standards Job Aid is a self-assessment tool for healthcare staff who have patients under the age of 18 years. To complete the checklist below (Table 1), review the standards listed and the clinical skills, techniques and procedures outlined for each standard. Check the column (yes, partly, no) that applies to your current practice. If improvement is needed, develop a plan of action using the resources identified in Table 2 (page 6) to achieve the level of competence you expect.

## Immunization Standards Self-Assessment (Table 1)

Immunization Standard	Clinical Skills, Techniques, and Procedures	YES we already do this	PARTLY we do some of this, or do it sometimes	NO we do not yet do this	Plan of Action
Availability of Vaccines	<b>1. Vaccination services are readily available.</b>				
	1a. Create vaccination-only appointments				
	1b. Host immunization clinic hours at non-traditional times e.g. weekends, evenings, early mornings, lunch hours				
	1c. Maintain and ensure an adequate stock of all ACIP-recommended vaccines and implement proper storage and handling practices				
	1d. If vaccine stock is not available, keep a list of other vaccination providers in the area				
	<b>2. Vaccinations are coordinated with other healthcare services and provided in a medical home when possible.</b>				
	2a. Integrate immunization services into days and hours with other child health programming				
	2b. Vaccinate siblings who are present at a well-child visit				
	2c. Participate in the statewide immunization registry, the New Jersey Immunization Information System (NJIS), record all administered vaccinations in NJIS				
	2d. Establish a 16-year-old immunization platform				
	<b>3. Barriers to vaccination are identified and minimized.</b>				
	3a. Review/implement standing orders				
	3b. Discuss reasons for delayed immunization with parents at each immunization visit				
	3c. Dedicate certain office hours to vaccination				
3d. Have culturally relevant educational materials for parents on-hand					

# PEDIATRIC & ADOLESCENT IMMUNIZATION STANDARDS JOB AID

Immunization Standard	Clinical Skills, Techniques, and Procedures	YES we already do this	PARTLY we do some of this, or do it sometimes	NO we do not yet do this	Plan of Action
	<b>4. Patient costs are minimized.</b>				
	4a. Create office policies that minimize patient costs e.g. accepting all forms of insurance, accommodating for changes to insurance				
	4b. Participate in the New Jersey Vaccines for Children Program (NJ VFC)				
Assessment of Vaccination Status	<b>5. Healthcare professionals review the vaccination and health status of patients at every encounter to determine which vaccines are indicated.</b>				
	5a. Stay up-to-date on Advisory Committee on Immunization Practices (ACIP) recommendations; review annually at minimum				
	5b. Conduct pre-visit planning: i. Assess for vaccination at every encounter ii. Search for patient vaccination history in NJIIS iii. Conduct patient chart review and review patient's risk factors (HALO - health, age, lifestyle, and occupation) and contraindications				
	5c. Provide patient/guardian questionnaire at check-in				
	5d. Use electronic health record (EHR) prompts				
	<b>6. Healthcare professionals assess for and follow only medically accepted contraindications.</b>				
	6a. Stay up-to-date on Advisory Committee on Immunization Practices (ACIP) recommendations; review annually at minimum				
	6b. Review contraindications to immunization				
	6c. Review the New Jersey Department of Health's medical exemption form				
Effective Communication	<b>7. Parents/guardians and patients are educated about the benefits and risks of vaccination in a culturally appropriate manner and in easy-to-understand language.</b>				

# PEDIATRIC & ADOLESCENT IMMUNIZATION STANDARDS JOB AID

Immunization Standard	Clinical Skills, Techniques, and Procedures	YES we already do this	PARTLY we do some of this, or do it sometimes	NO we do not yet do this	Plan of Action
<b>about Vaccine Benefits/Risks</b>	7a. Distribute Vaccine Information Statement (VIS) to each patient before administering a vaccine				
	7b. Have written materials available to address common parental concerns				
	7c. Address patient questions and concerns: <ul style="list-style-type: none"> <li>i. Share tailored reasons why vaccination is right for patient</li> <li>ii. Highlight positive experiences with vaccination</li> <li>iii. Explain the potential costs of getting sick</li> <li>iv. Review recommendation communication strategies such as "SHARE"</li> <li>v. Provide education materials or trusted websites to review</li> </ul>				
	7d. Provide your patient/guardian with a vaccine administration record				
	7e. If there is a vaccine refusal, document conversation and continue conversation at next visit				
<b>Proper Storage, Administration, and Documentation of Vaccines</b>	<b>8. Healthcare professionals follow appropriate procedures for vaccine storage and handling.</b>				
	8a. Develop and routinely review a vaccine storage and handling plan				
	8b. Designate a vaccine coordinator and backup coordinator to oversee all vaccine storage and handling activities				
	8c. Store vaccine in the most appropriate equipment				
	8d. Maintain optimal storage conditions within the storage unit. Address any out of range temperatures immediately. Temperatures should be: <ul style="list-style-type: none"> <li>i. <b>Refrigerator:</b> between 2°C and 8°C (36°F and 46°F)</li> <li>ii. <b>Freezer:</b> between -50°C and -15°C (-58°F and +5°F)</li> </ul>				
	8e. Use a digital data logger (DDL) to monitor vaccine in each storage unit				
	8f. Develop an emergency vaccine retrieval and storage plan				

# PEDIATRIC & ADOLESCENT IMMUNIZATION STANDARDS JOB AID

Immunization Standard	Clinical Skills, Techniques, and Procedures	YES we already do this	PARTLY we do some of this, or do it sometimes	NO we do not yet do this	Plan of Action
	8g. Provide training to all new staff and to all staff when there are updates				
	<b>9. Up-to-date, written vaccination protocols are accessible at all locations where vaccines are administered.</b>				
	9a. Train and educate your staff on vaccine administration				
	<b>10. People who administer vaccines and staff who manage or support vaccine administration are knowledgeable and receive ongoing education.</b>				
	10a. Provide a strong recommendation for all needed vaccines				
	10b. Distribute Vaccine Information Statement (VIS) to each patient before administering a vaccine				
	<b>11. Healthcare professionals simultaneously administer as many indicated vaccine doses as possible.</b>				
	11a. Use electronic health record (EHR) prompts				
	11b. Recommend and offer vaccine at the same visit for all vaccines. Make a recommendation and referral for vaccines that are not available.				
	11c. Implement standing orders				
	<b>12. Vaccination records for patients are accurate, complete, and easily accessible.</b>				
	12a. Participate in the statewide immunization registry, the New Jersey Immunization Information System (NJIS), and record all administered vaccinations in NJIS				
	12b. If there is a vaccine refusal, document conversation and continue conversation at next visit				
	12c. If referred for vaccination, confirm with patient that they received the recommended vaccines				
	12d. Provide your patient with a copy of their own vaccine administration record				
	<b>13. Healthcare professionals report adverse events after vaccination promptly and accurately to the Vaccine Adverse Event Reporting System</b>				

# PEDIATRIC & ADOLESCENT IMMUNIZATION STANDARDS JOB AID

Immunization Standard	Clinical Skills, Techniques, and Procedures	YES we already do this	PARTLY we do some of this, or do it sometimes	NO we do not yet do this	Plan of Action
	<b>(VAERS) and are aware of a separate program, the Vaccine Injury Compensation Program (VICP).</b>				
	13a. Create a protocol for responding to adverse events				
	13b. Follow standard precautions to control infection				
	<b>14. All personnel who have contact with patients are appropriately vaccinated.</b>				
<b>Implementation of Strategies to Improve Vaccination Coverage</b>	<b>15. Systems are used to remind parents/guardians, patients, and healthcare professionals when vaccinations are due and to recall those who are overdue.</b>				
	15a. Implement standing orders				
	15b. Use electronic health record (EHR) prompts				
	15c. Offer reminder/recall to patients. Send reminders about needed vaccines. Use data in NJIS or EHR to develop reminder/recall lists				
	<b>16. Office- or clinic-based patient record reviews and vaccination coverage assessments are performed annually.</b>				
	16a. Assess how your practice is doing				
	16b. Participate in the Immunization Quality Improvement for Providers (IQIP) program				
	<b>17. Healthcare professionals practice community-based approaches.</b>				
	17a. Conduct community awareness campaigns				
	17b. Identify community partners to ensure services are reaching everyone, not just those who visit the office routinely				

# PEDIATRIC & ADOLESCENT IMMUNIZATION STANDARDS JOB AID

**Instructions for developing a plan of action:** After identifying the components of the standards where additional training or resources are needed, review the corresponding resources from the table below. For example, if additional training is needed for Standard 3d (have culturally relevant educational materials for parents on-hand), locate that standard in the table below and view the resources that are listed in the resource column for that row (#28-32). In the plan of action column of Table 1, document a specific plan including a recommended date of completion and incorporate the resources that were identified.

## Plan of Action Resources (Table 2)

Immunization Standard	Clinical Skills, Techniques, and Procedures	Resources
Availability of Vaccines	1. Vaccination services are readily available.	
	1a. Create vaccination-only appointments	1. Article: Practice-Proven Interventions to Increase Vaccination Rates and Broaden the Immunization Season <a href="https://www.amjmed.com/article/S0002-9343(08)00466-X/pdf">https://www.amjmed.com/article/S0002-9343(08)00466-X/pdf</a> 2. Guideline for Large-Scale Influenza Vaccination Clinic Planning [CDC] <a href="https://www.cdc.gov/flu/professionals/vaccination/vax_clinic.htm">https://www.cdc.gov/flu/professionals/vaccination/vax_clinic.htm</a>
	1b. Host immunization clinic hours at non-traditional times e.g. weekends, evenings, early mornings, lunch hours	3. Resources for Hosting a Vaccination Clinic [Centers for Disease Control and Prevention (CDC)] <a href="https://www.cdc.gov/flu/business/hosting-vaccination-clinic.htm">https://www.cdc.gov/flu/business/hosting-vaccination-clinic.htm</a>
	1c. Maintain and ensure an adequate stock of all ACIP-recommended vaccines and implement proper storage and handling practices	4. Current Vaccine Shortages & Delays [CDC] <a href="https://www.cdc.gov/vaccines/hcp/clinical-resources/shortages.html">https://www.cdc.gov/vaccines/hcp/clinical-resources/shortages.html</a> 5. Vaccine Storage and Handling Toolkit [CDC] <a href="https://www.cdc.gov/vaccines/hcp/admin/storage/toolkit/storage-handling-toolkit.pdf">https://www.cdc.gov/vaccines/hcp/admin/storage/toolkit/storage-handling-toolkit.pdf</a> 6. Vaccine Storage and Handling Resources [CDC] <a href="https://www.cdc.gov/vaccines/hcp/admin/storage/index.html">https://www.cdc.gov/vaccines/hcp/admin/storage/index.html</a> 7. Vaccine Storage and Handling [CDC Pink Book] <a href="https://www.cdc.gov/vaccines/pubs/pinkbook/vac-storage.html">https://www.cdc.gov/vaccines/pubs/pinkbook/vac-storage.html</a>
	1d. If vaccine stock is not available, keep a list of other vaccination providers in the area	8. Vaccine Referral [CDC] <a href="https://www.cdc.gov/vaccines/hcp/adults/downloads/standards-immz-practice-referral.pdf">https://www.cdc.gov/vaccines/hcp/adults/downloads/standards-immz-practice-referral.pdf</a> 9. New Jersey Local Health Departments [New Jersey Department of Health (NJDOH)] <a href="https://www.state.nj.us/health/lh/community/index.shtml#1">https://www.state.nj.us/health/lh/community/index.shtml#1</a> 10. New Jersey Federally Qualified Health Centers [NJDOH] <a href="https://healthapps.state.nj.us/fhs/cphc/cphcSearch.aspx">https://healthapps.state.nj.us/fhs/cphc/cphcSearch.aspx</a>
