JEFFREY A. BROWN
Acting Commissioner

To: All Licensed Hospitals Pursuant to *N.J.A.C. 8:43G*

From: Michael J. Kennedy, J.D. *MLK*
Executive Director, Certificate of Need and Licensing Program

Date: September 8, 2025

Re: Updating Hospital Licenses

The Department of Health ("Department") is performing a review of hospital licenses and has identified discrepancies that must be remedied. The Department has determined that numerous hospitals are providing services, namely infusion services, along with other licensable services, which are not currently reflected on the hospital license. A hospital's license must contain all services the hospital is authorized to provide. See, *N.J.S.A. 26:2H-12(a)*.

The Department is requesting all hospitals licensed pursuant to *N.J.A.C. 8:43G* to review the licensable services listed below and confirm that the services currently reflected on the license match those services offered by the hospital. Hospitals must contact their assigned analyst at the Department by **October 6, 2025**, to confirm that all offered services are included on the license or advise of any necessary updates.

The following services must be reflected on a hospital's Department-issued license:

- Infusion services
- Computed tomography (CT)
- Positron emission tomography (PET)
- Magnetic resonance imaging (MRI)
