RE: Conditional Lifting of Curtailment of Non-Compliant Use of Space for Infusion Therapy Services
Facility ID# NJ310032

Dear Ms. Davies,

As you have been advised by telephone by members of my staff in the Office of Program Compliance, the curtailment of patient infusion therapy services at Inspira Medical Center Vineland ("Inspira") that previously did not comply with the minimum space requirements for patient care bays has been lifted, conditioned upon Inspira's continued compliance with the minimum space requirements set forth in the Guidelines for Design and Construction of Health Care Facilities, 2010 edition, as amended and supplemented (2.2-3.12.2.2), as required pursuant to N.J.A.C. 8:43G-24.8. In particular, as proposed in Inspira's Plan of Correction, and implemented by Inspira, the facility shall continue to limit the use of each infusion therapy bay to one patient at a time.

This action is taken based on a recommendation from Long Term Care Survey and Field Operations and is based on receipt and implementation of an acceptable plan of correction.

Please call (609) 984-8128 if you have any questions regarding this curtailment.

Sincerely,

Gene Rosenblum, Director
Program Compliance and Health Care
