

Clinical Preventive Services Action Team Mtg 1

Friday, March 11, 2022

11:56 AM

Agenda:

Revisit chair co-chair roles

Discuss additional members

- NJ Primary Care Association?

Establish meeting cadence/schedule

Review relevant materials

Identify next steps

Notes:

- Make sure to focus on the entire lifespan: pediatrics, adolescents, and adults

Problem definition:

- Since this is healthy living, not talking about medical setting yet
- As an individual, do you know what preventive services are ?
- New mothers
 - Are told to go to pediatrician
 - Guides them through the first two years
 - Works for English speaking people
 - Who's not getting immunized/regular pediatric visits - who's missing that?
 - Understand they are higher for FQHC
 - Is this data disaggregated by race?
 - CDC immunization survey - by state
 - Annie E. Casey
 - *Dr. Thomas to look into this
 - Rutgers - doing a study
 - Minority kids diagnosed with autism at older ages
 - Do parents know how to recognize developmental milestones, etc.
- Could go by 10-year age increments and identify problems
 - Under 5, 5-18, 19-30, 30-50, 50-75
- Interpretation of Healthy Living?
 - What do I do as an individual?
 - What do I know?
 - What would an action look like?
 - How to educate?
- OUR GOAL: Increase receipt of recommended clinical preventive services
 - **How do people know they should get preventive services
 - Example: Kids getting sports physicals get them to the doctor
 - So, if you're not doing sports, how to you get in the door
 - *Engineering the system so everyone gets a primary care provider
- So for 0-5 population
 - Hospital makes sure you have continuity
 - Medical Home

- ** We need data - who's missing what?
 - CDC immunization survey
 - Behavioral Risk Factor Surveillance System
 - NJ Kids Count Data
 - HRSA - Uniform Data System - FQHC report card
- Next mtg next steps
 - Questions for HNJ2030:
 - Should we be recruiting people, or do they have a pool to draw from?
 - Could get a public health student
 - How much integration are they having with other state departments within DOH
 - Office of Cancer Control, Office of Primary Care etc. - can we invite them? Politics?
 - Immunization?
 - Every two weeks - so if you can't make it, doesn't go too long?
 - Meeting Cadence: Every other Friday starting March 11th from Noon - 1pm
 - Next meeting - try to bring data
 - Paulina - Immunizations
 - Kids Count Data - Pam
 - Natasha - cancer data
