Location: <b>Division of Epidemiology, Environmental &amp; Occupational Health Vaccine Pandemic Response 135 East State Street Trenton, NJ 08625</b>			Scope of Eligibility/Open to: <b>Applicants who Meet the Requirements</b>

## GENERAL DESCRIPTION

This position is within the New Jersey Vaccines for Children Program (VFC) which is a federally funded program tasked with distributing over 1.6 million doses of vaccine through 900 participating providers to at-risk individuals such as the uninsured or those covered through Medicaid.

This position will be responsible for the providing technical assistance to providers conducting COVID-19 vaccination activities. This position will work directly with providers to support them throughout the COVID vaccine distribution/vaccination process through site visits. Additionally, this position will ensure primary immunization capacity remains available to reduce the incidence of vaccine preventable diseases. This position will perform technical assistance visits providing COVID-19 vaccine education related to program enrollment, storage and handling, temperature monitoring, inventory and accountability, and workflow of mass immunization clinics. This role may need to complete written and verbal follow up with health care providers in a timely fashion to ensure COVID-19 related vaccination activities are performed optimally. This position will have the responsibility of compiling data to complete investigative reports with findings, conclusions and recommendations for next steps as required by CDC and/or the department. This position may also be required to complete user acceptance testing to ensure that the COVID-19 provider enrollment and vaccine ordering modules within the New Jersey Immunization Information System (NJIS) is functional and user friendly. This position will also provide guidance to lower level agency service representatives. Coordinates specialized program activities to support COVID-19 vaccine providers in conjunction with other authorities. Conducts selective COVID 19 public health surveys; compiles and evaluates data. Confers with health care and other personnel regarding COVID-19 prevention and control, and reporting of required COVID-19 data to DOH leadership and CDC. Plan and develop instructional or educational programs for COVID-19 vaccination distribution efforts. Individuals filling this role must be able to lift and carry up to 30 lbs, and possess a valid driver's license and vehicle for transportation.

## REQUIREMENTS (EDUCATION / EXPERIENCE / LICENSES)

**EDUCATION:** Graduation from an accredited college or university with a Bachelor's degree.

**EXPERIENCE:** Two (2) years of experience in a health or social service related program-involving responsibility or interviewing, investigating, or conducting public health care surveys or patient care services.

**NOTE:** Applicants who do not possess the required education may substitute experience as indicated on a year-for-year basis.

**LICENSE:** Appointee will be required to possess a driver's license valid in New Jersey only if the operation of a vehicle, rather than employee mobility, is necessary to perform the essential duties of the position.

## IMPORTANT FILING INSTRUCTIONS
